For sale by Colburn & DeLano.

A SAD HOME GOING.—Florence West. A short time ago Mrs. James Fairweather left Eugene to visit her old home in Pennsylvania. She intended to stop a few days in Chicago and visit the fair, but on reaching that city she concluded to go on home. She did so and arrived there just in time to witness the great fire. She died the following day. Mrs. Fairweather did not know of her sister's illness until she reached her mother's home.

Not a word.—In interviews with numerous hop growers, today, we learn that the present cool damp weather will not harm the hop crop for at least ten days. If the weather should turn off warm, and remain cloudy and rain then there would be great danger. All are of the opinion that the crop will not appear to any great extent. Many of the yields are picking, notwithstanding the rains.

Blue River Mines.—Oregon City Enterprise: S. R. Green who has been busy looking after the interests of the Blue River Mining Company came down last week and brought with him some fine specimens of ore. He says that they are getting along finely with the last 50 feet of the 100-foot tunnel and will soon be done. They have found the prospects so good that they have determined to build a road to the mine so that they can put some machinery in there in the spring. The road will cost about \$1000.

Black River Mines.—Oregon City Enterprise: S. R. Green who has been busy looking after the interests of the Blue River Mining Company came down last week and brought with him some fine specimens of ore. He says that they are getting along finely with the last 50 feet of the 100-foot tunnel and will soon be done. FRIDAY, SEPTEMBER 8.

Regular winter weather today. Several hop buyers in town today. Several heavy showers of rain today. A miserably dull day for the report.

Several went out in the McKenzie stage today.

Several investigations came up on this afternoon's train.

Geo. M. Hyland, of Portland, is again in the city.

Miss Lizzie Vaughan, of Coaling, is in Albany visiting her sister, Mrs. Jos. Klein.

A marriage license was granted last evening to A. J. Huston and Anna Kimmel yesterday.

The Grants Pass Courier says the Harrison Courier will be sold soon to W. L. Lister.

Mrs. C. H. Hale and her mother, Mrs. O'Neil, came home from Yaquna this afternoon.

Dr. C. R. Holt and wife, of Harrisburg, left last week on an extended visit to the Eastern States.

L. E. Livermore and son Archie returned yesterday from a visit to their old home in Polk county.

A. J. Pickett has been attending the fair at Roseburg this week. He returned home this morning.

A very fine oil painting, executed by Miss Maud Kerns, is on exhibition at Linn & Kay's furniture store.

The members of the late Kickapoo Co. have been giving performances at Roseburg and Oakland this week.

Representative Hermann has introduced a bill in congress to establish a life-saving station at Siuslaw bay.

A considerable amount of grain is reported cut and threshed and much in the northwestern portion of Lane county.

W. J. D'Arcy, of Salem, returned from the McKenzie hot springs last evening, returning to his home this morning.

Dr. J. H. Barr, one of the proprietors of the Puley Springs, is in the city and will remain here until Monday morning.

Deputy Sheriff Croner took John Stone, the unfortunate idiotic boy, to the asylum at Salem, on this morning's local train.

Sam Simpson in Astoria Budget:—"What's the cure for this awful disease?" "Well, some say the gold cure is!"

At the regular monthly meeting of the Salem Building and Loan Association, \$1000 was loaned at ninety-four months interest in advance.

French primes are reported to be bursting open from the effects of the rains. Considerable damage will result therefrom to our orchardists.

Deputy U. S. Marshal Geo. Humphrey returned to his home on this morning's early train. He served some legal papers on Springfield parties.

Geo. A. Dorris and wife returned home from a very pleasant trip up the McKenzie. During their absence Mr. Dorris accidentally killed one discouslate buck.

The Jacksonville Times says that the Stage case probably cost the people of that county \$3000. More than 50 witnesses were subpoenaed, 40 of whom were sworn.

Geo. A. Dorris came home with a good dose of poison oak. His eyes are nearly swollen shut, while other parts of his body are badly afflicted. He got it watching a deer trail.

The Roseburg fair ruled all horses out of the races this week, except those owned in the district. Therefore, the trotting races are won in six minutes.

One of the best crops harvested this season is that of San Drums' corn on his ranch at the foot of the mountain near Walla Walla. One hundred and four acres yielded 684 bushels of fine wheat, which is 66 bushels to the acre.

School district No. 50, Snehobish county, offered \$1500 worth of bonds for sale last week, but there were no bidders; consequently Haller City will have to wait a while for her school-house. A year ago a sale of school bonds brought a crowd of bidders that almost filled the courthouse.

