Summer Complaint.

Last fall I was taken with a kind of summer complaint, accompained with a wonderful diarrhoea. Soon after my wife's sister, who lives with us, was taken in the same way. We used almost everything without benefit. Then I said, let us try Chamberlain's Colic, Cholera and Diarrhoea Remedy, which we did, and that cured us right away. I think much of it, as it did for me what it was recommended to do. John Hertzler, Bethel, Berks Co., Pa. 25 and 50 cent bottles for sale by

OREGON'S FOURTH CENSUS.

It Will Be Taken Next Year By Assessors of Various Counties.

One of the sections in the laws of Oregon stipulates that the legislature shall every 10 years following 1865 cause an enumeration to made of the state's population. Next year, therefore, this state will have its fourth census taken, and a right interesting one it will be in showing the result of 10 years' progress. And all such items as to the acreage in cultivation, the production of fruit, hay, hops, butter, cheese, as well as in the number of cattle, horses, sheep, etc.

The duty of preparing for the census devolves upon the county assessors, who must begin the work of enumeration on May 10. The assessors are required to make out an enumeration roll showing these facts: Legal voters; male 21 and upward; males under 21 an over 10; males under 10; females of 18 and upward; females under 18 and over 10; females under 10; number of acres under cult vation; number of bushels of wheat raised during the preceding year; number of bushels of oats raised; number of bushels of barley and rye; number of tons of hay; number of pounds of wool; number of ounces of gold dust; number of bushels of corn; number of sheep; number of hogs; number of horses; number of cattle; number of pounds of tobacco; number of bushels of potatoes; number of bushels of apples; number of feet of lumber; number of barrels of salmon; number of baskets of oysters; number of mules; number of pounds of cheese and butter.

When the assessor has prepared these rolls, allowing one column for each classification, he returns the rolls to the county clerk, who makes a copy of them to be kept in his office and another copy which is to be filed with the secretary of state. There are penalties provided for a noncompliance on the part of either officer to do his duty, and for the assessor who falsifies the returns—"waters the stock," as it may be termed.

Hop Growers Meeting.

A meeting is hereby called for all hop growers in Lane county. The meeting will be held at the Court house, in Eugene, Saturday afternoon, August 4th, at 1 o'clock. It is earnestly requested that every hop grower in the county be present, as business of importance will be transacted.

Daily Guard, August 1.

PERIODICAL.—George Park and Bill Wood were arrested by Policeman Mathews last night for disturbing the peace. The fellows got "loaded" with liquor and proceeded to E. Gray's residence, corner of Oak and Seventh streets, and began abusing the inmates. One of the women was struck by Park and badly bruised about the face. Their cries brought Officer Mathews to the scene and Park undertook to resist arrest. Assistance was procured and both he and Woods housed in the city jail. At the examination this afternoon, Woods was found guilty of disorderly conduct and fined $10 and costs. Park plead guilty to the charge of assault and the recorder following the last precedent fined him $100 and costs; and ordered that in default of payment he work the fine out on the city streets.

FOR SPRUCE POINT.—Mr. F. J. Kobe, who recently came here from Michigan, informs us that a Michigan syndicate has purchased the Cline saw mill on the Siuslaw, and the same will be placed in readiness to do a general milling business, by September 1st. A few days ago Mr. Kobe, who will hereafter be manager of the mill, purchased in Portland a new planer, edger, shafting, belting, etc., at a cost of $2,500, which was shipped to the mill via Yaquina bay, this week. The mill will have a capacity of 20,000 feet of lumber per day. This is a good piece of property and will make money for its proprietors. Mr. Kobe and his family left for Florence today and upon his arrival active work will be commenced on the mill.

STEAMER EUGENE.—Tuesday's Salem Journal: This craft got off the bar near Fairfield early this morning and arrived at Salem before 6 o'clock. She had 80 ton of freight aboard, including about 200 bales of wool for the Salem woolen mills. She left for Corvallis today and returns for Portland some time Wednesday.

Daily Guard, August 1.

