First class tile shipped to any part of the country.

THE CRY OF MILLIONS!

OH, MY BACK!

STOP IT NOW.

SOON IT WILL BE TOO LATE.

I have been troubled for many years with rheumatism of the kidneys and have tried many different remedies and have without relief. About the 15th of April I was suffering from a very violent attack that almost prostrated me in such a manner that I was unable to get up alone, or to put on my clothes, when I was called by my wife, who had just returned from the city, and she told me that I should use Dr. Williams' Pink Pills for Pale People. I immediately commenced using the pills, and in a few days I was able to get up alone, and in a few days I was able to go to work. I am now as well as ever, and I am sure that the pills have cured me. I am sure that the pills have cured me. I am sure that the pills have cured me.

G. A. TUPPER,
Proprietor, Occidental Hotel,
San Francisco, Cal.

Dr. Williams' Pink Pills for Pale People.

For Female Irregularities, Headaches, Neuralgia, Rheumatism, and all other ailments of the blood. It is a powerful blood purifier and a most effective remedy for all ailments of the blood.

HON. Z. AVERY,
ONE OF THE LARGEST CONTRACTORS AND BUILDERS IN NEBRASKA.

HEART DISEASE 30 YEARS.

GRAND ISLAND, NEB., April 20, 1892.

Dr. Miles' Medical Co., Elkhart, Ind.

GENTLEMEN: I had been troubled with heart disease for the last 30 years, and although I was in the prime of life, and had a good deal of money, I was unable to do any work. I was in the prime of life, and had a good deal of money, I was unable to do any work. I was in the prime of life, and had a good deal of money, I was unable to do any work.

THE Cured THOUSANDS.

DR. MILES' NEW HEART CURE.

GRAND ISLAND, NEB., April 20, 1892.

Dr. Miles' Medical Co., Elkhart, Ind.

SATURDAY, DEC. 17.

Miss Annie Olesby is visiting in Eugene today.

A. J. Johnson of Creswell spent last night in the city.

Senator Veatch, of Cottage Grove, was in town today.

C. D. Combs is confined to his residence with sickness.

Talk of still another grocery store opening in Eugene.

Editor Gilstrap of the Messenger was over from Springfield today.

Dr. R. F. Hammel and A. H. Spaul of Cottage Grove were in town today.

J. E. Andrews is assisting in A. V. Peters' store during the illness of Mr. Combs.

The U. S. government is erecting a \$1,200 wind mill on the Unstilla reservation.

S. L. Moorehead, editor of the Junction Times, came up on the local this afternoon.

A sunny day is nothing unusual this winter, but a rainy one is seldom seen in this section.

A meteor is said to have fallen in Albany last night. It measured 14 inches in circumference.

Rev. I. G. Knott, editor of the Oregon State School Journal, arrived on the local this afternoon.

Editor Thorpe, of the Cottage Grove Echo-Leader, was in the lower part of the county today on business.

Fred Chambers turned from Portland last night. He has been attending business college in that city.

The state assessment shows the wagon road lands run from 73 cents per acre in Klamath county to \$2.01 in Lane.

Artemus Dodge died at Lebanon, of dropsy, last Thursday, aged 58 years. He was worth between \$30,000 and \$40,000.

Cattle and sheep in Eastern Oregon are in fine condition. There has been more hay put up this winter than for many years.

R. J. Stevens, who has been seriously indisposed for several weeks, has improved so as to try work again for a few days.

Miss Lillie Hamilton left for Corvallis on this morning's local, her father, T. M. Hamilton, having permanently located there.

A woman of Astoria estimates the cost of keeping a cat \$18 per year; a dog \$24 per year; a canary bird \$7.50; a total of \$49.50.

J. M. Williams returned this afternoon from Portland, where he has been in attendance on a meeting of the National Guard Association.

Mrs. J. M. Clark, the trained nurse from Brooklyn, N. Y., came up on the local this afternoon to spend the holidays with her sister, Mrs. Geo. F. Crawl.

H. C. Rice, who has charge of S. H. Fraddy's warehouse, will leave for Portland tomorrow morning to accept a position in a wholesale grocery house.

