# OCCIDENTAL MELANGE

The Idaho Mormons Regain the February, 1887. Rights of Citizenship.

EXCESSIVE DROUTH IN NEW MEXICO.

Hot Water to be Piped Into Every Business Block and Residence of Boise City, Idaho.

The Chinese in Idaho propose to defy the Six Companies and, will register. Over 25,000 tons of sugar beets have been harvested at Chico so far this sea-

Work has been commenced upon a new foundry building and a power-house for Stanford University.

Much suffering in the southeastern portion of New Mexico is reported, caused by the excessive drouth.

Heavy swells have washed away the cabin of the wrecked Wetmore, and the vessel now looks from Marshfield as if she had broken in two.

The Hudson Bay Company has closed out its store at Yale, B. C., the trade having decreased to such an extent that the store is no longer necessary.

Applicants for electric-power fran-chise at San Jose have been refused, owing to the objection of the applicants to put their wires under ground The old adobe at Santa Barbara, in

which General Fremont had his headquarters in the early days when he had his camp there, was burned the other William Simmons, who lives ten miles

from Salem, Or., has grown three acres of cranberries this year. They are choice, and are said to be fully equal to the Cape Spokane Indians have held a meeting

near Spokane. They are willing to go on the Cour d'Alene lands, but want money to spend for themselves. There are about one hundred of them, homeless and landless vagabonds, but they believe the government will give them There is a dislike at Victoria, B. C.

for the American Consul there. The latest story from Victoria is: "The masters of vessels flying the American flag touching at that port are beginning to complain bitterly over having to sail without proper clearance papers and a bill of health from the American Con-

Mongolian pheasants are being killed by the hundreds in Lane county, Or., and few people can be found in that sec-tion who have not enjoyed a mess of these fine birds. They are very plenti-ful, though they have been introduced but a few years and have been killed right along regardless of the law enacted

About a mile from Boise City, Idaho, sesses no medicinal value, and heretofore has been used only for bathing. Now a six-inch pipe will be laid from the springs to the town, and hot water will be conducted into nearly every business Some brute in human form has been

shooting valuable stock on Willow creek, Crook county, Or. A few weeks ago Joe Hinkie found a fine Hereford bull, which had cost him \$350, dead in his pasture, with a rifle bullet in his head, and a few days ago Perry Read discovered a thoroughbred Shorthorn belonging to his herd that had been shot and will probably die.

Colonel L. W. Burr told the Kern County Echo while discussing the scale parasite that there was a time last year when the parasites were not noticeable, but with the return of spring they came out in largely increased numbers and began their work of destroying the scale. Colonel Burr's theory is that they are hidden away, possibly in the earth near the tree, and that they will be on deck again next spring.

Daniel H. Ward, who shot and killed John Looney last July in Gilliam county, Or., has been acquitted. After out two hours the jury returned a ver-dict of "not guilty." The jury really agreed upon this verdict five minutes after retiring to the jury room, but deemed it better form to deliberate an hour or two before redering the verdict It was proven at the trial that Ward acted in self-defense.

Frank Leach, a young tailor who misappropriated a suit of clothes at Weston. leted his sentence in the county jail at Pendleton recently. He wa searched on leaving, when it was discovered, almost by chance, that he had taken the mainspring from his watch and left it with the prisoners, to be used as a saw. They were compelled to disgorge, and Leach was rearrested and will stay in jail fifty days longer.

Prof. Edward S. Holden has sent open address to the San Jose Chamber Commerce in answer to the action of that body in passing a resolution con-demnatory of the Professor's administration of the Lick Observatory. He says the Chamber should have consulted persons familiar with the situation of affairs at the observatory and not have relied so much on newspaper reports before charging him with mismanagement. He desires, he says, a full investigation by any competent persons.

A relic preserved in Curry county, Or., is the skull of the Indian who is supposed to have murdered the Geisal family at Rogue river. Mrs. Winsor, who was an eye-witness of the hanging of this wretch, which occurred in the spring of 1856, says the whites found a tree near the present graveyard at Gold Beach and placed a rope around the Dig ger's neck. A barrel was put beneath his feet, which Mrs. Geisal, now Mrs. Edson of Gold Beach, promptly kicked from beneath him, thus ridding the world of a brute who had made desolate a peaceful and happy home.

