Kelloway, of Newburg, filled the pulpit here last Sunday. An excitement was caused by the alarm fire, last Monday, but it was discovered that Mrs. Kelley's chimney was only burning out. The petition for making Dexter the beginning of the mail route is being vigorously signed. Mr. Ross Matthews showed us his smiling phiz last Saturday. He returned a short time ago from the world's fair. Mr. Herbert Martin is placing a neat house on his farm, Willis Mulkey being the contractor. Mr. Mulkey has just finished a fine house for H. C. Wheeler. A. Muser now occupies the house of W. D. Mulkey, recently vacated by Mr. M. Doane. Mr. Doane moves to Sharples' fruit farm. D. W. Briggs has rented and moved on a portion of H. L. Mitchell's farm. Mrs. Flora Rutledge and mother has moved to Sheds Station, Linn county. We are always sorry to lose a good citizen. W. D. Mulkey, of Junction City, paid this place a visit last week. Fall grain is being put in very rapidly during the good weather between showers. J. H. Smith, of Croswell, made this place a flying visit the first of the week. The band will meet regularly during the winter if the leader, Al. Parker, is able to be out; he's married you know. M. L. Hendricks, near Cloverdale, has rented his hop yard out for a term of five years. Lafa says he is going to take the world easy. We'll see. What is the matter with the literary society? It should be organized and do some good work during the winter. Mr. and Mrs. Wm. Linton was called to Philomath last Monday to attend the funeral of their son-in-law, David Jerd, who lost his life on Sunday by his team running away with him. The Regular Trainwreck. PITTSBURG, Oct.—The Baltimore & Ohio vestibule train, which left Chicago at 5 o'clock last evening ran into an open switch at Gallery Junction on the Pittsburg & Western division of the Baltimore & Ohio railway, 23 miles west of Pittsburg, at 7:30 this morning. The engine and four sleeping cars were derailed. One of the sleeping cars went over an embankment. Although many passengers jumped from the doors and windows of the train not one was seriously injured. A wreck train was sent out from Allegheny to place the train on the track. The train arrived at Pittsburg about noon. Railroad Property Destroyed. CHICAGO, Oct. 23.—The Indiana Midland railway, running from Anderson to Waveland, 68 miles, has a strike on its hands due to non-payment of wages. Saturday its switches were spiked, cars chaled up and bridges and toolhouses burned up. The track was torn up and all trains stopped. Trains are not running west of Lebanon. Not only is freight and passenger traffic blocked, but the United States mails are stopped. The track through Montgomery county is torn up in many places. Early Sunday morning a bridge 50 feet long, near Ladoga, was burned. The leaders of the strike deny they ordered any property destroyed and depredated violence. A New Post Office Inspector. WASHINGTON, Oct. 21.—Robert M. Monroe was today appointed post office inspector in charge of the San Francisco division vice George D. Seibold, resigned. AM Were Drowned. CLEVELAND, O., Oct. 23.—The vessel discovered a few miles off the port is thought to be undoubtedly the schooner Riverside, missing since the storm of the 13th. There were seven persons aboard the vessel. All were undoubtedly drowned.