ARRIVED.—Constable Linton arrived here on last night's overland train with Wm. McFarland who was arrested at Adams, Umatilla county, on a warrant charging him with the larceny of $7 or $8 worth of tools. The costs in this case to Lane county will amount to about $150, which never should have been made. We will probably have something more to say about this case in the near future. At the time of going to press Justice Wheeler was hearing the case.

Daily Guard, August 1.

LAWN SOCIAL.—One of the most pleasant out door socials of the season was held on the lawn at the residence of David Cherry last evening. It was very largely attended.

JUST EVEN.—Chas Weber, the hop grower, is strongly opposed to consigning hops to a foreign market. Last year when buyers were paying 17 cents in Eugene, he consigned 35 bales to a London firm on an advance of 13 cents a pound. He has just received advice of the sale and finds they figure him out just even. Mr. Weber strongly advises all hop men to beware of consigning their hops.

Grain Sacks.

We will furnish grain sacks as usual for parties wishing to store wheat with us for sale. Persons wishing to store bread wheat with us can do so free of storage charges, but must furnish their own sacks, or pay us for their use.

Creed Hammond has returned from Woodburn and Sodaville where he has been laboring at his trade, that of brick mason.

Mrs. Alice Gove, who has been visiting with her sister, Mrs. L. G. Adair, left for her home on this morning's local train.

Robt. Wiley and family, Mrs. Watkins and children and Ed McClanahan, Jr., left on a trip up the McKenzie river this morning.

W. H. Parsons and wife and Mrs. B. J. Pengra left for a trip to Crook county this week. They went by the McKenzie route and will come back by the military road.

U. S. Marshal H. C. Grady and the popular S. P. conductor David Houston and several others arrived here this afternoon and will leave for the Foley Springs tomorrow morning.

A special car passed here this morning containing Manager Kochler, Superintendent Fields and Bridge Superintendent Grondahl, of the S. P. R. R. who are out inspecting bridges and the track.

Mrs. Hallie Johnson, who has been visiting at the residence of her sister, Mrs. Dr. Biddle, for several weeks, started for her home in Idaho this morning, much improved in health from her visit.

Prof. McAllister intends leaving for the upper McKenzie this week. He will join the Geo. A. Dorris party at the bridge and all will then go to the summit of the Cascades and make the ascent of one of the Three Sisters, the far famed snow peaks. McAllister will take instruments with him to determine the height of the peaks.

An Interesting Letter.

John Schneider, who worked for Fisher & Watkins several years, writes them from Germany under date of July 16:

"Yesterday the ball commence rolling. The police got after me here at home. I was at dance and some fellows asked the police why I could stay here so long in this country. He asked me if I was Schneider. I told him yes. He was going to take me along to jail to make a soldier. I told him not too fast for I was a citizen of the United States. He took my papers and told me to appear at the court house next morning at 9 o'clock. Next morning the ball commenced. The judge asked me how long I be in Germany. I told him and explained the whole thing. He shake hands with me and told me to go to some other place. Therefore I think to say good bye to Germany the 23rd July on the steamer Furst Bismark.

"The last of this week 1000 singers and 100 musicians are going to sing and play together here.

"After that is over I go to Hamburg for two days and then steam off for America, and Thank God if this fellow gets back it will be the last time."

Mr. Schneider's friends in Eugene are glad that he was not caught.

Cable From Queen Lil.

Dear Gresham;—One more boon I crave,
I trust in your affection,
'Tis not to murder Dole, the knave,
Or put down insurrection;
'Tis not my crown; but me to save,
I write in deep dejection,
And so a package I must have
Of Parks' Tea for my complexion.

GRESHAM'S ANSWER TO QUEEN LIL.

When I received your cablegram,
I thought I sure would faint
For though I often use Parks' Tea,
'Tis not for your complaint.
I feared that Mrs. G. would think
Wrong about our connection,
'Till on her dresser there I saw
Parks' Tea for her complexion.

On The Highway of Success.

