#### CITY AND COUNTY, ANOTHER INTERESTING LETTER. The Midwinter Fair as Seen by J. B. BATURDAY, ...... FEBRUARY 17.

SAN FRANCISCO, Feb. 8. EDITOR GUARD:-In my last letter I did not mention the music at the fair and park, for the reason that it would take one separate—item to do it justice. First, then, the "Park Band," 50 seces, plays every Saturday and Sunlay-in the band stand in the park,

In "The German Village," an immense hall has been built for them, which will hold 4,000. People meet here to listen, see, and take their beer

and lunches in truly German style.

Then, too, the Boone Animal Show Ampitheatre has a band which mixes in to fill up. Don't think that they at all clash, for the size of the grounds prevents you hearing any only the one where you happen to be. Lovers of fine music can be satisfied here surely. Lovers of The Turks are on every corner, and representatives of all nations appear to be as thick as mosquitoes in Sacramento. Everything is conducted very smoothly although exhibits are still coming, and last of February is soon enough to see the fair. Plenty of chances to eat on the ground—rooms in the city can be had for \$8 to \$20 per

month, and a person can eat where he happens to be when hungry.

The special attractions are the "Ostrich Farm," "Esquimaux Camp," "Indian Village," "49 Mining Camp," —where you can get a lunch of beans on rough board, and see pistol shoot-ing in old California style—and the sea lion's tank. Then the county buildings and exhibits are all fair.
