## WILL CAUSE TROUBLE

### Hawaiian Treaty Rider to the Tariff Bill.

Will Cause Trouble.

There is much opposition to it.

WASHINGTON, March 12.—Indications point to a spirited debate in the senate over the clause in the senate tariff bill inserted by the finance committee, providing for the abrogation of the Hawaiian reciprocity treaty of 1875. The subject is already beginning to attract attention on both sides of the chamber. A number of senators on the democratic side will object to the clause, and it is believed the republicans will be almost solid in opposition. Already objection is heard not only because the termination of the treaty would deprive this country of valuable prerogatives in the islands, but because of the fact that the action contemplated would be a serious blow to the sugar planters of the islands, whose business, it is contended, is dependent absolutely upon maintaining free commercial intercourse with the United States. The clause was inserted in this country, whose friends in the senate will exert their influence to have it retained.

## ABOUT THE SENATE.

Twenty of the United States senators served in the confederate army during the war and sixteen in the union army. The man with the longest time to serve is Edw. C. Walthall, of Grenada, Mississippi, who has been re-elected for the term ending in 1901. The most cultured senator is Henry Cabot Lodge, of Massachusetts, who is an author, artist, linguist, scholar and society man. The handsomest is Charles H. Gibson, of Maryland. The most senatorial is Alfred H. Colquitt, whose father and grandfather sat in the senate before him. The haughtiest is J. Donald Cameron, of Pennsylvania, whose unique distinction is to never say a word unless he moves to adjourn. The richest is John P. Jones, of Nevada, who bestows gold dollars upon the beggars of Washington. The one most celebrated out of his own country is John Sherman. The most abused is Matthew Stanley Quay, of Pennsylvania. The most punctilious is Calvin S. Brice, of Ohio, who changes his shirt three times every day. The most temperate is David B. Hill, of New York, who neither smokes, drinks, swears, gambles or eats dainties. The strongest is Wm. B. Allison, of Iowa, who could almost fell an ox with his fist.

## AN OFFICE WELL WORKED.

One of the worst abuses in the management of the financial affairs of Oregon is that of the state printing office. During the fiscal years 1887 and 1888 the office cost the state \$38,000. For 1892 and 1893 the expense to the state was swollen to the enormous sum of \$196,000. Reports of all kinds of the merest trash have been printed by the state printer at the expense of the taxpayer. The present incumbent is an expert at the business, and has not had nearly eight years of the office to no purpose. The ornamental railroad commission had a book of 800 pages printed filled with rubbish of all sorts. For instance if John Jones should have a \$10 calf killed by a southern Pacific locomotive he might write to the railroad commission for aid to recover the value of the deceased calf in coin of the realm. The board through its secretary would write Mr. Koehler. That gentleman would courteously address the board promising to investigate if he was dilatory the board would again write, and finally Mr. Jones would get his money. All this correspondence is printed, taking on several pages of the report, with the result that Mr. Jones' \$10 calf cost the state of Oregon about \$50.

## IN SPORTING CIRCLES.

Corbett Thinks His Battle With Jackson Will Be in England.

NEW YORK, March 12.—Champion James J. Corbett arrived in this city yesterday from Baltimore. Speaking of his battle with Peter Jackson, scheduled to take place in June, he said that he did not believe it would come off, as no club had yet offered a purse for the contest. "It looks as if I will have to wait a while to fight in this country. All of the prominent athletic clubs which encourage have gone out of existence, and no individuals have complied with the agreement Jackson and I signed in Chicago. According to that agreement the club securing the match must pay us in advance enough money to cover the training expenses for a period of three months. In all likelihood the fight may be postponed until August or September. The contest will very likely take place in England. I will leave for England next month, and while there I will have a talk with the managers of the National Sporting Club about a purse."

## TEN ARTICLES PASSED—SO CALLED.

WASHINGTON, March 12.—The senate finance committee today considered the tariff bill. By a strict party vote it defeated the resolution giving workmen, farmers and manufacturers five days for a hearing. Ten articles of the bill passed without change.

