

CASTORIA

for Infants and Children.

"Castoria is well adapted to children that I recommend it as superior to any prescription known to me." H. A. Ancker, M. D., 111 So. Oxford St., Brooklyn, N. Y.

"The use of 'Castoria' is an universal and its merits so well known that it seems a work of supererogation to endorse it. Few are the intelligent families who do not keep Castoria within easy reach." CAROL MARTIN, D. D., New York City.

Castoria cures Colic, Constipation, Sour Stomach, Diarrhoea, Eructation, Kinds Worms, gives sleep, and promotes all kinds of health.

"For several years I have recommended your 'Castoria,' and shall always continue to do so as it has invariably produced beneficial results." EDWARD F. PARKER, M. D., 128th Street and 11th Ave., New York City.

The Castoria Company, 77 Murray Street, New York City.

A WALKER—Corvallis Informer: Corvallis has a young lady 16 years of age who for a walker, is hard to beat. One hot day last week, she walked into town from her country home, a distance of twelve miles, in three hours, and after a two hours rest, made the return trip in the same time—a twenty-four miles in six hours. Beat it if you can.

ARRIVED AT ROSBURG—Monday's Roseburg Review: A man traveling with his worldly goods in a push cart is in town today, soliciting aid from our people. His little girl rides in the cart and a small boy walks. The outfit came from Silverton, Oregon, and is bound for Missouri.

Personal.

Daily Guard, September 3.
J. D. Matlock visited Roseburg yesterday.

J. P. Sherman, formerly of California, has moved to Eugene.

E. H. Jugham and family have returned from a trip up the McKenzie.

W. H. Abrams went to Newport this morning on a short business trip.

Miss Carrie Friendly arrived home today from a visit at Corvallis and Salem.

Chas. VanFranklin, B. S. Hyland and T. A. Millhorn, of Junction, are in Eugene.

G. Bettman is nursing a sore hand with symptoms of blood poisoning, the result of a cut.

Rev. A. W. Lucas and wife, of New York, paid Rev. H. T. Gilt a short visit here yesterday.

A. M. Osburn and family, with the exception of his wife, are sick at their new Troutdale home.

Miss Maggie Croser returned home yesterday from a three month's visit on the upper McKenzie.

J. J. Walton, Jr., left this morning for Chattanooga, Tenn., to attend the I. O. O. F. sovereign lodge.

Thos. Mulkey, who recently went to Snowdon Springs for his health, is reported as growing worse.

Robert Marsh left today for Philadelphia. He will enter the medical department of the Pennsylvania university.

Mrs. Sam Goldsmith and children, who have been visiting relatives here several days, returned home to Portland this morning.

Miss Alva Richardson, of Pleasant Hill, who has been on an extended visit to Walla Walla, Wash., returned home this afternoon.

Geo. E. Evans and family, late of Harney City, Neb., have located in Eugene. He was formerly county attorney at that place.

A. P. Osteruder, J. B. Foster, and Masters W. H. Foster and Wallace Henderson, came down from Belknap Springs this afternoon.

Hon. S. W. Condon and Herbert Condon will soon go to California to look up a location for the practice of the profession of the law.

Miss A. E. Burke and little wards of Oakland, Cal., who have been spending several weeks at Belknap Springs came down on today's stage.

It is rumored that Miss Nellie Applegate, formerly the Postal Telegraph Co.'s operator here will soon be married to Mr. Pence, the railroad agent at Drain.

A. C. Barbour, of Siuslaw, has returned to his home on the Siuslaw from Klamath Falls. His daughters, Eva and Rosa will attend school here this winter.

W. H. Pugh and A. Gray, returned from the Foley springs last evening, leaving for their home this morning. They killed a deer or two and caught a great number of trout.

E. F. McClure, who has been spending his summer with his folks at their fruit farm formerly known as the Sladen fruit place, left for Minneapolis this morning to spend the winter.

