#### CONGRESSIONAL MATTERS.

Caminetti Unable to Get His Debris Bill Refore the House-Monument to General Sherman. EUGENE CITY, OREGON.

> The House has passed the bill giving \$50,000 for a pedestal and monument to General W. T. Sherman.

Senator Blackburn has introduced bill appropriating \$1,200,000 for the pro-curements under contract of fifty mortars and carriages for the defense of the

The Department of Agriculture issues a statement showing the imports of American corn into Germany for the first three months of this year, compared with a corresponding time last year, have increased from 1,110,000 bushels to Mr. Caminetti has been unable to get

his mining debris bill before the House, and the result is that if the House adourns on July 4, the date which is contemplated, there will be no chance for the bill to pass. It requires unanimous consent to bring it up, and that cannot be obtained. It is understood that Captain Louis

Kempff is assigned to the command of the new coast-defense ship Monterey, which is nearing completion at the Union iron works in California. In order that he may superintend her fitting out be will receive preliminary orders to her during the present month.

The House went into committee of the whole for consideration of the agricult-ural appropriation bill. The bill was read by paragraphs for amendments. J. D. Taylor of Ohio took occasion to make a vigorous speech, which was an wered in the same vigorous manner by Simpson of Kansas. The committee rose, and the bill passed.

Oates of Alabama called up the bill modifying the Revised Statutes so as to dispense with the proof of loyalty dur-ing the war of the Rebellion as a prerequisite of being restored or admitted to the pension roll of any person who otherwise would be entitled there-to, nor shall proof of loyalty be neces sary in any application for bounty land where the proof otherwise shows the applicant is entitled thereto, providing no soldier admitted to the pension roll shall receive back pay. This act shall not extend to any person under disabil-ity by the fourteenth constitutional amendment. The bill was passed.

Representative Hermann has suceded in passing a bill extending for three years the time of settlers who are purchasers of forfeited railroad lands, and whose time to make payment ex-pires September 23 next. McMillan of Tennessee antagonized the measure, but when Hermann explained the history o the bill he withdrew his objection. Her mann read to the House resolution passed by the Republican and Demoeratic County Conventions of Wasc-county, Or., where many people reside on forfeited land along the railroad. He also read petitions from the State Grange It is stated that 3,000,000 pounds of and Alliances, asking for this light and stating that by reason of the failure wool will pass through the hands of a of the crops many persons were unable of the crops many persons were unable

to pay for homes. Senator Dolph has secured from the Committee on Pu'll c Buildings and Grounds a favorable report upon his bill to increase the limit of the cost of a public building at Portland to \$1,000,000; also a favorab e report of his amendment o the sundry civil appropriation bill for the same purpose. The Senator says he will secure the passage of his bill through the Senate at the first favorable opportunity, but hardly hopes for a favorable consideration in the House. He fears also, if he succeeds in getting the amend ment to the sundry civil bill, the House will refuse to concur and it will be dropped out in the conference, and he is certain that it will not be better to defer the attempt until the next sessio

The Treasury Department has prepared a statement protesting against the action of the House in passing a legislative, exhas collected over 70,000 insects belong ecutive and judicial appropriation billing to the born-winged family, 5,000 of with a clause requiring manifests giving ing to the horn-winged family, 5,000 of the cricket tribe and about 4,000 butterdetailed information, including value flies and numberless rare plants and an-imals. to be presented before cars containing imals. The Yaqui and Mayo ndian troubles try will be allowed to go forward, in Sonora, Mexico, are assuming large statement says the presumable object of proportions. The Mexican government the clause is to recure statistical information massing soldiers in the Yaqui country. that the practical effect will be a dis crimination against American railroads in favor of foreign lines, as shippers will not submit to the annoyance proposed in the regulation. It says a similar regulation was put in force some years ago by an order of the Treasury, but was revoked on vigorous complaints by American roads.

### EDUCATIONAL NOTES.

President Eliot Gets Into Hot Water by His Disparagement of the Public-School System.

Shorthand is to be taught in the Bos ton schools. There are 5,399 whole and 1,821 fractional school districts in Michigan.

The public schools of St. Louis give employment to over 1,000 teachers. New London, Conn., has been selected as the site for the Catholic summer

school. Embossed books for the use of blind ereons have been prepared in more than 250 languages and dialects.

Mrs. Sidgwick has just been appointed principal of Newnham College, University of Cambridge, England,

There are 530 women students in the University of Michigan, distributed throughout all the departments.