In the Senate.

WASHINGTON, March 12.—The senate, by 23 to 27, laid on the table the resolution calling for an investigation of the statement that senators had been interested peculiarly in sugar speculation pending action of the tariff bill.

Dolph called attention to the circular sent by Harvey Spaulding, of Washington, a claim agent, offering to secure lands along the Northern Pacific road at a nominal cost. Dolph characterized the circular as a swindling scheme, the grossest fraud he ever knew.

At the opening the newly appointed senator from Louisiana, Blanchard, took the oath of office. Peffer and Glavin five days for a hearing. The tariff bill, which were laid on the table.

At 2 p. m. the signoriorio bill was taken up. Vance resumed his speech against it.

In the House.

WASHINGTON, March 12.—In the house today the District of Columbia appropriation bill was given the right of way.

The Indian Appropriation Bill.

WASHINGTON, March 12.—The Indian appropriation bill is likely to be reported this week. Chairman Holman, of the committee, having in charge, said he expected the total appropriation would be \$1,000,000 less than last year, which will make the bill a trifle over \$6,000,000. This saving has been made against a rather spirited opposition from Wilson of Washington and other members of the committee, who feel satisfied the bill will be brought up to the mark of former bills when the measure gets before the house.

Appointed by the President.

WASHINGTON, March 12.—The following nominations were sent to the senate today:

Postmasters—W. T. Lyon, Sola, Cal.; H. J. Berry, Reno, Nev.

Receivers of public moneys—Edward A. Pucehel, of California, at Visalia, Cal.; Samuel Leffler, of California, at Stockton, Cal.

Registers of Land offices—James W. Smith, of California, at Stockton, Cal.; James Graham, of Idaho, at Coeur d'Alene, Idaho.

The Entombed Miners Found.

WILKINSBURG, Pa., March 12.—The bodies of the men entombed in the Gaylord mine February 11 have been reached. They were so badly decomposed that identification was only possible from their clothing.

Killed in a Train Wreck.

MONTPELIER, Vt., March 12.—The Vermont Central train was wrecked this morning by boulders rolling on the track. One was killed and several seriously injured.

## HE HANGED HIMSELF.

### Suicide of a Lunatic in the Ashland Jail.

ASHLAND, Or., March 12.—Last Saturday evening James Davis, 34 years of age, was found wandering around town with a gun and an ax. He was laboring under the delusion that he had the leprosy, and that armed men were constantly watching and following him. He was arrested and jailed. This morning he hanged himself in his cell with a piece of blanket. It was the intention of the city officers to have him taken to Sisson by this morning's train, where his brother is principal of the high school.

## Imagined He Had the Leprosy.

ASHLAND, Or., March 12.—As a result of the address to pupils of Vassar college by Mrs. Ballington Booth, head of the Salvation Army forces in America, and Adjutant Edith Marshall, fifteen young women students have been enrolled as members of the Salvation Army Auxiliary League. Dr. G. H. Hendricks, of the executive staff of the college, has joined the league, and others are expected to join. The new members of the league are daughters of wealthy, aristocratic families of New York, Brooklyn, Washington and other cities.

## Joined the Salvation Army.

NEW YORK, March 12.—As a result of the address to pupils of Vassar college by Mrs. Ballington Booth, head of the Salvation Army forces in America, and Adjutant Edith Marshall, fifteen young women students have been enrolled as members of the Salvation Army Auxiliary League. Dr. G. H. Hendricks, of the executive staff of the college, has joined the league, and others are expected to join. The new members of the league are daughters of wealthy, aristocratic families of New York, Brooklyn, Washington and other cities.

## In Very Bad Tonic.

CEBAR RAPIDS, Ia., March 12.—Grand Chief Clark, of the Order of Railway Conductors, said this morning he considered the recent defiant utterances of Grand Master Workman Sovereign, of the Knights of Labor, concerning Judge Jenkins' Northern Pacific restraining order in very bad taste, as he had nothing to do with getting its modification. He was satisfied that Sovereign's opinion was not expressive of the Northern Pacific employees' views.