The Dalles has a lad there that is on the highway to success, and if he keeps free from dangerous influences some day he will be known far and near. Great men have launched into life with similar conditions confronting them. The following was taken from an exchange of that city: "For some time past a small boy has carried on merchantile business, on a limited scale, in a building on Ninth street. His stock in trade consisted of ginger snaps, crackers and cigar boxes. These he sold for empty beer bottles which he retailed to the saloons. He says his average receipts were from $1.50 to $1.90 a day, and as he was at no expense for clerk hire considered himself in a fair way of accumulating a competence."

China pheasants, grouse, and our Oregon wood pheasant, the latter properly known as the ruffled grouse, are ripe today, the close season having expired. The young of these birds are delicacies, and the true sportsman will not indulge in wanton slaughter.

During these days items of news are very scarce, and aside from the usual channels, it is difficult to gather anything that would interest the public. "To point a moral or adorn a tale" is the criterion by which items are judged, and these cannot be gathered on every street corner during the summer.

Governor Pennoyer yesterday afternoon issued the following proclamation: "In accordance with the provisions of an act of the legislative assembly of the state of Oregon, passed at its 17th regular session, entitled, 'An act to protect timber and other property from fire' I do hereby make proclamation, calling the attention of the people of the state to its provisions and warning all people against violating the same."

DRAMATIC RUNAWAY.—Corvallis Times: Saturday afternoon J. C. Mohr's horse took fright and dashed down Main street with a buggy attached. Several weeks ago Mr. Mohr figured in a runaway in which his team was drowned, and he was laid up for three weeks for repairs to his damaged ribs. Forewarned by past experience, when his horse dashed off Saturday, Mr. Mohr did not follow. He simply struck an auctioneer's attitude and sang out: "How much am I offered for the rig?" A bystander shouted out, "$2.50." Mr. Mohr thundered back, "Sold." Meantime the horse continued his flight, and never hauled until the buggy was reduced to kindling wood. The bystander got the vehicle.

DISCHARGED.—Wm. McFarland was discharged after having an examination before Justice Wheeler this morning. The evidence showed that there was a contention as to who owned the property that was claimed to have been stolen. McFarland and Tibbets had been in partnership and bought some tools to out wood with and when the former left for eastern Oregon he took what he considered one half and properly his. Tibbetts claimed sole ownership. The case would only have been heard as a civil action if the officers had been fully informed before trial.

District Teachers Institute.

Daily Guard, August 2.

The teachers institute for the 2nd judicial district began at the Central school building in this city yesterday forenoon. It was opened by Superintendent Stevenson, of Lane county who made a few remarks to the teachers present, who numbered something over 100.

During the forenoon the following subjects were taken up. "Reading" by Prof. D. V. S. Reid, of Eugene; "Mental Arithmetic," by Prof. J. Burham, of Portland; "Language," by Prof. J. M. Williams, of Eugene. Half hour talks were devoted to each subject and after finishing his outline each speaker allowed an opportunity for the members of the institute to offer any questions which occurred to them in connection with the topic.

In the afternoon State Superintendent McElroy took charge of the institute and offered some pertinent suggestions.

Prof. J. Burnham discussed the subject of "Geography," and "Physiology" was afterwards taken up by Prof. Williams.

The session closed with a general discussion on the subject of corporal punishment, led by Prof. Moran, of Drain. Individual views were expressed by Professors. Cranston, of Minnesota, Van Schoy, of Drain, Burnham, of Portland and Mrs. Laing, Gibbs, Hunt and Miss Whitaker of Lane county.

Excellent music has been prepared for the institute, a large number of the members being good singers. Rev. W. B. Gilbert directs the singing and Walter Davis is pianist.

LAST EVENING.

The exercises in the evening were held at the M. E. church to accommodate the large number of visitors. The institute chorus began the program with a song which was followed by prayer offered by Rev. Gilbert. Miss Jeanavrie Fullerton recited a poem, and Mrs. Linn and Miss Sawyers rendered a very pretty duett.

