EUGENE CITY, OREGON

## Judge Shattuck Opposed to the

Chinese Exclusion Act.

AN APPOINTMENT BY GOV. MARKHAM.

British Seal Poachers Threaten to Sai Under the German and Other Flags-Other News.

A large colony of Japanese propose to emigrate to Sonora, Mexico, locate along the Yaqui river and cultivate silk, tea

Chinese are getting into San Diego from Mexico with but little trouble Eighteen were smuggled in at one time a few days ago.

There is a protest against the manner in which the voting booths are being constructed at Los Angeles. It is claimed they will permit of fraud.

Charles Taylor, the man who "peached" on Frank Henton, his pal, in the robbing of the Boise City postoffice, now says his story was false, but that statement is not credited. The Chinese of Portland are exercised

over the death of one of their country-men while in the jail. They claim the police used undue violence, and are deermined to have the case thoroughly

The Palm Valley Water Company in San Diego county, Cal., has ordered In-dian Agent Rust to reopen the ditch which he recently closed. The Indians are overjoyed at their ditch being given back to them.

The State Supreme Court of Idaho has held valid what is called the high-license law in Idaho. The court sustains the law at every point. The measure pro-vides that the license shall vary in towns of different population.

Governor Markham has tendered the appointment of delegate to the National Micaragua Canal Convention, to be held in St. Louis on June 2, to Hon. J. D. Lynch, editor of the Los Angeles Herald.

Mr. Lynch has accepted.

Astoria's railroad excitement has taken to that city a gang of burglars, who are frightening lone women in their houses in the early part of the evening. A number of petty thefts are reported, but no large "haul" has yet been made.

The seal poachers of British Columbia threaten to sail under German and other flags and look to other governments than Great Britain for protection. Many of the scalers have invested all their money in these piratical ventures, and are now bemoaning the probable loss of their in-

Chances are favorable for the establishment of the proposed telephone line from Pendleton to Long Creek and Canwill begin very soon. As soon as roads opposing the pending resolution authorizing the landing of the French cable on ager of the Pendleton Exchange, and others interested will go over the route and perfect arrangements. The building French Cable Company, co-operating

Hopmen of Lane county, Or., report that up to within a couple of weeks ago hops made a rapid and hardy growth, but the past two weeks ago they have grown very slowly, owing to the damp, cold weather. They expect them to come out all right, however, and the prospects at present are that hops will command a good price next fall. They are now quoted as being worth 35 cents. Most hop raisers believe that the hop lice are going to be numerous this sum mer, and many of them are already preparing to do a large amount of spraying.

School Superintendent McElroy, who has in charge the Oregon educational exhibit at the World's Fair, has appointed the following officers of the Executive Committee: Prof. I. W. Pratt of Portland, President; B. W. Hawthorne of Eugene, Secretary. The Oregon exhibit will occupy 3,000 square feet of floor space and be under eight heads, as follows: Department blanks, kindergarten elementary schools, specimens all institutions, from intermediate and high schools, from commercial ols, from normals and from academies and universities.

Recently a Salem citizen put 1,000 catfish in the slough at Salem, and in-quiry was made of the United States Fish Commissioner regarding stocking of the river with suitable kinds of fish. In the reply just received the Commis-sioner says, in order to give anadromous species an opportunity to ascend the Willamette, the Oregon City falls must be overcome, and until the State provides for this the greater extent of the river must remain without salmon and migratory trout. He says certain fish, not migratory, can be placed above the obstruction, but the falls now prevent the utilization of what would become a great resource for the State.

Judge Shattuck refused a writ of ha beas corpus in the case of thirteen Chinese, who came to Portland on the per Batavia and were denied landby the Federal authorities. Judge Shattuck gave his decision in accordance with United States law, and then proceeded to declare the law excluding the Chinese obnoxious and iniquitous. "We must alter our attitude toward the Chi- yet touched the Pacific Coast improvesaid he, "or war will be the re-China is getting to be a very wealthy and powerful nation, as the French found after a vain struggle of three or four years to get possession of a tor Squire made for Washington will se-

CONGRESSIONAL MATTERS.

