

Eugene City Guard.

SATURDAY, MAY 6.

The Grant County News says that the hardest people on earth for an editor to please are those who borrow the paper from some of his subscribers...

An illustration of the power often exerted by little things was witnessed the other day in San Francisco harbor when the giant warship, Monterey, of nearly 10,000 horse power, was rendered helpless by her propeller getting wound up in an ordinary fishing net.

Suppose Secretary Carlisle were timorous enough to be bluffed into issuing bonds just now, remarks the Courier Journal, how long would it be before the gold so obtained would be pumped out by the same gang and another vacuum created to be filled again by the issuance of more bonds to the horse-leech family?

The state capitol of Texas is the largest state building in the United States and seventh in size among the buildings of the world. It is a vast Greek cross of red Texas granite, with a central rotunda covered by a dome 311 feet high.

An American acrobat in Vienna won a queer wager on Wednesday. He bet a considerable sum says the New York Sun's London correspondent with a Vienna strong man that he could not endure to have a litre of water fall drop by drop from a height of three feet upon his head.

According to the N. Y. Times, Mrs. Martin had determined that not a word of the wedding of her daughter and the Earl of Craven should get into the newspapers, and when she found that over 50,000 words had been written about it her wrath had hardly any bounds.

One of the most notable features of the reign of Emperor William is the extraordinary impulse which has been given during the last few years to the building of churches in various parts of the empire. In Berlin alone no less than twenty-five new churches have either been erected or commenced since the accession of Emperor William, which, added to the four-and-twenty evangelical churches with which the Prussian capital was previously provided, will render Berlin as fully entitled to style itself "The City of Churches" as Brooklyn.

Astoria Budget: The following is some of the nonsense telegraphed from this city to the San Francisco papers: "Some of the canners are beginning to feel perplexed over the workings of the Geary bill. The Chinese help employed by them is not only cheaper than any other labor that could be hired, but their work is excellent. Today word went out among the Celestials that an inspector would soon arrive in Astoria to enforce the registration act, and though there was no immediate danger of his coming the men gave several of their employers to understand that they did not intend to be photographed or registered. If they adhere to their determination the canneries will feel woefully short of men. The canners are already looking for a way out of the difficulty."

The Niagara canal scheme has received ample discussion at the hands of the trans-Mississippi congress. The overwhelming majority of sentiment appears to be in favor of the United States government building and owning the canal. Whether that kind of work is one of the functions of republican government is a question not easily answered in the affirmative by people who believe in a strict construction of the constitution of the United States. But that the opening of a water way between the two oceans would be of vast benefit to this country and to the whole civilized world, there can be no question. And no one would be interested, we should think, in retarding such a movement unless it might be the great transcontinental railroad.

Ask your neighbor as to his knowledge of the weather.

The barometer keeps on the "change" indication these days.

Our weather bureau has a singular fatality in making wrong prophesies. Yesterday a forecast was made for frost. It turns out to be warm and showery.

Salem is having a sensation over a blank cartridge shooting affair in which a real estate and some newspaper men are involved. A young woman is mixed up in the affair.

In 1882 the clerk hire of the Oregon legislature was a little more than \$50,000. In 1893, \$26,000. If this ratio continues it will cost \$130,000 to furnish clerks for the members of the legislature in 1903. Luxuries come high.

The annual report of the national civil service commission, just issued, says that the whole number of places subject to be filled by competitive examination is now 42,928, which is estimated to be about 21 per cent. of the places in the public civil service. By this estimate the whole number is nearly 200,000, and the commissioners say that the percentage of increase of offices in ten years has been nearly double the percentage of increase in population.

The commissioners urge that the classified service shall be extended as rapidly as possible, so as to cover every place to which it can appropriately be applied, instancing as examples of such places the clerks and writers in navy yards, almost the entire body of officials in the District of Columbia, the internal revenue service, and custom-houses with twenty-five or more employees. They especially recommend that some measure to take the fourth-class postmasters out of subjection to the spoils system may become law.

