

Foggy. 8. Handker and wife are visiting here from Junction City.

L. J. Cornelius, of Walton, paid relatives and friends a short visit last week. He was one of the sufferers of the Eugene mill.

Very few parties in the immediate neighborhood had wheat in the Eugene mill. Mrs. Shelley had about 400 bushels and C. A. Davis 140 bushels. C. S. Winfrey sold a few days previous to the fire.

A meeting of this school district was called to elect a new director to fill the vacancy made by D. W. Bridges. J. T. Astorson was elected to fill the vacancy.

Jno. Shelley and wife have about recovered from the runaway accident near Springfield a few weeks ago. Several horses are reported on the sick list, supposed to be mountain fever.

Jes. Kelley looks rather lincy lately. "Oh! what can the matter be," etc.

Thurston Baughman, who has been visiting with his father and other relatives, returned to his home in Nevada last week, via steamer Willamette Valley. He reached Yreka, Calif. just after the hard wind at that place.

We notice from the Trent correspondent that Miss Letta Callison is teaching in that district.

Elder Haze Mulkey, of Colorado, is engaged in a protracted meeting at this place. He is a brother of I. N. and M. J. Mulkey. He expects to remain in Oregon one year if he can find a suitable field of labor. He is a good speaker and we hope he may find work in Oregon.

It will soon be known who was the lucky bidder on the mail route from Goshen to Dexter.

ROAD LOCATED.—The following from the county court proceedings of Douglas county, Nov. 11, may be of interest to Staslaw people: In the matter of the location of a county road from Gardiner and Florence roads to Lane county line. The voters appointed at last term of court reported favorably upon said proposed road and recommended that it be established as a county road. Said road was accepted and the road declared a public highway by the court.

OUT OF THE FRYING PAN. Has come not a little knowledge as to cookery—what to do, thus we have learned to use GOTTOLENE, the most pure and perfect material for all frying and shortening purposes. PROGRESSIVE COOKING is the natural outcome of the age, and it teaches us not to use lard, but rather the new shortening, GOTTOLENE, which is far cleaner, and more digestible than any lard can be. The success of Cottolene has called out worthless imitations under similar names. Look out for these! Ask your Grocer for GOTTOLENE, and be sure that you get it. Made only by N. K. FAIRBANK & CO., ST. LOUIS AND CHICAGO. NEW YORK, BOSTON.

Boot & Shoe Store A. HUNT, Prop. Will hereafter keep a complete stock of Ladies' Misses' and Children's SHOES.

HUTTON BOOTS. Slippers, White and Black Gaiters, FINE KID SHOES. MENS' AND BOYS' BOOTS & SHOES.

And in fact everything in the Foot and Shoe line, to which I intend to devote my special attention. MY GOODS ARE FIRST CLASS. And guaranteed as represented, and will be sold for the lowest price that a good article can be afforded.

Sportsman's Eporium. HORN & PAIN. Practical Gunsmith.

GUNS, RIFLES. Fishing Tackle and Materials. Sewing Machines, and all articles of All Kinds, at the lowest possible prices.

Guns Loaned & Ammunition Furnished. State of Oregon.

H. C. LAKE. GRANITE AND MARBLE WORKS. New Designs and New Styles in Granite and Domestic Marble and Granite, Manufactured.

ALL WORK GUARANTEED. W. H. Wallace Street, near President. Eugene, Or.

REAR'S PLAN.

Scheme for Financing an Exhibit at the Midwinter Fair. POPPLAND, Nov. 14.—Geo. T. Myers, president of the Oregon world's fair commission, has addressed a letter to the hold-over senators and other prominent men in the state outlining a plan for raising money to give Oregon a creditable exhibit at the midwinter fair.

There is about \$20,000 unexpended from the world's fair appropriation but this must be laid over back to the treasury. Mr. Myers' plan is to form a corporation with a capital stock of \$15,000, in shares of \$10, each bearing interest, the shares then to be offered for popular subscription, based on the suggestion that so much of this unexpended appropriation, as may be necessary to meet the expenses of the proposed Oregon exhibit at the midwinter fair can be appropriated by the legislature from this surplus.

