At the point where the cry was raised there was but little current in the river, and a man was seen floating on the water. Grappling hooks, with which the ferry is supplied, were brought into use, and the man was hoisted into a small boat, and from there transferred to the steamer. On this side he was turned over to the police, who locked him in the large main cell to dry. His name is Thompson R. Metcalf, 50 years of age, a laborer by occupation.

When searched in the central police station he had on his person 25 cents in coin, and pension papers entitling him to \$4 per month from Uncle Sam. WASHINGTON, May 1 .- Coxey and Browne were arrested at noon today on the capitol steps. The common-weal army was astir early today upon Brightwood Heights with preparations for a procession to the capitol. The men passed a cold night, many sleep-ing on the ground. There was an early breakfast of eggs and coffee. Tents were packed into wagons and the army was aligned before 9 o'clock. All men carried staves on which fluttered white flags with the motto: "Peace on earth; good will to men;

but death to interest on bonds."

Before the start Browne formed the men into a hollow square and put them through a most remarkable drill. Staves were handled like guns and when Browne shouted "giory and peace" they cheered three times and waved sticks in the air.
