The Lawn Social.

The lawn social given at the elegant appointed grounds of the Shelton residence, under the auspices of the Y. P. S. C. E. of the First Christian church, last Saturday evening was, indeed, a brilliant event. The lawn was lighted by Chinese lanterns hung about the grounds so as to produce a beautiful effect. The appearance of the place when seen from the street below was inviting and the three hundred or more who attended seemed to enjoy the occasion and surroundings immensely. The Eugene Band was in attendance and during the evening the guests were favored with a number of its most popular selections. The refreshments consisted of ice cream, and cakes and watermelons. Mr. and Mrs. McMurphy had every arrangement attended to about the place which would add to the comfort and pleasure of the occasion. For the Y. P. S. C. E. the social was a success financially and for their guests the affair was most enjoyable.

Returning to Primitive Methods.

Dallas Itemizer: Marshal Saver, a well-to-do farmer of the Soap Creek country in the southern part of Polk county, has gone back to the harvesting methods of the early '30s. He has built a corral in his forty-six acre wheat field and with the help of a hired man and a lot of cattle and horses is tramping out the grain. After getting through with this primitive method of threshing, he will make a grand clean up with an old-fashioned fanning mill. Mr. Saver expects to make a saving of some \$50 or \$60 by this method of harvesting. He estimates that it will take him about fifty days to get the grain ready for market. Many of Mr. Saver's neighbors are watching his experiment with a good deal of curiosity. Mr. Saver is a native son of Polk county and is noted for his economical habits, sturdy industry and fair dealing with all men. He is a man of means, owns 400 acres of land, and as a good farming hand as can be found anywhere in the Willamette valley.

Prineville News: A stranded widow with two children was discovered camped alongside the school house in the suburbs of Prineville last Sunday morning, almost entirely without food in a poorly clad, horses poor and old shakely wagon ready to fall down. She was on her way to Linkville, Klamath county, but had travelled as far as possible without help. Her case, haggard and careworn, a stranger in a strange land, was one that appealed to the sympathies of the citizens of this place in such a manner that through the efforts of Mrs. Holbert her father was immediately replenished with a good supply of provisions, clothes for herself and children procured, wagon overhauled, horses fed, and one troubled soul was made glad by being put upon her journey Tuesday morning with a pocket full of silver.

Killed by a Train.

MADERA, Cal., Aug. 27.—E. S. Kirkland, candidate for republican nomination for justice of the peace, was run over and killed by a train last night. The body, horribly mutilated, was discovered this morning in a ditch 200 feet from the depot. Deceased formerly lived at Kingsburg, and leaves a wife and five children in straitened circumstances.

Two Old Men Dead.

SACRAMENTO, Aug. 27.—Last evening a man named Miller, who had been employed on Flint's ranch near Yuba as a hop picker, was found dead in a back street of the town of Washington. He was an old soldier, and 90 years of age or more. The cause of death is unknown. An old sawdler named William H. Beckwith, who has been paralyzed for many years in his lower limbs, was found this afternoon in his cabin lying on his face on the floor and in a dying condition. While being taken to the county hospital he died.

Murder Shot by a Woman.

LOS ANGELES, Cal., Aug. 27.—Annie Cull, a servant employed in the family of Frank Leese, and the month since Mrs. Leese, late last night shot and mortally wounded a man she caught climbing into the house through a window on the ground floor. The man proved to be Joseph Scoma, who had frequently done odd jobs about Leese's premises. The man's feet were muffled and in his pocket was found half a pint of chloroform and a sponge.

MARRIED.—In Butte City, Montana, Aug. 22, 1894, Mr. W. T. Morgan and Miss Anna Agatha Licht. Mr. and Mrs. Morgan are visiting at the home of his mother, on Olive street, in this city.

MARRIED.—In Spencer precinct, Lane county, Oregon, August 14, 1894, by Elder John A. Jones, F. M. Horn and Nellie E. Inman, all of Lane county, Oregon.

A Goldsmith did not go to Yaquina bay.

FEVER ON FIRE.—Yesterday afternoon the fence in front of Wils Owens residence was discovered on fire for a distance of about 40 feet and it was blazing in great style. It was extinguished by Henry Day and Alex Cook. It is supposed the fire originated by some careless person throwing down a lighted cigar or cigarette. Everything is as dry as tinder and great care should be exercised about fires now.

MONDAY, AUGUST 27.

Monday's Salem Journal: Mr. and Mrs. S. A. Anterson, of Woodburn,

passed through Salem today enroute for Eugene. They have recently sustained a severe loss in the death of their 7-year-old son, Robbie, which many old Salem friends will learn with deepest sorrow.

