libel suit against the Salt Lake Tribune.

The Salt River Valley of Arizona has  
dreams of becoming a great hop-pro-  
ducing section.

San Jose refused to vote \$150,000 to be  
expended for a new central school and  
for sewer facilities.

The books at the United States Con-  
suls office at Victoria, B. C., show an  
increase in exports to San Francisco  
during the past five months.

It is stated that the Chino sugar-beet  
factory is not refining sugar this season,  
but is shipping raw sugar to the Spreck-  
els refinery in San Francisco.

In a sham night attack at the camp of  
the Nevada militia near Carson three  
men in hastily setting up stepped on  
bayonets, and severely lacerated their  
feet.

The baseball bat and an ax were  
wielded in a fight at Virginia City over  
the title to a house by Patrick Ward and  
Tom O'Rourke. Both were seriously  
wounded.

The Republicans are holding two State  
Conventions in Nevada. There is a dis-  
agreement over the proposition to accept  
the silver election or to select a straight  
Republican ticket.

The fruit crop in the Willamette Val-  
ley will fall short of the average, it is  
said, owing to the cold rains and heavy  
weights which prevailed last spring. The  
shortage is especially noticeable in the  
prune crop.

A body of salt water has been struck  
near Foster station, twenty-six miles  
from San Diego. The water is reported  
to hold gold in solution. From two gal-  
lons of the water over two pounds of  
pure salt was obtained.

In Oregon last year 19,000 bales of  
hops were produced. The Salem States-  
man says that owing to increased acre-  
age the output this year will be much  
greater, while the crop is of a much bet-  
ter quality than last season.

Dr. A. M. Newman proposes to locate  
a colony of Norwegians of 600 families in  
Lane county, Or., and will purchase  
from H. C. Owen the latter's 2,200-acre  
farm, located eight miles southwest of  
Eugene. The price to be paid is \$44,  
000.

While an Indian woman was sewing  
in the shade of a tree at Palomar, San  
Diego county, a wild cat sprang upon  
her, biting and tearing her flesh. A dog  
came to her rescue, and diverted the at-  
tention of the cat, which chased the dog  
to the stable, and the noise there aroused  
the husband, who shot the animal. The  
woman died from her wounds.

There are about 175 Indian boys and  
girls at the Chemawa Indian school now,  
but it is expected the number will reach  
300 before long. Uncle Sam has not  
sent the quarterly installment of between  
\$5,000 and \$10,000, which is required to  
run the school, but it is looked for in a  
short time. The parents of the pupils  
alone in the vicinity of \$215.

In the Court of Private Claims at  
Santa Fe opinions were handed down  
recently confirming the title to two large  
tracts of land in Taos county, N. M.,  
known as Las Ranchos del Rio Grande.  
The grant was confirmed for 109,000  
acres. The other was the Cubero grant  
in Valencia county, calling for some 16,  
000 acres.

State Printer Baker is busy issuing  
the 50,000 edition of the "Resources of  
Oregon," a neat little pamphlet of 20  
pages, full of interesting information about  
this state. About half of the edition  
has been struck off, and it is calculated  
that it will take six weeks to complete  
the work. After that he will start on  
the "Resources of Eastern Oregon."

The Monumental mining and milling  
property at Granite, the property of C.  
S. Miller, has been consolidated with the  
Morris mines at Greenhorn, and a stock  
company formed with a capitalization of  
\$1,250,000, divided into 250,000 shares.  
The company is incorporated under the  
name of the Granite and Greenhorn  
Consolidated Mining and Milling Com-  
pany.

The government contract Indian school  
at Old Mission, near San Diego, has been  
reopened with nearly 100 children from  
ranches all over the country. The Sis-  
ners of St. Joseph have made a teacher  
there five years with marked results,  
and Indian girls are in demand for do-  
mestic service when through there.  
Pupils are now completing a Mexican  
draw-work display for the World's Fair.

The committee in charge of the pre-  
liminary arrangements for the celebra-  
tion of 350th anniversary of the discov-  
ery of San Diego Bay on September 28  
has received a dispatch from Governor  
Torres of Lower California, stating that  
President Diaz of Mexico will send his  
fleet military band to take part in the  
celebration. Governor Torres and staff,  
together with a company of Mexican  
troops, will be present on that occasion.

A fire started in the woods and dry  
grass near Elmira, Lane county, Or., re-  
cently, and spread quite rapidly. A farm  
owned by James Kirk of Junction was  
burned over, all his fences destroyed  
and a barn filled with straw burned.  
His house was burned in the same way  
last year. The fire then spread to the  
schoolhouse, and came near getting that,  
but the children playing around the  
building had worn the grass of some,  
and the neighbors were able to save it.