The Sugar Bounty. WASHINGTON, Nov. 14.—The democratic tariff bill will probably be published much earlier than has been anticipated. The resolute tariff reformers have been warned by the attitude of the moderate tariff men in the party since election that the chances of party success and discipline depend on boldness and promptitude in defining their policy, and therefore all haste consistent with deliberation will be made in completing the bill and giving it to the public. To this end, in order to avoid any chance of wrangling or delay, it has been decided not to call any caucus to consider the bill in advance of its presentation to congress. That this course will meet with criticism is evidenced by the fact that Bland, of Missouri, Culberson, of Texas, and others have openly announced their intention of opposing free wool. The work of drafting the bill is being done in sub-committees, which also as fast as they complete their work draft their part of the report to accompany it. It is in this way the whole work is moving forward very rapidly, and a large part of the report is now ready for submission to the house. The full committee must pass on these divisions, but it is not probable any considerable changes will be made. It is expected the final announcement will be made in 10 days or two weeks. It is generally accepted that wool, coal, iron ore, lumber and salt will be added to the free list, but the committee jealously guards the list of manufactured articles to go on the same list. Sugar is still under consideration, though, as far as the tendency is to repeal the bounty and put it on the free list. The iron and coal men continue to protest against placing these articles on the free list.

In Congress. WASHINGTON, Nov. 15.—It is expected that the Hawaiian incident will come up in congress as soon as the session opens. All indications of division will be on strict party lines. Republican's take Cleveland's position to be a reflection on Harrison's action in the premises, and will doubtless attack him therefor. Democrats expect this, and are preparing to be put on the defensive. The democrats believe, at the opening of congress, Cleveland will send in a message in which he will make public many facts hitherto unknown to this country, which may put the case in an entirely new light. This is expected, especially in view of the fact that Commissioner Blount's report has never been given out.

Congressman Geary, of California, a member of the committee on foreign affairs, today said: "All the facts are not before the people yet, and I would prefer to say nothing until later."

Appointed by the President. WASHINGTON, Nov. 14.—The English surveyor of customs at San Francisco, James P. Stephens, assistant appraiser of merchandise at San Francisco, and J. S. Harrison, a democrat, brother of ex-President Harrison, surveyor of customs of the port of Kansas City, Mo.

COUNCIL PROCEEDINGS.

Council met in regular session Monday evening, Nov. 13, 1893. Present, Mayor Erie; Councilmen Page, Lorrin, Fisher, M. Cook and Preston. The minutes of October 9th and 10th were read and approved.

Finance committee reported favorably on a number of bills, and they were allowed and ordered paid.

On motion of Councilman Page \$6.67 was allowed Croser & Blair in payment for applying ten days in September.

Councilman Page, from the street committee, reported favorably on a sidewalk ordinance, and also reported that the sidewalk on High street had been established.

Councilman Fisher reported the bill of E. L. Sampson, for \$14.00 street, and the same was ordered paid.

On motion of Councilman Wheeler \$1.00 was allowed from the table, and on motion of Councilman Page, the resolution was adopted.

On motion of Councilman Wheeler \$1.00 was allowed from the table, and on motion of Councilman Page, the resolution was adopted.

BENTON CIRCUIT COURT.

A Decket, Including Some Cases of Great Importance. CONVICT, Or., Nov. 14.—The circuit court, for Benton county, was convened by Judge Fullerton. The docket is the largest since the county's organization, comprising 111 cases, of which 10 are criminal actions. The litigation growing out of the Hamilton, Job & Co. failure, of which there is considerable talk, will, no doubt, be watched throughout the state with considerable interest.

Several matters pertaining to the Oregon Pacific affairs will probably be adjudicated during this term. The petition of the Farmers' Loan & Trust Company, to vacate the order of October 8, appointing Joseph Simon referee to examine into the status of certain receivers' certificates alleged to have been illegally issued, came up for hearing this afternoon. After argument of the parties, the judge adjourned until 11 o'clock, when the petition of Sheriff Knight of Marion county, the receiver was ordered to pay petitioner \$470, the amount of taxes alleged to be due that county for the last two years, a few of the first moneys properly applicable thereto or out of the proceeds arising from the sale of the tract if not paid prior to the date of such sale.

