There is a law in this state making it compulsory for children to go to school a certain number of months every year. In some cases the fault is the parent's; the children being kept at home to work, and others, it is with the children who have been neglected and brought up in idleness. Some attention should be given this matter, if we do not want a lot of ignorant criminals on our hands.

At rest the question of a city council's power to assess property and collect taxes.

S. Warren, respondent, vs. M. C. City by et al., appeal from Clatsop county judgment affirmed.—Opinion by J. J. The court held that the act passed at the last session of the legislature providing for "a more convenient mode of making assessments and collecting taxes" had the effect to repeal the Astoria charter involving the common council of that city with power to assess property and collect taxes for municipal purposes.

Under the provisions of the general act the power of the city in reference to taxation is confined to the levy, the assessment and collection of the city tax now devolves upon the county officers.

She is Jessie Mansfield, who twenty years ago was the subject of much gossip in the shooting of James Fisk, Jr., and Edward A. Stokes. Miss Mansfield went abroad soon after the tragedy and has lived in Paris ever since. Though somewhat mature she is said to be still beautiful and fascinating.

Reade in Paris in 1891 and was married in October of the same year. At that time she was known in Paris society as Mrs. Lawler, which is the name of her first husband, an act of some note. It appeared the married life of the couple was not harmonious and they agreed to separate.

Understood Reade, who is quite athly, will make a handsome provision for his wife. Reade is a son of the late Robert Reade, once one of the largest property owners in Minneapolis. Lord Falkland, a prominent English peer, married Reade's sister.

V. N. Luckey, an old Lane county settler, is now one of the leaders of the populist party in Jackson county.

DEFINING A NEW-PAPER.

It is a library. It is an encyclopedia, a poem, a history, a dictionary, a timetable, a romance, a guide, a political resume, a ground plan of the civilized world, a low priced multum in parvo. It is a sermon, a song, a circus, an obituary, a shipwreck, a symphony in cold lead; a medley of life and death, and a grand aggregation of man's glory and his shame. It is, in short, a bird's eye view of all the magnanimity and meanness, the joys and sorrows, births, and deaths, the pride and poverty of the world—all for a few cents.

Men delight in giving horrifying examples of the length to which feminine vanity may run, but the supreme climax seems to have been reached in an old Swedish custom. A looking-glass was placed in the coffin of an unmarried woman, so that when the last trumpet sounded she could arrange her tresses before making her entry into Heaven.

A dispatch from Tacoma says arrangements are nearly completed for the importation of a large number of hogs from the East to fatten on damaged grain. The Great Northern and the Northern Pacific have partly agreed to transport hogs over their lines free, so that the whole cost in bringing the hogs would be the cost of delivering them to the above roads.

The New York Evening World, democrat: "In Brooklyn, as in the state, the result has not been democratic defeat and republican victory. New York is still democratic. Brooklyn is still democratic. In the state and our sister city the victory was won by honest and sincere democrats over those who injured the party by objectionable methods and bad nominations. The democrats will be all the stronger in the future from the purification the party has received."

The following is rather lively for a reform governor, taking into consideration the amount of money it has cost the respective counties to convict these same criminals: Sixty-four full pardons have been granted by Governor Pennoyer since the first of January. These pardons were as follows: Rape 3, larceny 27, murder, second degree 2, assault to kill 3, assault and robbery 7, embezzlement 2, manslaughter 1, adulterery 1, practicing medicine without a license 1, forgery 3, simple assault 1, assault and battery 1, burglary 2, passing counterfeit money 1, assault with a dangerous weapon 3, selling liquor without license 1, riot 2, exhibiting obscene pictures 1, prizefighting 2. Seven commutations of sentence have also been issued, and the remissions of fines in ten cases, principally for prizefighting.