Deputy United States Collector C. D.  
Bopp of La Boria, A. T., went across  
the line, and was immediately arrested  
by Mexicans and taken to the town of  
San Cruz. Bopp a short time ago  
brought in a Mexican horse stealer and  
another man to La Boria, where he was  
bound over and taken to Tucson to await  
trial. Bopp was held as a hostage for  
the return of the Mexican stealer.  
Upon being notified, Mr. Lincoln of the  
Mexican customs service notified agents  
a courier to Santa Cruz with orders to  
the Mexicans to release Bopp.

FROM WASHINGTON CITY.

The Attorney-General Recommends the  
President the Resignation of the  
Marshal of Utah.

The Treasury Department so far this  
year has shipped but \$9,800,000 for mov-  
ing crops, as against \$14,800,000 for the  
same period last year. This large de-  
crease is explained not by a diminution  
of the crops, but by the fact that the  
banks were better supplied with small  
notes.

Secretary Foster says there has been  
as yet no place or time fixed upon for  
the meeting of the international mon-  
etary conference. Should the cholera  
continue its menacing course, the op-  
inion is expressed at the Treasury De-  
partment that it is altogether probable the  
meeting of the conference will be de-  
ferred until some later date, when the  
danger from the scourge will not be so  
great as now.

The Secretary of the Interior has ap-  
portioned the surveying appropriations  
Oregon received \$35,000. Washington  
received \$40,000, Idaho \$40,000. Ore-  
gon has an increase of \$15,000 over last year. Of  
the amounts apportioned the following are  
to be used on public lands within the  
railroad land grants: Oregon \$15,000,  
Washington \$19,000, and Idaho \$10,000.

Attorney-General Miller recommended  
to the President that the resignation of  
United States Marshal Parsons of Utah  
be asked for immediately. The Presi-  
dent approved the recommendation, and  
the Marshal has been asked to resign.  
It is stated at the Department of Justice  
that this action was taken because the  
Marshal and his deputies on some occa-  
sions had allowed prisoner Groesbeck to  
leave the prison and visit his third wife,  
for living with whom he had been con-  
victed on the charge of adultery.

It has been learned on good authority  
at the Navy Department that the Secre-  
tary will not detach the monitors from  
the San Francisco station when she goes  
into commission. It is his intention to  
have the vessel remain as the principal  
defense of the city. She will take coast-  
wise trips northward as far as Portland  
and southward to San Diego, and will  
remain constantly in those waters. The  
Monterey will be put in commission be-  
fore her armorplate for the vertical tur-  
ret is finished, and its absence will be  
regretted by the naval planners. It is  
understood that Lieutenant Pendleton  
of the Washington navy yard will be or-  
dered to take charge as her executive  
officer.

Captain Shepard, in charge of the  
revenue marine bureau of the treasury  
department, has not yet received con-  
firmation from any of the revenue cut-  
ters in Behring sea of the reported arrests  
of British merchant vessels by a  
Russian man-of-war for illegal sealin-  
g in the neighborhood of the seal islands,  
still owned by Russia in the Behring  
sea, and leased to the Alaska Commercial  
Company. That the arrests were made  
more than three miles from shore is not  
doubted. The occurrence will have a  
pointed bearing upon two of the ques-  
tions to be arbitrated upon, viz: What  
exclusive jurisdiction in the sea, now  
known as the Behring sea, and what  
exclusive rights in the seal fisheries  
therein did Russia assert and exercise,  
prior and up to the time of the cession  
of Alaska to the United States, and  
second, how far were the terms of juris-  
diction as to the seal fisheries recognized  
and conceded by Great Britain?

The Canadians, with a view of evad-  
ing the 20-cent toll to be imposed in  
accordance with the terms of the Presi-  
dent's proclamation on and after Sep-  
tember 1 on all Manitoba wheat shipped  
through the St. Mary's canal, are pro-  
posing to ship in Canadian bottoms from  
Duluth to Port Huron, to be trans-  
shipped from that point by the Grand  
Trunk line through Canada. This mat-  
ter being brought to the attention of the  
Treasury Department, Assistant Sec-  
retary Spaulding has sent the following  
special telegram to the collector of the  
Grand Trunk at Detroit, Mich.: "Not  
their Manitoba nor domestic wheat can  
be carried in Canadian bottoms from  
Duluth to Port Huron, as it would be in  
violation of our coasting laws; but, if  
carried in American bottoms, it is not  
subject to toll. If carried through the  
canal from Duluth to Sarnia for con-  
sumption in or export from Canada via  
Montreal or any other port, it would be."

The Programme of the Dedicatory Cer-  
emonies of the Columbian Fair  
Completed—Etc.

A factory at Lynn has asked for space  
at the World's Fair to show pneumatic  
dynamite guns and projectiles.

Colonel Elliott F. Shepherd of New  
York has purchased 10,000 of the World's  
Fair souvenir coins, paying \$10,000 for  
them.

New York will exhibit at the World's  
Fair sections of all the trees which are  
indigenous to the State. Of these there  
are forty-three species and eighty-five  
varieties, a number which is not ex-  
ceeded, it is claimed, by any State in the  
Union.