One of the Murderers Killed. FUSSEO, Cal., Nov. 14.—William Farrow, late nominee for tax collector of this county on the populist ticket, was killed 12 miles west of this city this morning. About 8 o'clock he had come to town and got a warrant for the arrest of parties who stole some of his fishing apparatus, and accompanied Officer William Henry to make the arrest. When the parties were overtaken they commenced shooting, killing Farrow.

The officers have returned with the unknown man who killed Farrow. The prisoner is probably fatally wounded in the abdomen. He is about 70 years old and a fisherman.

When Deputy Constable Henry commenced reading the warrant to the men in a wagon, charged with stealing Farrow's fishing apparatus, the old man began firing at the officer, which was returned by the officer. Farrow was a crippled man, and when the horses became frightened at the shooting he was thrown from the buggy and left at the mercy of his foes, who shot him literally to pieces. Officer Henry returned to the city after explaining his ammunition, and secured other officers, who all returned to the scene of the shooting. They found the old man dangerously wounded and took him to jail. He would not give his name and no one seems to know who he is. Farrow leaves a large family in poor circumstances. Later reports seem to indicate that two of the resisting parties escaped. It is not known whether they are hurt or not.

Thurston Confers with Gresham. WASHINGTON, Nov. 14.—Hawaiian Minister Thurston had a long conference with Gresham today. Neither would say anything for publication regarding the interview. As soon as Thurston left Gresham went to the cabinet meeting.

Congressman Storor of Ohio a member of the committee on foreign affairs declared today he would never vote a dollar to sustain the administration in its Hawaiian policy.

Notwithstanding the reports to the contrary President Cleveland seems to enjoy good health. He drove in from Woodley this morning to attend the cabinet meeting and looked robust and hearty.

Election Frauds in Brooklyn. BROOKLYN, N. Y., Nov. 13.—Judge Moore, in a charge to the grand jury, today called attention to the alleged election frauds in Kings county, and asked it to give the charges the closest attention. He told the jury that it is his duty to indict every one who aided and abetted violation of the election laws.

Collector of Customs Removed. WASHINGTON, Nov. 14.—The president has removed from office Thomas V. Cooper, collector of customs for the port of Philadelphia.

Governor Boies for Congress. DURHAM, N. C., Nov. 14.—An evening paper announces that Governor Boies will be the next democratic candidate for congress in this district.

The populist party was almost wiped out at the late election. They lost almost everything in their strongholds of the Dakotas, Kansas and Nebraska.

The Sitka Indians in Alaska not long since gave a great feast to visitors from other tribes. The principal dainty was tubs of last season's wild strawberries soaked in seal oil.

Some of the highwaymen who are attempting to hold up people are liable to get a bullet hole through them some of these days. A man will be found prepared for their kind of people.

It is to be hoped that a flouing mill of best modern construction and machinery may be speedily built on the ground lately occupied by the Eugene mill. The local market is excellent for mill stuffs.

The Josephine county assessor is up to business. His assessment roll for the present year shows a reduction. Most of the other counties show a large increase on account of the repeal of the indebtedness exemption clause.

There was a material decline in the vote cast by the populist party in the late election. The party lost both Kansas and Nebraska and polled less than half the vote in Iowa that they expected. It clearly appears that populists who were formerly republicans have largely returned to that party.

An investigation into the financial conduct of the affairs of Multnomah county show a pretty state of affairs. The money of the county to the extent of nearly half a million dollars is deposited in the Portland banks while the county is paying interest on \$280,000 of warrants and owes the state \$480,000. The county treasurer and sheriff refuse to draw on the banks, giving as a reason it would force them to close their doors. Thus the people of that county and the state suffer from unadvised speculation in public funds by county officials and banks.

This has been a good fall for stock.

The Eugene markets are supplied with handsome displays of meats.

The policy of the administration on the Hawaiian question furnishes the San Francisco newspapers an opportunity for sensational head lines.