Judge Stockslager of Alturas county as decided that the Idaho test oath law passed in 1890, which forbids the vote of G. Yale was appointed editor-in-chief of any man who was a member of the Mor a souvenir book of San Francisco at a n Church then or before 1888, was invalid and arbitrary, and that only the oath prescribed by the State constitution should be adminis ered to persons who of the topographical map at a salary offered to register. This decision will of \$75 a month. The salary of Secretary offered to register. This decision will not be appealed by the State, and the manner as members of any other church. There are 2,000 of them, and their vote will be an important factor in the approaching election. The Mormons are jubilant over their restoration to the rights of citizenship.

Act with the ways and Means Committed in the same act with the ways and Means Committed in the collection of statistical ingroves, now having about 250,000 acres frightful sentence passed upon the woman is merely a matter of form and that she will not be beneroaching election. The Mormons are jubilant over their restoration to the rights of citizenship.

Act with the ways and Means Committed in character, planted trees, beside a vast area of fruit tradition, and that she will not be beneroaching institutions, but eliminating care ully those of plants. He was born in New York State exhibitions, but eliminating care ully those of in 1832, and was graduated from Union College in 1854.

FROM WASHINGTON CITY.

Bureau of Naval Intelligence Preparing a Book Valuable to the Merchant Marine and Navies.

The President has recognized Horace G. Platt as Vice-Consul of Russia at San

The President has appointed Ambrose
H. Hill of Ericondido, Cal., special
agent to make allotments of lands in severalty to the Indians under the act of

Two ships, for which proposals were issued by the Navy Department last week, will contain a new feature in modern naval construction. Each vessel will contain three smoke funnels 100 high, or higher by thirty or forty feet than any smokestacks on naval or merchant ships, with the exception of the merchant steamer Scot. These stacks, it is thought, will do away with forced draft.

The secretary of the interior has received a letter from Agent Bennet, of Union agency, in Indian territory, relative to the condition of affairs in the Choctaw nation, which indicates that there is likely to be bloodshed there unless prompt action is taken to provide United States troops in sufficient force to suppress any riot that may arise. Secretary Noble has asked the secretary of war to immediately send a sufficient force to preserve the peace.

Chow Tei and Nip Lung, two Chinese merchants from Chicago, are in Wash-ington City. Their mission relates to the resistance of the Chinese registra tion law. They have had an interview with Ho, Secretary of their legation, and one of them said that he told them that the law was no good and the Chinese government would sustain them in resisting it. They will consult with Chinese there and in Eastern cities with the view of an organized resistance o the law.

Surveyor-General Petitt of Idaho has received word from the national capital ordering him to have the surveys of the ceded portions of the Cour d'Alene Indian reservation examined and reported upon. General Petitt will have the examination made at once, and settlers upon the land of the reservation will be able to secure titles to their claims much sooner than they expected to. It is customary for special examiners to report upon the surveys, but in this case the department thought that the delay would be very inconvenient to settlers; a small evil compared with horse racing. so General Petitt will be allowed to re port on his own surveys.

Secretary Rusk has received advices from the consul general at Nuevo Laredo, Mexico, confirming the dispatch an-nouncing the time for the free importation of corn into Mexico has been extended until November 30, and stating further that between December and July 31 next only a fourth of the regular duty which is 1 cent per kilo, gross weight, will be collected on imports. The con-sul-general adds: "This free importssul-general adds: "This free importa-tion until the end of November and the reduced import duties until January 31 have caused a greatly increased demand for our American corn, particularly in all regions west of the Mississippi."

