We find each of said offices well kept and the records thereof in good condition. We have also examined the public jail, and find the same well kept, but the same is insecure and unfit for the keeping of prisoners. We find that similar reports have been made by former grand juries, and we can only repeat in substance their record condemning the same, and add that the frequent escapes therefrom, and the expense of attempting the recapture of prisoners is a strong argument in favor of buildings a substantial structure for that purpose.

Having finished our business we now ask to be discharged.

Bids on plumbing were as follows: J

Mitchell, \$476; Starr & Griffin, \$490. J A Mitchell was awarded the contract.

After considering the question of heating the building, meeting with and corresponding with furnace men, it was decided to use the hot air system, there being several objections to hot water or steam, and both being much more expensive. The board, after investigating these matters, entered into a contract with G N Frazer to build the two furnaces at a cost of \$400, and Starr & Griffin to do the piping, tin work, and put in registers, at a cost of \$494.18, a saving to the district of about \$700 over putting in hot

High Water.—The heavy rains Friday and Saturday of last week on the headwaters of the Coast and Middle forks of the Willamette and their tributaries, brought the river up with a rush. Sunday noon the rise at Eugene was thirteen feet. The Coast Fork at Cottage rose 8 feet in five hours Saturday. The amount of soil carried in suspension by the river was larger than ever before known. The water from the water works was discolored for several days.

Mr. Crow having failed to make a deed to the district as agreed upon last February.

At the annual meeting held last March the directors were instructed to purchase a school site in the southeast part of town, the money, \$834 in the building fund, to be used for that purpose. We found it impossible to secure a site sufficient to build upon for the above amount, and having no authority to contract a debt in the purchase, we concluded the wiser plan to defer action in the matter. Blue River Mines Road. A special meeting of the Eugene Board of Trade was largely attended Wednesday, Presi-dent S. H. Friendly in the chair. The subject of aiding in the building of a wagon road from the Blue river bridge to the Blue river quarts

of aiding in the building of a wagon road from
the Blue river bridge to the Blue river quartz
mining district was discussed the general epinion being that the Brard of Trade should assixt in the enterprise.

E. C. Smith, G. P. Griffin, B. F. Dorris, L.
N. Reney and S. R. Eakin, Jr., were appointed a committee to confer with the Tacoma
Mining company, have a survey made and report on a route and the probable est to some
future meeting of the board. As soon as the
snow is gone and the weather settles, should
the conference be satisfactory, a surveyor will
be sent up to select a route, then the Board of
Trade will proceed to raise whatever money
may be considered adequate to assist in building the road.

A considerable amount of thorough prospecting is now being done in the Blue River mining district with favorable indications. Eugene is the natural point of supply for these
unines, and their success means greatly increased prosperity for the town. A road,
however, must be built and the citizens will be
called upon to assist.

Mr. F. J. Crouch has at last succeeded in perfecting the dyname, for which a company was formed about three years ago but was disbanded. Mr. Crouch's machine hids fair to work a revolution in electric machines. His dyname for household or store building, lighting from one to twelve lamps, weighs but 95 pounds including wire, lamps and fixtures. It has no brushes and is automatic in its action, requiring no expert. It will run one or twelve lamps with the same brilliancy, the dyname regulating its own current. Any part of the machine, wires or lamps, can be handled with perfect safety. A very steady light is furnished, which by a simple device can be given any desired tone. One horse power will run the dyname.

has already received an order from the Junc-tion Flour Mill Co. for a machine.
