An order has been received by the Weston Brick and Tile Company for 150,000 bricks, to be used in the construction of a large Catholic school for the education of Indians on the Umatilla reservation.
Athena is a trifle excited, according to reports, over a little difficulty between two ladies of that city, which ended Monday in a personal encounter. One, Mrs. H. Mortimore, visited the other, Mrs. Fisher, and the two engaged in a lively combat. They were separated by a fruit peddler who passed that way.
An occasional case of land jumping is now heard of, incident to the forfeiture of railroad land. Mr. McCormick, a well known farmer living north of Bendleton, woke up the other morning to find a jumper's cabin on one of his railroad quarters. It had evidently been all put together and hauled out there during the night.
About half of the Montana cattle shipments are completed. The total of the Montana run will be about 182,000, and 92,000 have been shipped. Of this number 43,737 were received at the Minneapolis stockyards since August; 32,000 at the South St. Paul yards, and 16,000 at the Minnesota transfer. This is a very heavy increase in the receipts for Minneapolis over last year. The cattle average the ranchmen \$35.

The Salem street car line does not seem to be paying well. There is talk of a receiver being appointed, and the company is two months behind with the payment of their employees. This after the great throng at the state fair, does not look well for the capacity.

The people of Eugene are practically unanimous in opposition to the practice of spreading yellow mud on graded streets. The city council should pay some respect to public opinion and forego the personal wishes of members when it is so evident that property owners and tax-payers condemn their course. If they do not the people will soon have a chance for a reckoning.
Persons having property along the sewer line should make attachments to the sewer before the winter rains render digging almost impossible. The connecting lines can be run to the house line and be made ready to connect whenever the council orders. The present delay is in order to allow the water company to get the new pumping station in order.
Geo. M. Miller & Co. have issued a fine circular of Fairmount. On the first page is a picture of the State University buildings. On the inside pages are descriptions of Fairmount and of the University. On the fourth page is a map of Eugene, Springfield, Fairmount and Glenwood and showing their relative position. It is a good advertising folder.
Newport Times: The present high tides are playing havoc with the rocks on the north jetty. The waves roll the great 6-ton rocks about like pebbles. The men have almost repaired the break, which was only fifteen or twenty feet in length and are still steadily tumbling in the rock at the regular rate. Rock work will begin on the south jetty in a few days.
Monday evening, after an absence of just two months in the Cascade mountains, Dr. Harry Lane and party returned to Salem. The party was camped up on Canyon creek, at W. B. McKinnon's. This is way up in the Matolias, which is reached by following the San Juan, on the Lebanon route. Plenty of game was killed, and they succeeded in killing, among other wild animals, three bear. One of the deer killed was the largest ever seen by any of the residents of that part of the country. It dressed nearly 200 pounds and was a nose-pointed animal.

OREGON CITY COURIER: A woman in the county on Wednesday became the mother of remarkable female twins which fortunately lived but a minute or two after birth. The corpses of the twins are united in front from the top of the head to just above the navel, the union being so complete, as far as it extends, that they form essentially one body. The broad, double head, well covered with dark hair, is so turned that on one side there is a double ear, and on the other side a broad face with a hideous, somewhat twisted mouth. The legs and arms hang free and are normal and well developed.

S. D. Cairns killed a black bear with bird shot in his door yard, at Pleasant Hill, last Saturday.

They are people from the Willamette valley mostly and are there camping out for a few days and are loading their wagons with fish which they intend salting. Steamer Coos has taken up for these people as many as five hundred fine salmon this week.

Death Without Warning.
The following account of the death of the late John W. Hanson, from the Fairhaven, Wash., Daily Herald, of September 29th, is handed us with request of its publication:
J. W. Hanson, the merchant tailor, died most unexpectedly at his home in the rear of his place of business, last Sunday about 9 o'clock. Mr. Hanson was in his usual health Saturday evening when he retired. Mrs. Hanson arose first Sunday morning. She found a copy of the morning paper at the door and took it to him where he was lying awake in bed. She then began building the fire while he read the paper aloud to her. Suddenly he stopped and she heard a strange gasping sound. She hurried to his bedside and found him unconscious. She ran to the front door and called Dr. Hopkins who was sitting in his doorway across the street. In less than a minute after Mr. Hanson's voice was hushed the doctor was at the bedside, and found the body lifeless. Drs. Ellis and Bickford held an autopsy in the afternoon and found that death resulted from a rupture of the pulmonary artery.