Mack Summerville left on this morning's train for Huntington, Oregon, where he will deliver a drove of cattle from his Grand county ranch to Eastern purchasers on the 13th. He will come back by horseback.

Receipts of County Officers.
During the month of August the receipts under the new system were as follows:
Clerk, \$301.25; recorder, \$30.30; sheriff, \$24.38.
Total, \$355.93.
In Linn county the receipts were:
Clerk, \$129.90; recorder, \$30.30; sheriff, \$24.38.

ELDER NELSON SKIPPED—Corvallis Times: "John Henry," writes from Alsea: "J. M. Nelson has shaken the dust of Alsea from his feet. It is said every dog has his day. Nelson had his day in this ballgame, so he took his departure at night. Whether he chose the silent hour of midnight to leave the mountains for the sake of cooler traveling, or whether he feared some one he had defrauded would give him trouble, or because he could not bear to shake hands with the brethren of the church and tell them he could serve them no longer as elder, is a question of vague uncertainty."

The announcement that Miss Pollard is going on the stage leads a paper to remark that she has as much right to become an actress as Breckinridge has to become a congressman. Yes, just as much.

Twenty-four carat gold is all gold, twenty-two carat gold has twenty-two parts of gold, one of silver and one of copper, eighteen carat gold has eighteen parts of pure gold and three parts each of silver and copper in its composition. Twelve carat gold is half gold, the remainder being made up of four and one-half parts of silver and seven and one-half parts of copper.

Science says now that beauty is not skin deep. She can tell you that half the charm of a pretty face—at least the expression—is a matter of little muscles and a complex labyrinth of nerves, and that the curves of the lips, the glance of the eyes, the drop of the lids are a matter of the prevalent use of certain small muscles in obedience to a prevalent aspect of the mind. Moreover, that the use of the organs of expression has come down along ancestral lines, and that the mould of the features themselves is a question of heredity.

Congressman Breckinridge is not yet re-nominated, as some suppose. A Lexington dispatch says: The primaries, which will decide the result in the Ashland district, will be held Saturday, September 15. For the closing two weeks, Colonel Breckinridge will rally his supporters, and his campaign committee announces meetings day and night for every remaining day, all over the district. Breckinridge is speaking night and day. He will speak here for the third time in this contest Wednesday night. The Owens and Settle campaign committees also announce lists of speakers, among them being many prominent speakers.

Died.

Daily Guard, September 3.
Joseph S. Smith, father of C. M. Smith, who resides on West Fifth street, died this afternoon of peritonitis. Deceased was 78 years of age and was born in New Hampshire. He came to Oregon several years ago and has since resided with his son. The remains will be embalmed by J. E. Wright, undertaker, and shipped, Friday morning to Rockford, Iowa.

THE CANNERY.—The directors of the Eugene cannery held a meeting this week and discussed the matter of drawing warrants on the general fund to pay the old offer to pay one-half a cent per pound for green prunes, or dry them for two cents per pound, or give the following amounts of dried prunes for each 100 lbs of green ones: 14 pounds of Italians, 16 lbs of Silver or 1 lb of French Apples will be dried on the shares. A number of growers will pay for the drying. The crop of prunes is about the same as last year. The cannery will can tomatoes and pears if they can be obtained at reasonable prices. Any further information will be given upon application to J. H. McClure.

OREGON STATE PRISON.—Salem Journal: The window frames of the new addition to the state prison building are in place, towering above the wall, and give an idea of the dimensions the structure will assume when finished. There were 320 convicts in the penitentiary at noon today. One year ago, on September 1, 1893, the number was 346; so that, despite the cry of hard times and consequent increase of crimes against property, which are rife in every state east of the mountains, Oregon has enjoyed so fair a condition of property, and continues such law abiding communities, that the closing of our era of panic leaves her with fewer criminals under duress than there were at the beginning. It is not likely any other state in the Union can make the same showing.

