

Eugene City Guard.

SATURDAY, APRIL 8.

An aspirant for a Missouri post-office has got ahead of his rivals with a new pair of twins that are named Cleveland and Stevenson.

Carter Harrison is a phenomenal- ly successful man in Chicago politics. His recent election as mayor against combined political opponents was wonderful.

The humble and lowly peanut may yet become an aristocrat. A fashion writer says they are taking the place of salted almonds at the most select dinners and luncheons.

The work of appointing a successor to James Lotan, collector of customs, proceeds too slowly to give general satisfaction. He is offensive to all except a few machine politicians.

The "hero" train wrecker Richardson seems to be in hard circumstances. There is little doubt that he is the guilty party, but it may be hard to convict him unless a confession is obtained.

Either the Italian statesmen are more honest or they are luckier or sharper than the French. For none of them have been connected with "Little Panama" as the Italians call their bank scandal.

Sixty trunks containing the clothes of a ballet girl corps are detained at the New York custom house. Inasmuch as the clothing of ballet girls is little more than "trunks" it is hard to see how the show can go on.

A southern Oregon blonde who prefers to be a blonde has nearly killed herself eating roasted coffee. She now consumes nearly a pound a day. It will not be long according to her physician, before she will assume a color nobody likes to look upon; not a coffee, but a coffin color.

A Buffalo policeman has been arrested the fourth time for being drunk and howling and threatening to shoot everybody within range. He has been kept on the force because he is "such a good man when sober." That, however, is a queer qualification for a police officer.

A New Hampshire "chappie" who eloped last fall and is now being sued for an absolute divorce refuses to pay for the wedding dress in which the girl ran away with him and is being sued for that also. It is not often that a man has a wedding suit and a divorce suit on his hands at the same time.

Salem is now "kicking" because it is likely that the soldiers' home will be located at Roseburg. The public institutions of the state should not all be centered at one place, and we are glad that Gov Pennoyer has appointed a board of trustees that assures the beautiful city of Roseburg this institution. Salem should remember the fate of Sacramento, or else she may be treated likewise.

The postmaster at Jackson, Mich., has a problem on his hands which will have to be referred to the department. A letter written on the back of a one cent Columbian stamp has been received at the office and the postmaster can find no authority for a case of the kind, it not being a postal card or a circular letter such as is entitled to go through the mails unsealed at the one cent rate.

A Burns small boy crawled under the bed the other day when his mother wanted to punish him. She didn't get him out and left him there until his father returned from the Herald office. When the old man came and was told about the case he started to yank the young "bird" out to administer the merited chastisement, whereupon the youthful American said: "Hello, dad, is she after you too?" Here the curtain fell.

According to the New York state board of health the "grippe" has spent itself; but it computes that 21,000 deaths have been caused by it in New York and 300,000 in the whole country. If that number were to be taken off by the cholera there would be consternation indeed. But it is to be considered that if no precautions were taken against the cholera the mortality would be ten times as great, and if the same precautions were taken against the "grippe" as against the cholera, the mortality would be much less than it is.

"I cannot believe," says President Seth Low, of Columbia college, in the Forum, "that the republican party will permanently antagonize democracy upon a policy that deliberately asks the greatest manufacturing people on the face of the globe to maintain all its industries on stilts instead of permitting them to rest on solid ground." Very few others believe it. Tariff reduction henceforth will meet with only desultory opposition. The present danger to democracy is that a fraction of the party will refuse until it is too late to follow the current policy of the national administration. But the danger has been foreseen and will be averted.

The rain yesterday demonstrated what Oregon can do in the weather question when so disposed.

The world's fair is almost on hand. A splendid exhibition of the material resources of the world may be expected.

Chicago journalism is progressive. A recent number of the Inter Ocean on the occasion of its 21st birthday consisted of 62 pages.

France and England agreed never to disturb the integrity of Hawaiian territory. Hence the silence England maintains on the subject.

Several weeks ago Hon. Geo. T. Myers received 20,000 Eastern brook trout eggs, from Michigan. These he placed in the hatchery at Clackamas and from a letter received by Mr. Myers Monday from Waldo F. Hubbard, superintendent, it is learned that these eggs have hatched out without much loss and the young fish are now doing nicely. Mr. Hubbard suggested that it will be a good plan to keep the fish in the hatchery as long as possible. He thinks they should be retained in the hatchery at least four or five weeks.

PASCO RETURNED TO THE SENATE.

TALLAHASSEE, Fla., April 5.—At a joint caucus of the democratic members of both houses of the legislature, Samuel Pasco was unanimously nominated to succeed himself as United States Senator.

Creswell Cyclones.

Sheridan Shiners? eh!

John Martin is on the sick list.

Miss Coeheran, of Cottage Grove, visited with her sister, Mrs. L. D. Scobrough, a few days this week.

Deputy Sheriff Croner, of Eugene, was here on business Monday.

We sympathize with the citizens of Cottage Grove because they are compelled to support the can-can sheet published in their thriving city. It is a burlesque on the enterprise of the county in general and Cottage Grove in particular. It is a direct slam at the intelligence and education of the citizens of our sister city. We want "a foeman worthy of our steel" or we would make the atmosphere so intensely terrible for "Paragraph" and his puny crew that a reserved seat in a thousand and infernal regions would be decidedly cool. Lucky for Cottage Grove the circulating sphere of that misleading medium is comparatively small. Editors ("") that will write about "Sheridan Shiners" are too small for us. They may find some brazen and idle "jazz" like themselves that will let down easier than we possibly could.

We hope to be able to give the full particulars of a very romantic courtship and marriage in the near future.

