

Eugene City Guard.

SATURDAY, AUGUST 18.

Congress should not adjourn at once.

What is said to bring a better price at Tacoma than in Portland. Why is this?

Eugene is the best city in the state, and has been less affected by the financial depression than any other place in Oregon.

An exchange says: Human nature is very exacting and hard to please. Hundreds and thousands of people complain about our dusty streets. But the ladies who grumble most about the dust, elevate their skirts when they come to cross a street which has been sprinkled, and pettishly exclaim: "Oh, dear, isn't this mud awful?" The same applies to the duke with the polished gaiters. He kicks about the "dreadful doctored dust, you know," and when the streets are moistened, he prelates about the "howrid mud, don't you see?"

Dalles Times-Mountaineer: The Clear Lake Ditch Company has about 160 men employed, and is pushing the work as rapidly as possible. There are three camps established along the line of the ditch. The first is about 20 miles from the timber, and the others are about five miles apart. It is the intention of the company to have the ditch completed in 60 days, when water will be turned into McGubben's gulch, which will give a natural canal to Juniper flat. With irrigation, this belt of land will be rendered fertile in the growth of grain, and will be one of the most desirable portions of Wasco county. For many years the settlers have earnestly desired some means of irrigation, and their wishes will be gratified in two months.

At last a tariff bill has been passed by congress. While it is not as radical a measure as the great body of democrats demanded, still it is a vast improvement over the McKinley bill. The producers of the country have at last been recognized and by active work and agitation they will, in time, compel the legislators of the country to further enact laws for their benefit. Under the Wilson bill the capitalists must pay taxes on the money which they have so rapidly accumulated during the past quarter of a century. We believe that the revival of business, which is already noticeable in the East since the passage of the bill, will continue to spread until it extends to every portion of the grandest country in the world.

The following from the Oregon City Express sounds rather fishy: A novelty in the cycling line which has been attracting considerable attention for the past week is a unicycle most ingeniously contrived to run along by its own momentum after it has been fairly set going by the usual pedalling method. A forward inclination of the rider's body keeps the wheel revolving, and it is said that it can be easily stopped by leaning backward. The same simple law of gravitation causes it to spin unerringly round any curve toward which the rider leans on either side. The machine has no steering gear and it is said to require none beyond the tendency given to its direction by the poise of the rider's body. The motion is generated as in a safety bicycle until the small inner wheels set the outer or travelling wheels spinning. It does the rest and covers so much ground at each revolution as would enable an average rider to compass a mile well under two minutes. The inventor thinks a record of half that time within the possibilities with an expert in the saddle, and he is at the present engaged on improvements which he claims will obtain universal recognition for the contrivance.

Representative McMillin, one of democratic house conferees, gave a statement somewhat in detail as to the effect of the tariff bill which was enacted as a result of Monday's action. He said: "The effect of the caucus action will be the passage of the house bill with the senate amendments. While the house bill is a better measure, in my judgment, than the senate, the measure which would become a law by today's action is a wonderful improvement on the McKinley law. It gives free wool, free lumber, free hemp, flax and jute, and reduces largely the duty on the manifold goods into which all these materials enter. To illustrate, the average duty on woollen goods in the McKinley bill is 98 1/2 per cent. This has been reduced more than half. There is also considerable reduction in all schedules, and the average on all will be about 38 per cent, as against 50 per cent under the present law. The right of the president to impose taxes without congress is taken away and given back to congress, to whom it belongs, and from which it was wrested by the McKinley law. Much has been said concerning the sugar duty. There is less benefit given to the manufacturer by this bill than by the McKinley law. It should not

be forgotten also that the system recommended by the house, known as the income tax, is retained in the bill and becomes a part of our fiscal policy. By this it is proposed to tax what people have in excess of their needs, rather than to tax what they need and have not."

Cottage Grove Items.

Aug. 16, 1894. Mr. Rhinehart and wife, of Eugene, were visiting at the Grove this week. Ed Hanson paid us a short business trip Tuesday. James Duval was arrested Monday for assault upon old Mr. Lovely and brought before Judge Medley in the justice court, when after trial he was released for lack of evidence.

J. B. McGee is in from the Annie mine. He looks pleasant and so would we if we could bring a sachel full of bolton with us when we come to town. J. H. Perkins is building a fine residence. Joe has some handsome property here and he believes in improvement to boot.

