The Soldiers' Home.

Roseburg Review: The injunction against the location of the soldiers' home at Roseburg has been been made perpetual. This was expected when the matter was brought before a judge residing in Salem, where the ruling passion is to "hog" everything in sight. But this decision does not end the fight, it merely opens it in good shape.

Roseburg secured the location of the home here by an honest, earnest effort, and proposes to leave no stone unturned to win the suit. As soon as the supreme court passes on the question, if the decision is adverse, there will be an injunction placed on every institution of the state outside the city limits of Salem. Already funds enough have been pledged to fight this thing to the bitter end, and an extra session of the legislature, a constitutional convention, and the removal of the state capitol may soon become interesting questions to consider.

The building of the branch asylum in eastern Oregon, of which it was claimed there is great necessity, is affected by Salem injunction suit; that is one reason why eastern and southern Oregon will stand together in this matter.

Fraud Practice.

A. O. U. W. Reporter: The fraternal orders of this state should hold a congress and map out their wants and then instruct the representatives to the state legislature to have laws passed protecting all fraternal bodies. One law much needed for fraternal protection is the prohibiting of any one wearing the badge of an order to which they do not belong. We know of individuals in this city that expose to public view society emblems of orders to which they are not members. One is the case of a dive keeper who wears a conspicuous watch charm of a prominent order. Those who notice this and know the man, naturally believe he is a member of the order whose charm he wears, and just as naturally form a contempt for having—as they think—such a man on its roster. Let us organize and stop this fraud practice by frauds.

Salem Statesman: The banks of Portland will now not credit their customers with checks on outside banks, only receiving for collection and crediting them when collected. The Portland banks will also not cash their own time certificates of deposits until they mature. These Portland banks are getting altogether too particular. We have banks in Salem that do not have such ironclad, fifteenth century rules, and they carry money enough, too, to accommodate the legitimate demands of trade and business. Some of the bankers of Portland might learn some of the principles of good banking by coming to Salem and studying them here.

The Chicago Herald of June 29 in printing the addresses in the woman's building, at the world's fair, has the following one from an Oregon lady: "Mrs. Elizabeth M. Wilson, of Oregon, also read a paper, her subject being 'Woman as a Pioneer.' She spoke principally of the pioneer women of Dakota, with whom she was best acquainted, having been one of them herself. They were home-makers and home-builders, and to the pioneer women many of the Western states owed their present greatness. This was especially true of Oregon, where woman's work of a civilizing character was readily admitted."

Every friend of the State University should be at work now inducing students to attend the next session. The professors, especially, should be active in this work.

Lane county will have the largest grain crop ever harvested. With fair prices times will be good this fall.

A Horse Thief Captured.

CORVALLIS, July 5.—Sheriff Osburn returned from Empire City this morning, having in charge Frank J. Peck, alias Frank Baxter, arrested for horse stealing on a bench warrant issued three years ago. In 1890 Baxter was representing the Singer Manufacturing Company in this state, and while in Corvallis procured a team of Thomas Elgin to drive to Eugene. As he failed to return, the sheriff started after him, pursuing him to the southern part of the state, and came so near overtaking him that Baxter left the buggy in the road and escaped with the team into the brush. He was afterward captured by the sheriff of Lane county and sent to the penitentiary for a year. He had also served a year from this county for forgery. When arrested last he had been serving a 60-day sentence in the Coos county jail for petit larceny. He admits his guilt and said to Sheriff Osburn that he had been expecting a call from him for some time.

Well Known in Eugene.

PENDLETON, July 5.—Captain N. B. Humphrey, of this city, while boarding a moving train at Meacham this morning fell under the wheels. His left foot is badly smashed so as to necessitate amputation.

The foot was amputated about four inches above the ankle.

Bridge Burned.

SPOKANE, Wash., July 5.—Moses Coulee bridge on the Great Northern railroad burned. The bridge was 954 feet long and 135 feet high. It will take three weeks to replace it. In the meantime passengers and freight will be transferred.

NEWS FROM HAWAII.

Several Dynamite Conspirators Are Arrested.

Lawless Acts Frustrated.

SAN FRANCISCO, July 5.—The United Press correspondent at Honolulu, writing under date of June 28, says: The government has finally executed what has been for some time in view, the arrest of the ascertained agents in the royalist dynamite conspiracy, on the afternoon of Friday, June 23d. Simultaneous arrests were made of T. B. Walker, Archibald Sinclair and E. C. Crick on the charge of conspiracy to seize the executive building and overturn the government. The offense is not bailable and the prisoners have been held in confinement pending examination. The government has known something of the conspiracy for three months and for several weeks have possessed much exact information. A very conservative policy has been pursued, and no arrests made, until the evidence was entirely complete against the accused. This evidence was submitted to four legal advisors and pronounced sufficient. Meantime every precaution was taken against surprise, including the recent occupation of the palace. Of the arrested persons, Walker is a son-in-law of the leading half white royalist, John Cummings, a mason by trade and a man of active nature. Sinclair is a highly skilled mason, but of irregular habits. Crick is a chemist out of employment.

THE ROUGHS OF PARIS.

Further Trouble is Expected.

PARIS, July 5.—It now appears that the rioting yesterday was not by students but by riffraff, who took advantage of the occasion to raise a disturbance. This class resumed their rioting and had numerous conflicts with the police and soldiers. Numbers on both sides were injured. The affair has assumed such a serious aspect that the authorities are determined to restore order at any cost. Almost the whole city is occupied by troops who have have orders to repress the disturbance with a strong hand. The body of Nuger, the young man killed in yesterday's riots, was conveyed by unfrequented streets to the Lyons railway station and sent to his parents at Lyons, to avoid another uprising.

