A NARROW ESCAPE -Our Fall Crock correspondent writes us as follows: One day last week while little Willie Shultz, aged five years, was out near the house playing on a burning log, the log gave way, and he fell through in the fire, burning himself seriously, but not fatally. The little fellow, by and extinguished the fire, otherwise he young as he was, retained his presence of young as he was, retained his presence nind, and ran to the creek, which was near might have been burned to death, as there was no one near him except children. It is to be hoped he will soon recover.

IMPORTANT CASE DECIDED .- Judge Fuller ton filed his decision in the case of B. J. Pengra vs Almon Wheeler, to recover meney and for damages, which was tried at the special term of court, Wednesday. He finds in favor of the plaintiff in the sum of \$1,195 30. The case is an important one, determining several questions that have been litigated between the parties for several years. It took six lawyers nearly an en-

The burglars entered by prying open The shock must have been a heavy one used on any door whether it has a lock or not, and is really better proof against burglars than a lock, for the harder a age however. The perpetrators must door is pushed to open it the tighter it holds. It is so small that when folded it takes up no more room than a fairare just the thing for a person traveling and the room they would take up in a valise would hardly be noticed. The company also has appliances for nickleplating. They received orders for several thousand before they were prepared for their manufacture. This is an addition to the business of Eugene that business men should are working on a clue and there will take every opportunity to en-courage. "Encourage the manufac-

Blue River Mining Talk.

The Oregon City Mining Co., having interests in the Blue-river mining district, authorizes Jerome Fetterly, one of the stockholders, to sell 10,000 shares of a par value of \$10 each at 50 cents on the dollar, 25 cents of which is to be deposited in bank and paid when the mill owned by the company is laid down in Eugene and the other 25 cents when it is made from the mines. The

A Eugene party interested in the mines informs us there are fair prospects for the building of a road on the survey that starts at Pepiot's. Several of the companies and persons interested in the mines express themselves willing to subscribe work and money sufficient to build a passable road. If a road is built it will be a question of only a short time until a mill is in op-eration.

Blue River Road.

Daily Guard, August 18. Early this morning a party consisting of B. F. Dorris, John Henry, E. R. Hollen-beck and Mr. Simon, left for Pepiota', on the McKenzie, where they will leave their team and walk over the line surveyed for discussion grew so warm that the the road into the Blue river mining district, police was called in to restore order. Now I was present at the meeting from the start to finish and I pronounce that statement about the police work of constructing the proposed road.

Daily Guard, August 18. CARELESS DRIVING .- About seven o'clock last night the driver of the Springfield stage ran into a vehicle on the corner of Willamette and Seventh streets, capsizing it. The carriage was occupied by Mr. and Mrs. Presley Comegys, who were thrown out. By-standers caught the horse and prevented a runaway. Mrs. Comegys ceived a severe sprain in her left shoulder and has no use of her left arm shoulder and has no so to the state at this morning. The stage driver never stopped, passing on his way as if nothing had occurred. It is likely that a damage suit will ensue. Dr. Harris is attending the injured lady and she is as comfortable as possible.

PROFESSOR CONDON AT NEWPORT,-Oregonian: Professor Thomas Condon of Eugene, state geologist, is spending his vacation among the rocks and terhis vacation among the rocks and ter-tiary deposits at Newport, Yaquina bay. Professor Condon is an enthusi-ast in his study, and is gathering a most valuable collection in his re-searches. Among the specimens he is most proud of are petrified clams that grew to an enormous size and were in existence before the continent of Eu-rope was above water. rope was above water.

LAND OWNER IN LANE.-Hon. Knute Nelson, the free trader, who has been nominated by the republicans for Governor of Minnesota, is the own-er of nearly a thousand acres of timber land up the McKenzie river. At the present time the department of the in-terior, at Washington, is examining the same as to whether it is timber land or not, as the inspectors have entered complaint and had the same temporarily suspended.

THE CHRONIC GROWLER.-The fellow who is continually complaining and growling about dull times resides in Eugene. Imagination has a great power over the mind, and often paints in beautiful colors or clouds the horizon in sombre hues according as the mind wills. The man who is around at present trying to make everybody believe that times are hard, money tight and trade dull, just be-cause he imagines so, is a public nuis-ance and should be arrested and fined.
