Eugene City Guard.

SATURDAY, ... JUNE 9.

The surplus products of the Willamette valley should be enabled to find a good market this year. Drought south of us and floods to the north have destroyed many crop products.

The first cremation of a body in the Jewish cemetery at Copenhagen took place on the 15th ult., previous sanction having been given by the Executive of community. Neither the rabbi nor the reader, however countenanced the cremation; they, therefore, refused to read the burial service.

The so-called rice paper is not made from rice, as its name implies but from the snow white pith of a small tree which, so far as is known grows only in Formosa, and belongs to a genus represented in the United States by the common sarsaparilla and the spikenard. The stems are transported to China and there the rice paper is made, which is used by native artists for water color drawings or dyed of various colors and made into artificial flowers.

When the postage stamps was first resolved upon the post office authorities issued a prospectus, and offered the sum of $2500 for the best design and plan for a stamp. It is said that no fewer than 3700 designs were submitted by the "artists, men of science and the public generally," to whom the proposal was addressed. The penny stamp came first, and in July, 1840, a two penny stamp was issued, and subsequently a complete series ranging in value from a half penny to a five shillings.

The practice of throwing overboard from ships letters inclosed in sealed bottles is centuries old. Hollow copper spheres and oaken barrels have also been used as sea letter carriers in attempts to trace the direction of ocean currents or to send words from persons at sea to friends on land. Barnacles readily attach themselves to these drifting letter holders and sink them. Only a very few of the many messages that have been thrown into the sea have ever been recovered.

Roseburg Review: Oregon has gone just as every keen political observer believed it would go, when Governor Pennoyer started out to make populists of the democrats. He has succeeded in splitting his old party into two warring factions, resulting in a sweeping republican majority. If Pennoyer really hates the party who elevated him to power, he no doubt feels gratified, while he will have to give up all hopes of being elected United States senator.

Growing wheat is a vegetable that is not readily affected by a nipping frost. In fact, it is a hardy plant, and thrives when the temperature is several degrees below the freezing point. When only three or four inches high a snow and the mercury 15 degrees or thereabouts above zero for a day or two does not kill it. When the stem has reached six or more inches and becomes jointed it is susceptible to the cold, and a blizzard is likely to work damage but even then only in patches.

At a meeting in Boston the other evening, in the interests of Indian education, the Rev. Daniel Dorchester, ex-superintendent of Indian schools, said that, in the opinion of those who have made a study of the facts, the Indians of the United States are holding their own in point of numbers, the decline of the race having been checked. The five tribes of the Indian Territory and the New York Indians show a steady increase, and the inroads of disease and intemperance among the tribes on the reservation are no longer so marked. The settlement of the Indians, on territory set apart for them, where agriculture is taught and their children are educated, has materially tended to improve their physical condition.

The campaign boaster is the fruitful product of our American politics, says the Telegram. He is a numerous and ubiquitous fellow who can be found on every street corner and in every beer shop claiming that his side is going to mop the earth with the other side. As a rule he has no more knowledge of politics than a cat has of astronomy. But that makes no difference. The less he knows the louder he talks. He is so overcome by the spirit of boastfulness that he has developed into a first-class liarand braggart, and imagines that there is really somebody who has faith in his predictions. It sometime happens that the campaign boaster offers to back his judgment with money which invariably disappears when some other fellow comes around to cover it. Still the campaign boaster is useful in his way. He gives humor to the campaign that would otherwise be lifeless. He paints the vermillion hues when the campaign is devoid of coloring. But, after all, the man who knows most as to probable results is the fellow who keeps quiet and saws wood.

Verdi, the great composer, will found an asylum for singers and musicians devoting the greater portion of his fortune to an object that will preserve his name as a philanthropist should the world forget his brilliant musical record.

England sends us Irving and Terry, and America reciprocates with Corbett and Jackson. And yet we are prone to boast of the superiority of American products.—Eugene GUARD. Not just right; we also sent England Booth and Barrett, Geo. Wm. Curtis and James Russell Lowell.—Capital Journal.

Albany Democrat: Up through the smoke of battle whatever else may be seen, one thing is prominent, and that is the carcass of Pennoyerism. It is stark dead. The democrats who helped build up the man in the first place, will rejoice at the sight. To the last though, to a certain extent they had to bear the burden of Pennoyerism. The lesson is a great one.