Bill Designed to Remedy Defec's in the Workings of the Interstate Commerce Law.

The Treasury Department has decided that customs officers are not authorized to permit the original entry of Chinese persons on the submission of naturalization papers issued by another govern-

The United States Court of Claims has rendered a judgment under the Hermann bill of last Congress in favor of Ezekiel Bailey of Douglas county, Or., for \$2,650 for property destroyed in the Oregon In-

The annual fortifications bill has been practically agreed on by the fortifications subcommittee of the House Committee on Appropriations. A cut amounting to more than 35 per cent, has been made from the bill of last year.

The Senate has adopted the resolution offered by Stewart several weeks ago, calling upon the Secretary of the Treas-ury for information as to the purchase of silver bullion and the coinage of silver under the act of 1890.

Bland has introduced a resolution in the House instructing the Committee on Ways and Means to report a bill imposing an income tax sufficient to meet expenditures for pensions; also a bill to repeal all taxes imposed upon currency issued by authority of the States.

The House Committee on Agriculture has decided to report a bill providing for agricultural colleges for experiments in silk culture. Representative Caminetti says one of them will go to California under the bill's provisions. It will be under the supervision of the University

of California. Senator Allen has submitted to the Indian Committee what he thinks is about the fair thing for a report on the take the same view of the situation as the Washington delegation, and is liable

to make a different report. The elaborate bill designed to remedy the defects in the workings of the interstate commerce law and to increase the efficiency of the law was ordered favor-ably reported to the House by the Commerce Committee, which through a sub-committee has been working on the

measure for some weeks past. After having considered the question of constitutionality for a long time the House Judiciary Committee has decided to report a resolution directing an investigation to be made into the Pinkerton system. The committee came to the conclusion because of the alleged use of Pinkerton men by interstate commerce carriers and also because it was alleged their employment resulted in violence to

persons and property. Senator Squire says he is not sure that he will be able to secure the passage of the bill for the gun factory on the Pacific Coast, and he is now looking with some favor upon the proposition from the War Department, which suggests that the Pacific Coast should, pending legisla-tion on this latter, accept about fifty mortars, to be situated at important points for the protection of the rives and harbor property. Even if the bill should pass for a government factory, it could not be built and turn out guns until at least two years. During that time it is thought by some of the War Department officials that it would be well to send

the mortars to the coast. Secretary Blaine appeared the other day before the Senate Committee on yon City, and it is probable that work Commerce and made a strong argument opposing the pending resolution author-izing the landing of the French cable on of the line will be a great advantage to with the Brazilian government, had an Pendleton and to places all along the absolute monopoly of the cable privileges between the United States and Brazil, and if the resolutions passed, the negotiations looking to the procurement of a concession to the American Cable Company would come to naught. The Secretary appeared to be in excellent health, and made his argument with

spirit and emphasis. Mr. Mason, Commissioner of the ternal Revenue, said the other day that the recent decision of the Supreme Court of the United States in the case of George R. Eaton is liable to be misunderstood by persons not familiar with the facts. That particular case, he explained, arose under the original oleomargarine act, which did not prescribe a penalty in case wholesale dealers failed to report to the Commissioner of Internal Revenue The law, however, was subsequently amended to cover this omission. It The law. should be understood therefore it is no

but a provision of the law. John Joy Edson, Chairman of the Citizens' Committee of the Twenty-sixth National Encampment of the Grand Army, to be held at Washington in September, has written a letter to Commander-in-Chief Palmer, stating the committee has asked Congress to appropriate \$100,000 from the funds of the District of Columbia to assist in paying the expenses of the encampment, and that in consequence of the erroneou belief that the appropriation was asked from the fund of the general government, members of the Grand Army sent protests to Congress against the appropriation. Edson says the misapprehension is embarrassing to the committee,