Sunday Welcome: Don't worry about the "extermination" of the democratic party. It has been exterminated a great many times before this disfigurement. Its principles of right and justice are all enduring. They cannot, will not, die.

The people have an object lesson in regard to the character of the tramps who have been passing through the country. During a few weeks past about 500 tramps have been fed by public charity. A few obtained work and left but the great majority laid about and ate the free food. The other day the city offered the men their board for the week if they put in two days work of eight hours each, leaving them the other four days to find other employment. Out of 450 men being fed but 18 responded. It is needless to say the free eating house has been discontinued.

Lane county has the soil, climate and location for all sorts of farming and until this is fully realized and put in practice the prosperity the country deserves will not be experienced. Fruits of the temperate climate grow to perfection, wheat, hops, oats and all kinds of vegetables are easily raised. Grasses grow well in fact so well that much of the stock subsists on the range all year without being fed, and we regret to say without shelter except that afforded by nature. All kinds of stock are easily grown and kept. No better location for the thrifty and industrious farmer may be found.

The Armenian church claims to have been the first Christian church established, and the legendary account asserts that their Christianity was derived directly from Christ himself. The Armenian church holds in the main the creed of the Greek church. It has a hereditary priesthood, and permits priests to marry before but not after ordination. The heir may pursue a secular calling so long as his priestly father and grandfather live, but so soon as either dies the heir must renounce his secular calling and enter the priesthood. The Armenian church celebrates Christmas on January 6 and Easter a week after its celebration by the Catholic church.

Ex-Gov. James E. Campbell: I believe the result of the recent election shows that Ohio is only sharing in the general shaking up which the democratic party received all along the line, from Massachusetts to Iowa. The business depression is attributed by partisans and the unthinking portion of our people to the recent federal administration. Ex-soldiers were somewhat moved by the needless fear that they will not be justly and liberally dealt with. There was a natural ebbing of the tide from the great flow of last year. There were sore and disappointed applicants for office. These are causes of defeat. Fear of tariff revision had nothing to do with it whatever.

The stoppage of purchase of silver by the United States will in all probability force an international agreement as to the use and value of silver. England has been mainly responsible for the gold standard now fully installed and will soon experience the result of the folly and cupidity of her capitalists who sought to appreciate the value of their holdings. England has an immense trade with South America, Asia and Australia, the nations of which are committed to the use of silver. The difference between gold and silver has increased to such an extent that trade has almost been paralyzed and manufacturers are bitterly complaining. When the state of affairs becomes too strained the English gold bugs will be compelled to forgo a policy that can but surely enrich the creditor class at the expense of the debtor.

The following are the reasons given by General M. T. McMahon why he is a democrat and they are good ones too: "Our country needs needed protection, in my opinion. It is the most prolific country this ever shone on its productiveness is unparalleled; and when protection is given to an enterprise in order that it may be profitable, the money invested in it is diverted by that very fact from its legitimate use and natural channel. The moment an industry cries out for protection and hangs out the signal of distress the capital invested in it should be immediately withdrawn; and certainly, if invested in some other industry that needs no protection, the money will yield a better return in the end to the investor himself, and will contribute more to the general prosperity, employing more labor, develop more capital. The hot-house process was never necessary in the United States. It is folly for a man to attempt to grow oranges in Massachusetts, when he can produce other crops that pay without artificial forcing."

TUESDAY, NOV. 14.

Some frost this morning. Very few hops selling. Apples wanted at Rhinehart's. Great weather—in the afternoon's. New buckwheat flour at Rhinehart's.

The adjuster on the mill fire is still at work. Thanksgiving two weeks from Thursday. Traveled on the railroad is still said to be quite light. Miss Lonia Holt returned home this afternoon. Two prisoners in the county jail; one in the city lockup. Business around the court house and city hall extremely quiet. S. H. Friendly has had an are light placed in front of his store. Geo. Frissell returned yesterday to his home at McKenzie Bridge. Deputy Sheriff Croser made Junction City an official visit today. Ede Matlock has been quite sick for a few days but is now much better. Drummers are more plentiful again. A good sign that trade is reviving. We will make it an object to trade with our RHINEHART'S CORNER.