It has been decided to make a Tacoma  
exhibition at the World's Fair to con-  
sist principally of drawing and the con-  
ventionalizing of forms and clay modeling.  
The High school will contribute  
most of the drawings and lower grades  
models in clay. Complete plans for the  
exhibition will be arranged.

The programme of the dedicatory cere-  
monies of the World's Fair has been  
completed as follows: October 19, re-  
ception to the President of the United  
States, Cabinet and other guests at the  
Auditorium; 20th, grand "Procession of  
Centuries" at the grounds. Following  
this will be speeches, military maneu-  
vers, etc.

A Madrid dispatch says: The caravels  
Nina and Pinta, which have been build-  
ing some time at Barcelona for the Co-  
lumbus celebration, have been launched,  
and will be completed shortly, as only  
the masts and a few of the fittings are  
now lacking. The Nina is 57 feet long  
over deck; the Pinta is 72 feet long over  
deck and 35 feet wide.

An organization has been formed at  
Geneva, Ill., whose object is to compile  
and publish a list of the names of the  
work of women in the elective offices of  
Kane county, which is to be exhibited  
at the exposition. Kane county has  
the credit of being the first county in the  
State, and perhaps in the Union, to  
honor women by making her a deputy  
in its official offices.

One of the best suggestions yet made  
for designs for the World's Fair souve-  
nirs is that of Ferd Peck of Milwaukee,  
Wis., that one side of the coin should  
represent North and South America,  
with a ship between them heading to-  
ward the shore. This would mean some-  
thing, and it is of very little matter  
whether it is beautiful or not, although  
certain designers seem to consider the  
latter qualification a sine qua non. A  
coin is never a thing of beauty, although  
it may be joy forever, and in the case of  
the souvenir coins the designers should at  
least hit at the mark and the deed they  
are intended to commemorate.

feet in circumference, and will contain  
5,000 incandescence lamps.

Canadian Pacific railway officials are  
charged with being engaged in assisting  
smugglers to pass Chinese into this coun-  
try, and the Treasury Department has  
officially notified the Deputy Collector  
of Customs at Montreal of the fact with  
a view to putting an end to such work.

The wheel manufacturers west of the  
Allegheny Mountains have organized the  
Western Wheel Association at Indian-  
apolis. Dwight Smith of Jackson, Mich.,  
was elected President and Jay H. Smith,  
Secretary. The organization controls 95  
per cent. of the factories west of the  
Alleghenies.

An aerial weighing forty-four pounds  
fell on the farm of Lawrence Freeman  
near Bath county, S. D., late Monday  
afternoon. The advent of the stone was  
heralded by several sharp explosions,  
which were heard a distance of fifteen  
miles or more, and in some instances  
created considerable alarm.

Dr. Exum, the Third party candidate  
or Governor in North Carolina, was ar-  
rested at Goldsboro, charged with using  
foreign language in the postoffice in the  
presence of ladies. The postmaster made  
the charge. Although Dr. Exum made  
a positive denial under oath, the Mayor  
fined him, and a warrant for perjury has  
been issued against him.

It is said that the police and other  
courts of St. Louis are notoriously cor-  
rupt and acquit about three-fourths of  
the cases brought before them and con-  
vict about half as many as five years  
ago. The amount of money paid to the  
city for fines has decreased 70 per cent.,  
and officers receive a great deal of plunder.  
"The Push" is said to be a conspiracy  
which has been exposed by the grand  
jury, but the citizens take small  
interest in the matter.

President Hill of the Great Northern  
is quoted as saying that his only object  
in cutting loose from the transcontinen-  
tal organization is based on a determination  
to adopt such rate tariffs as will promote  
business interests and build up towns  
along the line of his road from St. Paul  
to Seattle. This he could not do under  
the restrictive provisions of the trans-  
continental agreement, which created  
great discriminations against interior lo-  
calities in favor of Pacific Coast points.

dant of the great astronomical Herschell,  
but is of the same family.

M. Larsen, a wealthy Danish banker,  
so strikingly resembles the Czar of Rus-  
sia that he has got finally into an insane

was really the Czar, and fear of assassi-  
nation unsettled his mind.

M. Zola is one of those who flourish  
on abuse. A fierce battle is raging in  
France just now against the man who  
wrote "La Debacle" and therein re-  
vealed, it is alleged, a lack of patriotism.  
Every newspaper in Paris echoes in va-  
rious modulations the shout of "traitor."  
And meanwhile an edition of 100,000  
copies of "La Debacle" has been sold out.

Ben Butler is said to be badly bent

folds of flesh on his cheeks. But his  
head is clear as a bell, and at 74 there is

The artist Whistler lived in Wash-

poverty and seclusion that few people  
were aware of his existence. He was  
then a poorly-paid draughtsman in the  
service of the coast survey, and was