and asks the appropriation may be requested so far as possible. Economist Holman is determined to make a very strong fight against the river and harbor bill when it comes up in the House. He thinks he will have strength enough to defeat it. Chairman Blanchard, however, says he sees no reason why it should not pass. The Senate Committee on Commerce is going shead with the consideration of the bil and the amendments which that committee proposes to make to it when the bill comes over. They have gone about half way through the bill, but have not ments either on rivers or harbors. There is no doubt Senator Dolph will secure some amendments for increases in Oregon, and the present action which Senacure some increases for that State.

Three members of the House Commit-

tee on Foreign Affairs (Geary, O'Donnell porting to the House a set of resolutions been rain or snow, and the temperature in place of what they regard as a per-has ranged lower than usual. \$150,000.

President Harrison has designs upor

purchasing the old Harrison homestead, which is part of the Berkeley estate on the James river. The Thomas-Houston Company is

locomotive, which is designed to develop building at the exposition. 500-horse power. Charlie Wing, the Japanese leper, who for over two months has been an inmate of the Philadelphia Municipal Hospital,

is said to be recovering. At Topeka, Kan., indictments against several Union Pacific railway officials are looked for on charge of violating the

interstate-commerce law. Dr. Julius Goebel of New York city has been appointed associate professor of German literature in the Leland Stanford (Jr.) University.

Mrs. J. Coleman Drayton will not live in Europe. She will live with her mother, and will return to New York to take her old place in society. Mr. Dray-ton will reside abroad.

The farmers of the United States sent abroad in March of this year breadstuffs valued at \$28,000,000, whereas the amount of such exports in March of last year was only \$12,000,000. Senator Teller says there is no founda

tion for the report that the silver men

would form a new party. A league to promote silver interests is to be organized, but not as a political party.

Crneity is alleged. Clark of Wyoming has introduced in the House a bill to extend the right of over 21 years of age to vote for Represshown at San Francisco.

sentatives in Congress. The connection between the two sec tions of the intermediate spans of the great bridge at Memphis has been finally made, and the completion of the structure will be a matter of a very short time. Charles E. Stone, land commissioner

of the Louisville and Nashville railroad, a club man and society leader, is under arrest at Birmingham, Ala., for embezkling \$10,000. He is said to have gambled heavily. The Mississippi river is still rising

rapidly, and there is every indication that it will pass the high-water mark of last year. It has been raining most of the time the past week, and at some longer a mere department regulation, points the levees are caving.

E. O. Leech, Director of the Mint a Washington, states that the product of silver from American mines last year was 58,330,000 ounces of the comme value of \$57,630,040, or a coinage value in silver dollars of \$75,416,565,

The Lower House of the New York Legislature has passed a woman's suf-frage bill, which will be defeated in the Senate. Last year the Senate passed it, and the Assembly defeated it. This game of passing the measure in one branch and then defeating it in the other has been played again and again.

Another imposing structure will soon rise beside the divinity building of the Catholic University of America at Washington on the grounds of that institustone recently with impressive ceremo-

General Foster, who assisted in the Brazil reciprocity treaty says the United States never promised not to make a similar agreement with any European country. Reports that such an agree ment was reached have been circulated by enemies of the Brazilian government

for political purposes. A quadroon named Charles McMillan, just convicted for burglary and theft at ilouston, Tex., has been identified as the man wanted in Sedalia, Mo., for assaulting Mrs. Taylor some time ago. Mrs. Taylor went to Houston, and at the sight of the man fainted and had to be removed. It will be remembered that the whole country about Sedalia was out in search of the villain shortly after the crime was committed.

