A RESULT OF WHISKY.—O'BEVENS, Wash., March 28. At 11:30 last evening, during the barroom row that broke out in O'Brien & Cummings' saloon, bartender Mark Crowley put a revolver against the head of Richard Haro and shot and instantly killed him. The murderer, after his victim fell, gazed on the body a moment, and then, seeming to come to his senses, turned the revolver upon himself and fired. He then fired three shots, to his own head. He breathed about an hour. About twenty persons were present, all of whom fled when Crowley fired the first shot except two, John Hill and Harry Hansen, who witnessed the suicide. The murderer was a single man 40 years old, with a New York relations contract a brother in New York who is 34 years old a rancher at Orlito, and reported to be worth about \$40,000. He leaves a wife and four small children. Crowley was generally liked, and had many friends. He is supposed to have been crazed by liquor, and had been drinking heavily the past week. The tragedy was but the result of an indulgence in too much drink.

Garoutte's home and completely destroyed it. Mr. and Mrs. Garoutte were sitting at their dining table when the shock of lightning struck them. They were insensible for some time. Mrs. Garoutte recovered first and found him with his head lying on the table; she spoke to him, then he awoke and asked what had happened."

FIRE.

This Friday morning, an alarm of fire was rung. The department responded promptly, finding the fire to be in R. M. Robinson's restaurant.

The fire caught under the stairway. After a stubborn fight it was subdued. The money drawer was found in the back yard and the rear door was broken open, hence it is thought a robber set the fire. The loss to Mr. Robinson and to J. H. Goodman, the owner of the building, will amount to a few hundred dollars, fully covered by insurance.

A marriage license was issued last evening to John Deadmond and Est. A. Smith.

Brownsville Times: The revival meeting which has been in progress in the Baptist church for the past four weeks closed Sunday evening. The meeting has been the means of doing much good and many of the young men and young women of the city have been converted. Rev. G. J. Travis, who has labored earnestly and faithfully in this work, returned to his home in Eugene on Monday.

Salem Journal: Illustrate of extortionate freight charges of the Southern Pacific railroad is the fact developed by Herren & Levy that the rate from Salem to Portland, 62 miles, is 12 cents per hundred and from Portland to Tacoma over the Northern Pacific, 146 miles is 13 cents per ewt. No wonder this company resists the order of the Oregon railway commission to lower its rates.

McMinnville T-R: Judge Taylor of Astoria probably gets along with less brains than any other lawyer in the state of Oregon. He sentenced a man who committed a premeditated murder to one year in the penitentiary; he sentences a fisherman who took two salmon, to three years in the penitentiary; then sentences a man who has maliciously libeled another through a newspaper to one year in the Clatsop county jail. We would have justice, indeed, if all the men in the state were of the Judge Taylor calibre.

FLOOD DAMS.—Some of the owners of timber lands on Mill creek, a tributary of the Mohawk, are putting in flood dams to run their logs out to market. They have completed a dam that will flood over 20 acres and give plenty of water to float the logs several miles. Lower down on the stream another dam will be built at once. The third dam of the system crosses the Mohawk and was built some time ago. When the dams are completed logs can be run from upper Mill creek, into the deep waters of the McKenzie in a few hours, even in midsummer. From there they can be taken down the McKenzie and Willamette to the sawmills at nearly any season. The enterprise will probably prove a paying one to the projectors, and will be a great help to the mill men who can get their logs as they need them, and reduce the danger of losing logs during floods.

Self-Inflicted.—Mrs. Mattie V. Dawson has committed suicide by the circuit court against H. W. Jones for the cancellation of a certain deed made to defendant to the house and lot on the corner of Seventh and Oak streets. The complaint alleges that she executed a deed of trust to Jones in 1888 without consideration; that defendant sold under contract the premises to Ella Whitfield and Clara Franz; that \$1040 have been paid on the purchase price and \$1990 is still due; asks that a Receiver be appointed to receive the money as it becomes due, \$160 per month, and that Whitfield and Franz be enjoined from paying any money to Jones during the pendency of the suit.

We predict that Eugene will be the liveliest town on the Pacific Coast this year, and we do not claim to be a prophet either. Look out for developments.

Albany claims 4,628 population, by a city directory count. That result is an exaggerated one. Eugene has more school children than Albany, more voters and more population.

Marshfield Coast Mail: Last week some of the men at Porter went down to the boom and picked up several buckets of fish. They had been in between the logs floating on the water and fish were a drug in the Porter market. Yesterday the boys were having fine fun at the old mill south of town scooping up the fish with their hands. The fish had collected in pools between the logs and fell an easy prey to the lads who captured them.

A large mass meeting of indignant citizens, presided over by Mayor Sullivan, was held at Oregon City Saturday to advise means relative to case of attempted rape which occurred recently. Testimony was introduced sufficient to point to Bob Gardner and Bert Bacon as guilty of an attempt to rape a 12-year-old girl, yet the law seems unable to reach the case, and a committee of law and order, consisting of leading citizens, was appointed to formulate a plan of action, which had led to the speedy punishment of criminals.