James F. Amis returned last evening from a business trip to Prineville leaving the bridge yesterday morning. He reports that business is very quiet in the capital of Crook county. There are numerous in the Cascade mountains, he says, and much valuable timber will be destroyed. At the McKenzie bridge, last Saturday, the thermometer registered 100 degrees in the shade.

Those Homesteads.

Mr. Parke, government inspector, returned this afternoon from the front, where he has been inspecting homestead property. It has been claimed that a good deal of the homesteads are not homesteads at all; but have been taken up by men in Salem, Albany and other places in order to evade payment for the property as timber land.

What Mr. Parke will report is not known for certain; but it is said he does not consider much of the homestead property agricultural land at all. The opinion is that the government will be in favor of permitting those who legally homestead their property to retain it; and to cut those who took the property up without any idea of using it as a residence, but for speculation. The matter of the report will be watched with interest.

The Bohemia Mines.

Roseburg Plaindealer: The miners and prospectors now in the Bohemia district are enthusiastic in the belief that Bohemia is to be the camp par excellence of the coast. Good prospects are being discovered almost daily and the claims now being developed are growing better and show no signs of petering out. Two 5-stamp mills are running day and night at Bohemia and one 6-stamp mill on Martin creek, four or five miles distant. More mills are needed, and it is probable that several will be added in the near future. It is believed that if the custom mills were established there would be no trouble in supplying them with plenty of good ore. Several fine specimens of rock have recently made their appearance at Oakland and Drain, both from mines now being worked and from prospects. A genuine mining boom is predicted for next season. The principal drawback to mining in Bohemia is the want of roads over which to haul the necessary machinery, and extensive operations are therefore almost impossible under present conditions. From Eugene to Oakland the cry goes up: "My Kingdom for a road!" Not a newly-made trail, but a good broad highway over which wagons laden with grub and machinery can be hauled. Efforts are being made all along the line to get a road into the mines, and the first one will reap a harvest.

Jackson County Raised Warrant.

Roseburg Plaindealer: The Medford correspondent of the Oregonian in speaking of the \$195,500 raised by Jackson county warrant stated that the treasurer's book showed that the warrant had been received for by Charles Nickell, and many people jumped at the conclusion that Nickell must have had a hand in the affair. Nickell, however, refutes this by showing that he received only \$2,500, the amount the warrant was drawn for. No new developments have been made known. Commissioner Bradshaw at the next meeting of the county court will try some means of having ex-County Treasurer R. H. Moore, who is now living in Portland, brought back and give a full explanation as well as refund to the county the amount raised and interest. It is reported that the matter will also be brought before the September grand jury with considerable vigor.

Probate Matters.

Estate of Nathaniel Gilmore, deceased; appraisers filed their report which showed personal property to the amount of \$398.25 and real property to the value of \$5,370.46.

Estate of R. E. Jones, deceased; H. C. Perkins files his first report, showing receipts of \$578.75, and disbursements of \$378.75.

A LONG MANED HORSE.—Statesman: W. A. Rutherford, of Oregon Beauty stock, writes to the state fair managers concerning the matter of exhibiting one of the celebrated horses at the coming fair. He says: "I have a very fine horse and he has longer hair at the age (about 4 years) than the old horse. He is a pretty specimen of horse flesh but I could not show him out of doors as his tail lies on the ground about two and one-half feet." The name of this horse reaches almost to the top of the yard up the McKenzie. The Wm. Neis yard, near Springfield, he thinks the model one in Oregon. He offers an advance of five cents per pound when the product is in the bale.

ADVANCE OFFERED.—Ed. Herrin was here over yesterday looking over the hop fields. He reports considerably more in some of the yards up the McKenzie. The Wm. Neis yard, near Springfield, he thinks the model one in Oregon. He offers an advance of five cents per pound when the product is in the bale.

LIBERATED.—George Park's sentence was commuted by Mayor Friendly this morning and he was liberated from custody, upon the agreement that he go into the country and help harvest a hop crop. He had 15 days yet to serve.

FIRE AT WALTERVILLE.—The residence of Frank Ashley, a bachelor living in the river bottom near Walterville, was destroyed by fire Saturday. All the contents were burned and the loss will amount to probably \$150. The origin of the fire is considered beyond a doubt to be incendiary.

LOGS DELIVERED.—The four million feet of logs, cut on the upper McKenzie river, were delivered to J. C. Gosnell at the Coburg saw mill yesterday. These logs are very fine, and are probably one of the largest drives ever made in Oregon.

HOP BOX.—The legal size of a hop box is 36 inches long by 18 inches wide, by 30 inches deep; all measurements inside. The box shall contain 19,440 cubic inches.
