Everything Exquisite in Imported Perfumery, Soap, and Toilet Articles. Also a complete and select stock of Paints, Oils, Varnishes, Brushes and Painters Furnishings.

OSBURN & DeLANO, EUGENE, OR

AUG. HORNING, a well known manufacturer of boots and shoes at 820 No. 1st St., San Antonio, Texas, will not soon forget his experience with an attack of the cramps which he relates as follows: "I was taken with a violent cramp in the stomach which I believe would have caused my death, had it not been for the prompt use of Chamberlain's Colic, Cholera and Diarrhoea Remedy. The first dose did me so much good that I followed it up in 20 minutes with the second dose, and before the doctor could get to where I was, I did not need him. This Remedy should always be one of the main stays of my family." For sale by OSBURN & DeLANO.

For diarrhoea or summer complaint in any form there is nothing better than Chamberlain's Colic, Cholera and Diarrhoea Remedy. Mrs. Nancy Berry, of Adams, Lawrence county, Kentucky, says one dose cured her of an attack of diarrhoea. Two or three doses will cure any ordinary case. When reduced with water it is pleasant to take. 25 and 50 cent bottles for sale by Osburn & Delano.

JAPANESE PILE CURE

A new and complete treatment, consisting of suppositories, ointment, and pills, also in box and pills; a Positive Cure for External, Internal, Blind or Bleeding, Itching, Chronic, Recurring, Hemorrhoidal Piles, and many other difficult and painful ailments. Guaranteed by WOODWARD, CLARKE & CO., Wholesale & Retail Druggists, Sole Agents, Portland, Or.

THE CRY OF MILLIONS!

OH, MY BACK!

STOP IT NOW, SOON IT WILL BE TOO LATE.

I have been troubled many years with disease of the kidneys. I have tried many different remedies and have sought aid from different physicians without relief. About the middle of April I was seized from a very violent attack that almost prostrated me in such a manner that I was unable to get up alone, or to put on my clothes, when kind Providence sent me a bottle of **OSBURN KIDNEY TIA**, to my hotel. I immediately commenced using the tea. It had an almost miraculous effect, and to the astonishment of all the guests at the hotel, in a few days, I am happy to state, that I was a new man. I will recommend the tea to all afflicted as I have been.

G. A. TUPPER, Proprietor Occidental Hotel, Santa Rosa, Cal.

Highest Cash Price Paid for Wheat.

SATURDAY, AUGUST 6.