At the twelfth annual session of the National Farmers' congress of the United States, held at Lincoln, Neb., November 22-24, 1892, it was stated that throughout the country economical road improvement would save \$250,000,000 per year in the transportation of farm products alone. There would be other financial gains. By permitting the farmer to market a good part of his surplus during the winter and early spring, instead of being compelled to market it nearly all while field work is possible, 2,000,000 of the 20,000,000 draft animals in the country could be dispensed with, and these 2,000,000 animals are worth \$170,000,000, while to feed them for one year costs \$100,000,000. Among other advantages of good roads over poor ones are that heavier loads can be drawn, and drawn faster, and the difference in the selling price of produce, if carried in a wagon over a smooth road for one hour, and the same produce carried over a rough road for three hours is the difference, oftentimes, between profit and loss.

Bill of W M Thompson, M D, for medical attendance on Mrs. Doty, for \$23, disallowed. J. M. Keenan, for supplies furnished S Russell. 11 15 Hemenway & Noland, medicine furnished Mrs. Doty. 3 00 Jared Scott appointed supervisor of road district No 94, instead of Frank T Condon, resigned.

CARLISLE AND THE BANKERS

An Erroneous Construction Placed Upon What Was Said.

Will He Blamed by the Country.

New York, May 3.—The World says: Senator James K. Jones, of Arkansas was in town last night. Referring to the conference recently held by Secretary Carlisle with the New York bankers, the Arkansas said: "I apprehend an erroneous construction has been placed upon what the secretary told the bankers. According to the reports, which, perhaps they circulated themselves, he declared it was his intention to render Sherman's silver law so obnoxious that public sentiment would compel congress to repeal the act. Of course, Carlisle never meant to place upon what he said a man to go to work deliberately to make this or that law unpopular. The conduct of the New York bankers during all this scare of gold exportations has been at least unparliamentary. They have tried to force the secretary of the treasury to issue a law, but he has bravely withstood them. I know in the country there is the greatest resentment toward the New York bankers for their refusal to come to the aid of the government, and they are not likely to hear the last of it for some time to come.

Is your opinion the Sherman law is responsible for the large export of gold? he was asked. "It is not. The balance of trade has been against us, and that accounts in a great measure for the exportations. I don't anticipate a repeal in the next session unless a satisfactory substitute is offered. I opposed it when it was brought before the senate because I do not believe in making a commodity of silver. I would suggest a return to the Bland law, if a compromise is to be made. I hardly think the free-silver bill will become a law the next session, or during the administration of Cleveland."

Will Paper His Partner With Co-

INDIANAPOLIS, May 3.—Jonathan Stanhope is a wealthy farmer of the section known as the "Blue Lick Hills," in Wayne county. He is 54 years old, a widower, and very eccentric. Recently he went to Richmond and presented his check for \$3900 to Postmaster Jenkins, asking that Columbia stamps be given in exchange. The postmaster was unable to fill the order, but Stanhope insisted upon leaving the check and the stamps have been ordered from Washington. Mr. Stanhope said he had decided to paper the parlor of his home with Columbia stamps of 1, 2 and 3 cents, and he had estimated it will cost \$3900 to carry out his project. Word was sent to his son, who lives in Kansas City, and young Stanhope is already at Richmond trying to prevent his father from carrying out his purpose.

Bryant Admits It.

PORTLAND, Or., May 4.—W. H. Bryant, late cashier of Northwest general Electric Company, who is now in jail on the charge of embezzling about \$800 of the company's funds, will plead guilty, waive all time and ask sentence to be pronounced at once, so that he may begin as soon as possible to serve his term. He has a great many friends who are interested in his case and will give him all the moral support possible. A purse of \$290 has been raised for his wife and family, as they were without means, and they will be provided for in the future. Mr. Bryant has heretofore been of good moral reputation and has the track of moral rectitude by reason of a little flag in his mind. He has a keen sense of his situation and wants to get out of it as soon as he can. He promises to make good the amount when he is released from prison.

