

Eugene City Guard.

SATURDAY, MARCH 18.

It is said that Judge Gresham is an expert fisherman. But that does not explain all the reasons for his appointment as secretary of state.

The democratic senate awarded the populist senators chairmanships of committees besides their liberal recognition. When their votes are needed the democrats will get them.

Mr. Spear, of New Jersey, claims to have a rapid transit scheme by which trains can make two and three miles a minute. But what's the use? The moment you get such a rapid transit, folks will want ten or fifteen miles a minute.

"The lessons of paternalism ought to be unlearned and the better lesson taught, that while the people should patriotically and cheerfully support their government, its functions do not include the support of the people."—President Cleveland.

Portland is evidently experiencing hard times. Fifty saloons have closed during the last quarter and more are expected to fail to apply for license when their time is up. It was about time for a change of this kind as about every other door was a saloon.

Ex.—By way of a joke the California legislature moved to submit a constitutional amendment favoring the removal of the capitol from Sacramento to San Jose, provided that the latter would give \$1,000,000 in "gold" cash. The San Jose people refuse to be bluffed, take the challenge and demand that the joke be made a serious proposition. A town that will show that much grit deserves the capitol.

Portland has made the greatest move in her history. The contracts have been let for a pipe line to secure pure water direct from the heart of the Cascade mountains where there is no possible chance of future contamination. At present the metropolis furnishes a portion of her own sewerage with the water. It is a hard town in which to make temperance songs about pure water-bright water, and so on, popular.

So the reform democratic congress spent \$1,026,822,049, or \$38,404,866 more than the preceding republican congress, which was liberal enough, as all know.—Salem Journal.

A large amount of the appropriations by the last congress was to meet deficiencies in pensions and other branches of the government. Besides the McKinley congress saddled on the government burdens that could not be included in that session, but became charges on succeeding congresses such as the sugar bounty, increase of pensions, and other similar legislation.

Kansas has shown many political vagaries of late years, but its legislature is to be credited with a vast deal of sound judgment in its treatment of the woman's suffrage question. It has passed a bill which provides for the submission to the people, at a general election, of a constitutional amendment giving all women over twenty-one years the right to vote on all occasions. The governor will sign the bill, and this method will enable the people to settle for themselves this much-mooted question. If each state would move in an equal and decisive manner, there would be an end, one way or the other, to the constant and very vexatious agitation of this matter.

The Oregonian says "Sherman is the oldest and soundest practical financier of his generation." We suppose there is ready proof of this in the millions acquired by him during a lifetime of service in the senate, the yearly salary of which would not more than be sufficient for his needs. Sherman is a brigand of the respectable order, who has looted the public treasury for the benefit of speculators. More than any other man he is responsible for the act demonstrating silver, and enriching holders of U. S. bonds immense sums by making them payable in gold only. He is a remaining relic of the times of the rebellion and a few years succeeding it when pillage of the public treasury was looked upon as a legitimate occupation.

The president has sent the following nominations to the senate: William McAdoo, of New Jersey, assistant secretary of the navy; Edward B. Whitney, of New York, assistant attorney-general, vice Abraham X. Parker, resigned; passed assistant engineer Charles W. Rae to be chief engineer; William H. Allendice to be passed assistant engineer; Captain Charles W. Williams, assistant quartermaster, to be major and quartermaster; Captain James Whelan, second cavalry, to be major; Captain Adam Kramer, sixth cavalry, to be major; Captain Ezra P. Ewers, fifth infantry, to be major; First Lieutenant Fred W. Sidley, second cavalry, to be captain; First Lieutenant Benjamin H. Cheever, sixth cavalry, to be captain; First Lieutenant William F. O. Bowen, fifth infantry, to be captain; Joseph E. Swindlehurst, postmaster at Livingston, Mont.

The pugilist, when he fails of a match, exercises his powerful talents in letter-writing and pounding his enemy with defective King's English.