Rev. I. D. Driver went to Halsey this morning, where he lectures tonight. J. W. Shumate of Walthersville has been commissioned a notary public by the governor. Tomorrow is the last day this year on which heavy peasants can be killed—lawfully.

Dr. J. C. Gray went to Florence yesterday on a business trip. He will be absent about two weeks. This is said to be a very poor year for the chrysanthemum crop. Too much cold, rainy weather. Mrs. Coll Van Cleve died in Baker City, Nov. 12, aged 45 years. She was the mother of 15 children. It is rumored that a change will be made in the management of the Junction City Hotel in a few days.

The Southern Pacific wreck at Lake Lahliu near Salem occurred Wednesday, Nov. 10, 1893, at 10:15 a. m. Don E. P. Coleman and wife, of Coalinga, came down from Roseburg this morning, and are visiting in Eugene today. Bailey & Mitchell succeeded in getting their pile driving outfit to the head of tide without an accident. They made the trip in six days. Amity Poppo, populist: Someone asks if Pennoyer is a populist. Well, I should say no. He has not the first principles, nor never will have.

Judge Fish, Barney Paine, L. N. Kenney and Mr. Chamberlain left yesterday on a two weeks' hunting trip to Fall creek and the upper Willamette. Monday's Salem Journal: Gen. W. H. Odell left today for Alaska, whence he goes to allot some lands to Indians not yet possessed. He will be away until January. There is only one assessment in the A. O. U. W. lodge for this month, making fourteen for the first eleven months of the year, the cheapest jurisdiction thus far in the United States. Rev. E. R. Pritchard has resigned the pastorate of the Presbyterian church at Albany and has accepted a like position with the church at Roseburg. Mr. Pritchard is known by many our citizens.

Saturday's Prineville Review: Walter Locke left yesterday's stage for Eugene, where he will spend the winter. We hope he will return in the spring for we cannot afford to lose so good a citizen as was Mr. Luckey. Corvallis News: E. P. Sheasgreen has purchased the Higgins 10-acre prune orchard southeast of this city, the price paid being \$2500. Mr. Sheasgreen has confidence in the prune business and owns a fine 10-acre orchard near Vancouver on the Columbia. Mrs. Dr. Tom N. Van, who was sentenced to three years in the penitentiary some time since for performing a criminal operation upon Helen Wilson, from which she died, died at St. Vincent's hospital in Portland yesterday.

Work on the grade of the Low Pass road, west of Smithfield, is progressing rapidly. The west side is finished and a quarter of a mile from the summit of the east, leaving three-quarters of a mile uncompleted. If the weather holds good it will be completed before the end of the year. A vacancy exists in the city council from the Third Ward, Councilman Wheeler's resignation having been accepted. Mr. Wiseler was an active, energetic member of that body, and the people are sorry that he thought it his duty to retire. His successor will be selected at the next meeting of the council. Another attachment suit was brought against J. M. Bowers & Co. today. It was brought by Dr. T. W. Harris for the sum of \$348.45. A sister of Mrs. Powell Reeves of Butte City, Montana, has mortgaged on the property, and has notified the sheriff by telegram that she will make a lawful demand for it.

During these quiet days of autumn, when "the sore, the yellow leaf" covers the ground there is nothing of great moment with which the newspaper man can interest his readers; but the same gist has to be ground daily, and the usual mental palumbum is nished. If a reporter "drops" into poetry or even draws his facts from his imagination, he should be excused. Sheriff Nolan is in receipt of an invitation from the sheriff of Clatsop county to attend a hanging bee, in which John Beiter and John Hansen, both cold-blooded murderers, will suffer for the extreme penalty of the law. The affair, which will be the first of the kind to happen in Astoria, transpires December 1. The invitation is surrounded with a black border and is decorated with the goddess of Justice. Eggs are now being shipped from Iowa to be sold in Oregon markets in carload lots. The hens of Iowa are doing their duty and drawing gold dollars all the way from Oregon to Bill Hawkeye hen men's pockets. Men who know how to raise and feed hens so that they will lay when eggs are high. The farmers of Oregon should become hen men enough and at once to stop this importation of Iowa eggs. The following dispatch is from Rochester, N. Y.: Justice Ramsey, to the supreme court today rendered a decision in the case of a plethoric separation case. The defendant is general manager of the Oregon Pacific railroad, with headquarters at Corvallis, Oregon. He was sued for separation on the ground of cruelty. The defense was that the wife was guilty of adultery with Floyd Tappan, of Sioux City, and others. The court held that the charge is false and granted the wife a separation, giving her the custody of both the little girls and \$1800 alimony annually.

