THE CRY OF MILLIONS!

OH, MY BACK!
STOP IT NOW!
SOON IT WILL BE TOO LATE.

I have been troubled many years with disease of the kidneys and have tried many different remedies and have sought aid from different physicians without relief. About the 15th of April I was suffering from a very violent attack that almost prostrated me in such a manner that I was bent over, in fact I was almost impossible for me to get up alone, or to put on my clothes, when kind Providence sent Dr. Henley, with his OREGON KIDNEY PILLS, to my hotel. I immediately commenced using the pills. It had an almost miraculous effect, and to the astonishment of all the guests at the hotel, in a few days I am happy to state that I was a new man. I will recommend the pills to all afflicted as I have been.

Too Much Load

On the Liver will break down all the energies of life, and unfit you for Work, Business or Pleasure.

Indigestion, Constipation, Sleeplessness, Biliousness, are the first alarms nature sounds to warn you of danger.

Moore's Revealed

Remedy

Is King of the Blood, Liver and Stomach—It has Never Failed.

Hundreds of testimonials like this: J. E. Miller, Astoria, Or., writes: "It cured me of a severe Liver and Blood trouble."

Sold by all druggists.

The Band Has Rights.

Some trouble was caused Saturday evening by Marshal Eastland notifying the Eugene band that they would be arrested for violation of a city ordinance if they gave their open air concert on Williams street within five limits. The boys concluded to take the chances, the Marshal yielded, and a fine concert was given. The band boys deserve aid in their efforts to form a good band, instead of any attempt by the city authorities to weaken or discourage them.

In fact there is no ordinance that can be construed to prevent them playing on the streets. Recorder Dorris, before the case would have to be brought in, and it seems that no good can be accomplished by further official interference with the band. Section 15 of ordinance 84 reads:

"No show, exhibition or performance shall be given in any of the streets within the fire limits of the city of Eugene, provided street parades or circuses that keep moving and other shows shall not be construed to come within the meaning of this section."

Florence News.

The West, August 28.

Several gentlemen from Eugene, in connection with citizens here, will build a good road highway from Florence to the ocean beach next summer.

J. Christensen started the ball rolling last night by catching thirty-nine salmon. He has rented the Jacobsen cooper shop and has made it into a canning establishment.

Forty-two pounds is the size of a salmon Mr. Stevens caught while out trolling on the bay this morning. Several others, varying from twenty to forty pounds, have been caught, but Mr. Stevens has raised 'em all just two pounds.

The King of Italy is hard up.

Why doesn't he procure a bacard layout?

Brick, Brick.

Whitcomb & Abrams, contractors and builders, have plenty of the best quality of brick at their yard 1 1/2 miles east of town, and will supply the demand at reasonable prices. They also contract for all kinds of brick work and guarantee satisfaction. Will deliver brick on order to any part of town.

How to Break up a Severe Cold.

From the Virginia City, Mont., Madisonian: When we find a medicine we know to possess genuine merit, we consider it a duty, and we take pleasure in telling the public what it was. Such a medicine we found Chamberlain's Cough Remedy. By the use of this syrup we have relieved, in a few hours, severe colds, and in the course of two or three days, entirely broken them up as has several of our friends to whom we have recommended it. It is all it is represented to be by the manufacturers. If you have a cough and want to stop it, Chamberlain's Cough Remedy will do the work. For sale by F. M. Wilkins, Druggist.

What Hurts the Sheep.

The Dry Goods Economist's exposure of Philadelphia Protectionist woolens goes a long way towards explaining why Mr. McKinley and his friends, the protected manufacturers, are not putting up the price of wool according to agreement. Instead of doing it they are leaving it subjected to the crushing competition of millions of pounds of 7-cent cotton. The Economist secured samples of high-priced Philadelphia protected woolens and worsted and submitted them to an expert. The attention of the owners of sheep is specially requested to the following paragraph from his report:

This firm has sold in large quantities this season a worsted fabric weighing twenty-two to twenty-three ounces, varying in price from a piece dyed solid black at \$1.50 to fancy weaves from \$1.62 1/2 to those containing silk twist at \$1.75. The fabric is composed of a worsted warp made from delaine wool, which entirely composes the face of the cloth and composes 28 per cent of its weight. The filling makes the balance of 72 per cent, and is entirely cotton and shoddy, in the proportion of 92 1/2 per cent. cotton and 7 1/2 per cent. shoddy.

So in this dollar and a half all-wool goods 92 1/2 per cent. of 72 per cent. of the whole is pure cotton. That is, 67.6 per cent. of this, or not quite fifteen ounces, is pure cotton, which at 7 cents a pound would cost 6.9-16 cents. So in this dollar and a half yard of cloth the raw material, forming 67.6 per cent. of all the raw material in it, costs less than 7 cents. It is useless, absolutely useless, for the sheep to try to compete with that. The expert in this case says no one but an expert could have told by looking at this dollar and a half goods that it was not first-class all-wool stuff. But on pulling it to pieces and putting it under the microscope he found that nearly two-thirds of it never saw a sheep's back, but came out of the southern cotton patches.

So the people have cheap wool and dear clothing as a result of Mr. McKinley's consultations with his Philadelphia and New England friends. And so the sheep might as well take in his sign and go out of business. He might hold his own against South America, Australia and Africa, but he is "not in it" when he is thus compelled to compete with several million mules backed by black Republicans in the culture of 7-cent cotton. The "paper labor of Europe" is not a circumstance to the pauperism of working for cotton at 7 cents, and there is no possible way of making the sheep work cheap enough to compete against it.

The Grain Crops and McKinleyism.