The bureau of naval intelligence has been some months preparing a book soon to be issued to the service, which will be invaluable both to the merchant marine and navies of the world. The book will state in detail the location of the coaling stations of the different governments. shipyards, repair stations, docks, coa capacity of stations, the quality of coaeat volumes of boiling water gush out
several artesian wells. The water
secrees no madicinal value. worse off than any other country pretending to be a naval power, possessing as it does, only three coaling stations, viz in Honolulu, Lapaz, Mexico, and Samoa Great Britain has important stations in all her possessions in many places where coal can be landed from England for the use of her vessels of war as well as her merchant marine. All are strongly for tified and garrisoned. The book will further show that should the United States go to war there would practically be no foreign ports outside of her three stations, all of which are on the Pacific ocean, where she could hope to get coal

#### THE CHICAGO EXPOSITION.

Proposed Building for a Collective Ex hibit by Merchant Tailors at the World's Fair-Etc.

The international chess tournament o be held at Chicago in connection with the World's Fair will distribute \$7,000 in prizes.

Seats for 125,000 people are to be provided in the great manufactures building at the World's Fair for the dedica-

tion exercises on October 21. The British building at the World's Fair will have among its decorations flags bearing the arms of the principal cities of the United Kingdom.

A cheese mold seven feet high has been shipped to Perth, Ontario, for Prof. Robinson of the Canadian Dairy Commission. It will be used in making a

monster cheese for the World's Fair. The main railway station within the World's Fair grounds, where all excur-sion trains will discharge their passengers, will be a handsome structure, costing \$225,000, and will accommodate 25,

000 persons at one time. President Blalock expects that the Washington World's Fair building will be ready for the Washington exhibit by January 1, 1893. The mineral collection. consisting of about forty tons, is being packed by Superintendent Plunder of the mineral department. He considers

the collection worth \$8,000 or \$9,000. The proposed building for a collective by merchant tailors at the World's Fair will probably be near the fisheries building. As planned, it will be fifty-five feet square, with a portice extending to the lagoon. The tailors of Chicago have raised \$10,000, and \$15,000 is expected from members of the trade

Persons in Bombay, India, are per-suaded that there will be considerable profit in making a varied display at the World's Fair. They propose to send over twelve elephants, so that visitors hout;" to give exhibitions of suttee, cremation, jugglery, nautch, wrestling, etc., and to sell tea at 10 cents a cup. They expect to sell 1,000,000 cups.

At a recent meeting of the San Franlaco World's Fair Commissioners Chas salary not to exceed \$75 a month; he not be appealed by the State, and the Mormons of Idaho will now be privileged to register and vote in the same act with the Ways and Means Commit-

An epidemic of diphtheria has broken out among the Indians at the Wind

The net cash balance in the Treasury is nearly \$31,000,000 or \$5,000,000 greater than New York. Philadelphia capitalists are going to

onstruct an underground-trolly streetcar system in Boston. A jury in New York acquitted a man who spat tobaco juice on a \$6,000 picture in the Metropolitan Museum of Art.

Rev. Thomas Dixon of New York in his Sunday sermon declared the lottery Reports from the Southern States are that the cotton crop is from 15 to 25 per cent short and from one to two weeks

Howard Gould has been elected direct tor of the Gold and Stock Telegraph Company in place of his father, Jay Gould.

The long-distance telephone from Chi cago to Boston is nearly completed. South Bend, Ind., has already talked to

President Young of the National Base ball League says either salaries must be reduced or professional baseball must go to the wall. Harmony reigns over the disturbed

water corporations of Denver, Col., and Omaha, Neb., and the \$20,000,000 law suit is settled. Valuable, discoveries of onyx have been made at Bridgewater, Rockingham

county, Va. It is abundant and of a superior quality. It rained peas at Baltimore the other day. It is believed that they were scooped up by the wind from truck farms

in an adjoining county. The Kiowas and Coms to take lands in severalty. This will result in the opening of more than 2,000,-

000 acres to settlement. Walter Sloan of Burlington, N. J. who was supposed to have been lost in the Johnstown flood, has just turned up at Mount Holly to receive his share of a

legacy left him by his aunt. In the twenty-eight years that the Brotherhood of Locomotive Engineers has had existence Chief Arthur states it has disbursed over \$3,000,000 to the wid ows and families of deceased engineers

At Puebla, Mexico, an undertaker billed the town with huge posters, say-ing he would reduce his funeral charges if the cholera became epidemic there. This incited a scare and he was arrested.

