men had to do the work with. The mine owners in the Cour d'Alene section threaten to bring in men who will work for smaller wages than de-manded by the union, and trouble is looked for if an attempt to execute the threat is made.

The committee appointed by the Ore-gon State Board of Commerce to secure contributions to a fund to be raised for the purpose of providing a creditable exhibit at the World's Fair have abanioned the work.

The new police regime at Sacramente The new ponce regime at sacramento is creating a panic among dive habitues, opium fiends, vagrants, lewd women and other riff-raff that have flourished in that city. Squads have left the city for San Francisco and other places.

Trains on the Los Angeles division are being delayed by landslides halfway through the Tehachapi Pass. A constant stream of mud and rocks is falling at tunnel 17, and at tunnel 4 a slide fifty feet wide covers the track six feet deep.

The Ministers Association at Salt Lake in a resolution passed by that body strongly censures President Eliot for the language he used in his address at the Tabernacle on the 13th of last month, as giving a false impression of civil and re-ligious liberty.

The Attorney-General of Arisona has decided that mining claims like other property must be valued by the Assessor. County Assessors have no alternative but to include mining claims in their assesament returns to the Supervisors of their respective counties.

The three miners in Butte, Mont. who were charged with assassinating Editor Penrose, who had waged a bitter personal war in his paper against the Miners' Union, were discharged from custody, the State's attorney declaring he could not secure testimony that would the State's attorney

The introduction of a bill in Congress by Senator Stewart providing for estab-lishing a United States military post a teno is viewed with marked disfavor by nembers of the Nevada miners' unions. They claim to see in it an attempt to cheapen labor at the mines, as there are no hostile Indians in the State.

At San Francisco Judge Hunt rendered a decision overruling the demurrer of the Southern Pacific to the complaint of W. H. Robinson, in his suit for damages for refusing to sell him a ticket from San Francisco to Alameda, entitling him to stop over at Oakland. The court held that the passenger was entitled to stop at any intermediate station and resume his journey within six months.

The friends at Fresno of Griffith, the man who made a confession at Honolulu, in which he claimed to be one of the Pixley train robbers, declare that he is of unsound mind, and did not tell the truth. He was not implicated in any way in that crime, and he knows noth-ing about it. The Dalton brothers comed the deed, and Bill Dalton acars were the only ones concerned in the affair.

The negotiations for the sale of Ellarbars. The purchase price is said to \$200,000. The sale was reported to rs been consummated some weeks o, but that statement was incorrect.

The addition to the acreage represented \$0.03 per cent. of the total increased acreage. Contrary to general expectation, the

Geary Chinese bill went through the House under a suspension of the rules. bill went through the Senator Dolph was asked if he would

give any expression upon the subject, and declined to do so. He said the bill as amended would now come to the Sen-ate, and would probably go to the Comate, and would probably go to the Com-mittee on Foreign Relations. Geary says that the bill must go through the Senate, or every man who lives in a State where labor is employed will lose

the support of the laboring men. The bill is certainly severe in its methods, and is believed by some to be unconstitutional and in violation of all treaty rights. This matter will be taken into consideration by the Committee on For-eign Affairs, and perhaps a compromise

measure may be reached which will keep out the great bulk of Chinese and yet work no violation of international law, The Senate will no doubt be more con servative than the House in considera-

tion of this matter, for as a matter of fact the great body of the House never had an opportunity either to discuss or understand this Chinese bill.

Mr. Chipman from the Committee on Foreign Affairs has reported favorably

to the House his joint resolution direct-ing the President to inform Congress whether by the laws and regulations of the Empire of Russia concerning Jews any American citizen of that faith is subjected to restrictions as to residence

and business in that Empire which vio-late the provisions of the treaty of 1832 between the United States and Russia. The report states that this subject is one of great concern to the people of the United States, as it seeks to ascertain the status of American citizens of the Jewish faith in Russia. Every citizen of the United States, says the report, is entitled at home and abroad to exact the

treatment and protection which are the all rights of citizenship and of the constitution and our treaties with the foreign powers, and our government can make no distinction based o the birth places of citizens, nor can it permit such distinction to be made by foreign powers It is not the religion or race of a person

but his American citizenship which is the real test of the treatment he shell receive and the rights he shall enjoy in other countries.