The Missing Man.
Daily Guard, Oct. 2
The whereabouts of Urias Pugh, the old gentleman who mysteriously disappeared from Eugene Wednesday afternoon being last seen in company with tramps on the railroad above the University, is still unknown. A warrant was sworn to yesterday charging unknown parties with a felony by making away with Pugh. Deputy Sheriff Croner went to Roseburg last night and arrested the dark skinned man or mulatto who was seen with Pugh last. He claimed that Pugh had obtained a job and was at work for the railroad at Springfield, but appeared very nervous.
Sheriff Noland telegraphed his deputy to hold his man and his deputy went to Springfield to make inquiries as to the truth of the story.

LATER.
Sheriff Noland returned at 3 o'clock and reports finding Pugh at work for the railroad. His only explanation is that he found a job of work and did not consider that it was necessary to notify any one of the fact.

SPECIAL MEETING.
The Council Extends the Time for Payment of Taxes 30 Days.
A special meeting of the Council was held at the City Hall, Oct. 2, at 10 o'clock.
Present—a full board of officers.
An ordinance was introduced and passed providing that the time for the payment of city taxes be extended thirty days, prior to their being declared delinquent.
Of the tax, the sum of \$4,503.67 has been paid into the treasury.

FROM THE MINER.—BROWNVILLE TIMES: W. B. Blanchard and C. H. Elwick, who for the past week have been at the Poor-man claim on the Blus River, returned to Brownville on Thursday and bring flattering news in regard to the prospect of work on the claim. The new plates are working satisfactorily, and the strata of pay rock is increasing as the work goes on.

THE DALLAS FIRE.—The Dallas Chronicle says: The amount of money received in this city from insurance companies on account of losses by the late fire will not vary a thousand dollars either way from \$275,000. The whole amount of the contributions received for the sufferers by the late fire amounted to something over \$5000, a considerable portion of which has been already distributed.

UNITED BROTHERS.—With the secretary of state Saturday articles of incorporation were filed by the church of the United Brethren in Christ at Eugene. The trustees are J. M. Kiteon, J. L. Ziegler, W. B. Dillard, and the value of the church property is \$750.
RUNAWAY.—The butcher team of Davis & Scott got frightened this morning and took a spin around the block bringing up in front of the Ninth street brewery. A broken tongue of the delivery wagon was the only damage.
MARRIAGE.—In Eugene, Oregon, at the residence of J. W. Bentley, October 4, 1891, by Rev. E. P. Henderson, Henry Coolidge to Mrs. Harriett Harsh, all of Eugene, Oregon.

Florence Notes.
The West, October 2.
Our good friend Geo. Knowles, we are sorry to learn, was kicked by a horse this week, and as a result he loses two teeth.
The Siuslaw River Lumber company has been awarded the contract for furnishing lumber for the new government pile-driver scow.
Mr. King, the gentleman who had both of his legs broke last spring and who has been confined to his bed until quite recently, left last Thursday for the Soldiers' Home in California.
Col. Isaac Britton came in from Eugene yesterday. He will remain in Florence until next week, and ere he leaves we will probably know something definite relating to railroad matters.
Commissioner Hyland and family who reside in the vicinity of Eugene, are in Florence for a few days' outing. Yesterday they were viewing the seals on seal rock over at Cape Perpetua and Hecla Head.

Crow Notes.
October 1, 1891.
School is progressing nicely at Central under the management of Miss Maggie Widmer.
Born, to the wife of A. M. Richardson, October 1, 1891, a daughter. Mother and child getting along all right.
Hugh and Jake Gates and family made a recent trip to the Siuslaw country in quest of fish, of which they got quite a number.