Rev. I. D. Driver went to Salem this morning where he will preach at the Congregational church tomorrow.

He will also deliver a lecture before the Y. M. C. A. before his return.

The four mill tax for the support of the Junction City public school was voted last Saturday. It is claimed that the levy of the levy will be tested, on account of not balloting on the question.

A daughter of S. R. Jenkins presented this office yesterday afternoon with some remarkably fine, ripe raspberries, grown in the open garden. What country can compete with glorious Oregon, for climate.

A hose cart should be placed in the southern portion of the city. It is estimated that the council will buy a hose cart and purchase a cart and hose if the people in that portion of town will organize a company.

Junction Times: At the school election Saturday a tax of \$800 was voted for a free school. The directors were also authorized to sell the old school building and ground at public auction and the same advertised by poster, and the day of sale is Dec. 17.

Richard Mount this morning suddenly fell to the floor at his store on Ninth street, from heart troubles. He was carried into the livery next door and placed in bed. After an hour he was able to go to his home. He has been subject to similar spells in the past.

Independence West Side: Henderson Murphy is one of our substantial farmers, living 20 miles south of town. He is a thrifty man, and knows a good investment when he sees it. Less than a year ago he bought 1500 sheep very cheap, paying for them only \$1500. He has sold since that time from the sheep \$3400 worth of wool and mutton and last week sold the present band of 1500 to Holt McDaniel for \$1200. His profit was nearly \$6000.

Albany Democrat: Oregon is full of colleges, some \$500,000 according to the latest returns. As every little collection of houses is a city, so is nearly every private school a college. These are matters needing regulation. On the other hand it means that Oregon is alive on educational matters and is after the game. Though not having a high grade college like the big three we have some splendid lesser lights where the instruction is thorough and superior facilities are employed.

MONDAY, DEC. 19.

E. F. Willis of Portland was in town today.

T. D. Linton made a trip to Harrisburg today.

Horace McClure is home from Seattle on a visit.

Friendly has an Xmas ad in today's GUARD. Read it.

Mrs. J. G. Gray returned home from Portland this afternoon.

Miss Lina Holt came home from Seattle Saturday night.

Robert R. Reid is in the city and will spend the holidays here.

Rev. I. D. Driver returned home from Portland this afternoon.

On account of ill health S. W. Cooper is retiring from business at Harrisburg. Oregon's educational exhibit at the world's fair will require a fund of \$5000.

Attorney E. R. Skipworth went to Portland this morning on professional business.

We understand that John O'Brien, of Willows, Oregon, will spend the holidays in Eugene.

W. Kitchen, wife and child of Roseburg, returned home this afternoon after a visit with friends in this city.

A. C. Woodcock returned home this afternoon, the local of equalization having finished its trip to eastern Oregon.

Sheriff J. E. Noland is in Portland today attending the sheriff's convention. Mr. Noland is secretary of the organization.

U. G. Haywood and C. L. Buck, who are well known in Eugene, left Albany Saturday, or a visit to their old home in State Center, Iowa.

Hon. T. G. Hendricks returned home from Portland Saturday night. The grand jury adjourned Saturday afternoon for the term.

J. M. Shelley and son Walter arrived here on Sunday's train from Portland, and will spend the holidays at the home of the old folks in the Mohawk valley.

The Albany Democrat in speaking of the kind of man who generally writes up Oregon. He must either be crazy or malicious.

Mr. and Mrs. J. C. Welch, of Portland, were visiting in this city yesterday. Mr. Welch returned on the Sunday local while Mrs. Welch will make a more extended visit with her parents, Mr. and Mrs. M. Wallis.

Bishop Newman raised in Portland yesterday for the Methodist hospital of that city, \$20,000. Rev. A. C. Fairchild, formerly pastor of the Eugene M. E. church, subscribed \$5000.

J. O. Baker, a Boise City clothing merchant, failed last Saturday. Assets \$24,257; liabilities \$29,025. Mr. Baker has many friends in the Willamette valley who hope the suspension will only be temporary.

