**THE CRY OF MILLIONS!**

OH, MY BACK! STOP IT NOW. SOON IT WILL BE TOO LATE.

I have been troubled many years with disease of the kidneys and have tried many different remedies and have sought aid from different physicians without relief. About the middle of April I was suffering from a very violent attack of rheumatism, which was so bad that I could not get up alone, or to put on my clothes, when kind Providence sent Dr. HENLEY with the OREGON KIDNEY TEA, to my hotel. I immediately commenced using the tea. It had an almost miraculous effect, and to the astonishment of all the guests at the hotel, a few days I am happy to state, that I was a new man. I will recommend the tea to all afflicted as I have been.

Senator Veatch and E. R. Skipworth returned here Saturday from their canvass throughout the district. They report the democrats active and hopeful. They report the republicans less so. Mr. Veatch left on this morning's stage to fill his appointment at Florence.

John Maulding, of near Silverton, has nine ewes and these animals have eighteen lambs of about the same age. Mr. Maulding thinks this record is good enough to be open to challenge. Oregon is a pretty good country for sheep.

F. S. Harding, of the McMinnville Telephone Register, accompanied by his wife, stopped off of the editorial train this morning, and will spend a few days in the city. Mr. Harding was a delegate to the convention at San Francisco.

While traveling on the road from Stayton to King's station, Captain Grant Lake was approached by two disguised men, who bound and gagged him and took from his person \$250 in cash and papers and receipts he had taken for money paid to members of Company A, O. N. G.

T. J. Clopton drove about 500 head of cattle into Klamath last week from Mexico. He started from that tropical region with about 600 head, but owing to the hardships of such a long tramp in the cattle cars, 100 died on the trip. The remainder are very weak, but will pick up rapidly on the fine mountain grass.

Sunday's Statesman: Prof. E. B. McElroy will spend the next four days in Linn, Benton, Lane and Douglas county in southern Oregon in the interests of the Oregon exhibit at the world's fair, and also in the interest of the state teachers' association to be held in Portland during the last week in June.

The Southern Pacific Railroad Company began unloading the big slide at West Fork last week. The country is so loosely constructed that they were compelled to build a "V" frame for over one and a half miles. They expect to have enough water to fill a 10-inch pipe, but only have a fall of about 100 feet. A number of Portland people were in attendance to see the mound melt and run down into the canyon below.

Mr. Fisk bought and paid for the timber lands he owns and got it in an investment. He is not in the same boat with the Register man, who entered into an unlawful contract with a timber land shark, lost his money, then squealed. A contract which to carry it out would have required perjury. Mr. Fisk is interested in the welfare of Lane county equally with other citizens and desires to see her progress and prosper.

Brownsville Times: Last Wednesday a gang of 80 white men arrived at the O. P. crossing for the purpose of laying the heavy steel rails. They will probably be laid to this place in about six or seven weeks. When they are laid to Ceburg and the road is ballasted up in good shape, it is generally understood that the company will commence running separate trains. We will then have all the accommodations that they have on the main line.

The West, May 27: H. H. Fisk informs us that he will soon put in a single mill—Upon the return of the steamer Chance from Portland a fine hack will be unloaded at Florence. This hack will be used in carrying passengers from Florence to Heetsa Head and is to be owned and driven by W. E. Warren.—Steamer Coos commenced her regular run between Florence and Head of Tide Tuesday of this week. She is by far the finest passenger boat ever run on the river and is deserving of the patronage of every person in the valley.

According to the Register it is a crime this year to scratch the republican ticket, and vote for a better man. We can inform that paper right now that "criminals" of that kind will be plentiful on June 6th.

East Portland Chronicle: Capt. N. S. Pierce, who left here so mysteriously several months ago, has been heard from at the Soldier's home in Dayton, Ohio. He suffered a stroke of paralysis but is getting well and will be home in a few weeks. Possibly E. R. Luckey of Eugene, and Mr. Wisdom of this city will turn up in the same way soon.

Jesse D. Carr's herd of nearly 2000 steers, driven up from Ashland, are on Frank Adam's rich grass on Tule lake, where the branding iron is making their fat sizzle. Large herds of steers bought by Carr are now being driven to the Deschutes country and Mexico to be ranged in the Alturas country. Jesse D. Carr, the "Sage of Salinas," is the greatest cattle king of America.

Junction Times, May 28: The new hotel will be thrown open to the public today. Mrs. Munra has leased the hotel and everything will be conducted in first-class style. She has had many years of experience and her reputation and popularity as a hostess are well known to the traveling public, and many will carry her on account of the excellent hotel accommodations. The hotel was very fortunate in securing Mrs. Munra.

Governor Pennoyer is a hat ahead on a wager with Chairman Patterson of the Marion county Republican committee. The governor bet he could take a sample ballot under the Australian system, fix up his ticket and have it ready in two minutes and he won by turning it over, complete and ready for the judges, five seconds ahead of time. It was a Multnomah county ticket used and the governor voted it straight Republican, scratching every Democrat, independent, prohibitionist or peoples party men whose name was printed thereon. He won't vote that way on election day.