AN ELEPHANT.—Salem's big elephant is familiar to most Oregonians, and the present victim does not seem slow to give it further away. In answer to a question about hotel prospects, Mr. Wagner, of the Chemekete, now Willamette, said: "They are not bright. I have put in about \$20,000 to give this town a first-class hotel, and my efforts do not seem to be appreciated. Business men here do not support a hotel, every other house is a boarding house, even to the state house and everybody is working for those places. It is a religious town besides and when anybody comes here to stop, people come around and find out what church he belongs to, and ask him if he don't want to stand out to a nice, quiet, home-like place of his own denomination. I am prepared to close the house. There are some few here who want to make the rent and want me to go ahead with the house. I would close the dining house and run the rest of the house but do not like to do that. I have now lost \$4000 running the house and could stand some more, but do as I like to do it."

SUED FOR DAMAGES.—Cottage Grove Leader: Mrs. J. Thornton who recently had her ankle dislocated and fractured at this place, put in a complaint with the city council for \$250 damages, which the city council refused to pay, it will therefore go to court. The cause of the accident was as follows: While Mrs. Thornton was crossing the bridge by Thompson's store, her foot caught in an aperture in the walk which was about four inches wide, throwing her forward. She partially caught hold of the railing but not in time to prevent the accident. She made a trip to Eugene last week and employed lawyers to attend the case.

LAND SOLD.—The real property belonging to the estate of the late J. C. Yates was sold at administrator's sale Saturday. The farm of 250 acres adjoining Irving was purchased by Martha W. Cooper at \$21 per acre. The 11 acre tract of timber land was bid in by Jas. Yates at \$7.50 per acre. The house and lot in Irving was purchased by J. M. Martin for \$275. The 40 acre tract of coal land in the Siuslaw valley was not sold, as no bid could be received for it. All the property went remarkably low.

SAW LOGS ON HAND.—The drive of sawlogs for the Eugene sawmill that has been on the way for over six weeks are now safely in the boom, the work having been finished Oct. 2. There are nearly 1,000,000 feet. The logs were cut on the Middle Fork twenty-seven miles above Eugene and were run by Robt. Williams. They are of good quality and will make first-class lumber. The lum of the mill will now be heard for several weeks.

THERE IS HOPE FOR THE WEARY.
—A Georgian has just introduced before the state legislature of Georgia, a bill providing that all men within the state, who at thirty years of age have not taken unto themselves a wife, shall be subjected to a fine of \$25, the sum to be increased by a similar amount for every five years of bachelorhood. Should the bill pass some of our towns will miss the presence of the gay, giddy young miss, who has been sweet sixteen for the past thirty years.

A HARD LUCK.—Moss, the car driver, was struck by a brake bar Oct. 2d over the left eye and knocked senseless for a time, receiving quite a cut. The brake was fastened and when looking to see the cause, it suddenly gave away with the above result. He will be on duty again in a day or two.

MONEY PAID.—In the divorce case of M. W. McMurry and wife, Monday morning the suit was finally settled, the defendant McMurry paying to the plaintiff the sum of \$1,000 awarded her by the court, and the further sum of \$1,500 to E. R. Skipworth as guardian of the children of defendant and plaintiff, the latter fund to be used for their benefit.

MILL IMPROVEMENTS.—J. C. Goodale has been improving his sawmill at Coburg by moving the engine from the shingle mill down to the sawmill and attaching it to the water power, thereby increasing the power. Heretofore the mill has been averaging about 18,000 feet daily, but hereafter the capacity will be much more.

FIVE HORSES KILLED.—The freight train October 2d killed five head of horses near the University. They belonged to some immigrants, who had just arrived from Crook county. One span alone was valued at \$500.

RETURNED.—Deputy Sheriff Cochran returned from Gardiner Sunday morning. He says Albertson is improving daily and is now able to sit up. It will be about one week yet, however, before he is moved to Tacoma.

MARRIAGE LICENSES.—The following marriage licenses were issued by County Clerk Walker Saturday afternoon: J. T. Whitmore and Nellie Cole; Henry Coolidge and Harriet Harsh.
MARRIED.—At Junction, Oregon, Sunday, October 4, 1891, by City Recorder J. J. Butler, Charles W. Imman and Bernice E. Deming.
