Corvallis News: The base ball game between O. A. C. team, of this city, and the State University of Eugene, which was to have been played Saturday afternoon, was postponed on account of rain. We understand the game will be played next Saturday. The Dunsmuir correspondent of the Mascot tells the following: Last week was made especially lively by northward flight of the wild geese. During the day the air was alive with them, and at night their continual "honk honk" broke the stillness. The Albany Democrat says: Governor Penney, in his Ashland speech said: "The growth of the state expenditures for the last ten years has been in some particulars most extravagant. A greater solicitude has apparently been manifested for the officeholder than for the taxpayer." Yes, that's so. The fact stands out in the sunlight of day that the governor himself, as an officeholder, has been the object of solicitude of the legislature, for during these years he has been drawing an unconstitutional salary, and so well pleased has he been about the matter, that he has not hesitated a moment to walk up cheerfully every three months and draw from \$300 to \$500 more than he is entitled to. The kind of solicitude the governor has for the taxpayer of this state is like that which devours have for lambs—eating and devouring them. The governor should hasten to get out of that glass house in which he is so comfortably ensconced before he throws any more stones. His criticism about increased expenditures will be taken, but unfortunately for him, the public know he is a sharer of the spoils.