One of the elite events of the season occurred at the residence of Dr. Oglesby in this city yesterday morning when his only daughter Anna and Mr. Homer Millard, of Wisconsin, were united in holy matrimony. Rev. C. A. Woolley, of Eugene, performed the ceremony, and after the service of an excellent breakfast and presentation of numerous and handsome presents, a happy pair fled to the sea side, taking the morning local amid showers of rice, slippers, etc., where the sea breeze can fan their cheeks and cool their heated brows. May every blessing attend them.

FAIRMOUNT NOTES.

Aug. 15. No sensational reports afloat, hence tranquillity reigns supreme. The populace are "making hay while the sun shines," and in consequence are imbibing freely from the demijohn of prosperity.

Elder C. B. Davis has gone to Douglas county for a few days vacation. C. D. Holloway has secured a position in a Eugene blacksmith shop.

Washburn & Sons today sent up a bag of flour for our postoffice. It is rumored that a movement is on foot to establish a paper here at no late date. We suggest that it be named the Kicker, being the latest successor to the Flip-Flap.

The Mummy Bros. are wielding their muscular force in the Eugene saw mill.

A. J. Nickols is on the road, continuing his hauling freight from Corvallis. Miss Mattie Penion is plying her vociferous and reservation from Henderson station.

A. H. Biglow, formerly a merchant here but now of Row River, was down on business Tuesday.

The friends of Ebenezer Piekeler are strongly urging him to forsake his pedagogical duties and enter the field of journalism.

Since our last report we see Judge Eaves has evinced his enterprise by beautifying his Coxy avenue residence with a dark brown coat of paint.

Ned Dumky has returned from a six weeks' tour through Douglas county, and his smiling face is visible by moonlight near the "Johnny jump up" swing these fine evenings.

Some of our young people attended a private musical recital given by Mrs. Vina Lemley in Eugene Tuesday evening, and are loud in their praise of the evening's amusement, especially the clear and harmonious vocal expressions.

Harr Bros. report a slight increase in their factory work, which is another hopeful indication of the dawn of better times.

ZACHETS.

Unity Items.

August 14. Items scarce in this neck of the woods. Quite a number of hunters up Windberry and Fall creek. The same simple law of gravitation causes it to spin unerringly round any curve toward which the rider leans on either side.

Uncle Jesse Cox and wife of Goshen, visited with their son, J. W. Cox, over Sunday. Born—August—, to Mr. and Mrs. S. Smith, a girl. And still the population of Egypt continues to increase.

Mr. Kuintaley and family of Springfield, visited with Mr. and Mrs. Samuel Rhineyault, last Saturday and Sunday. Frank Blanton is visiting at J. W. Cox's home. COR.

SIGNS BETTER.

The Albany Democrat sensibly says: The signs are better than since the recent depression, of a returning prosperity generally. Already there is being a live impetus given to affairs. The tariff has been settled and the public knows what to depend on. Let every individual push forward and the cry of hard times will no longer be heard.

Business Reviving Already.

PITTSBURG, Aug. 14.—The passage of the tariff bill has already made itself felt here by a marked revival of business. Stocks in all lines of manufacturers have been reduced to a minimum, especially iron, steel and glass. Today large orders were received by local manufacturers and more are expected. It is asserted a slight reduction in wages will be necessary in the case of glassworkers, tin-plate men and workers in some branches of the iron and steel trade, but the scales generally allow for reductions to fit the tariff changes.

Soldiers' Reunion.

MEDIANA, Or., Aug. 13, 1894. All the arrangements are completed for the soldiers' reunion here on the 23d, 24th and 25th insts. The speakers will be present to respond as per published program. At 2 p. m. on the 23d, after the bugles call for the assembly, all will be invited to join in singing "Holly Around the Flag," after which an address of welcome will be delivered with the following responses: On behalf of the comrades, Department Commander S. B. Ormsby; of the citizens, Prof. Wm. L. Cummings. In the evening a campfire will be held by Sedgewick post No. 10, of Salem. They will make it a grand and enjoyable affair. Each day following the program will be announced from time to time as occasion may require. The O. P. R. R. has reduced its rates to one and one-half fare for the round trip.