## Good News for Workmen.

PROVIDENCE, R. I., March 12.—With the resumption of work in half a dozen mills Monday and extensive building operations, hundreds of idle men are fast disappearing from the public streets. Along the Pawtucket Valley every mill is in operation. At Centerville the Lester wooden goods mills are in operation day and night. The leading mills in Pascoog, Burrellville and Harrisville started up today.

## Firing at Rio.

WASHINGTON, March 12.—Following telegram has just been received by the state department:

Rio, March 12.—To Gresham, secretary of state. Loyal forts commenced firing at noon today. Fire not returned by insurgents. Terms of De Gama being refused by government, who will open fire upon him from city batteries this afternoon at three. City nearly abandoned and deserted.

(Signed) Thompson, minister.

The insurgent forts have surrendered without any condition whatever.

## Will Probably Agree.

WASHINGTON, March 12.—Democrats and republicans of the senate committee on finance are likely to agree on a date for reporting the tariff bill to the senate. They are only a week apart now, the democrats waiting March 20, the republicans a week later.

## Gone after a Disabled Steamer.

SAN FRANCISCO, March 12.—The tug Fearless started north this morning to bring down the disabled steamer City of Puebla. The steamer Queen is being fitted out and will leave shortly to take the Puebla's place.

## HOME RULE ABANDONED.

LONDON, March 12.—The Parnellite wing of the Irish party have openly denounced Rosebery's statement about converting England to home rule, and the McArthur section are also angry at the premier's utterances.

The Globe says there is not one among the McArthurites who does not say the premier has practically dropped home rule.

The conservative papers this afternoon are all agreed that Rosebery has virtually abandoned home rule.

## Today's Nominations.

WASHINGTON, March 12.—The following nominations were made today: Registers of land offices—Chas. P. Blakely, at Rosman, S. D.; Clarke S. Rowe, at Chamberlain, S. D.

School Election.

Daily Grand, March 12.

## Eugene is an excited city today.

The cause of the election in school district No. 4. The candidates for directors are Mr. Wm. Preston and Dr. C. E. Loonis, while Mr. Geo. F. Craw has a clear field for clerk. A number of carriages are conveying voters to the polls in the court house, and many political workers are already in the land, buttoning the voters. A large number of ladies are making use of the electoral franchise. Messrs. J. D. Matlock, J. H. McClung and S. M. Yoran are acting as judges and clerks of election. A full vote will undoubtedly be polled.

## Dr. Price's Cream Baking Powder.

HEBERTA LIGHTHOUSE.—The light house at Heberta Head will be in operation after March 20. The following have been appointed keepers: A. J. C. Hall, head keeper; Eugene M. Walters, first assistant; John M. Cowan, second assistant.

## TUESDAY, MARCH 16.

Taxes are coming in at a good rate. The river is thirteen feet above low water and falling.

The Linn county circuit court is in session at Albany.

The Florence delegates have nearly all left for their homes.

Mrs. L. Bilyeu has returned home from a visit at Albany.

W. Martin went to Cottage Grove on the local this afternoon.

The populists state convention meets in Oregon City tomorrow.

Hon. H. B. Miller, of Grants Pass, spent yesterday in Eugene.

Mrs. Norris Brown, of Salem, is visiting relatives in this city.

S. H. Friendly has an important advertisement in today's GUARD. Read it.

A large number of freight cars were attached to the local train this afternoon.

Miss Jessie Withers went to Cottage Grove this afternoon to spend a few days.

Mrs. L. G. Adair arrived home this afternoon from a visit with friends in Portland.

Mrs. G. R. Christman and son went to Cottage Grove this afternoon for a few days visit.

F. Grass, a Portland saloon keeper was shot and killed in the floor of his saloon last evening about 10 o'clock.

W. T. Sellers, formerly of Lane county, has been nominated for representative by the Umatilla county populists.

A. K. Patterson and family removed yesterday to their residence recently purchased on the corner of 12th and High streets.