In one of the public schools of New York city there are 710 children, all but ten of whom are of foreign birth and language.

In Paris the common public schools are provided with medicine cases, and instructions are kiven for the use of remedies,

The New York Legislature passed a bill making the teaching of music in the public schools compulsory. Governor Flower vetoed it.

Jacob Gould Schurman, Cornell's new President, is yet a lew years under 40. but a noted scholar. Twenty-odd years ago he was a clerk in a grocery store on Prince Edward Island.

President Eliot of Harvard, not satis fied with the mess he made by his Mormon speech, has again got himself in hot water by his disparagement of the American public-school system.

Cornell University has given Presilents to three universities-Schaefer to Iowa, Jordan to Stanford and Andrews to Brown. Eight members of its fac-

ilty have declined college presidencies. The school of architecture of the University of Pennsylvania is to have a "traveling scholarship in architecture, with an annual income of \$1,000, which will enable the holder to study the best

models in Europe. munity. The paper demands that the lt appears from the official records made this utterance: "There is only authorities take cognizance of the curse that last year articulation was taught to one crime that should bring on lynch-

## BEYOND THE ROCKIES

Minister Enters a Crusade Against Church Fairs, Etc.

Schemes to Defraud Hotels at New York Discovered-New York Board of Education.

The New York Grant monument fund is complete.

Chicago has an elevated road, and elated over it. In Minneapolis 7,877,947 barrels o flour were made last year.

The exports of gold up to date this year have been exceptionally light. The cotton acreage of Tennessee will be 10 per cent, smaller than last year,

A jilted woman in Chicago hired prizefighter to spoil her former lover's beauty.

The wall-paper trust has been incor porated in New York with \$14,000,000 capital. A young Methodist minister has been

arrested at Atlanta, Ga., for jumping board bills. Gas is to be manufactured in Long Island and piped under the East river

into New York. Colonel W. B. Remy, Judge Advocate The estin General of the navy, has been placed on \$100,000. the retired list. Louisiana's Supreme Court decides that the "Jim Crow" law does not apply

to interstate passengers. The New York Board of Education is preparing to wipe out all saloons in the

vicinity of schoolhouses. The Kansas crop report shows wheat acreage equal to last year, with an excess of corn, but backward. For three vacant chaplaincies in the

United States army over 4,000 applications have been placed on file. For killing a negro Section Boss Anderson of Greenland, Fla., has been threatened with a negro uprising.

United States troops have been sent to the scene of the troubles between tockmen and rustlers in Wyoming. The city of Chicago, feeling that its attractiveness is somewhat at stake, bas organized a society for the prevention of

Mississippi planters in the river bot om are moving for a permanent reduction of tax assessments on account of overflows. The crops in Kansas are in grand

shape. Corn is growing well, and the wheat is heading out. In Nebraska, too, the crops promise well. An ordinance licensing gambling houses in Omaha was signed by the Mayor, and they are running wide open

in violation of a State law, There is talk of submitting the Lousiana Senatorship to a vote of the white people of the State, the Legislature be-

ing unable to agree on a candidate. The descendants of the immortal Davy Crockett will celebrate the 106th anniversary of that deceased hero and statesman at Rutherford, Tenn., August 17. An unknown foreigner has created reign of terror in Cambridge, Mass., by stabbing a number of women, whom he in 1-93 under the auspices of the world's accosted on the streets after nightfall.

Owing to the long sea on of spring rains, much of the bottom lands in West Tennessee, heretofore planted in cotton, will this season grow corn or some other

A New York insurance company will put up a building having twelve stories and a high gable, with a street frontage of 36 feet 6 inches. It resembles an Egyptian obelisk. Dr. Nagle of the bureau of vital sta-

tistics says that so cosmopolitan has New York become in recent years that more than 100 languages and dialects are spoken in the city. Governor John Young Brown of Ken-

tucky has signed the bill compelling all cailroads in the State to provide separate cars for negroes. The law will go into effect in ninety days. Rev. J. W. Wilson of Indianapolis has

entered upon a vigorous crusade against church tairs grab bags, raffles and all other schemes to raise funds for church purposes in illegitimate ways. The labor organizations of New York

furnished to many foreign as well as docity have begun war upon the Chinese. mestic manufacturers. t is their purpose to arouse against the Mongolian such a cyclone of public hatred as will drive him from the town.

