Chinese Pheasants.

Albany Herald: The present deep mantle of snow discloses what a large number of Chinese pheasants there are in this part of the state, but it is This fore feared they will not be so numerous after the storm is over, unless the snow disappears soon. A gentleman who came down on the train yesterday came down on the train yestering from Eugene says that hundreds of these birds could be counted sitting in the fields, their biding places being covered over with snow. Over fifty Gray & Willoughby's. covered over with snow. Over fifty were counted in one field. There is little for them to feed upon now and they have become quite gentle, and in they have become quite gentle, and in several instances large numbers of them obtain food and shelter about barns and farm yards. Very few have as yet been reported to have perished. A good many of them have been caught, and a few have been killed by Prof. D. V. S. Reid went to Salem on the local this morning. unscrupulous hunters who take advan-tage of the fact that the birds are at

DECIDEDLY FISHY.-Santiam Lum berman: A remarkable fish story comes to us from the Little North Fork of the Santiam. We give it as it was related to us, and our renders can draw their own conclusions. Last Thursday morning snow commenced falling in a lively manner and Satur-day had reached a depth of fourteen inches. Then it was that a warm rain set in, and the snew was rendered a local teachers' institute in Cottage watery mass. The fish had grown fungry owing to the scarcity of bugs and flies, and took to the monotoine in and flies, and took to the mountains in vast numbers in quest of food, swimming with some difficulty through the slush. In that vicinity the earth's surface stands on end, and the water Goldsmith in this city. Harrisburg, are visiting Miss Lena Goldsmith in this city. ran off very fast, leaving the fish on dry land to be picked up by the set-tlers. Barrels of them, we are told, were caught in this manner and saited
