It is true that improvements are needed in places, but owing to the good condition generally, and the stringency of the times, I would advise that no further improvements be made except what are absolutely necessary.

PIER DEPARTMENT The Fire Department is a credit to the

city. It is well organized and well man-ned. The fire apparatus is in good condition, and the same being well cared for at all times. The department is thoroughly equipped and able to cope with most any conflagration that might visit our fair city. Within the last year but few fires have occurred, but withal, perhaps the most disastrous configration regarding the destruction of property

that ever came upon the city was on the night of November 8, 1893, which com-pletely destroyed the grist mill of Edria & Sou, with nearly all its contents, en-tailing a loss of about \$29,000.00. The destruction of the mill property was a severe blow to the city, destroying one, if not the most important enterprises in it. It is to be hoped that the mill will be rebuilt at an early day.