About 30,000 couples have been divorced in France during the last five years, and a law was recently read in the chamber of deputies designed to make a severance of the matrimonial bonds much easier. Kansas politicians seem ever destined to trouble. When the woman suffragists started their campaign several months ago all "was peace and harmony, but troubles are brewing which threaten to split the party asunder. Mrs. Johns, republican, and Mrs. Lease, populist, find it impossible to sail peacefully together under the woman suffrage banner, and each being too obstinate to yield, the party will likely go to pieces. It is estimated that 10 per cent. of the new wheat going into Tacoma from Eastern Washington and Oregon is damaged so badly that it will be unfit for milling purposes. Eighteen thousand sacks of such wheat is now lying in warehouses, all of it being consigned to Balfour, Guthrie & Co. Inspectors say the wheat was damaged through carelessness of farmers in harvesting and threshing the crop. Some of the damaged wheat is beginning to sprout, all of it having been wet. There has been almost as much activity in railroad building in some states as there was in 1892. More than 2,000 miles of new track have been laid in the country since January 1, and more than 1,000 since July 1. The total for the year will probably reach 3,000 miles, while last year it was 4,429 miles. Of the various states, Pennsylvania leads in mileage of new tracks, while North Dakota comes next. Then follow Missouri, Texas, Ohio and Florida. No other state has a record of more than 100 miles, although some construction work has been done in every state except Nevada, Vermont, Connecticut, Delaware and Maryland. Albany Democrat: There seems to be a craze among Albany boys to turn tramps, the lowest element in society. What the principal force in this matter is it is difficult to tell. No doubt the trashy literature of the day, dealt out for a very small consideration has a debasing tendency. Then the general conversation of the day on the streets is in the lower channels, running into vulgarity and adventure. Then again cigarette smoking gets hold of the boys and undermines their better instincts. Impurity seems to be the rule. It is time men set better examples. It is time parents begin earlier to let their children know "what is what." It is time for everybody to turn over a new leaf and rustle to help the boys to live better lives. In sentencing Emma Goldman, the New York court of General sessions delivered an effective homily upon the vagaries of Anarchists and inciters of lawlessness as well as a precise description of the duty of the state in all such cases. A sentence of one year in the penitentiary seems a light punishment for the little anarchist, but it is always best to err on the side of mercy. In delivering the sentence of the court Judge Martine addressed to the prisoner the following: "You are a woman beyond the average intelligence. In the light of reason you must have known the effect of language such as you uttered on that occasion. You have testified in your own behalf and you told us you did not believe in our institutions, that you did not believe in our laws and that you have no respect for them. I think such a person cannot be tolerated in this community by those who believe in law, and I am happy to say that the greater number of our people do believe in law. I think it very improper that the great strength of the nation is not exercised to the extent that you and those who entertain the same ideas should be met at the portal of our country to the end that they should not be allowed to enter here." THE JOB BANK.—W. T. Branch, the examiner appointed to examine the books of Hamilton and Job has reported that there is nothing to show any misappropriation of funds in any respect reflecting on the honesty of the bankers. The expense of running the bank for six years was \$28,925.44, which would certainly indicate some good sized stories. The receipts were \$38,562.75 and losses on long and short account, \$2,638.32, showing an increase of only \$7,999.09 for six years, and yet the creditors will only receive about 50 cents on the dollar. POSTOFFICE REMOVAL.—The room in the Masonic temple is being painted for the postoffice, and is being generally cleaned up. It is expected that the removal will take place about November 1. A NEW TRIAL.—The supreme court yesterday made the following decision: B. J. Pengra, resp., vs. A. Wheeler, app., appeal from Lane county. Judgment reversed and a new trial ordered. Opinion by Moore, J.

The officers of the company are: J. Shafer, president, J. Selling, secretary, and P. Conrad, treasurer. The company's abattoir, packing and cold storage houses are located on the Columbia river, near the Vancouver ferry. The plant is fitted up with all the latest modern appliances and machinery for the killing and handling of fresh, salted and smoked meats. The killing and storage capacity is about 70 head of cattle per day, and an equal number of sheep and hogs. As soon as the business warrants, an increase in the capacity of the plant will be made. EGYPTIAN WHEAT.—R. C. Kiger has recently learned the name of a certain kind of wheat, which had a prodigious growth on his place this season, mention of which was made in these columns. It is Egyptian wheat and the original seed came from Florida. The yield of the little patch grown by Mr. Kiger this season is estimated at 55 bushels per acre. He sowed thirty acres of it during the first rains little more than a month ago and its growth has been so marvellous that it is now ready to be sheared. Mr. Kiger refused five dollars for a single bushel of this wheat. The Corbett-Mitchell prize fight is said to be off. Mitchell has stopped training.

An editor of a paper in Western Kansas wants sealed proposals for 9 cents worth of coffee, a twenty-five pound sack of flour and a straw hat. He says that is the way the town merchants do when he wants a little job printing. It now appears that when the Oregon Pacific is sold in December the bidding will be spirited. Bush, the well known Salem banker and Judge Lord of the Oregon supreme court. The deal was quickly made and was a cash affair. The property was transferred from Mr. Bush to Judge Lord, and was a block of land in a summer resort, and the consideration was 5 cents. This did not include delinquent taxes. An editor of a paper in Western Kansas wants sealed proposals for 9 cents worth of coffee, a twenty-five pound sack of flour and a straw hat. He says that is the way the town merchants do when he wants a little job printing. It now appears that when the Oregon Pacific is sold in December the bidding will be spirited. It is said that among the bidders will be the S. P. R. of the Great Northern and a number of the shareholders residing in Philadelphia. It is stated that the Southern Pacific company's shops are to run on full time. The change goes into effect today and applies to all points on the system between El Paso and Portland. This order will affect 50,000 men and increase the pay-roll \$100,000. The Portland Exposition closes last Saturday night.