The study of the election returns in Lane county proves conclusively that most of the socalled republican populists voted the straight republican ticket, while the democratic portion of that party voted the populist ticket straight. It has always been thus in every independent and greenback movement. The democracy is the party that gets hurt by side issues every time.

The strong facial resemblance which married couples often acquire after living together a long period of years, harmonious in thought and feeling, and subject to the same conditions in life, have often been commented upon. The photographic society of Geneva recently took the pictures of seventy-eight couples for an investigation of this subject. The result was that in twenty four cases the resemblance in the personal appearance of the husband and wife was greater than that of brother and sister, in thirty cases it was equally as great, and in only twenty-four was there a total absence of resemblance.

The Dalles Times Mountaineer says: The losses caused by the flood to the merchants of The Dalles will be heavy; but these will be borne with that degree of fortitude that our business men have exhibited during former disasters. Fires and floods have been frequent visitors to this city, and on each and every occasion they have left behind them a pathway of distress and destruction. The people will recover in a short time from the flood of 1894, and it will be simply remembered as an important event in the history of the city. With pluck and energy The Dalles will still forge ahead, and in a little while will have recovered from the losses suffered and enjoy her usual prosperity.

Apparently the main purpose of the provisional government in Hawaii is to provide soft snaps for those composing it. At last month's meeting its nineteen members voted to raise their own salaries and then made appropriations to pay them. The total population of the Hawaiian Islands is less than 100,000. The total revenues of the government are a little more than $3,000,000. Yet their chief justice is paid a salary larger by $1,500 than that of the chief justice of the United States. Each of the members of the cabinet are paid $1000 per annum more than our cabinet officers and the other officials are paid with similiarly magnificent liberality. The salaries aggregate nearly one-half the entire revenue of the country. Even Tammany could hardly make better use of "an era of good stealing."

English farming is changing fast from grain growing to grazing and meadows. This is owing to the low price of grain and especially wheat. Each successive year a smaller acreage of wheat is put in, and even with a full crop per acre there is a continued increase in the demand for foreign wheat for bread. In 1873 the wheat acreage was 3,490,000 acres. Last year this was only 1,867,000 acres, and the present crop shows a further reduction. There has also been a decrease in land sown to other grains. Barley has decreased 300,000 acres in 20 years, beans 34,000 and peas 108,000 acres. There is an increase in the acreage sown to oats, the increasing population of the island requiring a larger part of its land to support the horses for draugh and the cows for giving milk. The acreage of permanent pasture shows a very large increase. It looks, to use a slang phrase, as if English farming was "going to grass" at the most unhealthy rate.

Prineville News: The stage driver informs us that on Wednesday just as he drove out of Cow canyon, there came up a hail storm in which hail fell as large as eggs, killing a lot of poultry in that neighborhood. When the umbrellas were raised to protect the passengers the hailstones passed through them as if they had been tissue paper. In fact this is peculiar weather we are having. Did any of you notice the panorama of the elements Thursday evening.

Shiloh's Cure, the great cough and croup cure is for sale by us. Pocket size contains twenty-five doses, only 25 cents. Children love it.

CITY DRUG STORE.

A Small Doctor Bill.

Fifty cents is a small doctor bill, but that is all it will cost you to cure any ordinary case of rheumatism if you use Chamberlain's Pain Balm. Try it and you will be surprised at the prompt relief it affords. The first application will quiet the pain. 50-cent bottles for sale by

OSBURN & DELANO.

A Good Recommendation.

LA FAYETTE, Ind.—A Mrs. Jas Fay living near this city claims to have been cured by the use of Simmons Liver Regulator after five or six of the best physicians had pronounced the case hopeless.—Albert A. Wells. Your druggist sells it in powder or liquid. The powder to be taken dry or made into a tea.

A Business Man Killed.

CHICAGO, June 7.—E. E. Whitmore, one of the heaviest business men in this part of the state, was shot and killed by a robber who entered his store just as he was about to close. The murderer escaped.

THE NEW MONEY ORDERS.

No More Postal Notes—Rates of Exchange Now Fixed.

Postal notes will not be issued after July first. The rate on the new money orders that take the place of the old postal notes and money orders will be as follows: $2.50 or under, 3 cts; up to $5.00, 5 cts; up to $10.00, 8 cts; up to $20.00, 10 cts; up to $30.00, 12 cts; up to $40.00, 15 cts; $50.00, 18 cts; $60.00, 20 cts; $75.00, 25 cts; $100.00, 30 cts.