**Stuck on Johnson's Wife.**

Portland Sunday Welcome.

Joseph Egan, almost entirely bereft of sight and only able to read through the medium of a book, has some time ago was engaged in the manufacture of tombstones in Albany, is considerable of a Lothario despite his blindness. He seems to have been for months past madly infatuated with the wife of W. L. Johnson, a barber, formerly living in Eugene, but now playing his vacation in the fall of Everett street in this city. Some time ago Johnson left his husband on account of his intemperate habits and went with Egan, his brother and wife to California but later came to this city. Egan purchased a barbering outfit, rented a shop and installed Mrs. Johnson therein as chief artist, the arrangement being that he was to receive forty per cent of the receipts as his share of the business until the woman had paid back the amount of the original investment. Johnson in the meanwhile had returned, effected a reconciliation with his wife, and partnership was promptly declared off. When Mrs. Johnson learned that Egan was going back to her husband she threatened to shoot himself if he did, but being still in the flesh, probably lacked the requisite nerve. Of late he has amused himself by calling on Mrs. Johnson against the wishes of her husband, and armed with a revolver threatened to shoot her in a fall of holes if she interfered with this. As no job failed, she so he had the man arrested on a charge of carrying a concealed weapon and Monday Egan was fined \$20 in the police court for the offense.

**Springfield Items.**

Messenger, May 27.

Why not Eugene and Springfield join in celebrating the glorious fourth and hold the celebration in Fairmount park.

A picked nine from Eugene is billed to play our boys tomorrow. The game will be called about 2 o'clock and will be played on the ground in the east part of town.

At its last session the town council let the contract of establishing ten miles of street grade to W. B. Pezger, who together with his assistants began the work Tuesday.

Constable Martin went to Walker station, Monday, to arrest Bud Jackson and Lejoy, for fast driving over the Willamette bridge. He found his men and they forked over the \$10 fine without a murmur.

L. F. Conn Appointed.

WASHINGTON, May 28.—The president yesterday nominated Lafayette F. Conn, of Oregon, commissioner for the district of Alaska, to reside in Ounahaska.

Life Conn says he will probably not qualify as commissioner to the Ounahaska, Alaska, as he does not wish to bury himself and there is nothing in the office pecuniary.

**The Best Judge We Ever Had.**

The Cottage Grove Leader, whose editor is a life long republican, says:

We have heretofore had something to say concerning the splendid judicial record made by Judge Pipes, and now we wish to call attention to the fact that most districts and states are slow to drop their experienced judges for new men. One of the most difficult things to obtain in the state under our political system is competent judges. When such a man is found he shines out among the people and bar like a lighthouse on the sea of darkness. Judge Pipes has beyond all cavil proved himself to be competent and broad on the bench. He recognizes no party or classes. He is urbane and judicious—and with all—just. Judge Pipes' acquaintance with the people and affairs of the district are extensive—and having by experience—that knowledge so necessary to fully administer the laws—we are of the opinion that the second judicial district can ill afford to set Judge Pipes aside and take up a new man WHOLLY UNTRIED IN ANY JUDICIAL CAPACITY,

and having never made a record of any note as a lawyer. There is no use in the voters shutting their eyes to the fact that Judge Pipes' competitor's record is that of a selfish local politician. That he is known (or what is known of him) over the district as a ring politician of Douglas county. We urge upon the attention of the voters that it would be suicidal to defeat the

**BEST JUDGE WE EVER HAD,**

and elect a small politician to the high office of judge.

Working for Dolph.

Under Cleveland federal officials were not permitted to interfere at elections. Now times are different, and at present a sleek individual drawing \$8 per day from the government for doing nothing, principally, is going about Lane county telling the people how to vote. Mr. Alley, the republican candidate for state senator, is an especial pet of his. The reason is plain to be seen. J. N. Dolph, the aristocratic gold bug senator is a candidate for re-election, and the state senator's vote would help him.

The peoples and prohibition parties are opposed to the re-election of Mr. Dolph. Their candidates for state senator have no possible chance for an election. When they cast their votes for them they vote indirectly to assist in the election of Dolph. We believe the people will administer a deserved rebuke to the party sending out a highly paid federal official to attempt to control our elections.

The Telegram says that the farmers and laborers of the Willamette valley and southern Oregon have on two occasions shown that they were unshackled men, with intelligence and independence. Every vote that was cast for Pennoyer in 1886 and 1890 ought to be cast June 6 for Robert M. Veatch, the people's friend and servant. He deserves them. He has earned them.

Dr. Loomis and A. C. Woodcock spoke at Coburg May 27th, to a fair audience. We regret to learn that the Dr. did not explain his connection with the government service and for what he receives an \$8 a day salary. He waved the bloody shirt principally with incidental attacks on democratic county nominees. Mr. Woodcock made the surprising statement that the foreign manufacturer paid the tariff tax, while the Dr. somewhat contradicted his position by the statement that it was an easy way to pay taxes as the buyer did not feel it directly.

