Weatherford's bill to have the state purchase the Willamette locks was this evening indefinitely postponed in the senate, 16 to 16.

Veatch yesterday moved that his bill repealing the act creating a state board of railroad commissioners be taken out of the hands of the railroad mmittee, but the senate refused to spend the rules.

The committee on conference con cerning the hour of final adjournment reported, recommending 10 a. m., Sat-urday, as the hour, but no bill to be passed after 12 midnight Friday; adopted, the senate concurring.

Ford's bill to abolish official court reporters and allow all stenographers to obtain public and official employment upon passing a satisfactory ex-amination before a state board of examiners for that purpose, was, after his speech before the house, reconsidered and passed almost unanimously.

Of the 231 bills first on the house calendar Paxton leads with nineteen, Nickell is second with seventeen, Upton third with ten. Northrup and Ford have eight each, Ormsby, Wright of Marion and Geer of Marion, seven each. The half-dozen mark is reached by Myers, Miller, Belknap, Daly, Cor-nelius and Belts.

An appropriation of \$5000 has been sked for the orphans home of Al-any. This amount will be included in the general appropriation bill and will doubtless go through as the object is a most worthy one, and the state has heretoiore extended aid to this institution, which is now sadly in need of help from the state.