The Chinese highlanders are having merry war in San Francisco Chinatown. It is to be regretted that there are so many poor shots among them. A lively fusillade of twenty or thirty shots seldom catches more than one victim.

The Princess Kaiulani has been to visit Mrs. Cleveland and in an interview said that she was the handsomest and most agreeable lady she had ever met. The Princess understands the good that a little flattery might produce.

On several occasions work on the streets of Eugene has been delayed until the rainy season. Now is the time when arrangements for improvements should be made then the contractors would have time to complete the work during the summer.

There was \$750,000,000 in gold and silver in the treasury on the 28th of February, 1893, all available to meet outstanding notes of the treasury and certificates of deposit. In the face of this the plutocrats are trying to force the treasury to borrow more gold at interest to be locked up in the vaults and kept out of circulation.

The most important measure that passed the California legislature and became a law is the corrupt practices act. It forbids all kinds of bribes, direct or indirect; strictly limits the expenses of candidates to a small percentage of their salaries, and defines in detail the method in which money may lawfully be spent. Not only is the assessment of candidates reduced to a small sum, but the blackmailing of candidates by clubs or individuals who demand contributions or "treats" is effectually forbidden.

Ex-Representative Blount left last night for Hawaii. His mission is secret, so far as his instructions are concerned, and his report will probably be seen only by the president and his advisers. He went alone and will remain until the whole question is settled, and until the president hears from him no further action is expected. Should Blount's report endorse all that the Hawaiian commissioners have said, the islands will probably be annexed. If not, a protectorate will, it is expected, be all that the commission can have the hope of getting.

N. Y. World:—What would have been said if any one had ventured to predict six months ago that on the last day of February a bill repealing the McKinley duty on tin would be passed by the house of representatives without a republican protest? But that is what happened. It is confessed that all the boasting of the richness of the tin deposits in this country was without foundation. The piles of tin which were shown to President Harrison while he was on his tour to the Pacific coast, by which he and more or less of the people were deluded, have been used up and no more is to be had, even if that was not an imposition so far as it purports to be American. So vanishes one of the "protection" humbugs.

A GOOD IDEA.—The suggestion of a Salem correspondent, that the world's fair commission procure for distribution a number of small sacks of Oregon wheat is not new. Colonel R. W. Mitchell, when chief clerk of the Northern Pacific land department, had about 2000 made at the time of the celebrated Villard expedition. The sacks were of silk and satin with lithographic views of Portland on one side and of Mount Hood on the other. They were of two sizes, one containing a pint and the other a half pint. The demand was so great that the Northern Pacific railroad was compelled to have the edition doubled. Let the scheme be repeated.

Captain George Flavel, the aged pioneer, whose home is in Astoria but who is well known in Eugene, has been ill for a long time. He is improving steadily, and will soon be able to get out. Few men are better known in stevedore circles than Captain Flavel, and his many friends will be pleased to hear that the old gentleman is on the road to recovery.

Laid On the Table.—The credentials of Beckwith, appointed as senator-elect from Wyoming, were presented to the senate today by Vance and laid on the table, to be referred to the committee on privileges and elections when presented.

Massachusetts Favors Annexation.—WASHINGTON, March 15.—Vice-President Stevenson laid before the senate today the following resolution of the Massachusetts legislature: "Resolved, It is the sense of this general court that it is expedient the Hawaiian islands should be annexed to the United States, and the interests of the United States, commercially and strategically, be promoted thereby."

Secretary Herberts.—BROOKLYN, N. Y., March 15.—Secretary Hilary A. Herbert and Congressman Cooch arrived at the navy-yard at 10:35 this morning. They were received at the York-street gate by a marine guard and a salute of 17 guns.

Dynamite for Central America.—SAN FRANCISCO, March 15.—The barkentine brigard will sail today for Central America, ports with a general cargo, the principal feature of which is 250 cans of dynamite and 150 barrels of gunpowder, consigned to a firm of Corinto, Nicaragua. These munitions of war are, perhaps, for General Bonilla's party, who are making war upon Honduras.