Another attempt is being made to settie the vexed Puyallup Indian reservation question. Senator Dawes has in troduced a bill providing an appropria-tion of \$25,000 to pay the expenses of a commission, which shall determine the trodu

rights of individual Indians who have taken allotments and also secure a list of unallotted lands within the reserva tion. This commission is to make a plat of all lands, appraise the value of each tract and make a report to the Secretary of the Interior. If the report is approved, then the commission is to be authorized to sell the lands at auction owned by the Indians, and also the lands which have not been allotted adjacent to the eity of Tacoma are to be laid out into lots and sold, the money to be de-posited in the United States Treasury

The negotiations for the sale of Ell-nod Cooper's ranch to an English com-any, which have been perfected. Forfeit oney has been paid and the ranch will, oney has been paid and the ranch will, sreafter be known as the Ellwood yndicate (limited.) Dr. Harold Side-otham is the agent for the syndicate, and will move on the ranch at once. This is the famous olive oil property his is the famous olive oil property his is the famous olive oil property and draw interest for the Indians at the and draw interest for the Indians' allotted and so the reservation, but there is yet a question to be considered. This is re-garding the contract made by Indians who bold lands in severalty with other persons, and who claim that they have and the famous olive is in stid to their contracts made with the Indians who hold lands in severalty with other persons, and who claim that they have a distinct right on the lands, and that their contracts made with the Indians o shall be first considered. It is evident that in anything done with the Puyallup ands considerable litigation will follow.

16y, v Support for the measure providing for a return to the old method of execution

in New York does not develop. It looks as if electrocution had come to stay. diamondiferous products, ostrich The Governor of Georgia has pardoned

a negro who was sentenced to fitteen years in the penitentiary for stealing 30 will accompany the exhibit. ents. When pardoned he had served ten years.

The Western Union will appeal from the recent decision of Justice Brewer, which deprived the company of the lease of the Union Pacific telegraph lines.

The Chicago Tribune declares that the English company that purchased the Black Hills tin mines is delaying the derelopment of their ores simply to benefit its mines in Wales. The State of Pennsylvania has pro vided for the payment of the last dollar of its debt in 1912 through the operation of a sinking fund, for which provision vas made before the war.

Editor Pulitzer of the New York World secured the long-sought Park Row and play. Ann streets property, about 1,300 square leet, for \$2 18,000 at public auction last week—less than he had offered.

Senator Felton has introduced a bill appropriating \$500,000 for experiments in the raising, decorticating and ingumming of fibrous plants, ramie, flax, hemp, jute, etc., and the manufacture

of the same into fabrics. Carnegie is reported to have said that he thinks himself worth \$30,000,000 to E. E. Samuels, who has been giving to the Pittsburg newspapers some marvel-ous accounts of the Dakota tin mines, says their speedy development will save the United States from sending \$30,000,-000 annually to Wales for tin. \$35,000,000; that he will spend all before e dies, and that not a cent shall go to a church. Congressman Tom L. Johnson of Cleve

The colored military Tennessee rifles company of Memphis disbanded as a re-sult of the action of Judge Dubose in ortune of nearly a million

ordering the arms of the company con-fiscated during the excitement following the lynching of the three negroes recently.

Mr. Caminetti has secured a favorable report from the Mining Committee on his bill to create a Department of Mines with a Cabinet officer at the head of it. He is so confident of its passage at the next session that he has risked a suit of clothes on the outcome.

The annual spring inflox of Canadian working people into new England has begun, the trains arriving in Bangor

rom St. John, N. B., bringing on an average 100 second-class passengers a day. Most of them are bound for Bos-Denver in May. day. ton and other Massachusetts cities.

About +0,000,000 ounces of silver, over who died of typhus fever while in the 2,000 tons, in the shape of bars weighing from 1,000 to 1,200 ounces each, are discharge of duty as a reporter for the Morning Advertiser. N. R. O'Conor, the new British Minat present stored in the basement of the