Harrisburg Courier: Henry Cline will not gather any more plums this season. He was engaged at that occupation last Monday evening when he fell from the tree and dislocated his hip. Dr. Dugas attended to the injured man, and at last reports he was getting along nicely, but inasmuch as the injury was a bad one and Mr. Cline is 78 years old it may take a long time for him to recover fully.

The Astoria Budget takes a very peculiar view of the matter of passenger transportation. A great many people are surprised that the Telephone people would go into any combine whatsoever with the Union Pacific. It is only a combination on fares and freights, which has been altogether too low for our own benefit. Astoria would be better off if the fare between here and Portland was \$10 for the round trip. Every man who wanted to buy a necktie wouldn't go to Portland for it.

A plan for convicting a dog of sheep killing was told last week. Catch the suspected canine as soon after the commission of his crime as possible. He is then to be hung up by his hind legs, when any unguessed food that may be in his stomach will be, by the action of gravity disgorged. If wool is mixed with the mass he is guilty and convenient for execution with a club. A sheep raiser of long experience tells of the plan, and says none of the worthless curs ever escape.

Juniper City Times: An election is called in this school district September 10th, for the purpose of voting on the proposition to levy a tax of \$800 for the purpose of a nine months free school, and also to authorize the directors to borrow \$500 for the maintenance of the school until the money is collected. The law has been changed and the money for school or other purposes cannot be collected until next spring. Many of the towns throughout the state are negotiating loans for the same reason that No. 99 proposes to do.

Rosh Hashonah.—Rosh Hashonah, or Jewish New Year, will occur next Monday, September 11th. The festival will be observed by the Jewish population generally and accordingly their all business houses will be closed from 6 a. m. to 6 p. m. Monday.

STEAMBOAT FOR EUGENE.

daily Guard, Sept. 11.

A movement is on foot to form a stock company in this city to build a river boat to ply the upper Willamette from Eugene as far down as Albany and Corvallis. W. B. Johnson, an experienced boat builder, is here and is willing to subscribe a large fraction of the capital stock necessary and also to give bonds for the faithful performance of the work of construction.

A stock subscription paper is being circulated this afternoon. The proposition is to form a company with \$25,000 capital, divided into 500 shares of \$50 each. The boat is to be built at or near Eugene and to be of sufficient capacity for the carrying trade of this point.

Lumber, hardware, etc., necessary to be used in the work of construction may be subscribed at the actual market price.

This gives an opportunity for every shipper, large or small to aid in an enterprise which cannot fail to be of lasting benefit to Eugene and all the adjacent country. When the paper was first put in circulation for subscriptions \$150 of the amount had already been subscribed.

A Lane County Case.

The Harrisburg Courier says: Chas. Wilkes lives about three or four miles from Coaling in Lane county and with him lives his step daughter, who is about 15 or 16 years old. A few days ago this girl gave birth to a child, and rumor says that a person living near by is responsible for the crime.

Such is the story told by a correspondent who lives in that vicinity and requests us to call District Attorney Condon's attention to the matter.

Card of Thanks.

We hereby desire to extend our heartfelt thanks to the people of Lane county for the kindly sympathy and assistance rendered during our sad bereavement and especially to the Eugene Lodge, K. of P.

W. C. BAILEY AND FAMILY.

BAND NEWS.—The Eugene cornet band has secured the services of Prof. G. H. Yerrington, the clarinetist, as instructor, and he will meet with the boys at rehearsal every week.

Several new players have also joined the band recently which together with the proficient instruction places the band in a condition to enter the state band contest at the Portland Exposition the first of October.

W. G. Gilstrap played the cornet, Chas. Cochran the tuba and W. F. Gilstrap, tuba. The band now has a dual instrumentation in clarinet, tuba, and Eb cornets, tenor, alto, besides one extra tenor and alto, and one baritone horn.

LAST HIS CLOTHES.—A peculiar theft took place in Corvallis Tuesday night. Mr. W. E. Chandler, who is employed in Simpson, Huston & Co's hardware store, during the absence of Mr. Simpson and family from the city, has been sleeping in the house. That night he lay with an open window and the thief by mounting upon a washtub reached in with a long stick and drew out Mr. Chandler's pants and coat, securing \$18 or more, besides several other articles in the room. Mr. Chandler was not awakened, and in the morning had to make signals of distress before he could make his appearance on the street. That was a very unkind thief.

A KICK.—Salem Journal: Salem merchants are complaining that the Southern Pacific railroad charges them 27 cents per hundred for freight from Albany to Salem, which the Oregon Pacific brings from San Francisco to Albany for 21 cents. This, of course, is simply done to discourage shipments via the O. P., but it is tough on valley merchants just the same.

