A SUCCESSFUL TEST.

The Well at the Waier Company's Pumping Station will Afford Am-

ple Water.

Dally Guard, Nov. Dr.

ing station yesterday and at 1 o'clock p. m. the pumps were started. The smaller pump which has a espacity of 36,000 gal

loss per hour, was the only ono used and the water was pumped into the mill ruce, except about 5000 gallons pumped to the reservoir. This was done for the purpos-

of cleaving the well. The first hour the pump use worked, it lowered the water in

he well 2 feet, the well baving about twelva

feet of water when pumping was begun. It was estimated the pump was discharging at

the rate of 30,000 gallons an hour, but from 2 o'clock till 5 it was impossible to lower

t more than 1% inches further. The large pump has a capacity of 62,

000 gallone per hour and will be attached and both will be worked together and

all the water pumped out if possible

it is established as the regular pump-ing station, which will probably be in

As will be seen by the foregoing there is plenty of water in the well.

The reservoir could be filled at any

time with either pump in less than eight hours without lowering the wa-

ter more than two feet. In case of an

emergency both pumps could dis-

charge \$0,000 gallons of water an hour and it is doubtful if the well would be

pumped dry, even then, for several

A new whistle is used at this station which was used yesterday for the first

time. It has a very loud coarse sound.

latter the state.

WHALL FISHING.—Thos. Ogden, a Portland boy, has just returned from a whale voyage in the Arctic ocean, going as far as the McKenzie river. vessel brought home six whales. One boat returned with thirty-nine, a fortune. In the Telegram a graphic account is given of the business, in which there is money if followed by any success. Ogden said: "At the present prices for whalebone, and the scarcity of whales, three of them is a fair catch for one season. Three whales will ordinarily yield from 5000

to 6000 pounds or more of whalebone worth about \$6.50 per pound, and about \$0 barrels of oil, worth \$14 per barrel. One whale is ordinarily worth about \$11,000.