The provisions of the law under which the new post office money orders are to be issued, are that all offices shall begin the new issue July 1st, 1894, except in cases where the old forms of money orders are exhausted, then to begin the issue of the new forms at once.

Notice.

PORTLAND, June 5, 1894.

To our customers: It is impossible for us to fill any orders at present, as we have five feet of water in our store, and the water is still rising. Will fill orders as soon as possible.

BLAKE, MCFALL & CO., Paper Dealers.

Daily Guard, June 7.

STEAMER ARRIVES.—The steamer Eugene left Harrisburg at the usual time this morning. Her load consists mainly of way freight and O. P. freight which arrived at Yaquina by the last steamer. The boat arrived at the Ferry street dock in this city at 2:15 o'clock this afternoon. The amount of freight on board is about 40 tons.

DIED.—N. Gilmore, one of the prominent citizens of Junction City, died at that place last Monday evening at 6 o'clock, after a lingering illness. The remains were buried in the Muddy cemetery Tuesday. Mr. Gilmore had many friends who will be pained to learn of his demise. He was a true man.

MARRIED.—In Lane county, Oregon, May 25, 1894, by Rev. N. B. Walden, J. W. Craighead and Minnie Hickey, all of Lane county, Oregon.

In Lincoln county Ted Parker was elected assessor, George Landis, populist, sheriff, Ben Jones, clerk, Burt, judge. West Yaquina was chosen as the county seat for two years. It lacked 17 votes of a majority. The county went republican otherwise by about 150 plurality.

Another Enoch Arden.

NEWARK, N. J., June 6.—When Patrick Dowd, after an absence of 27 years, turned up at his home in this city, he found his wife had been married 13 years to Thomas Higgins. Mrs. Dowd-Higgins received a letter 14 years ago from the chief of police of Louisville, Ky., saying her husband had died in St. Louis of yellow fever. When Dowd arrived Mrs. Higgins recognized him and fell in a faint. Dowd told Higgins to get out. Mrs. Higgins will apply for a divorce from Dowd on the ground of desertion. Dowd has been living in Custer county, Mont. He says he frequently wrote his sons, but they kept it from their mother.

Has Confessed His Crime.

SAN FRANCISCO, June 6.—Detective Will Smith, of the Southern Pacific Company, has returned here from San Luis Obispo, after an interview with J. H. Morgan, the tramp charged with the murder of Conductor M. B. Haynes at Santa Margarita, who Smith says, has virtually confessed the crime. When questioned he did not deny the killing but said he would explain the whole matter to the jury when the case came on for trial.

SOMETHING UNUSUAL, as a medicine, is Dr. Pierce's Golden Medical Discovery. And, because of that, there's something unusual in the way of selling it. Where every other medicine of its kind only *promises*, this is *guaranteed*. If it ever fails to benefit or cure, you have your money back.

It's the only guaranteed remedy for every disease caused by a disordered liver or impure blood. Dyspepsia, Biliousness, the most stubborn Skin, Scalp and Scrofulous affections, even Consumption (or Lung-scrofula) in its earliest stages, all are cured by it.

It purifies and enriches the blood, rouses every organ into healthful action, and restores strength and vigor. In building up both flesh and strength of pale, puny, Scrofulous children, or to invigorate and brace up the system after "Grippe," pneumonia, fevers, and other prostrating acute diseases, nothing can equal the "Discovery."

You pay only for the *good* you get.

THE Eugene Loan and Savings BANK.

Successor to the Eugene National Bank.

Incorporated with a Capital of $60,000, with $30.000 Paid Up.

Deposits received subject to check. Interest allowed on time deposits, and loans made on approved security.

PRESIDENT ..... J. C. CHURCH.
VICE PRESIDENT ..... B. D. PAINE.
CASHIER ..... F. W. OSBURN.

The Eugene Loan and Savings Bank will conduct both a Commercial and Savings business, and your especial attention is called to the savings features of it. It is not what you make, but what you save, that makes you rich. In all communities there are many persons of small holdings, which, if not deposited in some bank or loaned, will be spent in one way or another. It is difficult to loan small amounts, but they can be put in a savings bank and made to bring some returns. Believing that the time has come for the successful operation of a Savings Bank in this community, we solicit your patronage in this matter.