A Cook Outraged.

PORTLAND, Or., May 2.—Fred Mattheis, a German aged 31, married, a cook in the Rheingulf hotel, was found in a pool of blood in the basement of the hotel this morning. He had blown his brains out with a revolver. His motive is unknown. He came to Portland a year ago from Idaho, where he had been working in the mines.

MONARCHY DEAD IN HAWAII.

Why the Sugar King is Against Annexation. HONOLULU, May 3.—A factor not new, but more than ever important, has made its appearance in Hawaiian politics, by the arrival of Claus Spreckles, the "sugar king." To an Associated Press correspondent he said: "The labor question is the all-important one, and constitutes my only objection to annexation. Planters must have much labor and this in the necessities of the case must be Asiatic labor."

Spreckles has called on Queen Liliuokalani since the monarch's arrival, and informed the deposed sovereign that monarchy is dead beyond restoration.

"Whatever the result may be," she is quoted as saying, "I will not utter a murmur. I have advised my people to remain quiet."

To President Dale, upon whom Spreckles also called, the latter is said to have given assurance that he will support any good government. If he should have any idea of a republic, he would find many influential men ready to assist him.

Frances Willard heroically ill.

CHICAGO, May 3.—Recent advice from England, received by the friends of Miss Frances Willard in Evanston, state that Miss Willard has entirely broken down in health. She has been prohibited by physicians from returning to America until fall, and it seems they are much concerned for her life even under the best of care. She will spend part of the summer in Switzerland, and return to America in the fall if able.

Look over these symptoms: headache, obstruction of nose, discharges falling into throat—sometimes profuse, watery, and acid; at other, thick, tenacious, mucous, purulent, bloody, putrid and offensive; eyes weak, ringing in ears, deafness, offensive breath, small and taste impaired, and general debility. You won't have all of them at once; probably only a few of them; but if they come, buy Shiloh's Catarrh Remedy.

They offer you the money—or a certain cure, if you'll take their medicine. But if they don't, you'll get your money back.

Seared Her Daughter to Death.

SARANAC LAKE, N. Y., May 3.—A woman named Carson, residing near Lake Kashaug, having apparently died of heart disease, was laid out in a coffin, and while a wake was being held last night those in the death chamber were horrified to see the supposed corpse slowly rise to a sitting position. Nearly all present were women and they ran out screaming in terror. A daughter of Mrs. Carson fell outside the house and expired. The wife emerged from her coffin and gazed about her upon the candles and other evidences of death. She did not seem to mind the death of her daughter, and today is about as usual, though speaking and moving in a dazed way.

"EVERETT LYNN."

W. T. EAKIN, of Eugene, has bought the Clyde Stallion EVERETT LYNN, formerly owned by Peter Nettleton, and will stand him here this season.

As this is one of the best breeders of large horses that ever stood in this vicinity, or even in the state, it will give the farmer and horseman an opportunity to improve their stock and raise horses that will sell in any market. This horse has made the past two seasons in this city.

THE Eugene Loan and Savings BANK. Successor to the Eugene National Bank.

Incorporated with a Capital of \$60,000, with \$30,000 Paid Up.

Deposits received subject to check. Interest allowed on time deposits, and loans made on approved security.

The Eugene Loan and Savings Bank will conduct both a Commercial and Savings business, and your special attention is called to the savings feature of it. It is not what you make, but what you save, that makes you rich. In all communities there are many persons of small incomes, which, if deposited in some bank or loaned, will be spent in one way or another. It is difficult to load small amounts, but they can be put in a savings bank and made to bring some return. Believing that the time has come for the successful operation of a Savings Bank in this community, we solicit your patronage in this matter.
