Coal Hill Nursery.

Call on or address T. N. Segar, Eugene, for all kinds of nursery stock. Prunes on marable plum roots that will not sprout, also on peach roots.

The success of Mrs. Annie M. Bean, of McKeesport, Pennsylvania, in the treatment of diarrhoea in her children will undoubtedly be of interest to many mothers. She says: "I spent several weeks in Johnston, Pa., after the great flood, on account of my husband being employed there. We had several children with us, two of whom took the diarrhoea very badly. I got some of Chamberlain's Colic, Cholera and Diarrhoea Remedy from Rev. Mr. Chapman. It cured both of them. I knew of several other cases where it was equally successful. I think it cannot be exceeded and cheerfully recommend it." 25 and 50 cent bottles for sale by OSBURN & DELANO.

Eggs for Sale.

I have some Barred Plymouth Rock eggs for sale at \$1 per sitting of 13 eggs, \$17.50 two sittings. These eggs are from pure birds imported from Iowa and Dakota.

JOHANNES DANELSON, Elmira, Lane County, Oregon.

Mr. Thomas Bates, editor of the Graphic, Texarkana, Arkansas, has found what he believes to be the best remedy in existence for flux. His experience is well worth remembering. He says: "Last summer I had a very severe attack of flux. I tried almost every remedy, none giving relief. Chamberlain's Colic, Cholera and Diarrhoea Remedy was recommended to me. I purchased a bottle and received almost immediate relief. I continued to use the medicine and was entirely cured. I take pleasure in recommending this remedy to any person suffering with such a disease, as in my opinion it is the best medicine in existence." 25 and 50 cent bottles for sale by Osburn & Delano.

FARMS FOR SALE.

Two hundred acres of valley land, about six miles west of Junction, and two miles south of Monroe, in Lane county. About 100 acres are in cultivation, and the whole tract is fenced. The soil is good, and the uncleared portion is tillable when cleared. The price is \$2500; terms easy. Full particulars will be given on application to MACMASTER & BIRRELL, Portland, Ore.

Roseburg Notes.

Personal.

DAILY GUARD, August 10.

V. L. A. Douglas, ex-county treasurer yesterday, the last gr... employed by the county to examine the affairs of the office. This examiner found a defaulter to the tune of \$2,000.16. The examiner in Arrington being bound over to appear before the next grand jury, was fixed at \$10,000.

Two boys, aged 13 and 17 years, respectively, were under arrest at Roseburg with the Gen. Holmes fair. Some time last year the boy lost \$8,100 which he was in a coal oil can in the barn lot where he usually slept. When he made complaint of his loss the public was wont to think it a hoax, the result of the old man growing chidish. Recent discoveries, however, bring to light that it must have been a fact. \$7000 of the cash has already been recovered and two of the robbers are under arrest as above stated. The investigation is being still further continued.

Bay to Go Abroad.

The following from an exchange, suggests the idea that several thousand tons of hay in Lane county, could be exported from our superabundant crop, to England this season at a profit. The Willamette valley hay would stand shipment better than the Yakima hay which is irrigated, or the Puget Sound which the immediate coast climate makes to green and lush for the ocean voyage:

A valuable product to be exported from our neighboring state of Washington this year will be hay. Mr. Le May, of Douglas county, recently returned from a tour of inspection through the Northwest, and while in the Sound country he contracted for 3000 tons of hay which will come from Yakima principally. The hay crop east of the mountain is said to be better because it will withstand the test of a long winter voyage better than that grown on this side. A prominent Washington hayman says that Mr. Le May contracted for 1000 tons at \$12 per ton delivered on the dock. The expense of water transportation will be about \$10 per ton, and Le May thinks he will realize more than 300 per cent. profit on the investment, because he says that hay will bring \$50 per ton next February in England.

Diphtheria at Monroe.

CORVALLIS DAILY NEWS, Aug. 8: Not long since a family of husband, wife and seven children came to Monroe. They were in destitute circumstances and two of the children took sick, and by the aid of the citizens a doctor was called in. The doctor pronounced it diphtheria. Six down a took to Junction and the child died. A fourth and a physician from Corvallis called and decided that diphtheria, though this fifth one, under physician from Eugene, used it much-dreaded away after a short illness, other two children are in the malady.

As there the disease has been a the citizens a doctor was called in. The physician examined and found that in this region there was no such as diphtheria. The physician from Eugene, used it much-dreaded away after a short illness, other two children are in the malady.
