"I have heard some people advance the theory that the climates are chaning, and if that is true the lumber bu :ness would be revolutionized. Of course we would have to meet it, though, as we have been doing this year in a meas ure. I suppose the building of great sys tems of tra ... ways, or even narrow gauge

railroads, would be the solution of the problem. A though costly at first, they would prove cheaper in the end than the present method of hauling on the snow, ecause then we would not be at the mercy of the weather. There would then be no such interruption to trade as we have suffered this winter. I know of one firm now which has a narrow gauge railroad with a light locomotive, and it works successfully." - Pittsburg Dispatch.

Photography in the Court Room. The adaptation of photography to legal

uses is the newest thing in the trade. A firm of Brosdway camera experts are doing a thriving business photographing letters and documents for lawyers to use in their cases, of doing up views of buildings, interiors of rooms, objects of furniture and the like, to help the learned counselors make their cases plain to the gentlemen of the jury. As the average lawyer's powers of graphic description are not very great, this latter branch of the business should be of decided advantage. The scene of a murder or a suicide, the window by which a burglar forced an entrance, or the lock he burst to get into a bank, are very important parts of a criminal trial. Heretofore description has been the jury's only reli-ance in the matter. Now the unerring eye of the photographic lens will serve them as a silent witness .- New York News.