CRUSHED TO DEATH.

Falling Walls Bury a Family in the Ruins.

Two of Them Taken Out Dead.

CHICAGO, March 15.—Early this morning fire broke out in the picture-frame factory of J. S. Chartier, on May street. It was soon a roaring mass of flames, and simultaneously the front and one of the side walls fell outward. The bricks of the former struck and severely injured two firemen. The other fell on and crushed the Chartier dwelling next door, burying in the ruins five members of the family, consisting of J. S. Chartier, his wife, two daughters, Lillie and Rose, aged 19 and 13, and a nephew, Stephen. Of these, J. S. Chartier and his daughter, Lillie, were crushed to death, Stephen was severely and perhaps fatally injured, and the other two less seriously hurt. The financial loss is \$60,000.

SACRAMENTO GOT LEFT.

Vote Will Be Taken on Moving the State Capital.

SACRAMENTO, March 15.—The California legislature adjourned sine die this morning at 5:47, after an all-night session. The people of Sacramento made a last desperate attempt last night before the legislature adjourned to have the vote by which the question of moving the state capital to San Jose was adopted reconsidered. Sacramento was again defeated by a vote of 43 to 32, and the people will now vote on the question.

A special from Sacramento this morning says: "An open attempt at bribery characterized the closing hours of the legislature, but it was allowed to pass without rebuke, simply because the San Jose people did not care to push their out-and-out Sacramento victims any harder than they had been. In brief, there was a 'sack' put into the capital fight by the Sacramento people at the very last moment. It was almost in plain sight, too, and a tremendous effort was made to persuade enough men in the assembly to reconsider the resolution adopting the constitutional amendment removing the capital, but it was too open."

Lucky Mrs. Lease.

TOPEKA, Kan., March 15.—Mrs. Mary E. Lease has been elected president of the state board of charities at the request of Governor Lewelling.

Completed.

WASHINGTON, March 15.—The republican senators in caucus completed their minority report of representation on senate committees. Mitchell is on claims committee, Dolph on const. defenses, commerce and foreign relations.

Has Decided Not to Die.

BOSTON, March 15.—Mrs. Frances B. Hiller, who created a stir a few years ago by the announcement that she had a magnificent burial-casket ready, is evidently confident that her death is a long distance off. She will be married Easter Sunday at the Catholic church, Wilmington, to Henry Hiller, ex-Peter Surtette, her coachman. She induced Surtette to change his name to that borne by the late Dr. Hiller to perpetuate her name. Surtette lived in Canada and saw the notice of the eccentricity of the woman and her wealth. He came, saw and conquered.

Accepted.

WASHINGTON, D. C., March 15.—The president has accepted the resignation of Governor Wm. M. Stone of Iowa, commissioner of the general land office, to take effect on the 24th instant.

A Mother's Love Was Stronger.

LEXINGTON, Ky., March 15.—Sam Clay, who robbed bookmaker Tommy Shannon of \$7000 in New York last winter has been released. Shannon spent over \$1000 to effect his capture. Shannon's mother was visited by Clay's mother, and the earnest prayers for mercy from the unfortunate mother aroused the sympathizing nature of Mrs. Shannon, and her pleadings, so it is said, have induced him to withdraw the prosecution.

An Old Man Injured.

ROSELAND, Or., March 15.—Thomas McNabb, a teamster about 60 years of age, who has been driving for Dr. Hamilton for some time, was seriously injured about 1 o'clock this afternoon. His horse took fright from some cause and ran away, throwing him off of the wagon against an electric-light pole, injuring his spine.

Teachers' Institute.

The teachers' institute commenced at this place tonight and will last until Saturday evening. The attendance is large.

Cholera in Moscow.

MOSCOW, March 15.—Several cases of cholera have appeared in a convict prison in this city.

Sacramento Has Gone Republican.