The lecture for the occasion was delivered by President J. M. Bloss, of the State Agricultural college at Corvallis. His theme was, "Morals and Manners in the School." The doctor is an amusing as well as interesting talker, and last night's discourse was received with the usual good satisfaction. In the course of his talk he was careful to illustrate many points which must have impressed the teachers with the special importance of training the motives of children. They should be impressed with the truth, that the only real happiness of life comes from the assistance and kindness we are enabled to do for others. The spirit of patriotism must be aroused until it affects the whole life from the family, through the whole school, municipal and state governments until that feeling is made so much a part of life that the individual will deem it great success to be of some service in exalting his country or elevating the conditions of his fellow man."

The exercises closed with singing by the chorus, "The Star Spangled Banner."

FORENOON.

The session opened at 9 a. m., Supt. McElroy in charge. Prof. Moran, of Drain, opened the discussion on the subject of "Primary Geography." He argued that education consists not in leaving the pages of our text books, but applying study to practical life.

The central idea of geography—the phenomenon of earth suited to the habitation of man.

Do not teach new ideas to first year scholars but work upon his observations and imaginary powers. Labor to promote retentiveness of memory.

The comprehensive way to teach the subject of "Geography" is to treat the subject as a whole, as first year work.

Second year a repetition of the first including distance. Object of recitation to give or add new life to the child. Treat the subject under two heads, first, life as related to animals, and second, life as related to plants.

After a short recess and music by the institute chorus, the discussion upon subject of Arithmetic was opened by Prof. Burnham, who illustrated in a most practical way the special methods of teaching long division likewise the four fundamental arithmetical principles showing their prime relation to the equation.

Prof. Van Scoy, of Drain, was called upon to open the discussion of Grammar, and many phases of the subject were handled by members of the institute.

The question of "recess or no recess" was opened by Prof. Hunt, of Springfield, followed by Profs. Bloss, Burnham, Orton, Seid and Laing.

The institute voted to visit the University tomorrow P. M.

AFTERNOON.

Session opened with music by institute chorus. Superintendent McElroy announced Prof. Burnham as leader in discussion of Geography. The gentleman introduced some very practical ideas by means of blackboard illustrations and treated the subject in a logical manner. He exhibited remarkable skill in the intelligent presentation of the great circles of the earth.

Prof. Williams was called upon to introduce the subject of Physiology. Proper control of the muscles was the principal theme discussed, and quotations from several authors were brought to bear upon the subject of habit.

Hop Growers' Meeting.

Do not contract for your burlap and brimstone, hop sacks, etc., before you see,

F. E. DUNN.

I will have a FULL SUPPLY!

I expect two car loads of supplies here in a few days. Come in and see me. I can save you money; and owing to hard times, I expect to handle these goods at a very small commission. I need your trade.

Store your hops with us.

Respectfully,
F. E. DUNN.

Miss Maud Hollacok, of Egypt, visited at E. R. Parker's this week.

Mrs. Weaver, of Colorado, a niece of J. M. and W. B. Parker, is visiting relatives in this country.

A report has reached us that Alec Griffin has gone insane at his mother's on Fall creek. However we do not vouch the truth of the statement.

Elder J. F. Day preached in the grove at this place last Sunday.

Born, to the wife of Rufus Woods, July 26, a son. All doing well.

E. R. Parker attended the teachers' institute, at Eugene, last Friday and Saturday.

J. A. Briggs and Thomas Gossage made a grand fishing excursion on the river Monday. Don't hesitate to give credit to their large fish stories, as we were a faithful witness to all that transpired.

The new mill addition is nearing completion. It gives the mill an imposing appearance.

English Hop Market.

London, England, is the great hop market of the world, and many American hop raisers ship their product direct to commission houses there. A circular issued by Thomas & Short, Borough, London, informs us that there is no duty to be paid when shipping hops to England, and that English hop raisers are "kicking" hard for a protective tariff, but without effect. It costs about 3 cents a pound to land hops in London from the Pacific coast, and 5 cents a pound should cover all expenses and commissions of sale.

England raises 300,000 bales of hops annually and imports 110,000 bales.

To get top prices, growers should see that their hops are large, full-budded and whole. Hops are often unnecessarily broken up in curing and baling, which reduces their value.

Yellow or golden colored hops are preferred; they should be soft glossy, flaky and elastic.

Clean picking and thoroughly sound condition is insisted on by London buyers.