Miss Nettie McDaniels is clerking in the postoffice.

Prof. Chas. Scott, our genial school teacher, is sick.

Mr. Alf. Parker of Dexter, the genial leader of the Pleasant Hill concert band, spent Sunday with his father, Jas. Parker.

Messrs. Eccles & Parker, of the Dexter flour mill, had men on the road the first of the week hauling flour from the Creswell mill to supply the Dexter trade. The Dexter mill will be able to start, we are informed, this week.

Considerable sickness is reported, the prevailing cause being the grippe.

Mr. J. J. Eaton went to Goshen Tuesday to visit with his sister, Mrs. J. C. Wilson, who is very sick.

LUCKY CARTER HARRISON.

Was Elected Mayor of Chicago by a Large Majority.

CHICAGO, April 5.—The latest compilation on the result of yesterday's election gives Carter Harrison, democrat, for mayor, 18,471 plurality. Though he ran ahead of his ticket, yet his majority is sufficient to insure the election of all others on the ticket with him. The city council, however, is republican.

OTHER CITIES.

ST. LOUIS, April 5.—In yesterday's election the republicans made a clean sweep in this city, with the single exception of a democratic audit, by plurality ranging from 1,087 to 8,143. The city council is republican, but the house of delegates is democratic. Reports from towns in southern Illinois show that of 44 heard from, 13 went republican, 23 democratic, and 7 mixed. East St. Louis elected a complete citizens' ticket. Of 29 towns in Missouri, so far heard from, 8 went republican, 15 democratic, 5 divided, and 1 St. Joseph tied in the council.

Editors, as a rule, are long-suffering and liberal. They likewise possess a proper appreciation of the "eternal fitness of things." An exchange tells of a subscriber who died and left fourteen years subscription unpaid. The editor appeared as the lid of the coffin was about to be screwed down, and put in line in duster, a thermometer, a palm leaf fan and a recipe for making ice.

A BUREAU.—The Oregonian today says:

"Bingham admitted having put the boulder on the Union Pacific track, but answered evasively when asked whether he had torn up the Southern Pacific rails. Facts were elicited from him, which, with the evidence gathered by Sheriff Noland and the detectives operating in Douglas county, warranted his arrest."

An exchange tells of a subscriber who died and left fourteen years subscription unpaid. The editor appeared as the lid of the coffin was about to be screwed down, and put in line in duster, a thermometer, a palm leaf fan and a recipe for making ice.

Editorial cartoonist.

WASHINGTON, April 5.—The president has sent the following nominations to the senate.

James S. Ewing of Illinois, minister to Belgium.

Thomas F. Crittenden of Missouri, consular-general to Mexico.

Louis C. Hughes, of Arizona, governor of Arizona.

William Thornton, governor of New Mexico.

Hughes, who becomes governor of Arizona, is editor of the Tucson Star. He is 54 years of age. He was a delegate to the Chicago convention.

Thornton, the newly-appointed governor of New Mexico, has resided 17 years in New Mexico. He practices law at Santa Fe and operates one of the richest mines in Southern New Mexico.

Ewing is a lawyer of Bloomington. He is a partner and cousin of Vice President Stevenson. He is 50 years of age, and comes of an old family of Kentucky, where he was born and educated.

Crittenden is best known as the man who, as governor of Missouri, broke up the notorious James brothers' gang of outlaws. He is a lawyer.

LITTLE BLOODY DEMOCRATIC.

PROVIDENCE, April 5.—Owing to a considerable decreased vote from last April there will be no election for general officers. As a result of the battle today, Baker, the democratic nominee for governor, has a plurality. It is believed both democratic candidates for governor also have pluralities. The legislature is in doubt, and it will probably depend on the second trial in these places where assemblies failed of election today, to settle the complexion of the legislature and the choice of general officers.

KILLED BY A FALLING LIMB.

BALDWIN, Ore., April 5.—Peter Kiser, 37 years old, was killed Monday by a limb falling on him. He formerly lived in Portland. He leaves a wife and seven children. He will be buried today at Mackensberg.

POSTMATES BY THE SCORE.

WASHINGTON, April 5.—Fourth Assistant Postmaster-General Maxwell today appointed 134 fourth-class postmasters.

BETRAYED AND SHOT.

Sad Death of a Beautiful Kentucky Girl.

Her Husband's Friends Guilty.

MORGANTOWN, Ky., April 5.—Miss Abby Oliver, a beautiful young lady of Sturgill, Union county, was led astray eight months ago. Late night of the eighth month she entered the place of business of Henry Delany, a druggist, and accused him of being responsible for the girl's conduct. At the point of a pistol she compelled him to enter a carriage with her husband and daughter. They drove 15 miles to Morganfield, prepared a license and compelled him to marry the girl. On the way back the carriage was attacked by men on horseback, Delany having jumped out and joined them. The girl was shot through the head, and died this morning. She would soon have become a mother. The father was also mortally wounded.

It is believed that the man who shot the girl was a member of the gang of

The following applications for office were received at the United States treasury department Monday: Anthony Nuttall, to be appraiser; A. H. Brown of Baker City, to be collector of internal revenue, and Emanuel Meyer of Portland to be collector of customs at Portland, and Frank G. Parker of Walla Walla to be collector at Port Townsend.

A Pension Commissioner.

WASHINGTON, April 5.—Senator Palmer of Illinois, is authority for the statement that President Cleveland has decided on a man for pension commissioner, and that his name will be submitted to the senate within 48 hours. He declined to give the name, but from a blue book he dropped it is believed the man is Judge William Lochren of St. Paul, Minn.
