

Eugene City Guard.

SATURDAY, OCTOBER 14

WHEAT YIELD.

The October returns of the department of agriculture show that the yield per acre of wheat indicates a production of about 11.5 bushels, being 1.6 bushels less than last October's estimate.

Peffer, the populist senator from Kansas has introduced, by request, a bill providing for the coinage of all the gold and silver in the treasury and all that will be offered and for issuing enough paper money to bring the volume of currency up to \$6,000,000,000.

For what is the greatest amount of lumber used? Nine people out of every ten would say for houses and buildings. It is doubtful if 35 per cent of the lumber output goes into buildings.

Anacortes, the boom town that was thought destined to become the greatest city on the Pacific coast, now has 936 inhabitants, of which 340 are males and 596 are females.

And we would gently remark again that the mud should be cleaned off of the business streets of the city. If the council cannot afford the luxury then the property owners should act in the matter.

Oregon hops are said to be far superior in quality to those produced in the Yakima country this year. It is generally conceded that the hops of Oregon and Western Washington are the best in the market.

The Masons and the Presbyterian ministers are with us today. Treat them kindly.

Money is becoming more plentiful daily in Lane county.

Eugene is getting fame abroad as the ideal Oregon convention city.

Trying to Reach an Agreement.

WASHINGTON, Oct. 11.—Some members of the senate, who believe a compromise better than the passage or abandonment of the repeal bill have been engaged this morning in an effort to secure an agreement.

Turning Black into White.

TOPEKA, Kas., Oct. 11.—J. Arrell Johnson, of Topeka, announced yesterday that he had discovered a liquid preparation that would change the color of the African and make him a white man.

Wrecked in Port.

MENDOCINO, Cal., Oct. 11.—The schooner Electra, loaded with lumber, went on the rocks here this morning, while attempting to sail out of the harbor.

Stunning Developments Expected.

RENO, Nev., Oct. 11.—Private advices from Reno show startling developments and indicate that the imminent restoration of the empire is only a question of time.

IT CREATED A PANIC.

Collision Between a Steam Launch and a Ferry Boat.

Occurred in New York Harbor.

NEW YORK, Oct. 11.—A sensational collision occurred in midstream in North river this morning. John Jacob Astor's steam yacht Narwhal, going at full speed down the river loaded with prominent society people, found the side of a heavily loaded Pennsylvania railroad ferry boat cutting in to the side some six feet.

AN APPEAL TO HUMANITY.

Aid Needed for the Sufferers by the Storm.

NEW YORK, Oct. 11.—Miss Clara Barton, president of the National Red Cross Association, sends the following communication from Beaufort, S. C.:

For what is the greatest amount of lumber used? Nine people out of every ten would say for houses and buildings. It is doubtful if 35 per cent of the lumber output goes into buildings.

KNIGHTS OF PYTHIAS.

J. A. Waddle, of Portland, Elected Grand Chancellor.

HEPNER, Dr., Oct. 11.—The grand lodge of the Knights of Pythias elected the following officers today: Supreme representative, George W. Jett, of Baker City; grand chancellor, J. A. Waddle, of Portland; vice-chancellor, J. L. Hill, of Albany; prelate, E. P. Gerry, master executive, E. M. Sargent, of Portland; inner guard, Otis Patterson, of Hepner; keeper of the keys, George F. McConnell, of J. O. Watts, Eugene, G. M. at A. C. E. Fellows, G. G. G. L. F. Cook, A. D. C. on Carnahan's staff, G. W. Posey, of Portland was elected colonel of the first regiment, state of Oregon.

Another San Francisco Scandal.

SAN FRANCISCO, Oct. 11.—Miss Amelia Wesley, or Donnelly, aged 16 years, died last evening under suspicious circumstances. The body was removed to the morgue and upon examination it was found that death resulted from the effect of a criminal operation.

When the French crown jewels were inventoried in 1791, there were 9,547 diamonds, 506 pearls, 230 rubies, 14 sapphires, 150 emeralds, 71 topazes, 3 amethysts and a number of unclassified stones.