The foundation for the new jail is completed. Geo. M. Miller has gone to Florence to join his family. Mould is reported in the Marion county hop fields. The plasterers at work on Mrs. N. K. Frazier's new house on Pearl street. Prof. T. M. Martin, of Sinaloa, has about recovered from the trouble with his leg. Mr. and Mrs. J. M. Abrams went to Sodalville this morning for vacation. Miss Angie Patterson is visiting at the home of W. W. Moore in Glenwood Park. Mrs. E. R. Skipworth and daughter have gone to Corvallis on a short visit. Editor and Mrs. S. L. Moorehead, of Junction, came up on this afternoon's local. C. D. Combs and family left this morning for Sodalville, to spend two weeks. Louis Johnson, who has been sick for two weeks with fever, is reported no better. E. C. Smith and sons, Carl and George, returned home today from their trip up the McKenzie. It was an amusing sight to see the circus elephants bathing in the mill race last Thursday. The Board of Trade meeting called for last evening was a failure, no quorum appearing. William Hart suicided at Ashland yesterday by taking poison. Financial troubles were the reason. Miss Ocie Walton returned this afternoon from a protracted visit in Portland and the sound cities. Dr. and Mrs. D. A. Paine and Mr. and Mrs. Will Smith returned last night from their outing at Ilwaco. Harrisburg Courier: The buggy peddlers left for Eugene Thursday, after having sold 45 buggies in less than 10 days. Chas. Hodges and wife of Corvallis returned last night from the McKenzie Springs and are visiting his uncle C. Hodges in this city. Miss Hattie Lee, of Woodland, Cal., arrived in Eugene this morning and will be the guest of her sister, Mrs. E. J. Frazier, for a month. Mrs. J. W. Chaver and Mrs. P. E. Snodgrass left for the Kitson Springs this morning. Mr. Snodgrass will join them in a few days. W. N. Matlock, of Pendleton, is visiting his uncle J. D. Matlock and other acquaintances in this vicinity, on his way home from Chicago. Mrs. J. M. Thompson went to Portland yesterday. After a few days visit in that city she will leave for San Francisco for an extended visit. Hon. John Cummings, of New York, has been visiting relatives in Lane county this week. He is a lawyer in that city now. At one time he was a member of the Oregon legislature. Lebanon Advance: A. Lytle and wife, of Eugene, were in Lebanon last Friday. They were looking at some property near here with a view of purchasing. Learned me that in Latin the word "editor" means "to eat." In the United States it means to scratch around like blazes to get something to eat.—Texas Sittings. McMinnville Reporter: Rev. Harry Watkins came up from Forest Grove Tuesday. He is taking the Keeley-cure for his nerves and is a strong believer in the virtues of bi-chloride. Rev. G. J. Travis publishes a card stating that he is now satisfied that the reasons which occasioned his resignation as pastor of the Eugene Baptist church was not of a political nature, as formerly stated. The Journal says: The circus had an old female elephant which was not taken on the parade, being too decrepit to get along well. The hands assert that "Old Mary" as they called her, is 166 years old, having been the first elephant ever imported to America. Dr. Reeves has arrived from Portland and taken his thorough-bred horses to the place he recently purchased on the McKenzie. E. J. McClanahan. He intends building a mile track at once and will make many improvements on the farm. He brought seven men with him. The Dalles Chronicle: Squirrels have taken to watermelons on Mill Creek, with the fascination of a plantation darkey. They have no judgment, however, and the green melon goes along with the ripe one. It is feared they will cause a shortage in the supply. Roseburg Plaindealer: The alliance of this county purchased a large lot of grain sacks some time since, and immediately thereafter the price of sacks took a tumble. As a consequence, local dealers are selling sacks at a lower price than the alliance is able to do. It is to be regretted that the alliance did not also get the benefit of the tumble in prices, as several dollars would have been saved the members of that organization. Friday's Ashland Tidings: Prof. B. J. Hawthorne, of the state university at Eugene, was in Ashland Monday in the interest of the school. The state university is acknowledged to be the most thorough school for advanced education in the northwest and as it is a free institution supported for and by the people of this state the opportunities should be utilized by the people whenever possible. Prof. Hawthorne is also Grand Master Workman of the A. O. U. W. of Oregon and was looking after the interests of that order also while visiting southern Oregon. Weston's Marshal:—Here is another item about Weston's Marshal: It seems that Weston is unable to keep a city marshal from citizens of his own midst. After wearing out three or four since the incoming of the last city council they recently imported one from Portland. Last Saturday night the new officer made his first arrest. The man arrested was drunk. The marshal needing help deputized two of Weston's citizens to help him. While the two deputies were holding the victim the marshal exercised his authority in a brutal manner by kicking the helpless drunkard in the head. This uncalled-for action aroused the inhabitants of that place and an indignation meeting was held. It was seriously thought of giving the marshal a coat of tar and feathers and escorting him out of town, which would probably have been the best thing to have done under the circumstances.

MONDAY, AUGUST 8.

