PORTLAND, Oregon, July 16, 1891. GEORGE T. HALL, Esq., Eugene, Lane County, Oregon.

My Dean Sin:—Since my return here I have had a long talk with both Maj I have had a long talk with both Maj Handbury and Captain Symons in reference to the Siuslaw improvements. Their re-port as a board to the War Department, bears date June 11; it was however not mailed from here from the fact that it was not fully completed with the accompanying maps until near the latter part of last month. I will not undertake to state in a letter just what the report is, believing it would be much more satisfactory to the people of Lane county who are most vitally interested to have the report in full, so that it might be carefully examined by each

Ashland Tidings: Mai. McCoupell re-

It is against the rules of the service, however, to furnish any one with a copy without such authority. I have therefore today telegraphed to General Thomas L. Casey, Chief of Engineers, War Department, Washington, urging that they be authorized by wire to give me a copy. Whether this request will be granted or not I am as yet, of course, unable to say. If it is, I will obtain a complete copy, and forward the same to you, and in the event I do so I would suggest that if possible, you have the same printed in full in one or more of your city papers so that the people interested may understand fully the precise attitude of the engineers in regard to this improvement. The local engineers have received no answer to their report, nor any instructions in reto their report, nor any instructions in regard to it. I have also in my dispatch to gard to it. I have also in my dispatch to the chief requested what action if any has been taken by him or the department, on swerable statistics that there is a profit of the report. I will communicate with you further as soon as I can hear from Wash-preat country for fruit fortunes.
