THE CRY OF MILLIONS!
OH, MY BACK!
STOP IT NOW.
SOON IT WILL BE TOO LATE.

I have been troubled many years with disease of the kidneys and have tried many different remedies and have sought aid from different physicians without relief. About the 15th of April I was suffering from a very violent attack that almost prostrated me in such a manner that I was bent over. When I sat down it was almost impossible for me to get up alone, or to rest on my clothes, when I was a new man. I will recommend the tea to all afflicted as I have been.

SATURDAY, NOV. 14.

From all parts of the county come complaints of bad roads.

The Monmouth Democrat has been a long venture and has suspended.

A second-hand store has been started in one of the Frank buildings.

A large number of Eugene's sportsmen were out chasing the festive goose today.

Hon. B. C. Van Houten left for his home in Spokane Falls, Wash., this morning.

Another new house started in Fairmount yesterday. More will follow in a few days.

Alex Matthews presented this office with some ripe raspberries this morning picked in his garden.

The Marine Cadets were drilling in the rapid firing of artillery and small arms today on Skinner's Butte. They made quite a noise, at least.

The entertainment at the Cumberland Presbyterian church last evening was liberally attended. Those present loudly praise the entire programme as rendered.

A. C. Vaughan, of Camp Creek precinct, is gaining quite a reputation as a cattle dealer. He dehorned 40 head the other day for Mr. Cummings without an accident.

Mr. Blaine has again demonstrated his political shrewdness. He snuffed the New York breeze for two days and then declined to take a hand. Hence his regrets at his "inability to speak."

Boom towns in Oregon do not seem to thrive. Down in Coos county people hunt elk on the lowlands of what is called Glass, and its rival, East Marshfield has been lost for a cow pasture.

Junction City Times: Miss Ollie Mays, who resides near Monroe, was with quite a serious accident Monday. She was standing up in a wagon when the team started, suddenly throwing her out backward. Her arm was broken at the elbow and is a very serious fracture. Dr. Ruff was called and adjusted the fracture and while it is exceedingly painful, she is getting along nicely.

The Roseburg Review which generally is correct in its statements is sadly off from the truth when it says: "H. W. Holden went down to Eugene Sunday and discontinued running his street car line there. It has never paid operating expenses, and some time since he took up a mile of track. The citizens of the town have petitioned him to put it in operation again but he is not likely to until it shows some indications of paying expenses at least. Eugene seems to be in a hard luck just now. The use of its sewer system has been enjoined by the water company because it empties into the river above their works, and the expenditure of \$20,000 will probably prove utterly useless."

Only about 500 feet of track was taken up and it is likely that the line can fully operated will pay a small profit on the investment. The sewer will be used for the purpose intended. The water company failed to get water where they expected and the delay in making connections is to allow them time to get a new source of supply. They are pushing work and as soon as they can finish it the sewer will be used.

MONDAY, NOV. 16.

Sheriff Noland went to Salem this morning.

Henry Lambert, of Portland, visited here over Sunday.

A Gold-mith returned this morning from a visit to his son Julius, at Medford.

Geo Colter left for his home in Glenside on the Sinclair stage this morning.

Samuel Garrison went to Drain this afternoon to work on a dwelling house.

J. H. Beckley left on the local train for Drain this afternoon on a hunting trip.

S. P. Sladden and wife and Mrs. T. A. Henderson went to Portland on a visit this morning.

R. F. Baker, of Yaquina bay, who has been here for several days, left for his home this morning.

J. H. Wait, roadmaster of the S. P. R. R. from Junction to Roseburg, was in town over Sunday.

J. G. Kelley and W. H. Holden left for Boise City, Idaho, this morning to look after sewer matters in that place.

Rev. Morgan and family are holding services at the Court House each evening. The song service is very fine.

There is a young lady in Albany so modest that she will not cross a potato patch in daylight because the potatoes have eyes.

The grand jury at Corvallis failed to indict P. P. Watson, of the Sunday Mercury, on a charge of criminal libel for publishing articles reflecting on the character of J. B. Serraford.

Two sisters of the Good Shepherd are in Eugene managing the home for unfortunate girls in East Portland. This is a charitable institution and all should contribute their mite to sustain the same.

At Roseburg the new court house will have steps of Roseburg marble, from the Deer creek quarry, and the floor of the portico, and also the columns will be made of the same kind of stone.

Independence West Side: A Rev. Morgan and wife, who have been preaching at Corvallis, says "that all of you who are not saved by March next will be everlastingly condemned," and that beginning with March "we will have to endure seven years of war and destruction." If you own a man a note and it falls due, say about April 1st, rest easy. The chances are that he will go up the flume.

Marshfield News: H. M. James has secured a myrtle log about 30 inches in diameter and 8 feet long, which he will ship to a piano manufacturing firm in Boston. It will be used for veneering. This log is sent merely as a sample, and we predict will be the forerunner for large orders of this valuable wood, which is susceptible of such a fine polish.