The lathers are at work on the Conser-Frank block. Chas. Croner is nursing a huge carbuncle on his left hand. We notice many thistles remaining uncut about the city. James Drake has returned home from Salem, nearly recovered. W. Holloway returned from the Sinaloa country yesterday. A number of parties were out sailing on the river yesterday afternoon. Mr. and Mrs. W. J. Fox returned from Newport this afternoon. The Foley Springs stage went out this morning with a full load. The brick for the new county jail is being delivered on the ground. Parker, one of the steam laundry proprietors, has gone to California. The masons have commenced the brick work on the new county jail. Chas. Hodges and family returned to their home at Corvallis this morning. Everybody except the editors of a daily paper take their summer outing. Peter Gilbert is receiving a visit from his father and mother of Moscow, Idaho. Stewart and Pickard shipped a car load of sheep to Portland Sunday evening. Judge A. H. Fisk went to Sodalville yesterday morning to spend a few days. M. F. Parker came in from his Clear Lake ranch near Florence on yesterday's stage. Master Henry Marx went to Sodalville this morning, to spend two or three weeks. George Fisher shipped a carload of calves to Portland from Harrisburg Saturday evening. Assessor McPherson and wife returned from Florence and Heeta Head yesterday afternoon. The reports from the harvest fields are encouraging. The yield is greatly in excess of what was expected. Mrs. Julia B. Comstock, of Portland, is visiting at the residence of Mrs. Fitch in this city for a few days. Frank Matt, who recently sold out his saloon interest here to his partner, returned to Junction this morning. Alex Cockerline intends leaving for Josephine county tomorrow to join his family for a couple of weeks outing. Waterloo, Lion county, item: A number of gentlemen are here from Eugene, looking around and drinking soda water. A woman 70 years of age, in Burke county, N. C., has just given birth to a child. This it is asserted bears the record. Mrs. A. K. Patterson, Misses Kate Patterson and Helen Combs went to Sodalville this morning for a two weeks' stay. Mrs. Shelton, of Portland, who has been visiting her daughter, Mrs. Clark, in this city, left for Yaquina on this morning's local. A. J. Brownlie, light house inspector for the coast of Oregon, Washington and Alaska, returned from Florence on the stage yesterday. H. D. Hamlin left this morning for Greeley county, Kansas, in answer to a telegram received yesterday that his daughter was seriously ill. Saturday's Salem Statesman: E. M. Carpenter, of Eugene, was in Salem yesterday and he was so well pleased with the city that he has concluded to locate here. An entertainment was given at the church in Florence last Friday night. Misses Maud Wilkins, Ada Hendricks and Lulu Renshaw, of Eugene, took part in the same. Dr. J. W. Bean came up from Florence yesterday afternoon, and left for his home at Hillsburg, Wash., this morning. His wife will return in about ten days. Clarence and Percy Adams left this morning for Portland, where they will be joined by their father, Judge Adams, and proceed on a camping trip to the mountains. Work on the Water Co's new well will be resumed tomorrow and pushed night and day until completion. An arc light is being arranged so as to furnish light to the men working on the night shift. Mr. Obenauer, the directory man, left here Saturday evening on a bicycle intending to make the trip overland to Cottage Grove where he will do some work connected with the directory. Considerable excitement was caused on Tenth street, west of Willamette, this afternoon by a woman trying to chastise her grown daughter. Marshal Eastland was called and quiet was soon restored. Jos. Koch, the draughtsman, leaves tonight for San Francisco on the overland train for a two weeks' stay. Mr. Koch will not come back alone, if all rumors be true. The GUARD force feels like offering congratulations in advance. Attorney J. E. Fenton has been nominated for President Attorney by the Democratic county convention of Spokane, Washington. Mr. Fenton is an excellent lawyer, and his many friends here, irrespective of politics, would be glad to hear of his success in November. The people of that county would not make a mistake if they elected him to the position. W. P. Gray, ex-sheriff of Grant county, is at present ill at his home in Canyon City, suffering from a partial paralytic stroke, seriously affecting his right side. He was seized with this paralysis while en route home from Bear valley last Monday, and, being in company with his wife, he was hurried home, where his condition grew more serious, at one time losing all power of articulation. An Idaho paper, in writing up a ball, thus describes a fair lassie's garb: "Miss Y— wore a red bombazine dress, ruffled with point alpaca and an overskirt of rose gingham with a border of parsley blossoms. Her turtleneck was particularly noticeable from the fact that her hair was so deliciously scrambled in front. She also wore No. 9 Illinois double button gloves and No. 6 stone shoes slashed at the heels and pompadour socks."