A Montana woman who now lives in Oregon is to be the model for the sculptor of the silver statue after all. So the silver state will not only demonstrate by her exhibit that she is rich in minerals, but will plainly display to the world that she has beauty as well as wealth.

Portland Commercial Review: The flour market is still in a demoralized condition and no prospects for the betterment of the same. Another cut on flour occurred Monday of this week reducing the standard quotation to \$3.50. Millers out here are not wearing a very happy and pleasant countenance.

Ashtand Record: A neat and dandified looking fellow wearing diamonds, medals, etc., long hair and a southern hat was on Tuesday's south bound train. He was Captain Jim, a well known Arizona stockman who had been in Oregon purchasing land. The Pullman porter said the decorations were distinctive ones on him for heroic services done in world in killing fourteen reporters, three horses and two dozen mules in one shot.

The Phillips family, Jackson county, beats the record for family trouble. Here it is: M. J. Phillips was sued for damages by Spencer Childers for throwing him over a plow, by which the latter received injuries. The suit was for \$10,000, but the jury gave Childers \$1000. Emma Cooper sued Captain Phillips and her son for damages for defamation of character and obtained a verdict of \$5000. Young Phillips married a sister of the plaintiff and afterwards procured a divorce, to set aside which another suit is now pending in the docket. In his sworn testimony in the divorce case he made an allegation which the jury found to be false, malicious and of such a character that they gave the verdict as stated.

OREGON PIKE.

It is a cold day when Oregon gets left on any product of this sublimity sphere. An Ashtand report says that in February and March of each year, a kind of fish sometimes called suckers, but more properly a species of mullet, run up Lost River from Tule Lake in Klamath county, in great quantities. For years Indians from the adjacent reservation have caught and dried great quantities of them each season. Within a few days a number of men from that county have formed a company, and propose to go into the business of catching, drying, salting and placing these fish on the market, and will call them lake pike, claiming that they are a species of pike.

THE FINALE—Portland Sunday

Welcomes: Jessie Bush, the wild young girl from Eugene, sent to the Refuge Home a week ago did not have long to stay in that institution. Her lover Jack Buckley, an ex-convict, got her out by presenting to Matron Kelly a marriage license and some money which she thinks more of a dollar than his calling, married the couple last week. Immediately afterward, Buckley put his child-wife in the notorious joint of Liverpool Liza, on Couch street, and in order to show his superiority, last Saturday smashed her face for not carrying up the money she had made in her nefarious business. The attention of the police department is called to the place run by "Liverpool Liza," also to the fellow Buckley. It would also be interesting to know why Matron Kelly of the Refuge allowed the lady to leave her custody.

Sheep Inspectors Notice.

All persons in Lane county owning sheep or sheep stock afflicted with said disease, are hereby notified that said sheep must be thoroughly dipped, sufficient to kill said disease, forthwith.

Any person failing to comply with this notice will be liable to have his sheep dipped by the inspector at said person's expense. Takes notice and save costs.

Dated Sept. 1, 1892.

S. R. JENKINS, Sheep Inspector.

For Wooden and Willow Ware, go to GOLDSMITH'S.

Steam Saw Mill

For Sale Complete.

Address "K" care of Greaser office, Eugene, Oregon.

Goldsmith, the Pioneer Grocer.

The legislature is charged with the duty of turning the canals through which the people travel during the winter into roads.

The public will be interested to know that the rain-making experiments in Texas are considered a scientific success but a practical failure.

Blaine's physicians have finally acknowledged that he is suffering from an organic disease. It is averred that Mr. Blaine is in the last stages of Bright's disease.

The promoters of the Lane county division scheme have fixed the line about one-half mile south of Creswell. They estimate the proposed county would have about \$1,000,000 of taxable property.

No more propitious season for farmers was ever seen in Oregon than the present one. The fall and winter plowing and seeding is finished, and the larger part of the soil intended for spring sowing has been plowed. Grass is excellent, and stock of all kinds is in good condition.

The Victoria Colonist, commenting upon the annual report of Secretary Elkins, says that the smallness of the American army speaks volumes in favor of the capacity of the United States to hold its own, both at home and abroad. Ours is a government of the people. Bayonets are not required.