C. W. Miller was elected school director of Portland yesterday by 1677 majority. It is said that the A. P. A. society did the work.

Capt. N. B. Humphrey has been nominated for recorder by the Umatilla county populists. However, the Captain, still claims to be a republican.

We clip the following news from the Corvallis Gazette: "H. D. Norton, of Junction City, is favorably spoken of as a democratic candidate for district attorney."

Dr. Parsons, of Chicago, offers to give \$100,000 to the Pacific University, of Forest Grove, provided his friends give \$100,000 more. His \$100,000 is evidently safe.

The rebellion in Brazil is ended. De Gama and his officers have permission to leave the country, and his soldiers and sailors to leave the protection of the republic.

Sheriff Noland yesterday afternoon sold at public auction J. B. Michael's interest in a lot in Eugene. The purchase was A. S. McClure and the price paid was \$85.

The refuse sawdust and shavings at the end of the Eugene bridge is being scattered over the ground to make a clean place for the people to stand on when the colors shall be presented to the steamer Eugene.

Fishermen complain of the scarcity of sturgeon in the Columbia, and say the failure of the legislature to pass any law for the protection of the fish has resulted in a general slaughter of them for the past two or three years by parties who pack them for shipping east, and that if this is continued it is certain to result in extermination. As it is, a steamboat now has to be employed to run up and down the river, picking up a fish here and there, and traveling 90 miles to get a ton or two of fish. Sturgeon are now being caught as far up as St. Helens, and they will soon be up to the Cascades, where yearly multitudes of the small ones are slaughtered in the fish wheels.

Notice.

Parties who had ten bushels or more of wheat in the Eugene mill at the time it was burned, and who have not received their proportion of money for or wheat for the same, are notified that the accounts and money have been at the First National bank for about four months; and if not called for within thirty days will be donated to charitable purposes.

A. C. JENNINGS & J. M. STAFFORD, Managers.

NEW O. P. NEWS.—The Steamer Willamette continues tied up in San Francisco, covered with \$125,000 in attachments. Col. Hogg is there and claims a title to it, and is also intimating that he will be on hand June 1st when the O. P. is sold. In the mean time matters look considerably mixed up. The News says: We learn that option papers will soon be circulated for signers among persons holding preferred claims against the O. P. company, which reads in effect that in case the road is sold and the sale confirms, such creditors will accept 35 per cent. of these claims in cash and the balance in a year's time, with 8 per cent. interest added. This report comes from good authority, and should it prove true, will be a great help to those to whom the company is indebted for supplies and labor. As we understand it the Hogg faction is at the head of the scheme.

Dr. Price's Cream Baking Powder.

World's Fair Highest Award.

Daily Grand, March 12.

STEAMER EUGENE.—It is supposed the new steamer Eugene left Portland this morning with a full load of merchandise for this city. She will probably arrive here some time Wednesday, when she will be presented with her colors and be given a royal reception.

## In the Senate.

WASHINGTON, March 12.—In the senate, consideration of the Bland silver bill was resumed. Stewart of Nevada spoke in its support.

## In the House.

WASHINGTON, March 12.—In the house, after some minor matters, the sundry civil appropriation bill was taken up.

Estate of Senator Stanford.

SAN FRANCISCO, March 12.—City and County Treasurer Widber has filed a petition for the appointment of an appraiser to determine the amount of inheritance tax due from the estate of Senator Stanford. Similar proceedings are now pending in Santa Clara, but Mrs. Stanford, administratrix, contends that the Santa Clara courts have no jurisdiction in the matter, and a petition has been filed in this court to offset that claim. The act creating the tax is almost a fac-simile of a similar law which has been upheld in New York, and the procedure to be followed was also determined by the New York courts in the famous Astor case.