In the Superior Court at Boston a jury brought in a verdict of \$10,000 in favor of Rev. W. W. Downs against Dr. R. K. loyes, Mrs. Abbie Campbell and Alice Nepton in the suit brought to recover damages for an alleged conspiracy to accuse the plaintiff of adultery. For the A. Wilbor, Dr. George Stackpole and Fred J. Tabor, the court ordered a procommenced throughout that region, but peal of the May laws imitting the prespect of a reprogresses slowly, owing to the bad weather. Heppner is full of sheepshear-ers, and some branches of business in that town are accordingly lively. Among the ahearers is one Moreland of California, whom, it is claimed, holds the title of being the facts ascertained by the Minister of the May laws imitting the prespect of a reprogresses slowly, owing to the bad weather. Heppner is full of sheepshear-ers, and some branches of business in that town are accordingly lively. Among the ahearers is one Moreland of California, whom, it is claimed, holds the title of being the facts ascertained by the Minister of their more than the May are Church, where he had been officiating. Downs protested his innocence, and charged that the Nepton woman had been hired by the other defendants to make the charges against him in order to damage his reputation and to compel him to leave the church. He has a record of 276 sheep in ten the United States and Russia. He brought suit for \$50,000.

THE CHICAGO EXPOSITION.

Belgium Will Make an Extensive Exhibit, Including Over 400 Works of Art.

Victoria, Australia, has made a World's

Fair appropriation of \$100,000. The bulletine sent out by the Chicago World's Fair Commission contain no

mention of Oregon.

In the government exhibit will appear all the relice, which are obtainable, of various Arctic exploring expeditions. Arguments for and against Sunday opening of the exposition will be heard by the national convention on October 6.

Great Britain has added £35,000 to its World's Fair appropriation, making it now £60,000, or approximately \$300,000. The number of intending exhibitors announced from Pennsylvania up to date

is 350, of whom 250 are Philadelphians. Applications for space in the exposition buildings now aggregate more than 4,000,000 square feet, a little over one third being from foreign applicants. An Esquimsux village inhabited by from fifty to seventy-five natives of the

frozen region will be one of the sights on Midway Plaisance at the exposition. It is reported that a number of Indians rom the Peruvian forests and a large collection of native Peruvian paintings

will be included in the exhibit which Peru will make. In the California building will be shown a growing specimen of every Cal-ifornia domestic flower obtainable and also paintings in water and oil of 600

wild flowers and grasses. A concession has been granted for the construction on Midway Plaisance of a \$60,000 natatorium, which will include besides a large swimming pool, bath rooms, a cale and flower and cigar stands.

A young lad, son of the editor of the Florida Standard, is making for exhibi-tion at the fair a table, upon which ap-pears an inlaid map of the State, each county being accurately represented by a separate piece of native Florida wood.

'H. W. Young of Augusta, Ill., has a Bible printed in 1615, the ownership of which in this country he has traced back be trying to form a natural-gas trust. to 1660. He believes it was brought over The object is to prevent waste and get in the Mayflower in 1620, and he wants to exhibit it at the exposition. In Georgia exceptionally strong efforts

are being made to make its State Fair this year as complete and representative as possible, for it has been decided to send the best of the exhibits to Chicago building at its shops in Lynn an electric and place them on view in the Georgia

The women members of the North Carolina World's Fair Board have undertaken to raise \$10,000 to be devoted to the erection of a State building at the exposition. They will hold meetings at numerous points throughout the State and receive subscriptions. The Pall Mall Gazette states that the

exhibit of the pottery industry of the Midlands will form perhaps the most important and interesting part of the British section at the exposition. Nearly all of the great pottery firms have ap-plied each for a liberal allotment of Word has been received at exposition beadquarters that Belgium will make an

extensive exhibit, including over 400 works of art, embracing both paintings and statuary, a varied assortment of manufactured articles, arms and mu-sical instruments. A special Belgian Commissioner to the fair is expected to arrive in Chicago soon. During October of this year a fair will

# THE FARM AND GARDEN

Some Very Interesting Matter on Small Fruit Culture.