At Clarksburg, Miss., the negroes were reported to be in insurrection, and had sworn to kill the whites. A sheriff's posse found that two negroes had been killed and several wounded when they reached the scene.

Dr. Dougias, the famous throat special ist who abandoned his practice and devoted his whole time to General Grant for six months during his last illness, died recently at Washington City from the same disease which carried off the

old commander. The statistics of the Keeley institutes are of the most significant kind. There are now eighty-four branches established in this country for the administering of the Keeley remedy for dipsomania. The certificates of cure each month average

between 4,000 and 5,000. The Southern Pacific, it is reported proposes to build a railroad from Mon-terey, Mexico, to Portland, Tex., where it will connect with the San Antonio and Aransas Pass line. Such road will be a direct seaport route to Monterey and will shorten the line from New York to the

city of Mexico by fully 200 miles. Somerby, who is trying to reorganize the Iron Hall order, in a speech at Cleve land, declared, with tears in his eyes, that after he had been served with the injunction in the receivership proceed ings he spent the entire night on his knees in prayer, and that during his prayers the plan of a new order was rerealed to him by a light from heaven.

His speech did not take well. The theft of \$440,000 from the Auer Incandescent Light Company by Tyndale Palmer, a former newspaper man, in which he was joined by a hotel-keeper named Freitas of Rio Janeiro, has been brought to light at Philadelphia, Palmer sold the patent rights in Brazil for \$510, 000 and reported the sale at \$80,000.

The chief sstronomical event of October will be the eclipse of the sun, which will take place on the 20th, and be visible throughout the greater part of North America. All the United States may see it, except the western part of Oregon and California. As it will only be a par-tial eclipse, the Western Coast will not be jealous of the Eastern Slope.

The Chicago Telephone Company at Chicago is going to issue an order that all the girls in the operating department must wear black uniforms, to give the room an artistic appearance. Two hundred and fifty girls in the central office have donned the uniform, and, as the idea meets with success, a general order affecting all offices will soon be issued,

Bradstreet's says: During the past nine months the business failures in the United States—South Dakota excluded. owing to the State law practically prohibiting the collection of statistical

#### EDUCATIONAL NOTES.

Education of Russian Children-Entering Class at Union Colleg. \_argest in Its History.

Old gold is to be the color of the University of Chicago.

The enrollment of girl students in the Harvard Annex this year is over 300. There is one woman in the entering class of forty-six at the Massachusetts

Agricultural College this year.

Yale College for the first time in its history will throw open its post-graduate Emperor Francis Joseph Says the Conduc course to women in the coming term. The entering class at Union College, Schenectady, N. Y., is the largest in the history of that institution since the war. Baltimore, Md., has 1,300 teachers, 50,000 pupils, and the schools cost \$1, 000,000 a year. The population is about

Mrs. Maria R. Towne, who died recently at Manchester-by-the-Sea, Mass., left \$175,000 to the University of Penn-

Prof. Harold M. Fowler of the venerable Phillips Exeter Academy has accepted the chair of Greek in the University of Texas.

"Flower Sunday" is one of the annual observances at Wellesley College. It was instituted by the founder of the ollege, and forms a delightful opening to the college. Tufts College has begun its career as

coeducational institution. Women have at last been admitted on an equal footing with men not only in the college of letters, but also in the divinity school. Vassar College had the largest freshman class in her history on the opening

day, September 23, the whole number of students being about 500. It is hoped that the hall will be ready for use in The education of Russian children is conducted in four languages—the native, German, English and French-and they

grow up masters of these languages. The Czar himself speaks English remarkably well. Among the women students at Iowa an active lawyer and the mother of five of corn. children. She is a shining example of

the modern precept, "It is never too late to begin." Now that the manual training idea is fairly on its leet, a champion is wanted for that of school gardens in America. Europe is far ahead of the United States in this matter. Sweden leads the world,

having 2,000 gardens, one for nearly every recently built rural schoolhouse. Three of the professors of Bowdoin College gave much time the past summer to visiting and examining the lab-oratories of other colleges, with the view of perfecting their plans for the interior arrangement of the new scientific building to be erected as a memorial of Mrs. Mary F. S. Searles. The architect pro-poses, if possible, to lay the foundation