## The Chinese Actor Fraud.

CHICAGO, March 12.—Ching Ming, one of the Chinamen who brought 483 of his countrymen here for the alleged purpose of acting in the Chinese theatre on the Midway during the world's fair, has been nominated on the charge that most of these people were mere laborers, and the pretense that they were actors was made to get them into the country. The officials have been wanting him for six months, but in the meantime he went to China, returning only a few days ago.

## Wrecked Sailor Boarding House.

SAN FRANCISCO, March 12.—In the trial this morning of John Tirrell, accused of causing the death of Edward Murphy at the dynamite explosion in this city in September last, one of the witnesses for the prosecution, W. H. Graham, who had given important testimony for the prosecution as having seen Tirrell and two men in earnest consultation in the backyard adjacent to Curtin's boarding house on the night of the explosion, was subjected to a severe cross-examination by counsel for defense, the purpose being to show that Graham had a strong motive for giving false testimony. After cross-examination counsel for defense asked that Witness Graham be taken into custody until tomorrow, when witnesses would be called in rebuttal. The court granted the request.

## Patents on Inventions Expired.

WASHINGTON, March 12.—More than 200 patents on various inventions expired by limitation today. Among the inventions were: Grain separator, William Edris, Eugene, Or.; combined harvester and threshing, A. J. Wise, E. R. Wise and E. J. Wise, Vaca Station, Cal.

## A Drop in Coffee.

NEW YORK, March 12.—News that the Brazilian war was ended caused a drop of 20 points in coffee.

## WANT AN INTERNATIONAL CONFERENCE.

LONDON, March 12.—The chamber of commerce represents to the government the urgency of reassembling the international monetary conference with a view of finding some remedy for the heavy fall of silver which is causing grave injury to the eastern trade.

## Died from Hiccoughs.

NEW YORK, March 12.—John Hamilton of 106 Willoughby avenue, Brooklyn, is the latest victim of hiccoughs. He died yesterday morning, after an illness of several weeks. He was first attacked by a liver trouble and about 10 days ago hiccoughs set in. The doctors applied every remedy to check the attack, but without success. He became very weak and finally lapsed into unconsciousness.

His illness was about 48 years old and he was a widow and three children. He was employed as buyer for a large furniture house on Myrtle avenue.

## Kossuth Very Weak.

TURIN, March 8.—Louis Kossuth has suffered a relapse, and is now very weak.

## The presidential election was tame and flat compared with the school election Monday.

Albany Democrat: The populists of Linn county are modest fellows. They have four candidates for state office. Dr. J. L. Hill for governor, B. F. Baum for congressman, C. B. Montague for secretary of state, and George Alexander for state printer. The recent convention endorsed the first two named.

## The Willamette has been a very uncertain stream this season.

The present high stage of water is the fifth one since October; neither one high enough to inflict any considerable damage but threatening enough to cause apprehension.

## Portland Mercury: This eternal howling that the democratic party is responsible for the decline of wages is enough to nauseate the stomach.

So long as the United States continues to permit the landing of five hundred immigrant paupers to one immigrant employer, wages will decrease. The labor market is overstocked—too many wage owners, too few employers—and until immigration is restricted the hire of workmen will continue to decline.

## The present expansion of \$25,000 railroad commission that represents the railroad companies instead of the people of Oregon, should be abolished by the next legislature, and a maximum freight rate enacted.

Lane county is vitally interested in the matter of securing cheap transportation, and the voters should make candidates pledge themselves to this reform. It is not a party question, but one upon which all agree. The producers are practically robbed by excessive freight rates.

## It is to be hoped that any ill feelings engendered by the contest over the school election may be speedily allayed.

All who have the interest of society and the city at heart are in favor of good schools and nothing should be said or done that will impair their efficiency. The Eugene schools have always received the loyal support of our citizens, of course excepting a few of the mossback specie, who on account of their aversion to tax would close the doors of the school houses. They do not count however when the vote is taken.

## The report of the English board of trade shows that England is suffering from the financial depression as well as America; indeed, that depression seems to be widespread and to have reached every quarter of the globe.