The telegraph brings the news that the Welsh employees in the Elwood, Indiana, tin factory have gone on a strike. This great American industry will languish until more Welsh workers can be secured to dip imported English black plate in imported Welsh tin. All for the benefit of American labor according to the McKinley creed.

Now that the horse is stolen Oregon's legislators propose to adopt the plan of selling school lands at auction, says the Jacksonville Times, as is done in the state of Washington, a reserve figure of \$50 per acre being placed upon the lands offered for sale. Oregon has so little valuable school land left that the enactment of the law at this time will appear like a weak farce. Her solons should have thought of this long ago.

The general newspaper criticism on Jay Gould is that he was a supremely selfish man. But that inordinate selfishness dominates the Gould blood cannot be true. Abe Gould, Jay's half brother, is one of the most generous and liberal hearted of men. When Jay was the chief devil of the Union Pacific some years ago, Abe was the company's coal agent in Utah, and as such he saw to it that no poor family in Salt Lake City went without coal. Of course he was short in his accounts when he went out of office as between the tonnage of coal billed to him from the mines and the tonnage actually sold, but the billing weight at the U. P.'s coal mines is always short, and Abe's accounts were adjusted on that basis.

The sun enters the sign Capricornus on the 21st inst, at 3 o'clock in the morning, at which time astronomical winter begins. Old Sol seems to stand still for two or three days, and then turns his cheerful countenance towards the inhabitants of the northern hemisphere. Weeks will pass, it is true, before the change is perceptible; but the dominion of winter is shattered and each succeeding day brings us nearer to springtime. Among the ancients the year began when the sun had reached his farthest point south; it was the jubilee of the year to them, when, with music, dancing, and other festivities, they paid homage to their rude deities. The sun was to them the great representative of the deity, and the winter solstice the time especially devoted to religious worship. The diminution in the amount of daylight in December is but slight, compared with that of October and November; and about the time of the solstice there is practically no difference for a number of days. When the new year comes in, however, there will have been an increase of daylight of over three minutes.

A Pennsylvania congressman proposes that the government issue additional interest bonds to the amount of \$75,000,000 to pay the deficiency which has resulted from the Reed-McKinley congress. What is to prevent the issuance of legal tender notes without interest? \$350,000,000 of greenbacks are in circulation, not one-third of which is represented by money in the treasury, and we have yet to hear of the first instance for a number of years past that they have been discounted the least fraction. There is a medium between the partisans of gold, and fiat money, as some are pleased to term the paper issue, and that would justify the United States in issuing legal tender notes to an amount approximating a per capita circulation of other nations who have a much larger amount of gold, silver and paper money, and yet remain prosperous, although possessing vastly inferior natural resources. France, the most prosperous nation in the world, excepting the United States, leads us \$900,000,000 in the circulating medium. The undue enhancement of gold at the expense of agricultural, manufacturing and mining interests demands legislation in the interest of silver and paper money.

The citizens of Weston are waging a crusade against gambling. Seductive craps and kindred games keep most of the boys broke, and the city fathers intend to change the condition of affairs.

In the whole or part of at least twenty-one states in the Union school books are in whole or in part supplied free to scholars, and in the whole or part of eleven states text books are entirely free.

Roseburg Review: The Oregonian political editorials bear a wonderful resemblance to the twaddle sent out by their alleged Washington correspondent. Can it be possible that the correspondent is a lunatic locked up in the tower of the big building?

The Lane county members of the legislature should work harmoniously for a salmon hatchery on the Siuslaw. A splendid location can easily be secured. The twenty miles of tide water would be excellent protection to the young fish until they were ready to make the ocean venture.

As the tariff question is yet an unsettled problem, we deem it pertinent to call attention to the fact, that during the late campaign, we were told by McKinley adherents that the tin plate manufacturing industry had so far advanced that the markets were largely supplied with the home product. If this be so, why was it necessary to import during the month of October, 1892, 43,158,075 pounds of tin plate against only 20,054,856 pounds for the month of October 1891?

