

For nine years says the N. Y. World, the state of New York has had a democratic governor. How absurd, past the line of the ludicrous, is the Platt-Fassett parroting of danger to the state in the election of another democrat!

The Roseburg Plaindealer has interviewed a mining expert who expresses the following opinion: "I am decidedly of the opinion that this country, and, in fact, all of Southern Oregon has been overlooked in the hunt for minerals."

There is a huge joke that has just leaked out in reference to the joint debate at Ada, between Gov. Campbell and Major McKinley. A plan had been concocted to break up the meeting by a tin-plate scheme, but, although the mine was laid all right, Major McKinley was afraid to set fire to the fuse for fear of self-demolition.

Once more, however, for the thousandth or ten thousandth time, says the Portland Telegram, we will tell why a high tariff on wool doesn't benefit the wool grower, yet is an absorbing, consuming tax on the wool-consumer.

It will take mints of money just to prepare the exposition grounds for the World's fair to say nothing of the \$7,000,000 to be spent on the great buildings. Here are some of the interesting figures: Grading and filling \$450,000; landscape gardening, 323,600; viaducts and bridges, \$125,000; piers, \$70,000; waterway improvements, \$225,000; railways, \$500,000; steam plant, \$800,000; electric lighting \$1,500,000; statuary, \$100,000; vases, lamps, etc., \$50,000; lake front adornment, \$200,000; water supply and sewerage, \$600,000; other expenses, \$2,000,000; total \$5,593,500.

The railroads must show cause why freight rates shall not be reduced to conform with the rates established by the Oregon railroad commission. It is to be hoped that the commission will be sustained.

Lane county has a leper. It may appear harsh to compel a man to change his residence but the safety and welfare of a community demands that the unfortunate afflicted individual be compelled to remove so that other residents may not be subjected to infection.

The Union Pacific railroad makes the claim that only two of the railroad commissioners acted in the matter of making a reduction on railroad freight rates. Who is the erring brother that kept out of the commission meeting to give the railroad a chance for an appeal?

Albany Democrat: An exchange has discovered that the same judge who sentenced Sandy Olds to one year in the penitentiary for the deliberate murder of a human being, gave a man three years the other day in the same place of punishment, for stealing two salmon. Is it any wonder the farmers' alliance wants to run the government machine for a little while?

The grand jury of the county of San Francisco is making some pertinent inquiries that cause the hoodlums considerable uneasiness. "Boss" Buckley has found it convenient to take up residence in Montreal and his lieutenants are left to face a court of justice and tell the methods by which every office, small and great, in the city was made a matter of bargain and sale.

The Dalles Chronicle: A government that guarantees the greatest liberty to the individual, social, civil and industrial, consistent with social order and equity, and interferes the least with private affairs, is a government of the people for the people, and is undoubtedly the best form of government and the only form in accord with the natural laws of human life.

Atlanta, Oct. 21.—The monument of the late Henry W. Grady was unveiled here today in the presence of a vast assemblage. The day was generally observed as a holiday, business being practically suspended from 10 a. m. to 2 p. m. The procession formed at the capitol and moved to the monument. It was one of the largest ever seen in Atlanta, including the militia of the city and of neighboring towns, city societies and labor organizations of all kinds.

The nearest vacant lots only nine blocks distant from the new fruit cannery, and the manufacturing center of Eugene.

F A I R M O U N T. Fairmount is only three blocks from the terminus of the street car line, with five-cent fare to Eugene, and will soon have a motor line leading to Springfield and Eugene with five-cent fare. It is the point selected by the Siuslaw and Eastern Railway for crossing the Southern Pacific.

F A I R M O U N T

Parties who have bought here less than one year ago have doubled their money already, and those who buy now will do likewise before the end of another year. Fairmount has made faster growth than any suburb of Eugene, and is sure to soon become the center of the third city of this State, Springfield, Eugene and Fairmount are fast growing into one large city, of which the latter will be the leading and geographical center.

The owners have 18 acres of river front land that they propose to donate for manufacturing, which fact is sure to secure the location in Fairmount of large factories. Lots are 66 feet 8 inches by 100, and are offered at \$125 to \$175, on payments of one-third down and remainder on three years' time. Acre tracts from \$300 to \$500 for single acres. You cannot do better than to invest in these lots. Buy now and get the benefit of the advance these improvements are sure to cause.