Burns Herald: The following is reported by Chas. Zeigler: Hay crop of Harney county: Trout creek 180 tons, Silver valley 500, Crane creek 2500, Silver creek 2500, along the foothills 1425, Island 10,000, Malheur 5000, Diamond valley and vicinity 7400, aggregating 29,505 tons. The potato crop of the county will average 60 bushels to the acre. Grain he hasn't yet reported.

Plowing is now the order of the day with the farmers.

Governor Penney got in ahead of President Harrison this year with his Thanksgiving proclamation.

Mr. Jones of Binghamton will not have to pay the freight, now, Flowers has a few dollars left—and there is no freight anyway.

Quay won his victory in Pennsylvania with "Blaine and Reciprocity" for a slogan. It was a distinctly anti-administration campaign.

Sheriff's Sale.

NOTICE IS HEREBY GIVEN THAT by virtue of a decree and order of sale and execution, issued out of the Circuit Court of the State of Oregon, for the county of Lane, on 11th day of November, 1891, in a suit wherein Charles Knop and Ernest Knop, partners doing business under the firm name of Knop Brothers, was plaintiff and Henry Schwarzer and Mary Schwarzer, his wife, and E. J. Frazer, were defendants, commanding me to sell the following described real property to-wit:

Commencing at the NW corner of the Thos. Gregg Donation Land Claim, Notification 6982, Claim 42, in Sec 7, Tp 16, S. R 1 W, thence south 28 chains, thence east 75 chains, thence north 0° 08', east 27.94 chains and thence west 75 chains to the place of beginning, containing 210 acres, more or less, in Lane county, Oregon, to satisfy the sum of \$1847.35 with interest at 10 per cent. per annum from the 27th day of October, 1891, and cost and accruing costs.

Now therefore in the name of the State of Oregon, in compliance with said writ, I will offer for sale at public auction to the highest bidder at the Court House door in Eugene, Lane county, Oregon, on Saturday, the 13th day of December, 1891, the aforesaid described real property, between the hours of 9 o'clock a. m. and 4 o'clock p. m., to-wit: At 1 o'clock p. m., on said day. Terms of sale, cash in hand.

Dated at Eugene this 12th day of Nov. 1891. JAS. E. NOLAND, Sheriff of Lane county, Oregon. By H. J. Day Deputy.

Iowa.

If Boies had been beaten as many votes in Iowa as Campbell was voted in Ohio, the Republicans would have had no grounds for bragging. However small his majority would seem to be, the fact that running as a Democrat for governor of that state he is not beaten, is a curious and pleasing fact. In 1870 the Democratic vote was 60,888. Last Tuesday it was probably 205,000. Twenty years in growth and in population and in Democratic sentiment have produced this prodigious result. The progress made is shown by the following:

YEAR.	DEMOCRATIC VOTE.
1872.....	71,134
1876.....	112,121
1880.....	105,845
1883.....	139,093
1884.....	177,316
1888.....	179,887
1889.....	180,111
1890.....	188,240

Here is a steady and most gratifying advance, which exhibits health and endurance.

It is difficult to draw too dark a picture of the suffering of the people of Kansas through the borrowing of money. The Howard Citizen says that in Elk county, from Jan. 1, 1890, to Oct. 15, 1890, 175 mortgages were foreclosed by the sheriff—average of 14 1/2 per month. Nearly all of these judgments were for interest only, on the second mortgage given to secure the payment of the interest coupons. These 175 sheriff's sales brought \$44,025, but as the amount of the judgments was \$134,348, the farmers that have been sold out are worth \$99,370 less than nothing. Either parts of Kansas are too poor to support even grasshoppers or the settlers have borrowed recklessly.

There will be a hearing in the United States Supreme court on Jan. 11th, next, to decide several important cases governing timber locations. The object is to define what timber land is under the law. Land covered with heavy timber, on which agricultural crops could be raised when the timber is removed, is believed to be available only as agricultural land, but such land has been taken in large tracts as timber land, on the ground that it is "chiefly valuable for timber."

Bad roads are the complaint throughout the county. It should be remedied. The road tax, intelligently expended, would give far better roads than we have at present. The theory that obtains at presents is patchwork. If the supervisor of every road district would build a small piece of road, where most needed every year, the road problem would be solved in a few years, and teams that are now pulled to death on bad roads could be kept at much less expense.

A Washington special says: "Clarkson is very much 'down in the mouth.' He feels that his last chance of becoming a cabinet officer has been destroyed by the result in Iowa. Campbell and Pattison seem to be eliminated as possible presidential candidates, and Boies looms up for the vice-presidency. Nearly all Republicans and Democrats believe that Cleveland's nomination by the Democrats next year is now inevitable."

The Republican national committee will meet in Washington on the 23d of this month to fix the time and place for holding the Republican national convention next year. San Francisco is making great efforts to have the convention held there, as well as the Democratic convention, and has offered to pay the transportation expenses of the delegates across the continent.

