

Eugene City Guard.

SATURDAY, SEPTEMBER 9.

The Oregon Pacific railroad has made a rate of \$2.50 per ton, on wheat, from Albany to San Francisco. The giant monopoly, the Southern Pacific railroad, charges our people, for 125 miles, to Portland, \$3.20 per ton. In plain terms, a highway robbery; and still the state railroad commission stands idly by and makes no move to protect the producer. By all means the next legislature should abolish said commission, which is preying on the taxpayers and protecting the corporations of the state. One relief will come as soon as the river raises a few feet. The Oregon Pacific will run boats here, and ship all wheat offered, and at prices that will be far below those charged by the S. P. R. R.

A first-rate rain that will do no harm, provided it ever knows when to stop.

Patronize your home merchants and thereby help build up your town.

An Indiana man has eloped with his mother-in-law and three children. And still they talk of punishing that man! For shame!

The Roseburg Review is publishing a daily edition during the fair. It is a neat paper, and Roseburg should see that it is continued after the fair.

The peaceful driving out of the Chinese from the Butteville hop yards will not be condemned by the people of the state. It is the duty of everyone, at the present time, to employ white labor.

Ex: Many of the Eastern factories which usually close in the summer months, and which fact has been used by the protectionists this year to influence congress on the tariff question, are resuming work and those which cut down their forces and hours of work, are going back to their former basis. The scare seems to be over in the East, and it is time it should be on this coast.

Capt. N. B. Humphrey has so far recovered his mental faculties as to be able to leave the asylum every day for a few hours, and visit the state house and other places. His leg is healing up nicely, and he is beginning to navigate steadily on his crutches. Deputy U. S. Marshal Humphrey, brother of cap., will take him up to Albany in a week or so, to remain until he can go home.

Miss Minnie Brooks, the adopted daughter of the Masonic fraternity, of Arkansas and Louisiana, was married a day or two ago in Little Rock, where for many years at every conclave of the grand lodge her name was called and Minnie usually answered "present." When she was a child her father, who was a Mason, died, and she was bound out to a Louisiana farmer, whose treatment to her led her to appeal to the Masons for help.

Astoria Budget: Not long since, a band of horses, raised on the brisk ozone and nutritious bunch grass of Eastern Oregon, was taken to Kentucky, and sold at prices fairly remunerative, considering the state of the market. Shipping horses from Oregon to Kentucky is only the beginning of the trouble; we will some day have the pleasure of filling the noble Kentuckians to the muzzle with a brand of whisky manufactured in Eastern Oregon, from native juniper berries and coyote's ears. It will be a grand triumph for far-western civilization.

According to the report of Superintendent L. L. Rowland, of the Oregon state insane asylum, the total number of patients received at that institution during the month of August was 26—males 12, females 14. The total number at the institution during August was 908—618 males and 282 females. Five males and four females were discharged during the past month as recovered. The average daily attendance was 874; the number of officers and employees is 103. At the close of August the total number of patients in the institution was 599 males and 274 females.

Judges in Jail.
KANSAS CITY, Mo., Sept. 6.—Three judges of the county court of St. Clair county have returned here and went back to jail for contempt of the United States court, for refusing to order a tax levy to pay the bonded indebtedness to construct a railroad that was never built. They were released from jail on a furlough last spring on pending election to compromise matters. The proposition was defeated and the judges will remain in jail until 1886 when their sentence will have become completed.

WANTED.—A girl to do general housework. Inquire at the residence of Charles Lauer, corner Sixth and Williams streets.

WANTED.—An experienced woman to do general housework. Inquire at this office.

SILVER MEN HOPEFUL.

The Majority for Repet Will Be Small.

There May Be a Compromise.

WASHINGTON, Sept. 6.—A senator prominent as an opponent of the repeal has placed the majority of the repealers at 8, but declares the vote on that provision will be indefinitely postponed. He thinks there may be many opportunities to secure a compromise in the amendment stages. It is intimated there is a strong possibility of a revival of the Bland-Allison law. It is coming to be apparent that the opponents of the Voorhees bill have a better organization than was supposed by the friends of the measure, and they are beginning to realize the battle will be stubbornly fought and every move on their part resisted. The silver men openly allege that Voorhees' reason for withdrawing his 11 o'clock resolution was a fear he would be beaten in a vote on it.

It Will Be Enforced.

SAN FRANCISCO, Sept. 6.—A special from Washington says: The administration has fully determined to enforce the Geary Chinese Exclusion act. There is no longer any doubt on this point. Representative Geary was told so yesterday by Assistant Secretary Hamlin, by Secretary Carlisle and by President Cleveland. This conference was held before the cabinet meeting. When this meeting was over Geary called upon President Cleveland at the White House by appointment, with the president by Secretary Carlisle. The president asked Mr. Geary many questions and was earnest in trying to get at all the facts in connection with the law and its effect in every section and especially on the Pacific coast.

The president indicated he never had any intention of allowing the law to become a dead letter. He seemed to realize fully that the administration could ill afford to neglect to enforce the law passed by congress and declared constitutional by the supreme court of the United States. The upshot of the conference is that the question will come up for full discussion at a cabinet meeting when the policy of the administration will be determined fully. Geary said last night that he had no fear of the result. It is more than likely that the money now available in the treasury will be used to pay the expenses of deportation of convicted Celestials just so far as it will go and by the time it is used the further amount needed will be provided by congressional appropriation. This appropriation, it is believed, can be secured from congress, especially if the president favors it, and there seems to be no doubt now that he will.

Killed His Two Sisters.

ROCKFORD, Ill., Sept. 6.—John Hart, aged 34, yesterday near this city murdered his two sisters, Mary and Nellie, aged 28 and 25 respectively. Hart is supposed to have been temporarily insane.