The returns of English trade show a decline in the imports from 435,441,285 pounds sterling in 1891 to 423,793,881 pounds sterling in 1892, and 405,069,690 in 1893. There was a decline also in the value of exports of foreign and colonial products, showing that England not only has reduced its consumption, but lost the handling of a considerable trade which had formerly belonged to it. The exports fell from 246,335,150 pounds sterling in 1891 to 227,077,053 in 1892 and 218,495,236 pounds in 1893—a very large decline. There was a decrease in nearly every line of business, in textiles, food products, wine and spirits, coals, metals, etc. The report attributes a large part of the shrinkage in trade to Germany, which is said to be attacking British commerce, Germany manufacturing many articles, particularly textiles, much cheaper than Great Britain, and thus underselling it. This, however, can explain the matter only to a limited extent. The truth is that there is a general disturbance of the financial and commercial world just now, which has made business bad everywhere, and we doubt if Germany or any other country can make a showing of gain or improvement.

## School Election.

Daily Grand, March 12.

The election held in this city yesterday to fill the office of one director and a clerk resulted as follows:

FOR DIRECTOR	
Wm. Preston	401
C. E. Loonis	392
Preston's majority	99
FOR CLERK	
Geo. F. Craw	697
A. E. Wheeler	1

The whole number of votes cast was 705. Two of these were double ballots and thrown out as illegal, leaving 703. Mr. Wheeler was not in nomination for clerk as the ballot was evidently complimentary.

It may not be understood by some voters but if two votes are found folded together in a ballot box it is the duty of the judges to discard both. This information may lead to the exercise of greater care in preparing ballots for future elections.

## Germany Wants More Silver.

BERLIN, March 12.—Chancellor Caprivi today submitted to the bundsrath a proposal for the coining of 11,000,000 marks in 5-mark pieces; 7,000,000 marks in 2-mark pieces; and 4,000,000 marks in 1-mark pieces. The proposition is made as a result of the increased demand for small coins, and from the fact that silver coinage has fallen 22,000,000 marks below the authorized limit.

## Southern and Union.

SAN FRANCISCO, March 12.—A dispatch from Chicago declared that on account of the cutting of rates by the Union Pacific the agents of the Southern Pacific and Santa Fe would unite in declaring war against that line. I do not know the extent to which it is asserted that the Union Pacific agents have been cutting the rate," said C. F. Crocker, vice-president of the Southern Pacific, when spoken to about the matter, "but why this should involve us in a rate war with that company, with the Santa Fe as an ally, I cannot see. The matter does not appear serious enough for that. I do not think there is any apprehension of a war of the sort mentioned in the Chicago dispatch."

## Wanted by the Law.

WASHINGTON, March 12.—Senator William D. Lusk's name has been mentioned as a possible nominee for the supreme court of the United States today, after the stamping impressive certificates issued on his behalf. The court would be organized with friends and spectators of various parties.

## Wanted by the Law.

ST. LOUIS, March 12.—Edwin K. Sturge committed suicide today in a most determined manner. According to the Spokane river the body floated to the stream from a rocky shelf. Bring a volunteer to be made the leap. The water was too shallow, and he waded out till it reached his chin. Then he was a sufferer through his brain. The body was recovered an hour later. Sturge was a heavy drinker. Just before he killed himself he had been leaving \$10,000 to his brother in Quincy 14. Despondency over his late, unrequited love for a woman, was the fatal influence.

## A STRANGE CASE.

How an Enemy was Foiled.

The following graphic statement will be read with intense interest. It cannot describe the numb, creepy sensation that existed in my arms, hands and feet. I had to rub and beat those parts with my hands, but with no particular benefit, when I saw an advertisement of Dr. Miles' Restorative Nervine, procured a bottle and began using it. Within a few days every bit of that creepy feeling had left me and there has not been a return. It is a relief to my stomach. Physicians said it was creeping paralysis, from which, according to their universal conclusion, there is no relief. Once it fastens upon a person, they say, it reaches a vital point and the sufferer dies. Such was my prospect.