The age at which pupils are allowed to enter and to continue in the public schools differs greatly. Of the forty-nine States and Territories six admit them at 4 years of age, nineteen at 5, twenty at 6, three at 7 and one at 8. The States admitting them at 4 are Maine, Connecticut, Florida and Montana. The schools of Alabama and North and South Dakota do not receive them till they are , and those of Texas exclude them till

#### PURELY PERSONAL.

Vice-President Morton Said to be a Practical and Common-Sense Farmer -The Duke of Norfolk.

Vice-President Morton is said to be practical and common-sense farmer, who goes into the business in a large way in order to make money out of it rather than to drop it into it. In China a wife is never spoken of by

her husband in a plain and straightforward way. Such playful terms as "my thorn in the ribs" and "my dull companion" are more usual. The Duke of Norfolk, Premier of Great

Britain, is about to make another pilgrimage to Lourdes in the hope of mitigating the condition of his son and heir, the Earl of Arundel and Surrey, who is blind, deaf and dumb. The late Prince Victor of Hohenlohe saved Wolseley's life during the Crimean

war. He was declared dead and about be carried off, when the Prince noticed a twitching of the young man's face, and, applying restoratives, revived Mrs. Henry White, wife of the Secre

tary of the United States Legation, who has been stopping at Braemar, England. for the benefit of her health, had the honor of dining with the Queen recent-Mrs. White has much improved in health lately.

Dr. Daniel Denison Slade is one of the few surviving eye-witnesses of the first capital operation under the influence of ther at the Massachusetts general hosoital November 7, 1846, when the disovery of Dr. Morton stood the which revolutionized surgery.

George William Curtis suffered greatfrom stage fright on the occasion of is first lecture, and began by saying: Ladies and gentlemen, the pitomless with a solemnity which was changed to confusion when he perceived his error. Of course, he had meant to make an allusion to the bottomless pit, Mrs. Mary Green, aged 84 years, of Scarboro, Me., has during the past six months "spun thirty-two skeins of yarn, knitted five pairs of stockings, picked three bushels of blueberries and tended large flocks of chickens and ducks, be-

sides doing much general housework.' Dr. Susan Janeway Coltman of Gernantown, Pa., owns a unique collection of cats, which she values at \$5,000. There are twenty-two of her pets, and among them are included Skye, Zanzibar and feather-tailed Turkish cats, tail- in the Kaiser's own realm as well as ess Manx pussies, white Maltese, yellow Persian and English tiger cats.

M. Thibaut, the French actor, who died in Paris recently, was born in Nantes May 7, 1837. He was the son of merchant, and went to Paris at the age He made his debut at the Moliere. He was subsequently at the Mont-martre and other theaters, and later ap peared in London and Brussels. Finally he was engaged by Offenbach at the Boufles-Parisiens and Rinaissance. He t was who originated the catch phrase, C'est immense!" which was a "go from the start and for a long time pop-

ular. Hon. Julius Sterling Morton, once Governor and now the Democratic candidate for Governor of Nebraska, is sometimes called the father of Arbor day. It is very largely owing to his ex-ertions that Nebraska advanced so rapidly in the establishment of artificial groves, now having about 250,000 acres

## Whaling Is Dangerous.

It is the whalers who encounter most serious perils in the Arctic ocean. Hardly a year passes when some whaling vessels are not lost. In 1871 only three ships were saved out of a fleet of twenty-two. No lives were lost, but the natives on shore have been using chronometer days during the winter. The cases for brass kettles ever since.— the vegetables is said to be being Chicago Herald.

#### Safe from Entry.

the New York pension office and two of the oldest in the United States, although pensioners are proverbially long lived. are General Tupper and General Dalley They are veterans of 1812. The city of Paris has 87,655 trees in

its streets, and each tree represents a cost to the city of 175 francs. This makes in round numbers \$3,000,000 worth of trees in the streets.