A large and finely equipped hospital has been dedicated in Atlanta, bearing the name of the late H. W. Grady, editor of the Constitution. This memorial is the result of a popular subscription. The Interstate Elevated railway of Kansas City is to be changed from a steam to an electric system at a cost or \$5.0,000. It is expected that the reconstruction will be completed so that the ine can be run by July 1.

One of the largest and hardest log jame ver known in the Northwest has been forming in the St. Croix river at Eagle Island. It is over five miles long, and the logs are piled up in all shapes, and it contains over 150,000,000 feet.

The Wigwam in Chicago, where the Democratic National Convention will meet, has a frontage of 500 feet on Michigan avenue, and is 350 feet in width. It largest convention hall ever erected, and its full capacity is 20,060.

The first session of the German Baptist Conference was held at Cedar Rap ids, Ia., recently, with nearly 20,000 brethren present. Many important Many important questions were settled. The question of allowing women to break bread was

brought up, but was not passed. Schemes to defraud hotels at New York with the assistance of the cashier have been discovered, and Orin J. Ott. head cashier of the Gilsey House, a man named Burrows and one Nathaniel Akerman have been arrested. The scheme was to tear up checks for dinners and

use substitute for smaller sums. Prof. H. C. Adams, the statistician of the Interstate Commerce Commission, makes the statement that out of 153,235 trainmen in this country 1,459 were killed and 13,172 injured last year. these accidents 37.94 per cent. of the deaths and 45.57 per cent. of the inju-ries were sustained by railway employes while coupling cars or setting brakes.

At Barnwell, S. C., the other day under the grove of trees where eight ne-groes were brought from the county jail in December two years ago, lynched and riddled with bullets Governor Tillman made this utterance: "There is only THE CHICAGO EXPOSITION.

Mr. Childs Donates a Number of Rare and Beautiful Palm Trees From His Conservatory.

The Salvation Army intends to show at the exposition in a complete manner its whole scheme of moral and social re-

A relief map showing San Francisco, San Mateo, Santa Clara and Santa Cruz counties, Cal., is being prepared at an expense of \$10,000 for exhibition at the fair. Spaniards Advocate a Closer Alliance

As evidence of the great and wide-spread interest abroad taken in the World's Fair it is announced that more than half of the mail now being received by the State Department at Washington is in relation to it. William Saunders, Executive Exposi

tion Commissioner for Canada, says that a large and excellent exhibit from the Dominion is assured. It will be espe-cially notable in the lines of agriculture, dairying, minerals and manufactures.

The principal commercial organizations of New Orleans have united in a etition to the State Legislature of Lou-isiana, which assembles this month, to make a World's Far appropriation of \$50,000. A bill making such an appropriation has been drafted.

George W. Childs, the Philadelphia It is estimated that the striking Eng-philanthropist, signalized his visit to the lish coal miners have lost \$2,000,000 in tions will soon be distributed free to the World's Fair grounds by planting a lin-den tree on the "wooded island." Mr. Mr. Childs has donated to the exposition a number of rare and beautiful palm trees from his conservatory. He is very enthusiastic over the fair and its prospects. The New York State building at the

exposition, as shown by the plan which the Commissioners have approved, will be one of the most commodious and artistic of all. It will measure 97x193 feet, be two stories high and covered with "staff," treated to represent marble. The estimated cost is from \$80,000 to

Prof. Charles D. Walcott of the United States geological survey intends to have at the World's Fair an exhibit which will illustrate a section of the earth's the report that the little Queen crust by specimens of the rock strata betrothed to a Prussian Prince. placed in their proper relative positions and by collections of the characteristic fossils shown in connection with the formations in which they are found.

President Harrison has accepted the invitation, conveyed to him by a committee, to attend the dedication ceremonies of the exposition building next October. It is believed certain that every member of the President's Cabinet and of the Supreme Court and nearly every Senator, Congressman and Governor also will be present on that occa-

Helena, Mont., will send to the exposition a meteor discovered near that city. It is composed of nickel and magnetic iron, and is in two pieces of ninety and seventy pounds respectively. It is re-ported that when found these pieces were in a hole in the ground large enough to contain a house, from which fact it is inferred that the meteor exploded when it struck the earth. Philadelphia's contribution to the Pennsylvania exhibit at the fair will in-

clude a number of articles of great his-

toric interest. Among them are the desk

and chairs used in the Continental Congress and the celebrated portraits of the Declaration of Independence. In the art exhibit, which promises to be large, will appear the very valuable painting, "The Festival of the Brides of Venice," in Prussia. by Giacomo Giacomelli, and a mosaic picture representing the discovery of the remains of St. Marcus, the patron saint of Venice. The latter contains more than a million pieces, and required in its making seven years of patient work. The prospect is that the engineering congress, which is to be held in Chicago congress auxiliary, will be a gathering of very great scientific importance. O the \$15,000 estimated to be necessary for its expenses \$10.0 to have been raised. Mony of the most prominent engineers of the world have accepted memberships on the advisory conneil, among whom may be mentioned William H. Maw and

