

Eugene City Guard.

SAURDAY, NOV. 26, 1892.

We need more factories, and there is occasional talk of securing plants.

A Salem exchange has made the discovery that the Willamette river is fed by forty streams.

The French chamber of deputies is unearthing some scandalous proceedings connected with the management of the Panama canal scheme.

That Olympia judge who refused twenty-four foreigners naturalization because they could not read or understand the language of the constitution is to be commended.

Mr. Cleveland scored a great victory in Ann Arbor, the town where Michigan University is situated and where Major McKinley made such a how-de-do over his scheme of engrafting protection ideas on the minds of college students.

Senator Pettigrew, of North Dakota, joins the procession that has abandoned protectionism. He frankly says: "There is one comforting thing about the whole business. The election on the 8th put an end to McKinley and the high tariff ideas which were in his bill."

The new administration should deal courageously with the pension question. Those who are unworthy should be stricken from the roll. Worthy disabled soldiers are the most injured by pension frauds.

The New York Herald calls up on the incoming administration to dispense with the foreign ministry and thus save many a half million dollars per year to the government.

Count Tolstoi, in the Russian Gazette, calls attention to the continued miserable condition of the peasantry of Russia. He says famine again threatens the districts.

Petitions are in circulation asking congress to establish a road department at the capitol for the purpose of promoting knowledge in the art of constructing and maintaining roads.

The knell to elevated railways in New York City has sounded—the finishing touches having recently been put to the plans and specifications for the construction of an electric four-track, underground route.

Cleveland is not a representative of the spoils element, and has so announced. He certainly stands on the ground enunciated in his message of December, 1889, if his speech before the Manhattan club Saturday night may be taken as an index.

The landslides on the Union Pacific continue to come down with increased energy. A dispatch from Bonneville states that a heavy rain is falling which is washing tons of earth and debris down the mountain side and gorge.

HELENA, Nov. 22.—The official canvass shows that Miss Ella Knowles, populist nominee for attorney-general has a plurality of 318 votes over Day, democrat, and 496 over Haskell, republican.

Of the \$1,000,000,000 exports from the United States during the last year over 80 per cent were agricultural products.

Seldom has fall weather been more favorable for farming operations. A very large acreage has been sown and in many fields the ground is covered with growing grain.

President Harrison it is said will extend the civil service classification to other parts of the government. It is well. The president should be allowed time for other duties than parceling out offices to hungry partisans.

It is not often that a public man would make the shameful admission like Wanamaker, when he remarked that the voting booths caused republican defeat.

The papers all over the state are advocating better roads. This is as it should be. Better roads are badly needed everywhere and ought to be had.

The Washington correspondent of the Oregonian is distinguished by nothing except a lack of brains. His platitudes and political prophecies are very tiresome.

For several days the Pacific coast north of the Columbia has been subject to heavy rains, interfering with railroad traffic, and flooding the country.

The Kansas legislature may elect Mrs. Lease to the United States senate. There is no constitutional prohibition as to sex in that body, and if the state elects her she will take her seat.

The Portland Welcome says that when Cleveland turned over the United States treasury there was about \$130,000,000 left there. Now Senator Carlisle says there will not be enough left next March to enable Mrs. Cleveland to make her Easter pudding.

The Journal says that "Germany can and will supply the United States whenever she has a surplus, with hops at 5 cents a pound." This will astonish the buyers who are paying our growers 18 to 20 cents per pound for hops to export.

Our friends the tariff beneficiaries do not seem to have their scarce business very well organized. Their organs contain a dispatch or two daily from some protected establishment announcing that wages have been or will be reduced, or that production will be restricted, or hands thrown out of employment, or some other dreadful thing.

THE STORM KING. SEATTLE, Nov. 22.—Reports of the storm throughout the state are still worse today, and the prospects of rail communication are abandoned for several days at least.

Resolved, by the Lane county Pomona Grange, that we urge the county court to place all persons now receiving county aid as paupers in care and custody of Dr. Frank Jackson, or keeping all county paupers, or to withdraw all county aid from them.