If Salem had live, progressive merchants they would do as Eugene business men have done. Patronize her teamsters.

TAKEN FOR A BURGLAR.—There was a close call to a tragedy at Halsey, Clarence Wilson went to spend the night with J. E. Cross, slipping into bed after the latter had retired without awakening him. Cross in his sleep happened to hit Wilson and was very much surprised in the situation. He thought a burglar was around, and getting a pistol from under his head, blazed away, badly mutilating a pair of Wilson's pants hanging on the wall. Then matters were explained and the remainder of the night was passed in peace.

Case of Cholera in London.

London, Sept. 7.—Almost a panic was created in the house of commons by the official announcement that a serf-woman, employed in the house, died today under very suspicious circumstances. A careful examination was made to determine definitely whether or not it was a case of cholera. Many of the members left the house forthwith. The doctor's examination leaves scarcely a doubt that the woman died of Asiatic cholera.

The Campaign in Virginia.

WASHINGTON, Sept. 7.—The state campaign is on in Virginia, with the administration candidate, Congressman O'Ferrall, for governor on the democratic ticket, standing on the Chicago platform as to silver, and E. H. Cooke, on the populist ticket, for the same office, on a free-silver platform. The populist members of congress are encouraged over the financial fight so far, and propose to give the populists of Virginia all the help possible in the way of speakers. In the belief that a victory there will greatly strengthen the party all over the country. Today they issued a proclamation to all populists who believe in free coinage, outlining the situation in Virginia, calling on all in sympathy with them to contribute to the campaign fund by sending contributions to C. H. Pierson, chairman, care of the Virginia Sun, Richmond.

May Coin the Seigniorage.

WASHINGTON, Sept. 7.—A most extraordinary rumor is current here and is believed by congressmen generally well informed. It is to the effect that Secretary Charles contemplates coinage the seigniorage without any authority from congress under the general power, which he claims is conferred upon him to coin gold and silver. The seigniorage in the treasury amounts to about \$1,100,000. The secretary is very urgent to do this, and it seems to be the general opinion he will venture to do it, unless the president shall disapprove of it, without waiting for any affirmative action from congress. The rumor seems astounding, and it is only repeated in that it receives general credit. The secretary needs money because the custom receipts are falling off and because the importers in expectations of reduced duties are making no importations.

Articles of Incorporation.—Articles of incorporation of the Atlatage Trust Co. were filed in the office of the county clerk.

GOES TO THE SECOND.

A Company C Man Wins the Governor's Medal.

daily Guard, Sept. 11.

News comes from Portland that the rifle competition for the governor's medal has finally been concluded. Owing to the sudden breaking of camp on August 21 the contest was not concluded at Camp Copson as it should have been, but a limit of a week was proposed in which to finish it. Private E. S. Bramley of Company C secured the highest score of 23 out of a possible 25, the range being 200 yards, and the bested sharp shooters of the First regiment must necessarily have some practice on the range used although those shooting at camp had very little opportunity to do so. To this practice a postponement was made, first to September 2nd and again to the 9th, last Saturday, when the shooting ended. But despite the advantages gained by opportunity for practice the next highest score was only 19. Consequently Captain Jones, Brigade inspector of rifle practice, declared Bramley the winner of the medal and as soon as the inscription has been engraved thereon it will be forwarded to him.

Estate of John Chestnut to W. H. Gosler, 157 acres in t 17 s r 3 w; \$6250.

A Heavy Deficit Every Day.

WASHINGTON, Sept. 7.—At no time since the war have customs receipts been so low as now. The matter is causing Carlisle a good deal of worry. In the treasury last night the cash balance was reduced to \$105,000,000, inclusive of gold reserve and \$10,000,000,000 of uncurrent and subsidiary coin. What is left of the depleting gold reserve continues to be the only cash balance in the treasury which to pay current expenses.

The receipts are now running about \$170,000 per day behind the expenditures. For the first time the import duties have fallen below the internal revenue receipts. For the fiscal year from July 1 to the present time, the government expenditures have exceeded the receipts by \$19,000,000. At this rate the deficit at the end of the year will be very large.

Case of Cholera in London.

London, Sept. 7.—Almost a panic was created in the house of commons by the official announcement that a serf-woman, employed in the house, died today under very suspicious circumstances. A careful examination was made to determine definitely whether or not it was a case of cholera. Many of the members left the house forthwith. The doctor's examination leaves scarcely a doubt that the woman died of Asiatic cholera.