HOW TO GROW FRUIT SUCCESSFULLY.

Currants and Gooseberries Should be Planted in Deep, Rich Soil and Kept Cultivated.

To grow fruit successfully there are a ew general rules that must be observed.

2. All plants with the exception of strawberries (which should be set with the crown of the plant even with the top of the ground) should be planted a

Any soil that will raise ordinary farm crops will raise good fruit if taken care of, and unless plants are well cared for one cannot expect to get good results. The better the condition of the soil the more fruit we will get.

With strawberries we get the best re-sults from spring planting and training in the matted row, having the rows about eighteen inches in width with an alley between for the pickers and to work in. The season the plants are set we pick off all the blossoms, throwing the strength into the new plants and runners. The distance for planting should be governed by the varieties grownthree and one-half or four feet by one and one half feet to two feet is the distance we plant. After the ground is frozen cover with hay or straw, removing enough of it in the spring so the plants can come up rapidly. Plant one row of perfect blossom varieties to every wo or three pistillate or imperfect

blooming sorts. Raspberries and blackberries require about the same treatment. Set black-caps about four inches deep. Red raspberries and blackberries five or six inches deep. Seven by three feet is a good distance to plant black raspberries and blackberries; four by five feet if kept in hills, and six by two feet hedge row for reds. Give good cultivation and muich every spring in the row with coarse ma-When the new canes are about eighteen inches high pinch off the top. They will then throw out side branches and largely increase the yield of fruit, Early in the spring cut back these side branches on the black raspberries to within fourteen to sixteen inches of the main stalk. As soon as through fruiting cut out old canes and burn them, leaving only four or five of the strongest new canes in a hill for the next season's

fruiting.
For best results with currants and goos berries plant in deep, rich soil four or five feet apart each way; keep well cultivated and give a good coat of wellrolted manure each season. Do not allow the bushes to get too woody. Keep well thinned out in the center by cutting out the weakest sprouts. For the "currant worm" use white he'lebore—one ounce to two and one-half to three gallons of water. Apply with a common sprinkler or dust bushes with the powder when

the dew is on. The worm will appear first near the ground, and if taken then. two or three applications will do the As to selection of varieties take a reliable firm's catalogue that describes fruit as it is, and select such kinds as on think will best suit you. We do not claim that our way is the only way, but this plan has given us good results, and we believe it will others if followed.

Orchards Need the Best Land.

If an orchard is to be planted, it ought to be given care and manure enough to insure its success. More failures come rom planting on exhausted soil than from any other single cause. The farmer knows the land needs more fertility; hence he applies large amounts of stable manure. This is comparatively poor in mineral plant food and usually richer than it ought to be in nitrogen. Hence the farmer gets a great growth of leaf and wood, but the trees are slow to come into bearing. On new land the proportion between nitrogenous and mineral plant food was better adapted to make healthy growth. Hence trees come into bearing early, and once in bearing their management was easier than it is under modern conditions. A few years' growth of clover on land 'ntended for orchards, possibly one or more clover crops plowed under, will put the land in best condition for successful orcharding. On land thus fitted no stable manure is needed until the trees begin bearing. After the trees are plant-d pea crops may be grown yearly and fed down by hogs to keep up fertility, sowing rye in the fall to be plowed under each spring to give the peas a start. It has been found that the pea crop enriches the soil by decomposing nitrogen through its roots, the same as clover does. The pea crop has the advantage of clover in requiring only one season to grow it and in not injuring growth of trees, as a clover sod is s to while it is being grown.

NOTES. The farmers' oleo bill has passed the Massachusetts Senate successfully. The bill in brief provides that oleo shall be sold in its original color and not be colored to imitate butter.

stand in. Before setting them out see that the land is drained to as great a depth as the roots are expected to run, and better if to a foot or more deeper. The trouble with those who fail in feeding bran is that they feed too little meal with it. When they feed a well-
