For the World's Fair.

Hon. M. Wilkins is making a persistent effort to secure an Oregon exhibit at the World's Fair. In regard to the matter he says: "Nine months must elapse before a great exposition at Chicago will open its doors to the thronging myriads from all parts of the world. Oregon can be, and ought to be worthily represented at the great congress of all nations. A great deal can be done, and done well by this state in the intervening nine months. Practically nothing worthy of the state has been done. Striking is virtually at sixes and sevens. There will serve no purpose to discuss the failures hitherto made, the personal animosities, the personal rivalries, envious jealousies which have led to these failures. There is plenty of time to gather up the scattered fragments of the state and get ready for shipment to Chicago. Such exhibits of grains, grasses, fruits, vegetables, and wool, lumber and manufactures and minerals as will challenge comparison of their respective departments with those of any state. It is simply the fact that the failure to secure an appropriation seems to have paralyzed thought and action."

He Knows Better Now.

OREGON CITY, Aug. 12.—A nearly fatal accident occurred to John Oleson, an employee of the Pacific Bridge Company, this morning, while he and Samuel Bowen were at work repairing the suspension bridge up on which are strung the electric wires of the Willamette Falls Electric Light Company. Oleson first received a slight shock through an iron wrench, after which he thought he could stand the shock, he grabbed the wire with his bare hand, and for the close proximity of Bowen, who seized and pulled him off, he would have been killed. As it is, he has a terribly burned hand, and an ugly wound in the arm where the bolt left him, and he will not recover for some time. The wires from which he received the shock were carrying 1000 volts, and the men had been warned of danger.

Appointed by the Governor.

SALEM, Aug. 15.—Governor Penoyer today appointed David M. Guthrie of Dallas and Samuel H. Holt, of Phoenix, to fill vacancies on the state board of agriculture. The vacancies were caused by the death of Thomas G. Richmond of Dallas and the resignation of Germany of D. S. K. Buick, of Roseburg.

Zorn is to be Hanged Friday.

PENDLETON, Or., Aug. 15.—Friday next at the court house in Pendleton at 10 o'clock p. m., Frederick Zorn will be hanged, unless the petition now before the governor results in the commutation of the condemned man's sentence.

Oregon Horses in Demand.

UMATILLA, Or., Aug. 15.—Sparks Brothers & Simpson, large horse buyers, are here negotiating for a train load of Oregon horses for the Kansas City market. They say there is a growing demand for Oregon horses throughout the East.

J. C. Warwick, M. C.

WASHINGTON, Aug. 14.—John C. Warwick, representative in congress from the 10th district of Ohio, died at his rooms in the Riggs house about 9 o'clock tonight.

A Campaign of Argument.

ASHLAND, Or., Aug. 16.—The fall campaign opened in Ashland with a discussion between Rev. Ira Wakefield, the principal speaker of the people's party in Southern Oregon, and W. P. Squire, a republican of this place.

NEWSBOYS' STRIKE.

They Refuse to Sell the Oregonian—Gave a Parade.

PORTLAND, Aug. 16.—This morning the newsboys inaugurated a strike against the Oregonian which they refuse to take out at the old price. At nine o'clock about one hundred formed in line and marched through the streets carrying flags and transparencies. Several attempts were made to start out boys with papers but they were overtaken by the strikers who took their papers from them and destroyed them. Boys have been paying three cents for papers. They demand a reduction of one-half a cent.

Boys in the banners carried the statement: The Oregonian wants to charge us 3) cents for papers while it sells to news dealers for 2) cents. The Oregonian management say this is a wrong statement, news boys and news dealers are and have long been charged alike for papers 3 cents per copy and no advance was made to boys or proposed to them. The manager of the Oregonian thinks that if it is worth 2 cents to sell papers it is worth 3 cents to make it. Boys besides are allowed to return unsold copies and have the money refunded.

Indorsed.

DOUGLE CITY, KS., Aug. 16.—The democrats of the seventh district have indorsed Jerry Simpson, the people's nominee, for congress.

Joined the Democrats.

OTTAWA, Kan., Aug. 16.—It is said the democratic and peoples party congressional executive committees met here and agreed for a withdrawal from the race of the people's party candidate. This will center all opposition to Congressman Funston in favor of Moore, the democratic candidate.

Northwest Crops.

MINNEAPOLIS, August 16.—The Journal publishes today an estimate of the spring wheat crop in Minnesota and the Dakotas, which places the crop of three states at 103,000,000 bushels, against 100,000,000 last year. This is very little below the average crop.

Julius Caesar Burrows' Adversary.

LAWTON, Mich., Aug. 16.—The people's party convention today nominated George L. Yaple for congress in Julius Caesar Burrows' district, and the endorsement of Yaple, who is the strongest democrat in the district, means a close call for Burrows, if not defeat.

