Hunting Bear With Chioroform.

Missoula Gazette. While the local ramrods are talking about hunting bear they should go to the store of the Tuttle Manufacturing company and see there displayed the hide of the king of all. Ursus Marjoris it is in fact as well as name, and was killed yesterday in the rear of the Northern Pacific hospital by Drs. Buckley and Hilmantel. The monster had been seen prowling about the premises for several days and yesterday these bold physicians hit upon a novel plan of capturing him. They saturated a large piece of pork with chloroform, and after sprinkling it with sugar, set the bait. The animal readily fell a prey, becoming unconscious soon after devouring the seductive morsel. It was a matter of but a few moments to brain the wretch with a pair of stuffed clubs and the result is an exhibition toclubs and the result is an exhibition to-day. The hide measures nine feet across and the head weighs fifty-three pounds. It is the largest animal of its species ever captured, and will be sent to the World's Fair as a sample of what Missoula can produce when she tries right hard.

One unfortunate characteristic, however, is
this: These new half dollars, when piled up in lots cannot be accurately measured by the length of the roll, if mixed with the old,

because they are of greater thickness, thus causing much bother and delay. The new quarter differs from the old in The new quarter differs from the old in this respect: Instead of the usual figure of the goddess of liberty seated with the shield and the flag, appears the foll head of the goddess, en profile, with cap and lau-rel wreath around the brow. About the fig-ure are the words, "In God we trust," and the usual semi-circle of stars. On the reverse side appears a new figure of the Amer-ican eagle with out-tretched pinions, also a number of stars. The wording remains

unchanged.

The 10-cent piece differs only in that on the date side the head is used instead of the body figure, just as in the new half.

MEETINGS CLOSED .- Last night the series of Union Gospel meetings which have been held in the First M. E. church of this city was concluded. Avoiding the subject of miracles and other disputed points in theol ogy the discussion of which has a tendency ogy the discussion of which has a tendency to produce doubt, the Rev. Cephas Clapp has in all his sermone confined himself to the expounding of the one great truth and presented it in an unassuming, clear and

logical manner.

Man, although created with a soul had to be taught that such soul might be in affinity with the Divine Soul, the great source and director of all life. This was the mission of the Bible and Jesus Christ. His life a or the Biole and Jesus Christ. His life a continual and comprehensive lesson and guide to show the true way in which communion with God is attained. The mere affinity a human sould has with God in his fuffaite Perfection the closer is the communion it enjoys and consequently the more perfect is that human life. Without such communion the human soul is in sin and discord. To follow the teachings of Christ is to bring that soul into harmony with the truth and the enjoyment of its attendant blessings." Supplementary to these meetings, services will be held at the M. E. church and C. P. church each evening this week. The Rev. Mr. Clapp left on this morning's train for Portland. Con.