A NEW VARIETY.—Corvallis Gazette: A new sort of barley has been propagated in North Dakota that promises to fill a long felt want. In that state the average yield has been from 30 to 40 bushels per acre. It is both seedless and is without a hull, which results have been obtained after years of scientific experiments in cross fertilization. A sample of this new variety was grown at the experiment station here during the present season and Prof. French hopes to have generally introduced throughout the state in the past few weeks. It contains more nearly the composition of corn than any other grain grown, its introduction into this state will be a boon to Oregon farmers.

A SUMMER HOTEL.—Newport correspondence to the Oregonian: During the past week this place has been visited by a party of San Francisco capitalists, who are negotiating for a site on which to erect a first class summer hotel. It is to cost not less than \$50,000, and it is their intention to have it completed in time for next season. It will be furnished with all modern conveniences, and will be supplied with a variety of amusements calculated to assist summer visitors to pass the days in an agreeable and refreshing manner. If this project is carried out in the manner and style contemplated, it will enable Newport to hold the possession of the new summer hotel on the northwest coast.

COSTS AND PROFITS OF RAILROADS.

S. F. Star: It has been asserted by those who, while not railroad officials or employes, are in a position to know, that the following facts exist.

Railroad mileage of the United States about 175,000.

Bond and stock debt about \$11,000,000,000.

Alleged cost about \$9,375,314,000.

Actual cost, based on actual figures, from 97 roads, \$2,528,330,000.

Public gifts to railroads in lands, bonds and interest on same, computed by savings banks rules, \$2,505,890,944.

Balance, actual investments in railroads as a whole, provided the directors have not begged the whole, \$22,431,050.

Average net earnings per mile of road, after paying big salaries and the use of such convincing arguments as may have been needed or available on legislative, judicial or executive officials, about \$2000.

Total for the United States, \$350,000,000.

MORE OF THE FARCE.

Yesterday's Salem Independent has the following account of the latest act in the railroad commission farce:

"The railroad commission held a meeting at the state house yesterday. Besides transacting routine business the Sumpter valley railroad, running from Baker City to McEwenville, was compelled to discuss the abuse of overcharge.

The wheat tariff question on the O. R. & N., that has been pending investigation for a year, was also adopted. It makes a considerable reduction in freights from Pendleton to Union.

The commission finished the examination of the reports of the various railroads today, excepting a few that prayed for 30 days more time, as they had been delayed by the recent floods. Those that were finished will go into the hands of the state printer and the few remaining will be examined at the next session of the board. The members of the board took the 1:40 local today for Portland.

Grand Ronde fruitgrowers are shipping large quantities of fruit to Denver and other Eastern points.

OUT OF THE FRYING PAN
Has come not a little knowledge as to cookery—what to do, as well as what not to do. Thus we have learned to use **COTTOLENE**, the most pure and perfect and popular cooking material for all frying and shortening purposes. **PROGRESSIVE COOKING** is the natural outcome of the age, and it teaches us not to use lard, but rather the new shortening, **COTTOLENE**, which is far cleaner, and more digestible than any lard can be. The success of Cottolene has called out worthless imitations under similar names. Look out for these! Ask your Grocer for COTTOLENE, and be sure that you get it.

A RETIRED BUSINESS WOMAN
A Page From Her History.
The important experiences of one of our interesting. The following is an exception. "I had been troubled with heart disease for years, much of that time very serious. For five years I was treated by one physician continuously. I was in business, but could not retire on account of my health. A physician told my friends that I could not live a month. My feet and limbs were badly swollen, and I was indeed in a serious condition when a physician directed my attention to Dr. Miles' New Heart Cure, and in less than an hour after taking the first dose I could move my ankles, something I had not done for months, and my limbs had been swollen so long that they seemed almost putrid. Before I had taken one bottle of the New Heart Cure the swelling had all gone down, and I was so much better that I did my own work. On my recommendation six others are making the valuable remedy.
