

Eugene City Guard.

SATURDAY, JUNE 16. THEY REGRET IT.

Albany Democrat: The cause of the defeat of the democrats in Linn county is plain enough.

This feeling of dissatisfaction was sorely aggravated by the financial stringency. Then there were scores of democrats, who, becoming angry at this scheme to deprive the administration by turning the county over to the populists...

THE WORLD'S WHEAT CROP.

The May crop report of the department of agricultural records a sharp reduction in the spring wheat area of the United States.

In Russia also there is a sharp decrease in the wheat acreage. In some localities the decrease is reported at 30 to 40 per cent.

Against these indications of higher prices for wheat must be reckoned the splendid crop prospects for the rest of Europe, the opening up of Asia Minor, and the steady increase of production in South America.

There has been developed an imperfection in the election law that ought to be remedied. Formerly a ninety days residence in the county was required of every elector.

Dr. Price's Cream Baking Powder. World's Fair Highest Medal and Diploma. Rather Steep. Than take in any other form is what many people think and Parks' Tea is made for just those folks.

What few good apples there are in Chicago are held at \$50 a barrel, a price high beyond all precedent.

Jacksonville Times: The republican vote in Jackson county was one-third larger this year than in 1892, showing that the republicans who voted with the populists two years ago returned to their first love.

Circuit court will continue into next week.

Unity Items.

C. M. Collier, county surveyor, surveyed and established the route for the Windyway county road last week.

Messrs. J. W. Cox, R. C. Edwards and J. R. Holbrook went to the city Tuesday on business.

At the election Monday J. C. F. Randall, was elected justice of the peace and A. S. Matteson for constable.

A party from Eugene started across the mountains last week, but finding the snow too deep returned Wednesday.

Mr. Joseph and Miss Daisy Matteson went to Eugene last week.

Rev. J. M. Sweeney preached at the Warner school house Sunday.

The waters have been high this week and we are informed that the boom broke, letting some of the hop pole timber pass.

Part of a sentence was left out in our items last week making quite a "rough," which we think was not our fault.

It still rains enough to keep the roads muddy.

We are having an unusual amount of wind and rain for this time of the year.

Deputy Wilkins passed through here Monday with a load of cattle on his way to eastern Oregon.

The children's day exercises Sunday were a success in every particular.

Parties have been at work among the rock ledges on Windyway Creek prospecting for gold.

George Young and Arthur Hartman are cutting logs for another drive of hop pole timber.

Almost the Whole Town Gone. PORTLAND, June 15.—A telephone message received by R. S. Pague, of the weather bureau, from Mr. S. L. Brooks, volunteer weather observer at The Dalles, this morning, states that almost the entire town of Grant in Sherman county, has been swept away and down the Columbia river by the flood.

Only the elevator and a few buildings on the high grounds remain of the village. The distillery, owned by the Dalles, Walker & Co., went yesterday. Twelve men were in the building when it was carried off its foundations by the current.

Only the elevator and a few buildings on the high grounds remain of the village. The distillery, owned by the Dalles, Walker & Co., went yesterday.

The Dalles was carried off its foundations by the current. All were saved, one man after the buildings were well into the stream, being rescued by boatmen who saw him floating with the buildings. The telegraph lines are down, and no communication by wire can be had, and the extent and details of the damage to the town cannot be ascertained.

The Dalles may be exaggerated, but there is little doubt that most of the town is gone. Grant is a place of about 200 inhabitants. It is located on the Columbia river and Union Pacific railroad, 111 miles east of Portland and 23 miles east of The Dalles.

The distillery at Grant was built about 18 months ago, and the plant was worth in the neighborhood of \$75,000. Its capacity was 145 hushers, or about 350 gallons of spirits per day, and the stock on hand, most of which was saved, amounted to about 250 barrels. At the distillery there were fed ordinarily about 200 cattle and 250 hogs, and the business was the most important enterprise of the town.

The soil of Grant is principally sand, which gives way readily to the current in the river overflowing it, and the whole place is practically ruined.

Oregon Day at West Point. WEST POINT, N. Y., June 15.—William B. Ladue, of Oregon, took the highest honors in a graduating class of 34 members from the United States military academy yesterday.

The ceremony was under the shade of large trees in front of the library. Many distinguished visitors were present. The address to the members of the graduating class was made by General John C. Black, brigadier-general of the United States army, representative of the secretary of war, welcomed the graduates to the commissioned rank of the army.

General Buggles passed the diplomas to the graduates as they were called upon. There was great applause when William B. Ladue stepped to the front and took the first diploma. The new first and third classes went into camp at Camp Callum this morning.

Ladue is a son of W. N. Ladue, banker, formerly of Salem.

NEWPORT, E. I., June 12.—The state legislature today elected George Peabody Wetmore United States senator to succeed N. F. Dixon.

THE WAY SHE LOOKS troubles the woman who is delicate, run-down, or overworked. She's hollow-cheeked, thin, and pale, and it worries her.

Now, the way to look well is to be well. And the way to be well is to faithfully use Dr. Price's Favorite Prescription.

That is the only medicine that's guaranteed to build up woman's strength and to cure woman's ailments.

In every "female complaint," irregularity, or weakness, and in every exhausted condition of the female system—if it ever fails to benefit or cure, you have your money back.

There is only one medicine for Catarrh worthy the name. Dozens are advertised, but only the proprietors of Dr. Sage's Catarrh Remedy say this: "If we can't cure you, we'll pay you—\$500 in cash!"