If so able, acute, clear-minded and far-seeing a lawyer as Samuel J. Tilden, aided by the best legal advice that New York affords, was unable to make a will that would stand when brought before the courts, it is obvious that there is something wrong somewhere. Is the trouble with the lawyers, or with the judges?—N. Y. Tribune.

Senator W. R. Forrest is back from his trip to the East. He was on the streets yesterday and was given a welcome by his friends. He told a Telegraph man last evening that in Eastern politics there are but two sentiments, one for each party. One is for Cleveland and the other is for Blaine.—Seattle Telegraph.

Calico printing originated in India in very ancient times. The art spread westward to Asia Minor and the Levant. It was imported into Holland by the Dutch East India Company, and spread into Germany. Calico printing was introduced into England during the seventeenth century.

Plowing is proceeding rapidly throughout the country. It is seldom that the Willamette valley is left without the moisture needed to render the ground fit for a crop, and after planted bring it to fruition.

How would the title "Senator Sylvester Penney" look? He would care but little about the title, but on every economic question, his voice would be found true to the interests of the people.

Almost any thing will do for a summer street or road. Now is the time to take notes, and observe what method can best be used in their treatment.

To All Friends of Freedom.

The following appeal for financial aid, and call for a state convention, have been issued by a committee of the People's party:

FELLOW CITIZENS: We, the undersigned, of the National Central Committee of the People's party of the United States, for the state of Oregon, hereby appeal to all friends of freedom to render us such moral and financial support as will enable us to thoroughly organize the state, in order that its people may become free from the chains of the triple oppressor—the land, money and transportation monster. Remember that your opponents have the entire demo-republican governmental machinery, as well as the backing of its monopolistic creatures, the home and foreign syndicates, which are fast destroying our liberty and our homes. The committee entrusted with the people's cause for this state has no such advantages, and your assistance and active co-operation are ABSOLUTELY necessary if anything at all is to be accomplished in this line. No one who is true to himself, his family and his neighbor, can consistently or honorably remain inactive at this hour, when poverty and ruin are staring us all in the face. Now is the time and this is the hour, when you are called upon to decide as to whether we are to be free or completely enslaved by an oppressor whose existence is due to cruel indifference and imaginary traditions of the past.

Send all remittances to Nathan Pierce, Milton, Umatilla county, Oregon. Do not delay; contribute whatever you can now. Yours for Freedom,

WM. H. GALVANI, Chm.
J. F. HENDRIX, Sec.
N. PIERCE, Treas.

P. S. The state convention will be held at Oregon City on Wednesday after the second Monday in March, 1892. A state platform is to be adopted and plans for an aggressive struggle for freedom agreed upon. Let each county be fully represented by the proper committee.

Portland has a free bridge at last. It will have more. Nothing could have been done more essential to the prosperity of the metropolis than free transit across the river.

Densely populated as it is in some places, the earth has room for a great many more people. It is estimated that there are twenty-two and a half acres for every living person.

The position of policeman is a rather dangerous one in San Francisco. For several weeks the force has averaged the loss of a member a week by a violent death. It seems to have become epidemic.

For many years bachelors have occupied the executive chair of the state of New York, and therefore no wife has graced or presided over the governmental mansion. But Mrs. Flowers will now do the honors.

It now transpires that the reason the czar of Russia slighted the fresh young emperor of Germany, going through his territory twice without calling and paying his respects, was that the royal booby told off-color stories in the presence of the czar's wife.

Gen. Jackson's old kitchen at the white house is now utilized as an elevator engine room. But the old fashioned ovens are still there and the niche in the wall remains where the big crane was suspended in the old days of primitive hospitality at the executive mansion.

The British war office is bound to practice economy, and therefore wades in on that line to have a great saving inaugurated. This it accomplishes by cutting off the gold lace upon the uniforms of army officials, thus making a saving of the enormous sum of £100.

It is conceded that Minister Egan's usefulness in Chili is ended. The present government bitterly condemns the policy he followed when Balmaceda was in power. Egan is an Irishman, else he would be recalled. Blaine cannot forget the Irish support he received in return for his alleged love of Ireland.

The Kansas City Times says the rebate feature of the tariff was discussed somewhat at Ada. To understand this rebate it is only necessary to know that last year granulated sugar refined in New York was retailed in Scotland at four cents a pound. Its wholesale price in New York was six and a quarter cents. Solve that fact—for it is a fact—and you will comprehend the rebate feature of the tariff.

A street superintendent is needed in Eugene. The condition of crosswalks is disgraceful, and it appears no effort is made to keep them clean. No one can expect the street committee to do the work. They serve the city without pay or reward. A competent man should be appointed to conduct street work. At present gum boots are needed when one desires to cross a street walk.

The Salem Journal says that Governor Penney is a newspaper man. He looks over as high as a hundred papers daily when he is in his office at Salem.