TRIAL OF CHRIS EVANS.

FRESNO, Cal., Sept. 6.—The case of the People vs. Chris Evans has been set for trial on October 3d. Evans is to be tried for the murder of Wilson and McGinnis at Young's cabin last September.

CAN HAVE THEM ALL.

PANAMA, Sept. 6.—The legislature of British Guiana offers a bounty of \$75 per head for 500 Chinese from the United States. They are wanted to work under contract on sugar plantations and in gold mines.

Factories Resuming.

NEW YORK, Sept. 6.—Notice of the resumption of factories in various of the Eastern and Middle states continue to come in. Many other concerns are preparing to resume operations.

Judge Ross of the California U. S. courts has ordered the deportation of a Chinaman under the Geary act. The decision is warmly praised by the people of the Pacific Coast.

The Fossil Journal relates a little story which intimates that a possible murder was prevented by the abandoning of the proposed sham battle which was to have taken place in the O. N. G. encampment at The Dalles in July, 1881. It is said that the militiamen were out of humor because of the mistreatment of the superior officers and threats of vengeance and violence were openly made, and had the sham battle taken place some one of the officers would likely have gotten a bad after consultation with Governor Penruiter and the commanding officers in view of facts the battle was deferred.

It is said that a strange pest is playing havoc among the apples this year in Illinois. The frost of the spring killed the larger portion, and the remainder grow to about one-third their normal size, that which they would attain if ripe, and then fall off. A microscopic examination shows that a minute worm is at work on the stem, that these are eaten through, or so nearly that the stem cannot bear the weight and the fruit falls. The insect that does the mischief is yet unknown but a number of samples of apples have been sent to Washington, and it is hoped the department of agriculture may afford some relief.

Wheat is 22 cents a bushel, Peas, and the First National bank of that city offers to receive payment of notes in wheat at 40 cents, live on board, and a good many will take advantage of the arrangement.

CIRCUS TRAIN WRECK.

Two Men Killed and Eight Injured.

A CAR OF HORSES STAMPS.

OAKLAND, Cal., Sept. 6.—About 1 o'clock this morning Sells & Bentz's circus train was wrecked one mile east of Grass Valley, on the Nevada county narrow gauge railway. One man named Andy Holley and a stockman whose name was unknown, were killed. Eight others were seriously injured, two fatally. The train was drawn by two engines and had just left Grass Valley, when a car of horses immediately following the engine began a stampede. As the car was rounding a curve it was thrown from the track, together with the two engines four cage cars. One containing bears was smashed, the bears escaping to the woods. The animals were recaptured. The circus was tilted at Colfax for tonight, and was here tomorrow.

Special engines brought doctors to the scene, and that part of the train which remained on the track was hauled back to Grass Valley.

Killed—Paul Jones, property man, and Andrew Hurst, of Colfax.

Injured—Joseph Jones, canvas man, head mashed and wrist broken; Al Crowell, groom, head mashed, ribs broken, and badly bruised; Bill Spevin, cook, leg broken and serious internal injuries; Tom Powell, legs bruised; Dan Coughlin, engineer, hip sprained; Joe Duffy, fireman, body bruised. Spevin's injuries are considered fatal. Young Hurst was taking a free ride to his home when killed, and was not connected with the circus. Three or four cars containing animals went down the embankment. One lion and one horse were killed and other animals injured. The amount of damage is not known, but it will be considerable.

The president indicated he never had any intention of allowing the law to become a dead letter. He seemed to realize fully that the administration could ill afford to neglect to enforce the law passed by congress and declared constitutional by the supreme court of the United States. The upshot of the conference is that the question will come up for full discussion at a cabinet meeting when the policy of the administration will be determined fully. Geary said last night that he had no fear of the result. It is more than likely that the money now available in the treasury will be used to pay the expenses of deportation of convicted Celestials just so far as it will go and by the time it is used the further amount needed will be provided by congressional appropriation. This appropriation, it is believed, can be secured from congress, especially if the president favors it, and there seems to be no doubt now that he will.

For information of farmers and others who desire trespass notices to put on their property to keep hunters from poaching, it may be said that no such notices are now needed. No man has a right to go on another's property to shoot or fish without having obtained permission from some entitled to give it. Every hunter when he goes on the property of another, without permission knows that he is trespassing and may be arrested. This would seem to be a more sensible law than that farmers should post notices forbidding people from going where they have no right to go.

French Tansy Wafers.

These wafers are for the relief and cure of painful and irregular menses, and will remove all obstructions, no matter what the cause, and are safe and easy every time. Manufactured by Emerson Drug Co., San Jose, Cal., and for sale by Ostern & DeLand.

Day & Henderson, Undertakers and Embalmers.

Cor. 7th and 7th sts.

TAKE HEART,
If you're a suffering woman. The chronic weakness, painful disorders, and delicate dispositions that come to women have a positive remedy in Dr. Fawcett's Patent French Tansy Wafers. If you're fainting, you'll find them a great help. They relieve every disease and strengthen every part of the body.

It's a legitimate medicine for women, carefully adapted to her delicate organization. It builds up and strengthens the system, removes obstructions, and promotes all the proper functions, and restores health and strength.

"Favorite Prescription" is the only remedy for women's diseases, guaranteed safe and effective.

If it fails to benefit or cure, you have your money back.

Which is the best to try, if you have Catheract—a medicine that claims to have cured others, or a medicine that is backed by the name of Dr. Fawcett? The prescription of Dr. Fawcett's Patent French Wafers to cure your Catheract, perfectly and permanently, or they'll pay you \$500 in cash.

THIS PAPER IS KEPT IN A S. H. DAWES' PATENT FAVORITE MEDICINE, AND FOR THE FRENCH TANSY WAVERS.

FOR THE FRENCH TANSY WAVERS.
