Dam Washed Out.

Daily Guard, Dec. 11.

Mr. J. C. Goodale, of the Coburg sawmill, experienced a considerable loss Wednesday night about 11 o'clock by the central part of his mill dam, about 60 feet wide, washing out. The mill had just finished sawing the order for the new bridge of the Oregonian Railway across the Calapoota at Brownswille. It will cost several hundred dollars to make the necessary repairs which will be delayed until a lower stage of water. In the meantime Mr. Goodale will get an engine from the Eugene Iron Works and connect it with one already in use at the mill thus securing power to continue work. No logs were lost, they being secured by a strong boom above the dam.

VERY ILL.—J. B. Rhinehart, Friday morning, received a letter from his brother, J. O. Rhinehart, who is at San Diego, Cal., bearing the news that his wife was lying very sick, and her life had been despaired of.

Shipping.—The Eugene planing mills each shipped a carload of material away Doc. day, one going to Sodaville and the other to Junction. Eugene's business men are continually reaching out for foreign business. This is the correct idea.