James Dredge of the London Engineer ng, Don Fernandez Leal, President of the Mexican Society of Engineers and Architects, C. S. Gowzski of Canada and others. The New York School of Industria Art and Technical Design for Women f which Mrs. Florence E. Cory is principal, will make a notable exhibit in the woman's building It will embrace the work of 500 women, pupils of the institution, in the line of preparing working designs for body Brussels and ingrain carpets, tapestry, table linen, wall pa-pers, oil cloths, stained glass screens, window shades, embroidery, laces, calice prints, etc., and also many finished fab

An Incubus from Africa.

A gentleman who has brought an African boy from a place a thousand miles from the coast to London complained to the magistrate that the lad was insubordinate. He knew that Le must not flog him or put him in it ns. which might have been done in Africa or on board ship, and would have the desired effect, and in default of such a The hen is a small animal. Eggs are proceeding he wanted the magistrate to a miraculous dispensation, as they have him put in the cells for a few from food a hen gets and converts hours. Mr. Vaughan told the applicant that that would be false imprisonment; he could not help him in any as it does not possess enough of the way.-Public Opinion.

## THE FARM AND GAR

Clay Farms Require Great A of Plant Food

PHOSPHATES NEEDED ON CLAY

It is Difficult Soil to Handle for Corn and Wheat-Tile Dr age Essential.

Most of the clay farms of the are usually too wet and sticky for says the American Cultivator, u in the spring time for best tes corn, oats or potatoes. On many the soil is too wet in winter and for winter wheat, unless con-labor is expended in manuring ily. Clover is likewise a hard grow on such soils, for it is on the first winter. Clover cannot? on such soils to bring up its is the heavy freezing would thro tap roots of the plant far

To bring up the fertility of

soil and to farm successfully it

sary first to adopt the the drainage. Such drainage is keep the freezing and of winter and spring from the the clover plants and also to te amount of moisture in the drainage alone is not suffic farme require a great amount food, and after the drainage is this should be attended to. not do this at once, although later splendid crop rotation to all strength to the soil. But it is no first to nurse and cultivate the so such a standard that clover can be hest effect. Commercial letti in ply some things which the soil and it is in the phosphates that a clayey soils.

Superphosphates have the best upon neavy, clayey soils that have tile-drained, while on some m loamy soils they do not pay for the On undrained clay soils they do duce many beneficial results, bu clay soils with the tile drains gave results that are marvelous. grade and ammoniated superplation such clayer soils will increase yield of wheat and produce straw. They give better seeding a straw. They give better seeding all and clover, and will tend largers preventing winter-killing. A job application of the pure superpless is much better in their effect the treated bone, whether steamed on ground or coarse, and while their a is quicker the good done seems a be permanent. Farming on clayey soils for the as well as for the present consists cial treatment. It is difficult a 95c@\$1.60; string beans, 90c@\$1.00 per

handle for potatoes, corn and what it can be made to produce one or any of these plants. The tile do eems essential to decrease the trous effects of winter freezing and ing. Judicious treatment of the with superphosphates is the second demanded in order to make the grow more successfully. Clover will catch and not be killed the winter. The heavy lands will a main wet and heavy so late in the standard food in the solution of crops to increasing plant food in the soil will come system of farming that will make

HORTICULTURAL NOTES.

Pruning is necessary with the to prevent the vine from sett much fruit. Some good growers claim that the vill thrive better and keep free

blight if not cultivated. The cherry is one of the fruits that very regular bearer, more so than a any other variety of fruits. The safest rule for a commercia

chard is a few sorts and these well-k and popular in the market. Grafting stone fruits, such as peach, cherry and plum, should als be done in March if possible. The decrease in the fertility is at ottom of a good deal of the diffict

Dissolving a small quantity of a for many insects that in est plants. One advantage of cutting the com-grafting early is that they have a time for the ends to become colors The objection to forked apple of trees is that they are almost certain split sooner or later and ruin the in Common wire screen cloth ent