PRINEVILLE ITEMS.—NEWS: News: Linn Woods' Deschutes brewery will soon be in the hands of a new man. He is expected to arrive from Portland today. Ed White has at his place a beautiful madrepora coral of which he is very proud. It was presented to him by Mr. A. P. Ostrander, proprietor of the Belknap Springs summer resort, where Mr. White was recently visiting. Perry and Frank Poindexter who went to the mountains after blackberries about three weeks ago, failed to find them in sufficient quantity among the native patches so they went on into Lane county, where they put up their winter berries from the tame vines of farmers in the Mohawk valley. They returned Wednesday with 75 gallons of berries.

STRICKEN WITH PARALYSIS.—Albany Democrat: Saturday evening about 11 o'clock, Mr. Geo. F. Simpson, one of Albany's pioneer and most prominent citizens while at the Trumbull cottage, on Nye Creek, with his family, was stricken on his right side with paralysis, causing great anxiety among his family and many friends. A doctor was secured, but could do nothing at the time, reporting that if anything could be done it would be only by gradual treatment. At last reports he was growing worse, with the prospects entirely against his recovery.

Marine Cadets Well Received.

SPECIAL TO GUARD.—OREGON CITY, Aug. 16.—The Marine Cadets were received in grand style and are all well. The Portland Turn Verein donated \$100 cash to the Cadets. We will be home tomorrow afternoon. SACHS.

Jasper Johnson has purchased an interest in Wm. Clark's livery business and the firm will be known as Clark & Johnson.

Cottage Grove Items.

Leader, Aug. 13.

Mr. Shepherd, the furniture dealer, is building a new residence near the C. P. church edifice.

E. F. Smith, the farm implement dealer, has purchased a lot of Robt. Griffin on Main street and will erect a building for his extensive business.

Mrs. Ben Lureh, accompanied by her two daughters, Misses Lillie and Celia, left on Wednesday's overland for a month's visit with relatives and friends in California.

Dr. W. W. Oglesby and family started Monday by private conveyance for a summer vacation at Newport, and will also visit it with their many old acquaintances along the route.

Mr. Otto Laman, the genial young clerk, has discontinued his connection with the firm of E. F. Smith, dealer in farm implements and machinery, and went to Portland Monday where he will direct his attention to his future financial interests.

A gloomy shadow was cast over the countenance of the young sports of this city Monday morning, when Messrs. Wm. and Albert Wallace, stepped on the head and left for a few months' stay at Eugene, where they will assist in the masonry work on the county jail. Their absence will be a great loss to the base ball club and cornet band of which they are prominent stars.

Prineville Review: Professor Todd, of Eugene, has been with us during the week past with his immense telescope. It is the finest instrument ever brought into the state. It has a five inch objective and focal length of six feet and weighs when set up about 175 pounds.

Albany Democrat of Tuesday says: A dispatch received at noon from Newport announced that Mr. Geo. F. Simpson, who has been stricken with paralysis was slowly improving. Dr. Williamson, assistant physician at the state insane asylum, was attending him.

According to the following the city council of Prineville must be an august body. M. H. Bell was arrested in the council chambers Tuesday evening for words used in defending his position on the sidewalk question. His offense was a contradiction of Marshal Perly's statements. On coming to trial the next day on a charge of disturbing the meeting he was released.

Roseburg Review: Oled Olsen, now confined in the county jail on a six months' sentence for larceny, was granted a commutation of sentence by Governor Penoyer, Friday, on ground of sufficient punishment. He has been in the jail four months already and before this served out a sentence in jail for violating the game law. Douglas county's jail would be empty now but for the two Lane county criminals confined here while a new jail is being constructed at Eugene.

The advocates of the eight-hour day have scored a success at Washington. The president signed on Monday a law which lately passed both houses prohibiting all employes of the government from working over eight hours a day, and extending the rule to those working on government contracts. This is one of the laws the passage and signature of which might be safely counted upon under existing conditions. What effect it will have, if any, in helping to bring about a shorter day outside of the dominion of government employment remains to be seen.

Governor Penoyer returned to Salem Monday, from a few days' sojourn up the turbulent Santiam. He spent a few days at Mehama in company with State Treasurer Phil Metschan, Judge Shaw and Mr. Albert, of Salem. Saturday Governor Penoyer inspected the lamented fishway at Niagara. It is a poorly constructed affair, and the governor, after viewing it, said that the president of the fish commission ought to put up a guide board at its mouth to direct the fish into it, or better still, for the legislature to abolish the fish commission, and leave the fish-ladder business with the governor, and he would see that a better job was done or shoulder the blame himself.

Counterfeit dollars and raised paper money is in circulation. \$2 bills are raised to \$10. The latter is not apt to deceive the average citizen, as he so rarely clutches a "tender" that it will be severely scrutinized before acceptance.

WOOD.—All those who have promised this office wood on subscription account, are requested to deliver the same as soon as convenient.

All the surplus the farmer has to sell is sold in the world's open markets. Almost everything he has to buy is bought at protection prices, in closed markets—from 10 to 100 per cent dearer than in any other civilized country.

Carnegie is selling steel rails delivered in India at \$22.50 per ton, and meeting the competition of the world. But the American railroad builder is forced to pay \$30 per ton for the same grade of rail, and up go freight rates in consequence, and the final cinch is on the American consumer.