The mob has been cowed by the determined front presented by the government in calling out the military, and all is quiet up to five this evening. It is feared, however, the trouble will be renewed after nightfall. The government will order the troops to fire volleys into the crowds if necessary. The trouble originally arose from the fining of the manager of the students' ball for allowing girls to appear in a state little removed from nudity. The students, however, are disgusted with the roughs for carrying things so far, and have withdrawn from the streets and only the scum of Paris is now concerned. They assure the government they are no longer in any sympathy with the trouble and have posted placards to that effect. It is believed the Boulangists are fostering the troubles for political ends.

A Failed Bank Resumes.

SAN DIEGO, Cal., July 5.—Bank Examiner Pauly yesterday received definite instructions from Comptroller Eckels of this city authorizing the First National bank of this city to resume business this morning. The officers of the bank are naturally very jubilant that the institution has so thoroughly proven its soundness and point to the fact that theirs is the first national bank in the state, or for that matter west of the Missouri river, to resume business after the panic. The bank was accordingly turned over by Examiner Pauly to the officers without reservation and was opened promptly at 9 o'clock this morning. Absolute confidence has been established. Heavy deposits are being made and no withdrawals.

FADS OF FASHION.

Marquise, rust color, burnt bread and pale auburn are favorite tints in brown.

In reds are five popular shades—flamingo, cerise, oriental, lobelia and Spanish.

The empire poke bonnets appear by units only and are fast retiring from the contest for popularity.

Spolito is the name of one of the newest tints in green; fougere, fern green; centaur is the term for serpent green; artichaut is a delicate leaf tint. Rovigo is a new beautiful gobelin blue.

The long popular, wear defying French mohairs are this season exhibited in all the fashionable colors, light and dark, shot, striped and flowered. These are very generally supplemented with plain goods to match.

The very small models in spring bonnets betoken a coming invasion of luxuriant tresses far exceeding the amount so long considered sufficient. Quite a mass of hair will be necessary in order to wear properly many of the new capotes and tiny princess bonnets.

Very pretty dresses of plain French camel's hair or wool sacking, in pale leaf green, tan color and other popular shades, have round waists of shepherd's check in mauve and green, pink and green, red and cream, brown and chamois color, gray and green, violet and doe color and like effective mixtures.—New York Evening Post.

At present there is no demand for wool in Roseburg, or any other place, for that matter, says a Roseburg paper. There are over 100,000 pounds of wool now in the different warehouses in that city, and the prospects are very favorable for its remaining there for some time to come.

To the public: As many have expressed a desire to study with me this summer, I have decided to remain in the city. All those wishing instructions in music will find me at the residence of Mr. Fletcher Linn, corner 11th and Hilyard streets.

ELIZABETH SAWYERS.

Fossil Journal: School Superintendent L. Parker and wife, her sister Anna and his brother Bert, started Tuesday overland for Goshen, Lane county, where they will spend the month of July with relatives. They hope to spend the Fourth in Eugene. A pleasant trip be theirs, say we.

Oregon City Courier: One of our citizens who fought under the "stars and bars," recanted and voted the republican ticket, approached General Wade Hampton, shook hands with him and said, "Here is one of the rebels." The general scowled and remarked, "There are no rebels now." The citizen of the effete confederacy found that he had brought his wares to the wrong market and uttered nary word.

REGULAR.

Kansas Farmers Suffering.

TOPEKA, Kan., July 5.—The gravity of the condition of the farmers of western Kansas continues to grow more serious. Unless they are soon provided with substantial aid the country will soon be deserted by those able to get away, while those compelled to remain will suffer for the necessaries of life. A call has been made for a convention of representatives throughout the stricken counties to meet at Leoti, Wichita county, to discuss some plan for providing seed wheat.

Governor Lewelling has been importuned to call an extra session of the legislature to take action for the relief of the farmers of the western part of the state, who have no seed wheat on account of the drouth. He says the exigencies of the case are not great enough to warrant such a course. While there is a wheat failure, the corn prospect was never better.

Rosy cheeks are not made from the outside. Pure blood, an active liver, good appetite and digestion—these are the things that give them. And these are the things that you get with Dr. Pierce's Golden Medical Discovery.

First and foremost and above all things, it purifies the blood. Not only in March, April, and May, when the sarsaparillas claim to do good, but all the year round, it cleanses, renews and invigorates the system, rouses every organ into healthful action, and drives out blood-poisons of every name and nature. For the worst forms of Scrofula, the most stubborn Skin and Scalp Diseases, such as Salt-rheum, Eczema, Tetter, Erysipelas, and *all* diseases or disorders caused by a torpid liver or impure blood, nothing can equal it as a remedy.

If any thing could, it would be *guaranteed*, just as the "Discovery" is. If *that* fails to benefit or cure, you have your money back. Is any thing that isn't sold in this way likely to be "just as good?"

See that you get the genuine medicine.

The Eugene Loan and Savings Bank will conduct both a Commercial and Savings business, and your especial attention is called to the savings features of it. It is not what you make, but what you save, that makes you rich. In all communities there are many persons of small holdings, which, if not deposited in some bank or loaned, will be spent in one way or another. It is difficult to loan small amounts, but they can be put in a savings bank and made to bring some returns. Believing that the time has come for the successful operation of a Savings Bank in this community, we solicit your patronage in this matter.