The Present Campaign.

From a speech by J. Sloat Fassett: We republicans all feel we are entering no holiday excursion; that we are entering upon a contest which will put to its best mettle every republican in the United States. We are confronted at the outset with the appalling spectacle of Wisconsin and Illinois, in the list of doubtful states, and Iowa by no means certain; with religious differences rife in the northwest, and a threatened coalition of the democracy with the alliance. The democrats have nominated to my mind the strongest man they could have placed in the field, so far as the 36 electoral votes of New York are concerned. We are in a desperate fight, but we are in it to win. And for that purpose we must have the support of our best leaders. We want them to the front. At our head we want no inexperienced man. We want a trained leader, one to whom we can look with every confidence of success. We must have the young men of the country with us in this campaign, and I think no other name would inspire them with so much confidence as that of Mr. Clark. I don't know which to admire most, his sagacity as a general, his fidelity as a friend, or his loyalty as a republican partisan.

A Protected Industry.

F. S. Hafford writing from Whittier to the Healdsburg, Cal. Enterprise makes this report on the much discussed Temescal tin mines of Southern California: "At 8 o'clock we started for the Temescal mines. Here we found quite a number of buildings and some 200 men employed, about fifty of whom work under ground. We could not get permission to go below, so after examining the ore and smelter, and engine, etc., and talking to some of the Welch and English at work there, we came away. If you don't think it would damage Harrison's chances any you may print that I came away wondering somewhat about the propriety of increasing the price that over sixty millions pay for so common and useful an article as tin, in order that a few English and Welchmen may come over here and work the richest known tin vein. If you send a marked copy to Governor McKinley, of my native state, and tell him that I am a good republican in search of information, perhaps he will reply."

Effect in the Canning Industry.

The canning interest of the Pacific coast last year paid a tariff duty on tin of \$330,015 of which amount \$179,628 was added to former tariff rate by the McKinley law. This additional cost to the canning industry of the Pacific coast, increasing the cost of a box of tin plate, weighing 108 pounds, about \$1.25, was made that a few Eastern men might make a profit by importing black plates and coating them with imported tin. The output of genuine American tin plate has been less than two per cent of the amount used. Scarcely enough to supply republican congressmen or high tax orators with humbug badges and souvenir buttons.

The cholera is making sad havoc among the Russian peasantry, and seems to be extending in its epidemic form. In its spread and the consternation it creates the civilization and learning of this age are put to shame. The abject terror of the peasants, the failure to enforce the simplest sanitary regulations, the drunkenness of the hospital attendants—all these are features of a time when medical science was in its infancy and plagues were met by prayer and supplication. The wholesale waste of life by the scourge in Russia will result in no reform, because Russia, like China, is so hopelessly corrupt in government that reform would be a miracle.

Among the very foremost agitators for the building of better country roads is ex-Gov. James A. Beaver, of Pennsylvania, who made this the subject of an executive message during his term of office. Gov. Beaver has written for the August number of the Forum an explanation why most communities find it so difficult to get good roads. The school tax, he says, we have become accustomed to be taxed for charitable institutions and for the relief of the poor; but in most states the habit of generations, so far as concerns the improvement of roads, has been the ineffective system of "working the roads," so that most men have not only had it firmly fixed in their minds that roads are not proper subjects for direct taxation, but that the highways might be made by a small contribution of personal labor. It is this long and deep-rooted habit and unwillingness to pay a direct sufficient road tax that is the primary cause of our national disgrace in having so few good highways; and the remedy lies in such an agitation as is happily now going on in most states for a keener appreciation of the direct commercial benefits of well-built roads.