It appears to be the general sentiment of the country that keeping open the Chicago exposition on Sunday, the machinery not being allowed to run, excepting lighting appliances, will be in the interest of morality and order. The thousands of strangers in the city will not be forced to depend upon frequenting questionable resorts to while away the day. Besides it is an international exhibition to which all nations are invited. If the religious beliefs of all were respected the exposition would remain closed every day in the week.

Philip Armour has founded a school in Chicago for the training of young men and women in the different vocations of life. No charge will be made for tuition, the object of the generous donor being to place a practical education within the reach of every deserving youth. Armour donates \$1,500,000 for grounds and buildings, besides endowing the school with an additional \$1,400,000. Among the divisions in which instruction will be given are those of the department of science, of mechanical arts, of domestic economy, of technical study, of practical business, of physical training, of lectures and evening classes, of library, of art gallery and museum.

The East Oregonian criticizes the state board of equalization. It says: The board of equalization is troubling over the state at the people's expense, equalizing assessments. They managed to spend one night in Pendleton and save the town by electric light. This trip, it occurs to us, affords such an excellent chance to "see the country" and snatch up information that will be valuable in the work of equalization when the board returns to Salem. The board is traveling through the country at the rate of thirty miles an hour. They will have to have an eye "of a heagle" to derive any benefit from such a trip, but is it not a trip of recreation at the people's expense, rather than a trip on business for the benefit of the people? These junketing parties are rather frequent in all parts of the country. This is one of the reasons why public office has become a private snap. The people are being bled by tax eaters.

Immigrants to the number of 579,662 arrived in this country during the fiscal year ending June 30, 1892. This is from the report of Superintendent of Immigration W. D. O'Connell. Add to this 75,000 to 100,000 foreigners who came here to remain, but were not classed as immigrants, and we have a total of 654,662 outsiders who have left other countries and taken up permanent residence in this. Of this 650,000, probably 600,000 are worthy inhabitants and should be welcomed; but that leaves 50,000 that should never be allowed to cross our portals. Of this last number, fully 90 per cent came without sufficient funds to enable them to seek good employment or get out of the crowded quarters of great cities. They are either stranded in New York, or perhaps have money enough to take them to Chicago. These two cities are the great reservoirs that supply other places. A very small percentage go to the real country and farming districts after work, or for the purpose of land ownership. In New York or Chicago can be found blocks upon blocks of foreigners without an American among them, and hardly a one of them who can speak a word of English. These are, too, the worst types and lowest classes, because just as soon as one of them gets a little ahead or is blessed with better fortune than the rabble he leaves them at once and finds good wholesome surroundings. Observations on the Ostivity of occupants of prisons in Michigan, Illinois, Wisconsin and Missouri show a surprisingly large percentage of foreigners.

THE NICARAUGA CANAL.

The attention of the civilized world, and particularly the United States, is directed to the Nicaragua canal scheme. Both national conventions of the leading political parties passed resolutions favoring it. The construction of the canal would be of untold importance to the commercial world, and would save vast sums annually to the Pacific states in transportation charges. We publish below maps showing the saving in distance on ocean routes, a bird-eye view and a profile of the projected route.

FELL TWENTY FEET.—Springfield Messenger: Wednesday morning about ten o'clock, a portion of the scaffolding on the west side of the opera house gave way letting Harry Benjamin, aged about 16, fall to the sidewalk, a distance of 20 feet. He secured badly hurt and was carried across the street to the Springfield Hotel. He was suffering terrible pain in the breast, caused by striking a one by four inch brace as he fell, breaking the bone in two. This saved him from falling headlong onto the sidewalk, which would perhaps have broken his neck. A careful examination showed no bones broken. He was then taken home, and will no doubt soon recover.

RESIGNED.—J. D. Wilson, who has been night watchman since last April resigned his position late yesterday afternoon, and Robert Garrison, who has been mail carrier for the past year between the depot and the postoffice, was appointed to the vacancy. Garrison was on duty last night.

GENERAL COUNTY.—Cottage Grove Leader: The honor of naming the proposed county to be cut off from Lane and Douglas has been conferred on Dr. R. F. Hammel of this city who very cleverly suggested the appropriate name of "Mineral county." Good—doctor.
