TO OUR READERS.

We have just discovereded a report of the grange-alliance committee in the Salem Independent. placed in a home for waifs in Chicago. The report was not furnished Eu- Wallace. She went to Chicago, and gene papers for publication or it formally adopting the child placed her would have appeared today. This seems to us a strange proceedure to knowledge of her foster mother's vocasay the least. We will probably fully kept from her until she accidentpublish it next week. The refer- ally learned of it when she married J. E. Klotz of Omaha two years ago. In ences made to this paper are mis- August last Miss Wallace died after a leading, and we believe were done long illness, during the latter part of so maliciously by the committee. \$1,000, the balance of her \$39,000 estate ly in our next issue, and show that contest, and today the court decided in the committee knew them to have had used undue influence when the tesbeen unjust. Such work proves tator was mentally decrepit, and that conclusively that they are doing from disinheriting her adopted daughter. this business merely for partisan purposes. We ask for a suspension of judgment until the facts are

Salem Democrat: The price of wool in this state is now only a Boston church a year or two ago was fraction of the duty. That shows wrought out almost wholly in corn used how much the duty is good for. in this manner. If it were \$10 a pound it would not possibilities of corn will understand at give the grower a market unless once how bold and graceful and entirely there were manufacturers to buy. Taxed wool simply tends to trans- had a knowledge of this plant, I am confer the woolen manufacturing industry to foreign countries, and for it lends itself as readily to fine effects this process, if carried far enough, in sculpture as does the acanthus, which would compel the wool grower to their chisels have immortalized. I quite export his products and lose the freights, as the wheat-grower does, for its adoption as a national emblem. It instead of selling it at home and is distinctively American. It is beautihaving the freights in his favor.

The trouble with the wool market now is not that the manufacturers are buying foreign wool. It is dumb. Totay she talks fluently. The that they are not buying any at cause of her being speechless was cleft all. It is because the mills are closed that the bottom has dropped distinctly. This change has been wrought out of prices. Free wool will open by means of an artificial palate obtura-

Argentine wools from the American difficulty in swallowing. The dentist en contained both men and horses she market has abnormally depressed making an examination decided to try their price abroad, and so given the an experiment. For several weeks he foreign manufacturer an unfair ad- has worked on the artificial palate obtuvantage. Hitherto the American Miss Bullard came on a visit to her relapolicy has been to import foreign tive, Colonel R. C. Cannon, and she was wool in the form of manufactured presented with the palate obturator as a free gift. It was adjusted in her mouth, goods. Under the Wilson bill we and for the first time in her life she utshall import it raw, and make it tered a word. Like a little child, she beup here. That will make a steady home market for whatever wool freely with her friends. Miss Bullard is 7:19; Huntress made her record of 7:21; is produced in this country, and | 17 years of age and is pretty.-Way- in 1872. such a complete collapse as the present will be almost impossible.

CONSUMPTION.