Congressman Cobb is charged with being drunk while making a speech in the House. His name should be changed to Corned Cobb.

Again the Oregon hen is being discouraged by the importation of Iowa eggs. The spring flocks did not get here on time, but circus day furnished the opportunity. Example is contagious. The woman with a short dress follows the example of her sister with dirt sweeping skirts, and takes a reef in her mizzen sails. The whirligig of time brings many changes. J. W. Davis, a republican candidate for governor of West Virginia, was a colonel in the rebel army and is a cousin of Jeff Davis. Cruiser No. 12 that has been called the "Pirate" on account of being built for a commerce destroyer has been named Columbia. This was a mistake. High Tariff is the appropriate name. The report that Ward McAllister, the leader of New York's four hundred, has softening of the brain is not authenticated. It probably came about by the announcement that he had declared for Harrison and Reid. According to the report of the commissioner of internal revenue, between \$7,000,000 and \$8,000,000 was expended in sugar bounties last year. No one has been paid more than the market price for growing grain and hops. Carnegie, it is said, gave \$400,000 to elect Harrison and the Reed congress. They gave him the McKinley tariff which prohibits competition with the products of his factories. He is satisfied and lives in his castle in Scotland, sending his congratulations and a barrel of Scotch whisky for Harrison's second campaign. The toll gatherers on the Morrison street bridge at Portland are careful servants and do not propose to allow the nimble nicker to elude their clutches. At the recent dangerous conflagration they stopped a fire engine going in haste to the fire and collected toll from the firemen. Those fellows would take the coppers from a dead negro's eyes, then sell his skin. Albany Democrat: The vote of Oregon will be cast for Cleveland or Harrison. Weaver will be the third man in the race and far behind. Any man will throw his vote away by voting for Weaver. The only way to beat Harrison in this state is to vote for Cleveland. The problem is a very simple one. In June the democrats had twice as many votes as the peoples party and they will increase their vote this fall. If Gabriel should stand one foot on Skinner's butte and the other on Spencer, and with his trumpet inform the people attending a circus in Eugene that the men running the games were not there for improvement of health, were shrewd and sharp, and had absolutely a sure thing of winning money placed against them, still there would be plenty of suckers who could not resist the temptation and would eagerly snap the bait and get hooked. Mr. McKinley takes some comfort, and seeks to make capital out of the fact that our exports last year were \$203,000,000 greater than the previous year. He does not tell his auditors that this was the result of large crops sold to famine stricken Europe at enhanced prices. These millions represent the work of agriculturists who have no protection. Mr. McKinley's scheme, however, takes it away from them and gives it to protected trusts and monopolies. A short time ago while the Northwestern shingle association was in session, it was announced to that body that the Washington State World's fair building would require 337,000 shingles for its roof. Thereupon the association promptly instructed its secretary to buy that number of shingles and to donate them to the world's fair board for the state. The quarrymen, lumbermen and loggers of Washington have been equally generous, and almost all the building material required has been donated. The opinion of the State Board of Railroad commissioners that freight rates on the Southern Pacific railroad in Oregon are reasonable, indicates that the corporation has not been unmindful of its own interests, and, following California tactics, has added other than rolling stock to its possessions. The freight rates are onerous and burdensome, and placed at the point the highest the traffic will stand. This is especially true of the charges on grains, vegetables and live stock. The railroad takes the lions share. Governor Penoyer is on the right track, and it is to be hoped will send a ringing message to the legislature in favor of a maximum freight bill. The maximum fare bill has proven successful and saved travelers thousands of dollars since it went into operation. A freight bill of that kind would accomplish great results. The board could be continued, as occasionally their services would be demanded to secure pay- ments for a stray hog or calf that gets in the way of a locomotive, or to usurp the functions of a coroner's jury when some unfortunate has been accidentally crushed to death. The legislature should deal with this question direct, and not intrust its functions to a board with uncertain and limited power and authority.