Last year the United States exported, in round numbers, 100,000,000 bushels of wheat. This autumn, it is certain as anything can be, that the export will equal 150,000,000 bushels, and, in all likelihood, it will be nearer 200,000,000 bushels than the smaller figure. The greater part of this export trade is directly with Great Britain. This enormous increase in the outgoing freights of ocean vessels would, under normal conditions, of course, cause an increase in the cost of transatlantic transportation; but it comes at a time when artificial conditions, created by legislation, tend still further to increase those freight charges.

The vessels which carry wheat from New York to Liverpool must, of course, return with cargoes of some other commodity or goods of some description. The more difficult it is to get a return cargo, the greater must be the freight rates imposed on the wheat, for if the vessel were to return in ballast, the outward cargo would be required to pay the expenses of both trips. Yet at this time we are feeling the full effects of a tariff law, designed expressly to prevent the vessels which take our wheat to Liverpool from bringing back return cargoes. The farmer's wheat must stand the cost of running the grain fleet both ways. Besides getting a less price for his wheat he is compelled to pay an enhanced price for almost everything in the way of manufactured goods used in his daily life. It is apparent the farmers and producers need a campaign of education on political economy. It is surprising how supinely they rest while being robbed on every side by unjust and unequal tariff legislation.

DYNAMO MANUFACTORY.—A force of men are busily engaged in putting up machinery at the Crouch electrical and manufacturing company's establishment, on Eighth street. Mr. Crouch expects to be making dynamos by the 10th of next month. He will make a dynamo and furnish the electrical exhibit for the Mechanics fair at Portland this fall.

GRAIN DESTROYED.—A fire Thursday night destroyed about three hundred bushels of grain belonging to Mr. Close who resides on J. H. McClung's place, two and one-half miles north of town, and also about seven acres of grain belonging to I. E. Stevens. The fire was caused by a spark from the steam engine which they were threshing.

TOOLS FOUND IN THE JAIL.—George Croner found two files and a fine steel saw in the county jail Tuesday morning. No doubt the prisoners were making a desperate attempt to escape, but fortunately they were foiled in the attempt by the vigilance of the officials.

BORN.—To the wife of P. E. Snodgrass, in Eugene, Aug. 28th, a daughter. Pliny steps high.

BREVITIES.

Sheriff Nolan returned from Portland on Saturday night's overland train.

Mrs. Van Armitage came up from Portland today and will visit Mr. Geo. Armitage for a few days.

Seventeen young men to seventy girls is the average proportion at the seaside resorts this year.—Astorian.

Will Sovren and Clarence Matlock made the trip to Harrisburg on bicycles this morning in two and one-half hours.

Halsey News: Howard Rowland, of Eugene, is now helping to attend the wants of the customers at the Oriental Tea Co's.

Frank Shipworth, a typo on the Grand, went to Lebanon Tuesday morning for a few days' rest, his health being poor.

A Roseburg correspondent of the Drain Echo says that Dr. Loomis and family will move to Eugene about the first of September.

It looks like Washington county would imitate Yamhill this fall, and hold no fair. She has taken no steps toward it thus far.

Mr. Julius Kumlil went to Portland yesterday morning. He will return in about a week then make a three weeks trip to the Belknap hot springs.

Lebanon Advance: John Diamond, of Coburg, the new proprietor of the Findley soda springs, was a passenger on the Sweet Home stage Wednesday morning.

Klamath county expects to ship at least two hundred carloads of grain to the San Francisco markets the coming fall and winter, and all of it will probably go over the Ager route.

Wm. Miller formerly of Lost Valley, has been visiting friends in Lane county for a couple of months. He will return to his home at Lone Rock, Gilliam county, today.

Marshal Eastland went north this morning to Albany, from there he will take a trip in the mountains and pass his vacation hunting. J. R. Hayes will act as marshal during his absence.

Walter G. Moore, proprietor of a hotel at Willapa, tried to commit suicide Monday by taking laudanum. His friends discovered him and pumped coffee into him all night until he recovered.

Ashland Tidings: The past week has seen a longer succession of very hot days in Southern Oregon than the "oldest inhabitant" can recollect without straining his memory. The hottest in Ashland was 101.

EUGENE, OREGON.

"Indiana," says a McKinley organ of that state, "will collect from Europe not less than \$20,000,000 of the \$50,000,000 that will be paid for Indiana wheat this year." Probably this estimate is not far wrong. It only goes to show that it is the European market and not the home market which keeps our farmers alive. If it were not for the foreign demand wheat would not bring 40 cents a bushel this year.

The number of paupers in the state of New York is 125,000. Besides this there is a vast army of semi-paupers. In New York city alone the names of more than 100,000 families, representing 300,000 persons, are on the books of the Charity Organization. These figures indicate that one person in five in the city is an out-door pauper. The majority of these unfortunate are paupers through no fault of their own, but because they can find no work.

The Jacksonville Times says that the prospect of a railroad for Lake county is becoming brighter every day. It is now thought that the road from Eugene to that section will be the first to open up the great bunchgrass region of south-eastern Oregon. There is no other section of equal area and richness on the continent that is in the undeveloped condition of the great lake country, and the day of prosperity will dawn for at least three counties whenever the iron rail is laid through them.

The name of Hon. R. M. Veatch is being prominently mentioned in connection with the congressional nomination for the first district of Oregon. For strict integrity, conscientious performance of duty, and adherence to the theory that the common people have some rights in this world, Mr. Veatch's record in public affairs well attests his fitness for the honorable position. He is not an office seeker, and if the nomination comes to him it will not be through any effort made by him. It is unnecessary to state that if he is nominated the voters of Lane county will roll up a handsome majority in his favor.

JETTY WORK.—Col. Britton will submit bids for constructing the transway and delivering stone for the Stusslaw jetty. The Col. has had large experience in that class of work.