# THE FARM AND GARDEN

Plymouth Rock Leads Other Breek in Making Weight.

A POT-POURRI OF POULTRY NOTE

Fowls That Have the Run of the Far Do Not Need Much Grain-The Crossing of Breeds.

Choose clean meat for the hear chicks when buying. Do not keep ducks in the same he

with chickens, nor in the cabbage lettuce garden. One trouble with both turkers a peafowls is their propensity for wants ing away from home and often faili-

come back. Fowis that have the run of the lan do not need much grain. The bonus insects that they pick up readily is the place of it.

The Canadian experiment farm is found that the Plymouth lock leads other breeds in making weight from given amount of food.

A flock of 100 hens, properly hands should give a profit of \$1 each per res. Do not expect more than this or your probably be very much disappointed If you can get the hear to lars from November to March, you will to plenty of satisfaction in the egg beness. A warm house, rood ventilate plenty of sunshine and good food a fine persuaders for this.

all non-setting hens lay eggs that a pure white in color. The brown or come from the large Asiatic brown though the eggs from Wyandottes, lay shans and Plymouth Rocks are to what dark. If late chicks do not grow, price cheap lean meat or liver, boil it at after chopping it fine thicken the ten and chopped meat with midding, esting the whole as bread. It will be see eagerly, and will show a marked else on the chicks.

It is perhaps something curious fi

on the chicks. Don't worry, if breeding pure blook
if the newly hatched chicks are as
prize winners when taken from these
The color of beak and leg will chiz
very materially; while not until their

In Holland farms devoted mainly the raising of geese are not a rarity. is a recognized and profitable brate. small farming. The fact that there sist so largely on grass and can be in dled in large flocks should lead to a extension of the industry here in a own country.

Dark Brahma hens make an engle cross with Langshan cockers. Eggs well as beautiful table poultry, as a tain to be the result. The brown is horn cock is often used with larger with a real cock and results. pullets with equally good results. I run a medium-sized fowl, and bras are preferred to large fowls. When you begin to sell off your you males do not be tempted to retain it large, heavy ones, but select the ad and vigorous birds. Those that h

the smallest combs, which forage serviceable the next season rior members of the flock. The dency is to keep all the pullets, which good or bad, and in that way losses The best pullets will grow fast sooner and give a larger profit if

are allowed the room and food the given those that are inferior and en-less. Regularity Essential. [W. H. Gilbert before New York Lady 0: tion ]

Feed regularly, and milk just as

arly. The days of milking at one to-day and another to-morrow, water thrice to-day and once to-morrow gone by except with the old-fash dairyman, who must either re'em methods or fail in the dairy bush We should aim to keep our coust dividend-paying basis and at works ly the year through, and they can kept so by proper care and feed. the cow quiet; a very little excite will reduce her flow of milk and the cent. of fat in it; I think it, then advisable to have the same mile the same cow constantly. I get the milk from feeding twice a day, better results than from feeding the four times; but my cows are gire they will eat and digest; a cow th will lie down when her wants are fied, chew the cud of contentme secrete milk. The milkers should dry, clean hands, and the cow's should be thoroughly and dibrushed before beginning to mik The same cow should be milked s same hour, dividing the twent hours equally. Do not milk at 650 to-night and 7 o'clock to-morny as and remember that a change of will always lessen the quantity asignity of the milk. Carry the milk in stable as soon as you have milked at and then there will be no danger becoming tainted from any odar may be in the stable. After it but aerated set the milk as nearly a set temperature as you can get it, about 98 degrees, and in so doing

Electricity in Gardening. Some recently published and seem to indicate that electricity profitably employed for certain purposes. We are informed the English market gardener emples electric light in a gigantic glass si devoted to the forcing of springs lettuce was hastened by 10 per cel the actual gain has paid the With an actual gain of five days crop, the maturity was hastened The question, however, remains the the process can be made practical for common purposes increased earliness of new and vegetables will make them par in
