STOP THEM.-The city council can asily stop two-third's of the runaways if they will pass an ordinance requiring all teams left standing on the street to be hitched with a 20 pound iron weight and strap. At present even teams known to have proclivities for eloping on every occasion are left standing un-hitched "for just a moment," while the driver or owner delivers some parcel.-Ex. This item will likewise apply to Eugene.

A JACKSON COUNTY FIND .- At the Sterling hydraulic mine, in Jackson county, a tusk of a mastodon was washed out a days since from under a depth of fifty feet of gravel. The tusk was four inches in diameter and was porous and crumb-ling. Other bones of the same prehistoric animals have been found in this mine at different depths. Just how fifty feet of gold-bearing gravel came to be deposited top of this tusk is a question for the geo-legist to decide.

Another Shooting Affray.

Ochoco Review.

On last Tuesday morning about 2 o'clock in Linn Wood's saloon in this place, J. G. Stewart, of Mendocino county, California, shot C. M. Charlton with a 35 caliber Smith & Wesson revolver, the ball striking him in the breast bone, following around the left side and lodging in the shoulder. Dr. Belknap was called and extracted the bullet with little difficulty. Mr. Charlton's wounds, although painful, are not of a serious nature, and it is thought, if he meets with no reverses, that he will not be long confined to his bed. Stewart made no ef-Ochoco Review. confined to his bed. Stewart made no ef-fort to escape after the shooting but re-mained in front of the saloon where the shooting was done until taken into custody by Sheriff Booth. There are a few persons in the county who were acquainted with Stewart a few years ago, he having been at this place at that time, and they say as far as they know he bore a good reputation. The trouble between Stewart and Charlton arose over a game of cards. Last Thursday Stewart was given a hearing before Justice Bell and was held to answer in the sum of \$300. Bonds were furnished before Mr. Stewart left the court room. Three of Crook county's best citizens volunteered to answer for his appearance.

Pendleton East Oregonian: C. J. Carlson, who was one of a party out fishing above Cayuse, was along the river Sunday, wor-rying through the brush when he heard a noise at his feet and looked down. There lay a monster rattlesnake, stretched out at PAYING CVF.—"We are more interested in soldier life than ever before," said a militiaman Monday night proudly, as he came out of the armory building with a roll of coin in his hand. The boys were raid was called my ready for a surface and Mr. ment. The officers had a big bag of coin and wore fifteen rattles and a button. It is

The wheat crop of the Palouse country will be enormous this year, and the rail-roads will be taxed to their utmost in order to carry it all to market. It looks now as if the complaint of last year about transhis line will have 1000 new freight cars and forty locomotives to convey this mighty harvest to the sea. It is not a high esti-mate to say that 15,000,000 to 18,000,000 bushels of grain will comprise the yield of Whitman, Garfield, Douglas, Spokane and Lucoln counties in Washington, and Latah

OREGON ALL RIGHT,-Salem Journal: Last winter the Oregonian was laboring for the repeal of the mortgage tax and usury laws, it could not deplore sufficiently the mossbackism of Oregon that was driv-ing money out of this state and building up the cities of Washington where more liberal laws allowed money to be invested more freely, etc., to the great advantage of the citizens of Washington and loss of Oregon.
It now appears that these statements were all mythical Washington as the paradise of moneylender, has nearly as many exploded booms as there are cities in the state. Times are reported very dull in many places and all business men say that col-lections are slower there than in Oregon. A recent commercial report show that there have been fewer failures in Salem than in any city of its size on the coast. PROFITABLE CHERRY TREE.-I. E. Stov-

PROPITABLE CHERRY TREE.—1. E. Stevens has sold from a Royal Ann cherry tree in his yard in this city eight hundred pounds of cherries at five cents per pound. He says that he has used from the tree quite a lot besides supplying quite an amount to the cannery, and that now probably 50 pounds remain on the tree. This one tree, he is satisfied, bore 1,000 pounds of this fine fruit, which is worth at the price paid by the cannery, \$50. What would an paid by the cannery, \$50. What would an acre of such trees yield? Probably, \$5,000. And yet we hear some people say that nothing can be made raising fruit. PROTECT THE VALLEY.-Salem Journal: Rumor bath it that the gentlemen compas-ing the Oregon Railroad Commission are at outs mildly putting it, over the proposed adjustment of freight rates. The Southern

adjustment of freight rates. The Southern Oregon member having got low rates on lumber and cattle, the Eastern Oregon member having got his wool rates fixed to suit, the member from the Willamette valley was gently shut out from getting low rates on grain, and thereat he very properly kicks. And right you are Mr. Clow. Ann Bronen.—The 5 year old daughter of I. S. Gray fell from the porch at his residence, corner of Willamette and Eleventh streets, Wednesday evening, and broke the bone of the right arm just above the elbow, also dislocating the elbow. Dr. Paine was called and attended to the case.