Oregon Ahead.

Oregon secured twenty medals at the world's fair, in the agricultural department alone, while Washington only got four and California twelve. Following is a list of medals awarded Oregon exhibitors: G. W. Belshaw, Eugene, display of wheat. M. Wilkins, Corvallis, grasses, clovers, wheat, oats and barley (5 medals). Gardner Bros., Stayton, flour—wheat and oat. W. L. Simeral, Maclean, wheat—white winter. F. A. Swank, Aumsville, flour—winter wheat. Mort Savage, Howell prairie—Mammoth winter wheat. H. W. Cottle, Salem, display of grasses. Kretz & Kirnan, McMinnville, flour. F. M. and M. S. Durbin, Howell prairie, defiance spring wheat. Ed La Fave, Pendleton, blue stem wheat. W. S. Byers, Pendleton, flour—winter wheat. David Stout, McMinnville, welcome wheat.

Geo. W. Olds, Bellevue, Snohomish oats. J. F. Allison, Hopewell, King wheat. Hamilton & Hourie, Pendleton, barley. Ladd & Head, Broadmeads, barley. Three carloads of Oregon's exhibits are now enroute to Portland and carrying banners bearing the following inscription: "Oregon returning triumphant from the world's fair: Oregon is still the land of the big red apples; Oregon has homes for the homeless and good schools are abundant; Oregon has millions of acres of government lands open to the homeseeker; Oregon is the poor man's home; the rich man's paradise. See the medals awarded—agricultural sixteen, horticultural sixteen, mining seven, bakery six, education four, forestry two, woman's work two.

An Oyster Captain Killed. BALTIMORE, Nov. 13.—Captain John Master of the oyster boat Ostreich, was shot dead Saturday on board of his puny, while trying to sail away from the police boat. Captain Ford of the ship Maria, while off Holland island bar, saw the Ostreich sailing in to Derring bay. After talking about awhile the Ostreich began dragging the bar for oysters. The Maria drew up on the puny and Captain Ford ordered the oysterman to pull down his jib, but instead the latter piled on sail and hastened away. The police boat followed and opened fire on the fugitive. The firing and the chase continued for two hours over a course of nearly 30 miles. Finally the puny lay to and when Captain Ford ordered her to land the captain lying dead with a bullet hole in his head.

Thurston Gives Offense. WASHINGTON, Nov. 14.—Officials of the navy department say they have no news from Honolulu by steamer that arrived at San Francisco. Gresham declines to discuss the situation. Some expressions by the Hawaiian Minister Thurston are said to have given offense to the administration and the rumor is about that the Hawaiian representatives will have their equanimity demanded. At all events their position is an anomalous one, representing as they do a government which the United States is willing to see deposed.

What People Say. SAN FRANCISCO, Nov. 13.—It is the opinion of the passengers who arrived here this morning on the steamer China from Honolulu that the annexationists will make no resistance if the United States orders the queen put back but that this government will have to keep a force of men constantly on shore to maintain her on the throne, and that will practically amount to annexation with the singular anomaly of a territory of the United States governed by a woman who calls herself queen.

Had Enough of Mrs. Lease. TOPEKA, Kan., Nov. 13.—The populist leaders today made a demand on Governor Leavelle for the removal of Mrs. Lease from the presidency of the state board of charity.

Tried & True may well be said of the Superior Medicine, the standard blood-purifier, AYER'S SARSAPARILLA Its long record assures you that what has cured others will cure you.
