As usual the hop market cannot be reconciled to views of both sellers and buyers. The person who has something to sell thinks the buyer does not offer enough, while the buyer makes every effort to secure the best bargains possible.

Sundance, Wyo., Reformer: An old proverb says, "he that is warm thinks all is so." Mr. Harrison says the country is prosperous, but if he were on a quarter section wrestling with the low prices for farm products, he would be better posted as to the condition of the masses of the people.

The Telegram suggests that Senators Dolph and Mitchell should have a joint debate. Mr. Dolph voted against free silver and in favor of the force bill. Mr. Mitchell voted for free silver and against the force bill.

One nuisance has been removed from the sidewalk on Willamette street. We refer to the old maple tree that occupied the middle of the walk, between Sixth and Seventh, obstructing travel and causing considerable annoyance to pedestrians to and from the depot.

Working the Hop Raisers.

TACOMA, Wash., Oct. 18.—The hop-growers assert that a combination has been formed between the chief buyers and brewers of the northwest to bear the hop market. They cite the fact that buyers are keeping out of the field, only buying the hops offered by growers who need money and must sell. State Senator Van Devanter, of Kent, a large grower, says hops will fetch 40 to 50 cents before June and has advised the Puyallup and White river valley growers to hold up for better prices. The first sale of the season was made Saturday at Puyallup at 20 cents. The buyers deny that any combine exists.

If Columbus had been a high tariff man he would have stayed at home and thanked heaven that the unknown ocean lay between his native land and the pauper labor countries beyond.

MICHIGAN IS ALL RIGHT.

United States Supreme Court Upholds the Miner Law.

WASHINGTON, Oct. 17.—The United States supreme court by Chief Justice Fuller today reaffirmed the judgment of the Michigan supreme court, upholding the constitutionality of the famous Miner law providing for a choice of presidential electors by congressional districts instead of by the state as a whole. The court holds the 14th amendment to the constitution of the United States did not limit the right of the states to fix the mode of choosing electors. It is conceded the effect of the decision is to give a part, at least, of the Michigan electoral vote to Cleveland.

The opinion was unanimous.

Cleveland's Manly Sympathy.

CHICAGO, Oct. 17.—The committee on ceremonies of the world's fair have received a letter from Grover Cleveland saying he would not be present at the ceremonies. He had intended to do so, and the reason for this change of plans is given in the following sentence from his letter: "I may be over-sensitive and even morbid on the subject, but I cannot allow myself to take a political advantage over the opportunity afforded in the sad sickness that keeps President Harrison away from Chicago."

Kissed and Made Up.

Portland Telegram: They have kissed and made up. The Hickathiers were to have been up before Judge Stearns this morning for the trial of the divorce suit brought by Minna Hickathier against her husband Gustaf. She alleges that her husband Gustaf had treated her most shamelessly, and that on the 15th of last June he struck her a violent blow with his fist, pushed her out of the house and slammed the door in her face threatening further violence if she attempted to enter again. The couple were married at Eugene City, in May, 1884, and since that time have been blessed with three children, the oldest being 7 years and the youngest two years and six months of age. The plaintiff wanted the two younger children and was willing to give the eldest to the father, with whom she was willing to dispense. Since then, however, she has thought it over, with the conviction that she wanted them all. So this morning her attorney appeared in court and informed Judge Stearns that the case would not come up in court now or at any other time. With a smile of pleasure his honor granted the motion to dismiss with the remark that it was well the plaintiff appeared as she did, as 24 hours later another wedding would have been necessary.

Daily Guard, Oct. 18.

DEFIED THE OFFICERS.—Gus. Ballard has just returned from a trip to Eastern Oregon and relates the following: Last Saturday, a party of immigrants with their wives and children, passed the toll gate at the Blue river bridge by force. A warrant was issued for their arrest and Constable Thompson, of McKenzie bridge dispatched to make their arrest. When he served his warrant the violators of the law refused to return with him. He then returned to the bridge and summoned a posse to see that the law was respected, but the party had not yet returned when our informant left, hence the result is in doubt.

Probably Fatally Injured.

Daily Guard, Oct. 18.

Yesterday morning, about 7 o'clock, Herman Keep, who lives about one mile east of Irving, was kicked in the abdomen by a yearling colt, which will probably result fatally. Mr. A. J. Conrad was leading the colt from Mr. Keep's pasture, and while that gentleman was looking at the animal received the kick without warning. He was knocked to the ground and has since been unconscious. Dr. Harris was called and has done everything in his power to restore the man but has thus far been unsuccessful, and is of the opinion that the man will die from the effects of the kick. Mr. Keep is a hard working industrious man, and has a family of six children and a wife.

Wayne MacVough Speaks Again.

New York, Oct. 19.—Wayne MacVough was the principal speaker at the democratic mass meeting held here tonight. In the course of his speech he said the appointment of Egan as minister to Chili was an insult to every self-respecting Irishman in the United States. He said Mr. Reid and the Tribune had persuaded him that Egan was a dishonest and unworthy man as far back as March 15, 1883. Mr. MacVough claimed that Judge Gresham's change of faith showed that in leaving the republican party was the result of a high sense of public duty.

The old placer mines on Granite creek, near Pendleton, are to be reworked. Gold seekers took out from \$80,000 to \$100,000 there a quarter of a century ago, since which time the mines have been abandoned. A Salem dispatch of Oct. 20, says: In the circuit court the case of John H. Dove, for burning the steamer Young, is on trial. Charles Pyburn pleaded guilty for the same offense and goes to prison for three years. Dave Young, indicted for the same offense, stands trial.