J. R. BAKER, Chairman of Committee.

There will be no Veto Either. WASHINGTON, Aug. 14.—As the house of representatives adjourned until Wednesday, the tariff bill cannot be sent to the White House tomorrow. It will be enrolled and carefully compared today, and tomorrow will receive the signatures of Speaker Crisp and Vice-President Stevenson. Great pressure will be brought to bear on the president to induce him to sign the bill, but the statement made by the Associated Press yesterday, that it is his intention to let the bill become a law without his signature, can be reiterated today. A member of the cabinet said today, if the president should conclude to affix his signature to the bill it would be accompanied by a statement of his reasons.

COMPARISON OF RATES.

WASHINGTON, Aug. 14.—The following is a statement of the average ad valorem rates of duty of the McKinley law and the senate bill, with the percentage of reduction made by the senate bill on the underrated articles:

Table with columns: ARTICLE, MCK., SEN. Items include Camphor refined, Epsom salts, Castor oil, Cold liver oil, Opium for smoking, etc.

Table with columns: ARTICLE, MCK., SEN. Items include White lead, Strypchian, Sulphur, sublimed, China, painted, etc., Plain Bottles, empty, Demijohns, empty, Manufacture of glass, etc.

EFFECTS OF PASSAGE.

NEW YORK, Aug. 14.—Operators in the stock exchange enjoyed the liveliest day they have had in a long time. Blocks of thousands of shares changed hands rapidly amid much excitement. Prices moved up and down so smartly the brokers had difficulty in executing orders given "at limit." All this was the direct result of the passage of the tariff bill. Foreigners have already taken hold with a will, and to their purchases is already attributable the weakness of sterling exchange. The chief attractions were sugar and distilling dealings, both of which were on a scale of unusual magnitude. Sugar opened at 109 1/2 (109), against 109 yesterday, dropped to 107 1/2, rallied to 108 1/2, reacted to 107 1/2 and recovered to 108. At the consolidated exchange the crowd was so great it was almost impossible to get through. At the opening prices began to go up and they kept going. The sugar people, it is said, are greatly elated over the passage of the bill.

A Rich Widow Dead.

PHILADELPHIA, Aug. 13.—Mrs. Mary Shirk, widow of E. J. Shirk, the millionaire banker, died of a complication of diseases in this city last night, aged 68. Her fortune was estimated at from \$4,000,000 to \$5,000,000.

The Gentle Rain From Heaven

OMAHA, Aug. 13.—Heavy rains are falling in all parts of the state, extending many miles into Iowa. In many instances they were very heavy. The crop situation is much improved.

A SEDENTARY OCCUPATION.

plenty of sitting down and not much exercise, ought to buy Dr. Pierce's Pleasant Pellets to go with it. They absolutely and permanently cure Constipation. One tiny, sugar-coated Pellet is a correctiv, a regulator, a gentle laxative. They're the smallest, the easiest to take, and the most natural remedy—no reaction afterward. Sick Headache, Bilious Headache, Indigestion, Bilious Attacks, and all stomach and bowel derangements are prevented, relieved and cured.

Dr. Price's Cream Baking Powder. World's Fair Highest Medal and Diploma.

What's the Matter

With Our Harvesting Shoes

THEY'RE ALL RIGHT!

\$1.00. \$1.25. \$1.50.

YORAN & SON. NO. 181.

The Oakland Murder.

ROSELAND, Or., Aug. 14.—Prosecuting Attorney Brown and Coroner Miller went to Oakland this morning to hold an inquest on the remains of Alfred Kinnick, who was shot and killed by G. S. Brown yesterday afternoon. After hearing the testimony in the case, the coroner's jury returned a verdict charging Brown with murder in the first degree. The witnesses for the prosecution are among the most prominent men of Douglas county. Kinnick was a young man, universally liked. Miss Mattison was arrested last night as an accomplice of Brown's. After having an examination today before Justice Bovington, she was dismissed by the prosecution, as no evidence was brought against her. G. S. Brown's father arrived on tonight's stage from Coos county.

Day & Henderson, Undertakers and Embalmers. Cor Will, and 7th sts.

F. L. DUMONT, Merchant Tailor, NINTH STREET, EUGENE, OREGON. CARRIES A LARGE STOCK OF SUITINGS. Does Cleaning, Dyeing and Repairing.