Benton Leader: While some of the voters of this county censure Hon. M. L. Pipes for the decisions he has made regarding the O. P. railroad matters, they should bear in mind that his opinions have been sustained in the higher courts. Let them fully study this matter and they will learn that his decisions have been rendered in accordance with law and justice, and every man in the county will yet know that by so doing Judge Pipes has been a great benefactor to the whole of Oregon. Not only for this reason should he be elected to succeed himself, but he has proven himself as among the ablest judges that has sat upon the bench in this district since it has been a district. His record of the past two years will bear us out in this assertion.

Hon. R. G. Horr, the republican missionary from Michigan, tells the people that his party is in favor of the present silver policy which enables the government to buy 70 cents' worth of silver for a gold dollar and coin it into a silver dollar worth 100 cents. This is what the Sherman bill has done for speculators. It is true that under this infamous system the price of silver has been reduced and the government and speculators are profiting by this depreciation of the greatest product the people have. Mr. Horr tells the true inwardness of the whole silver question when he makes this declaration. It is for this very reason that the people demand a change in the law and the placing of silver on a par with gold. They are opposed to the government speculation.

Mr. Wilkinson is a young man but never voted when under age, as one of his detractors confesses he did.

Let the voter bear in mind when making up his ticket to vote, that he must cancel, cross or mark out the names of all candidates for whom he does not wish to vote.

That anomaly, a woman hermit, may be found in Glynn county, Ga., in the person of Miss Ann Piper, who has spoken to but three persons in the past sixteen years. Although she lives within two miles of a railroad she has never seen a train.

The campaign of the \$8 a day government official seems to have fallen flat. The people recognize that there is a decency in politics that should be observed. A salaried employee of the government is the last one to convince anyone of the justice of his claims.

Mr. Woodcock denies that he said in his Coburg speech that the foreign manufacturer paid the tariff tax. However, high tariff orators and newspapers all over the land are constantly asserting such to be the fact, trusting to the gullibility of humanity to effect their object.

Robert M. Veatch has let the people of Oregon know how he stands. He is for their interests and they should remain true to him. Lane county has honored her favorite son in the past and will do so in the future. The people of Lane county appreciate his merit and know his intents and purposes.

The citizens of Eugene are unanimous in the opinion that a railroad to Florence would give us lower freights for the merchandise used by our citizens, and farmers, and would give lower freights to every pound of grain, wool and hops shipped from Lane county and points adjacent.

Salem Statesman: The little steamer R. C. Young ascended as high as Eugene simply to prove that the Willamette was navigable to that distance above and for that reason to urge congress for an appropriation to clear it of snags. On the way down she clinched the argument by running onto a snag and disabling herself.

While in the state senate J. C. Fullerton voted for the Portland untaxed water bond bill. From first to last he stood with Joe Simon in his attempt to secure the issuance of \$1,500,000 worth of untaxed water bonds to be held by Portland capitalists. Will not the man who stood by the Ring in the legislative stand by it on the bench? Voters what think you?

In addition to the many shady features of F. A. Moore's unfitness for the supreme bench it should not be lost sight of that he is a corporation lawyer having been for some time in the employ of the Northern Pacific railroad. The people do not want a corporation man on the bench. They have already had too much of that.

Junction City Times, independent republican, says: The voters should continually bear in mind that Judge Pipes is urbane, firm and just on the bench, and has proven himself to be an honest and competent judge. He is a man of the people and recognizes no party or classes. The experience that Judge Pipes has gained while on the bench is both valuable to him and useful to the people.

Well, the campaign of state politics will be through next week and then all can take a short rest until the giants of Minneapolis and Chicago are named. It will take a shrewd guesser to name the contestants from present appearances. The Blaine boom is hurting Harrison, while the emity of New York and South Carolina are premonitions that are not encouraging to Cleveland's forces. A democratic candidate cannot afford the ill will of the Palmetto state.

The Independence West Side, edited by Rev. J. R. N. Bell, says: We learn from many sources that Hon. R. M. Veatch is making a good impression upon the people wherever he goes. Many were disappointed because he was unable to address them at this place and at Dallas. However, Mr. Skipworth is always equal to the occasion, filled the bill to the letter. Hon. Veatch and Skipworth visited the state normal school and made very pleasant remarks, which were highly appreciated by all present, especially the professors and students. To know the good work the normal school is doing for the state is to "come and see."

Roseburg Review: This morning a large number of copies of the Corvallis Times (special edition) were scattered around Roseburg by J. C. Fullerton and his friends. This paper is devoted entirely to abuse of Judge Pipes without a single line of sense or reason in it. It is a paper which has had for years the reputation of being a blackmail sheet, as everybody knows. The O. P. railroad case was decided according to law and justice, the men have received their pay and the difficulties between the bondholders have been settled and the road will be pushed to an Eastern connection. No other course but that taken by Judge Pipes could have secured this result and the Plaindealer admitted candidly at the time that the decisions were correct.