Tavernier saw in India a diamond of 104 carats whose center was so full as to make the stone worthless. When it was cut open, it yielded eight carats of silt like that from the bottom of a dirty pond.—St. Louis Globe-Democrat.

WALTER BESANT'S MAXIMS.

He who foresees never acts. Wise men never attempt anything. Cheerfulness may be an admirable cloak.

There may be pride even in confessing mistakes.

The greatest things are done by the greatest fools.

Men's motives are mercifully hidden by their shirt fronts.

The most charming attribute of friendship is the right of candor.

When you lose a leg, begin at once to practice with a wooden one.

The consolation of those who fail is to depreciate those who succeed.

If you cannot become rich, remember the many millions of the rich.

Day & Henderson, Undertakers and Embalmers, Cor. Wil. and 7th sts.

THE GETTING IT DOWN

is laid enough, with the ordinary pill. But the getting it down is worse. And, after that, the getting it out is only a little temporary cure.

SICK AND BILIOUS HEADACHE,

and all derangements of the liver, stomach and bowels. They're guaranteed to give satisfaction, or your money is returned.

THE MAKERS of Dr. Sage's Catarrh Remedy say: "If we can't cure your Catarrh no matter what your case is, we'll pay you \$100 in cash."

Costs only 50 cents.

RUMORS OF COMPROMISE.

Report That an Agreement Will Be Reached.

Will Speak in Brings.

CHICAGO, Oct. 11.—The Record's Washington special says a conference held last night by Gorman and other compromisers, at which Voorhees was present resulted in a practical settlement of the terms of compromise.

Don't Tobacco Spit or Smoke Your Life Away is the truthful, startling title of a little book that tells all about Nicotina, the wonderful, harmless, or a deadly poison habit. The root is in the man who wants to quit and can't find a physical or financial risk in using "No-Tobac."

POCKET KNIVES.—40 styles of the bankrupt stock for less than wholesale prices.

F. L. CHAMBERS.

FASHION'S FANCIES.

Black and white taffeta silk makes a pretty addition to a black dress, with white silk gimp laid over black velvet ribbon as a finish.

Iridescent and "jewel" bead jackets are used on short silk gowns, and bands of the same are laid over velvet, on bodices made in Breton or short empire style.

Very much admired by many are the deep yellowish brown straws called "sunburned braids." The plait is rather coarse. This kind of straw looks well trimmed with fern lace, rather coarse meshed, and small pink or damask roses.

Of all fashion's latest freaks none can exceed in absurdity the black glazed leather sailor hat, decorated on either side with two long quill feathers, shading, as a rule, from yellow to brown, the said feathers being laid back like the ears of a vicious horse.

A very economical and effective way of making up or making over a black serge or satin is the addition of large loose puffs, vest and girdle of some of the fancy bengaline taffetas or serahs, which are sold in quantities from 65 cents to \$1.75 a yard.

Tuscan directorate hats are piped with black or golden brown velvet and trimmed with wreaths of pink brier roses, nodding scarlet poppies and cream lace, or flat chaplets of currie hazel nuts and leaves which are of the palest tint of green.—New York Evening Post.

AMONG THE GEMS.

The Orloff diamond is believed to be responsible for 67 murders.

Diamonds so small that 1,500 go to the carat have been cut in Holland.

When Lord Palmerston was buried in Westminster abbey, the officiating clergyman threw into the grave several diamonds and other rings as a peace offering.

The great South African diamond found in the Kimberley mines in 1869 weighed 457 carats rough. According to the ordinary rules of valuation, its worth is \$4,166,000.

The diamond worn by the sultan in the sultan's of his plume on parade days was picked up from a dust heap by a poor man of Constantinople during the reign of Mohammed IV.

When the French crown jewels were inventoried in 1791, there were 9,547 diamonds, 506 pearls, 230 rubies, 14 sapphires, 150 emeralds, 71 topazes, 3 amethysts and a number of unclassified stones.

Tavernier saw in India a diamond of 104 carats whose center was so full as to make the stone worthless. When it was cut open, it yielded eight carats of silt like that from the bottom of a dirty pond.—St. Louis Globe-Democrat.