SACRAMENTO, March 15.—R. U. Steinhilber has been elected mayor by the republicans, who have elected the remainder of the ticket with a few exceptions.

Karl's Glove Root. Cures Rheumatism, Gout, Neuralgia, Sciatica, etc. It is a powerful blood-purifier and a sure cure for all these ailments.

CLOSE OF THE SCANDAL.

Argument in the Panama Canal Case Has Begun.

Interest Winning.

PARIS, March 15.—There was a small attendance to-day at the trial of De Lesseps and his fellow defendants. Public interest appears to wane with the close of the testimony. Counsel resumed his address. Legasse contended the government had shrunk from proceeding against all the offenders concerned in the case, and argued vehemently the scandal would not cease until the whole truth were revealed. Legasse spoke in a similar tone. The advocate-general delivered an address in behalf of the prosecution. He maintained the government had done everything it could to bring everything to light, and denounced Charles de Lesseps as having used artifice to throw dust in the eyes of the jury in a similar manner to his use of artifice to obtain subscribers to the Panama lottery bonds. He contended the evidence confirmed the guilt of the defendants.

Cipher Dispatches.

WASHINGTON, March 15.—Dispatches received last night by the state and navy departments from their respective representatives at Honolulu were said by officials to have contained nothing new upon the situation in Hawaii. A communication from Minister Stevens mentioned the reception to Captain Wilcox of the Boston just prior to the departure for San Francisco, and said it was the largest social affair ever seen there. The relations between the provisional government and the United States officials remain undisturbed. Cipher dispatches went out last night from both the state and navy departments for Honolulu, which will go forward on the steamer Australia from San Francisco today. What these dispatches contain none of the officials in either department will say.

The McWhirter Murder Case.

SAN FRANCISCO, March 15.—The Post's Fresno special says: It is almost certain that W. F. Polley, indicted by the grand jury for the McWhirter murder, is confessed, and there are strong indications that he has made a clean breast of it. There is also reason to believe the officers have located the third man indicted. The streets are full of groups of people discussing developments. The revelations of yesterday have stirred up McWhirter's old political enemies, and they are busy denouncing the dead man and putting forth all sorts of defenses for Heath.

Chicago's Mayor.

CHICAGO, March 15.—Samuel Allerton, a big packer, was nominated by the republicans this afternoon. He is already the nominee of the people's party. The threatened defection of the Germans from the democratic party adds interest to the contest, the Germans having been prominent in the movement which gave Illinois to the democrats at the last national election.

Applicants for Oregon.

WASHINGTON, March 15.—Oregon's applicants for office at the treasury department today were: Theodore Wygant, of Portland, and T. J. Black, of Halsey, for collector of customs, and L. V. Moore, of Portland, for appraiser.

Day & Henderson, Undertakers and Embalmers, Cor. Wil. and 7th sts.

On the one hand there's \$500 in cash, on the other, there's a cure for your Catarrh. One of these two things has got to come to you—that's pronounced and agreed by the proprietors of Dr. Sage's Catarrh Remedy. But do you think they'd make any such promise if they weren't sure that you'd be cured? That has come to thousands through this Remedy, when everything else has failed. By its mild, soothing, cleansing and healing properties, the worst chronic cases of Catarrh in the Head have been perfectly and permanently cured. That's the reason they're willing to take such a risk. This is what they say, clearly and plainly: "If we can't cure your Catarrh, no matter how long your case or of how long standing, we'll pay you \$50 in cash." If they have faith enough to say that, isn't it safe for you to have a little faith, too?

CURE THAT COUGHS WITH SHILOH'S CURE. SHILOH'S CATARRH REMEDY. It is a powerful blood-purifier and a sure cure for all these ailments.

H.C. LAKE. GRANITE AND MARBLE WORKS. New Designs and New Prices in Foreign and Domestic Marble and Granite, Monuments, Headstones and Cemetery work of all kinds for 1887. ALL WORK GUARANTEED. Willamette Street, near Postoffice, Eugene, Or.
