I would rather be a little lark, And soar in distant skies, Than be a cranky critic, To growl and criticize.

Miss Bessie Fetterly left for Portland last Sunday.

Mr. George Petty made a business trip to Eugene Saturday.

Some of our boys came near having a row a few evenings ago. A very unusual thing for our quiet little burg.

Mrs. Jennie Van Winkle, who has been visiting at A. Eaton's for several days, left for California Saturday.

Our citizens should keep talking and working for an opera hall. The fact that our town needs some suitable place for amusements was fully demonstrated last Saturday evening, when standing room was not obtained.

An interesting programme has been prepared for the Christmas tree exercises at Cloverdale. A paper is being written and will furnish amusement for all. Recitations, dialogues and singing will conclude the evening's entertainment, after which the presents will be distributed.

The entertainment at the school house Saturday evening was a decided success. The house was crowded to its utmost capacity and after a thrilling overture by the Creswell Cornet Band, the curtain arose, and the audience was treated to a song by the male quartette composed of Messrs. Ed and Henry Parsons, Geo. Martin and B. F. Scott. The first feature of the evening was the two-act drama, "Among the Breakers," with a cast of ten characters, six male and four female. The plot was realistic and the entire company showed superb training and discipline. W. W. Scott in the role of "Squid" the cook elicited much applause and acted with the precision of a professional. Miss Ollie McDaniel as "Biddy, the buxom Irish girl," showed the savvy of manner becoming an actress of the highest rank. Space will not permit a more lengthy analysis of the characters, but suffice to say that each one received their share of the applause, and the spectators were keen to acknowledge the good points.

REGULAR.

FATAL ACCIDENT.—Albany Democrat: Last Saturday evening, while the family of Jesse McGehee were attending a literary meeting at Tangent, Mr. Walter McGehee, who had been living with his brother for awhile, remained at home alone. In starting to go down stairs he fell in the bottom, and both feet were seriously injured. He succeeded in returning to the second floor, where he was found when the family returned home. Dr. Maston, of this city, was called, when it was learned that two ribs were broken, one entering his lungs. He died this morning from the effects of the accident. He was 75 years of age, and his recovery from the shock. Mr. McGehee was a pioneer of 1851 or '52, taking up a claim at Tangent. For a number of years he has been keeper of the toll gate beyond Sweet Home. He was a single, never having married, and was one of the upright characters, generally respected and esteemed.

INSANE.—The Dallas, Polk county, correspondent to the Salem Statesman under date of December 21 says: "Citizens of the hills north of Dallas are considerably excited over the actions of a crazy man. Saturday his clothes were centered over the brush, together with a valise and memorandum book which showed that his name was Boyer and that he had lately worked for a man who resides near Eugene. By the questions asked children and by his strange actions he is undoubtedly crazy, and residents of that section would like to see him in custody. As to his way of getting something to eat no one seems to know, although he has been found asleep in barns and out houses."

GAMBLING AT PENDLETON.—The E. O. says: Money may be a little tight in Pendleton but there seems to be plenty of it with which to decorate the green cloth. There are reports in sporting circles to the effect that one of the biggest faro games ever seen in these parts took place Saturday night. The game was what is known as a "flyer," and his royal Bengal nibs, the tiger, was a fierce one, ready and willing to tackle all comers. It did not lack for eager assailants. The game was unlimited, and in some instances single bets of \$150 and \$200 were made. Frequently the possession of over \$500 depended upon the turn of a card. The sport was kept up until three o'clock in the morning.

President Bucay, of the Washington State board of horticulture, in an address to the fruit growers advises the purchase of all fruit trees of nurseries of Washington and Oregon, and gives a good reason in that of the many thousands of trees inspected by the board, only two shipments were free from the woolly aphis and other insect pests.

The following from a McMinnville paper is a good joke on some one: A deputy sheriff named Ross, while in search of Charles Wilson, the Milwaukee murderer, last summer, left a bay horse at Walling's livery stable in Astoria, and never called for him. The horse was sold the other day for \$77. Walling's bill was \$75, and other expenses incurred amounted to \$3.50. Walling is now advertising for Ross to come and pay him the difference. This all goes to show that a horse can more than eat himself up in five months time in this country.

Ex: The most effective way of purging the pension list of frauds and cheats will be for congress to provide for the publication of a list of pensioners in each county in the most widely circulated newspaper in that county. Together with the name of the pensioner should be given a disability upon which the pension was granted, and the amount paid. We are confident that the mere passage of such a law by congress would cause the striking or withdrawal of thousands of names from the pension list before publication could be made. Swindlers should be made to feel the heavy hand of the law.

Regarding the division of Lane county the Harrisburg Courier states: "The people of Junction are endeavoring to form a new county out of a slice of Lane to which they propose adding a large piece of Linn and a corner from Benton. The people from Harrisburg, however, do not favor the plans proposed by the gentlemen from across the river."

Woodburn Independent: Salem is not a heathen city of gospel over a lately developed and fast developing scandal concerning the insane asylum. There must be some fire, judging by the amount of smoke that is omnipresent. This scandal should be investigated by the proper authorities and no guilty man allowed to escape punishment. Parties that are in a position to know, state the worst is not yet known to the public. If all, or even a portion of the reports are true, somebody ought to be hung.

The Beautiful Snow.

Daily Guard, Dec. 21.

The snow storm reached this city about 2 o'clock this morning and has continued to fall steadily all day. It is estimated that at the time we go to press about four inches has fallen on a level, although it has thawed nearly as fast as it fell. Since noon however the snow has been gaining and the ground is covered with a beautiful sheet of white. Some of our Eastern friends begin to smile and really the snow is a very welcome visitor, less sickness being likely to follow. Should it freeze as hard tonight as yesterday morning and thus retain the snow for a few days it will be most auspicious for a typical Christmas.

BELOW ALBANY.

At Portland, at 8 o'clock this morning in spite of continual thawing the ground was covered about six inches deep with snow and still snowing steadily. At Salem and Albany a slightly less fall is reported and at Junction but little more than in this city. Telegraph communication is shut off below Junction on the Western Union lines and between Albany and Salem nearly all the wires are down. Trains are still running on time.

The W. R. C. Social.

Daily Guard, Dec. 22.

The "Night Cap" social given by the ladies of the W. R. C. at Rhinehart's dancing parlors last night was largely attended in spite of the snow and slush. The entertainment provided for the evening was very unique and amusing. The funds were raised by an admittance fee at the door and then two receptacles had been provided for the night caps. These had been made in pairs, one being placed in each receptacle. The gentlemen were then provided from one and the ladies from the other, the couple obtaining night caps to match being partners for the evening, refreshments, etc. Many titillating combinations of such a variety of this head-dress were to be seen during the evening, especially as some of the wearers seemed so unaccustomed to the use of night caps.

Corvallis Times: Prune culture, the skeptic would have us believe, is a mistaken pathway to the land of wealth, yet when we read that a sixteen-acre orchard of German prunes in Sonoma county, California, from five to eight years old, yielded 90,000 pounds of dried fruit this year and
